Although not one of the first railways to issue stamps, the L. and S. W. has done so for over 40 years, and the total number of main varieties issued during that period only amounts to 17, a much more respectable record than can be produced by most Non-European Countries, and, I regret to say, many British Colonies, which make and cancel-to-order more than that number, annually, for the benefit of stamp collectors. This railway is remarkable for having produced two of the rarest known stamps, to wit, the pink shilling of the first issue and the 3d., without controls of the third. Of the latter variety, only one specimen is at present known to exist, though this need not matter to the general collector, as, with controls, it is a common stamp. The issues of this line abound in minor varieties of type, shade, and perforation, but, although I must give a lengthy list to make a complete specialist list, I would once more advise the ordinary collector to content himself with the main varieties of these, and other, railway stamps. The general collection is a pleasure, as well as an easily realizable investment. The specialized collection is a task which only a keen philatelist can profitably approach.

THE FISCAL PHILATELIC SOCIETY.

MEETING held July 2nd, 1903, present Mr. Schwabacher (chair), Messrs. Cooper, Fulcher, Marsh, South, Thompson, Thomson, and Kay.

Mr. E. J. Tomé (Buenos Ayres) was duly elected a member.

The resignation of the Continental Secretaryship by M. Verzyl, on account of ill-health, was accepted with much regret. The continental Exchange will necessarily be suspended until a successor is appointed. Applications for the post are invited, and should be addressed to the Hon. Secretary.

Notes on Indian fiscals were received from Messrs. Corfield and Crofton, and Mr. Marsh showed two types of overprint to the 1/- King's head "Registration of Title—Ireland."

The fiscals of Uganda, Victoria, West Australia, Zanzibar and Zululand were discussed and catalogued, thus bringing the task of cataloguing the British Colonial fiscals to an end. It is hoped to have the priced and illustrated catalogue issued by the end of the year. Any additions or corrections to the MS. lists should be sent in as soon as possible.

Received for library—

"El Filatelico Espanol"—June and July, 1903 (T. Remoli).

"Filatelia"—March, 1903 (Tomé and Malaguzzi).

"Revista de la S. F. Argentina"—May, 1903 (R. Rosauer).

The Annual General Meeting will be held on October 1st next, and due notice of same will be given.

The Home Exchange packet will be circulated as usual, and members are particularly requested to inform the Secretary of change of address or absence from home, to save delays.

Any interested in fiscal stamps should apply for Rules and particulars to the

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Jersey Fiscals.

BY D. THOMSON.

ON looking through the Catalogues of Revenue stamps for Great Britain and its Colonies, it occurred to me as being rather strange, that although there were special stamps for Scotland, Ireland, and the Isle of Man there appeared to be none for Jersey. I thereupon made enquiries in London of a firm doing legal business with Jersey and I had shown to me a Power of Attorney engrossed in French on parchment and executed in November last. A duty had been paid upon it in Jersey of 7/6, which was represented by two adhesive stamps of 2/6 and 5/- respectively and which I will describe later on. This put me on a different tack and I am indebted to a correspondent in Jersey for the following information, which he obtained officially.

A "Règlement" has been passed by "Les Etats" of Jersey and is dated 10th April, 1900, which is reproduced in detail at the end of this article, from which the purposes for which the stamps are used and the "Tarif" or fees payable may be learnt. The stamps were to have come into use on the 1st May, 1900, but not being ready a provisional issue of the values 1/- and 2/6 were made by a local printer. These were of primitive design, as will be seen by the illustration (Fig. 1), consisting merely of the words "Etats de Jersey—2/6—Trésorier" printed in violet ink on white wove paper and perf. 12. A space was left for the initials of the "Trésorier" and is filled in with his initials "H.N.G." in black ink in MS. These provisionals were in use about 6 weeks and of course are rare. I cannot ascertain how many provisionals were issued. The permanent issue provided for use consists of seven values and are nicely engraved by Messrs. Wyon & Co. The designs of the four lowest values are illustrated herewith (Figs 2-5). The £1 and £2 stamps are larger in size than the other values. They are printed on thin white wove paper and perf. 14½.

Fig. 1

Fig. 2

Fig. 3

Fig. 5

1/-, lake. Jersey Cow.
2/-, dark green. Victoria College.
2/6, purple. Mount Orgeuil Castle.
5/-, black. Arms of Jersey.
10/-, blue. Harbour.

£2, grey. Corbière Light House.

The stamps are certainly interesting and a full set would no doubt be a good addition to one's collection, but it will be probably some years before the high values at any rate become common, if at all.

I append the " Règlement " referred to above.

Règlement déterminant le mode de perception des Honoraires attachés à la charge du Bailli.

Aux Etats de l'Ile de Jersey.

L'An 1900, le 10e jour d'Avril.

VU l'Article 3 de la Loi touchant la rétribution de la charge du Bailli par traitement fixe, passée par les Etats le 19e jour de Décembre 1898 et confirmée par Ordre de Sa Très Excellente Majesté en Conseil en date de l'an 1899, le 7e jour de Mars, qui confère aux Etats le pouvoir d'établir, rappeler ou modifier, de temps à autre, des Règlements permanents pour déterminer le mode de perception des Honoraires attachés à la dite charge, et pour en régler le tarif ;

LES ETATS ont adopté le Règlement suivant et ont réglé le tarif qui sera et demeurera substitué á celui contenu dans l'Ordre de Sa Majesté en Conseil en date du 19e jour de Mai 1885, touchant les dits honoraires.

ARTICLE 1.

Tous honoraires attachés à la charge du Bailli s' acquitteront dorénavant au moyen de timbres adhésifs de la valeur de'Un chelin—Deux chelins six pennys—Cinq chelins—et Dix chelins—respectivement, et de telle autre valeur qui sera trouvée utile par le Comité de Finances.

ARTICLE 2.

Ces timbres seront émis par le Trésorier des Etats, sous la direction et le contrôle du Comité des Finances, et seront apposés à tout document y assujetti avant présentation ou délivrance, selon le cas, d'après le Tarif ci-dessous.

ARTICLE 3.

Tout timbre mis en usage sera annulé et oblitéré à la diligence du fonctionnaire préposé à la réception ou à la délivrance du document.

ARTICLE 4.

Dans le cas où un document timbré ne serait pas utilisé, l'ayant droit pourra se faire rembourser par le Trésorier des Etats contre livraison du document la valeur du ou des timbres y apposés. Néanmoins, en ce qui concerne le Billetier, il ne pourra recouvrer que la somme de Trois chelins par billet cassé, quelle que soit la valeur du ou des timbres y apposés.

ARTICLE 5.

Quiconque contrefera un timbre émis en vertu du présent Réglement ou fera sciemment usage d'un timbre contrefait, sera passible des peines du faux.

The Newspaper Tax Stamps of Great Britain.

BY WALTER MORLEY.

(*Continued from page 58.*)

IT will be seen from type 59a to 59g, illustrated last month that the crown and cross is at various distances from the band containing word "FOUR". There are several varieties of crosses at top of the crown varying from very small to large, and some of these have a stop at left or right (or both) of the cross. The pearls round the crown are solid on some and open on others, and one copy appears to have a lion surmounting the crown. Owing to many of the copies being heavily and roughly printed it requires an immense number of copies to select representative types from, but I am of opinion that this type consists of two plates (50 dies).

TYPE 60.

1832.

Type 60

4d., red. With die letter A and numbers 1 to 102 in the space between crown and the band containing word "FOUR" and words "Discount £20 per cent" at sides. This type is similar to the Type 59, but the dies are more uniform and the cross at top of crown is small on all the dies. I have seen copies of all the dies A1 to A102 with exception of numbers 3, 33, 49, 54, 58, 62, 81, 83, 86, 87, 88, 93, 94, 95, 96, 97, 99, 100. Others may exist over 102 and it is not known if the number of dies to a plate is still the same on this series.

TYPE 61.

Type 61.

4d., red. Dies lettered B and numbers 1 to 11 and "Discount £4 per cent." at sides.

This is rather a scarce variety (rate of discount altered) and I have only seen the following dies—B3, B4, B5, B6, and B11.

TYPE 62.

4d., red. Small size, without die numbers, and without discount at sides. There is probably a plate of this stamp of which each die would vary, as somewhat similar distinctive marks are to be found as on type 59. Apparently

Type 62

a different method of printing the stamps comes in use with this series, the impression shewing the embossing of the stamping at back, and I have a pair in which one is impressed in "albino", a distance of 32 mms. apart (probably the impression of the next paper being stamped having impressed through).

This concludes the lists of all the values, prior to the reduction of the duty to 1d. in September 1836. From that time all papers stamped were required to have the name of the paper inserted and stamped as part of the die. I have been considerably assisted in my study of this series, by the kindness of Mr. Fulcher in copying records of registration of the dies and names of papers stamped, during the course of his searching the records and examining proof sheets of British revenue stamps at Somerset House by permission of the Board of Inland Revenue.

Type 63.

1d., red. September 1836.

The reduction of the duty from 4d., to 1d. was also marked by another alteration, requiring the newspapers stamped, to bear on the die, the name of the paper. The stamps were now impressed from single dies, and pending the preparation of the special dies, a provisional series was in use from Sept. to December 1836, bearing die letter A and numbered 1 to 28, with the word "NEWS" at left and "PAPER" at right of the die. I have seen a copy of *Die A13* on the "*Bucks Herald*" for 17th September, 1836, and *Die A1* on the same paper for 22nd October, 1836.

Type 63

Type 64.

1d., red. Newspaper Dies

Type 64.

This series of dies was prepared with the word "NEWSPAPER" at right hand side, with space at left side for inserting of the names of the paper, for which separate dies were made. Mr. Fulcher has obtained a partial list of these dies as well as a list of the names of Newspaper dies prepared during 1842-50 with dates of registration &c. I am listing those die numbers of which record was found by Mr. Fulcher—his list of the 1d., begins at die A255, after this I shall give a list of the names of Newspapers, and the various dies I have found so far used for each paper.

EDITORIAL.

WHILE penning the remarks last month with reference to the Hat Tax Stamps of Great Britain we were unaware of the existence of a different type of stamp from the large size proofs to which we alluded. Mr. Morley, however, possesses a specimen of a 6d, stamp for hats of value 7/- and above 4/- which has undoubtedly been used as an adhesive. It is of a similar design to the Hair Powder or Medicine Labels of the period, closely resembling the Glove Tax stamp which we described in detail in the January number. It is printed in black on thin laid paper and bears the Die no. 46. Mr. Morley has also seen another value viz, 2/- in greenish blue, Die 14, and thinks this type represents the first issue. Possibly the small and large stamps may have been in use simultaneously the former as adhesives and the latter for stamping the lining of hats as we described last month. These old revenue stamps of this country are of considerable interest but we fear their scarcity will be a bar to our ever learning much about them. Packets of Hair Powder or Patent Medicines or even pairs of Gloves and cheap Hats are hardly likely to be handed down as heirlooms or museum specimens by the people of the end of the last century but one. If indeed a gorgeous Hat like the one we attempted to describe last month does survive in the struggle for existence we can hardly expect to find a cheap label stuck inside. Such luxury must have a stamp on the lining.

* * * * *

In June last we referred to the prospect of an issue of fiscal stamps for the island of Guernsey but we little suspected that the sister island of Jersey was already in possession of a set which has been in use for some two or three years. To Mr. Thomson belongs the credit of the discovery and he has moreover succeeded in giving a very complete history of the stamps as will be seen from his article at the commencement of this number. The stamps themselves provide a series of local pictures and are handsome enough to raise a suspicion of having been made for sale to collectors chiefly were it not that the fact they have remained unknown to the collecting world for a couple of years sufficiently refutes such a charge. At present fiscal collectors are at least free from the "made for collectors" stamps though perhaps the rapid increase of their ranks may not allow this boast for very long.

* * * * *

It now remains for Mr. Thomson or somebody else to pursue his researches a point further and discover what is going on in Guernsey in the fiscal line In fact it would seem that there is a wide field for discovery in the domain of British Municipal stamps. Those that are known, as Northamptonshire, Gloucestershire. Southampton County and Town, Isle of Ely, etc., seem most arbitrary in their geographical distribution and if these places have Judicial stamps why should not others of equal if not greater importance?

* * * * *

We have received a little publication which should prove of great value to all collectors of Letter Fee Stamps. We refer to *Ewen's Priced Catalogue of the Railway Letter Stamps of the United Kingdom, 1891-1903.* The following extracts from the Preface will doubtless interest our readers "Every stamp, with the sole "exception of those of which no copies are "known, has been given a valuation both in the "used and in the unused state"— It will "perhaps surprise collectors who have not "hitherto taken any interest in Railway Letter "Stamps to known that of the 570 varieties "described in this Catalogue, no fewer than 29 "are completely unknown and something like "100 others are in unused condition as rare or "rarer than the two famous "Post Office" "Mauritus Stamps of which a pair are reported "to have been recently sold for £2600. In the "system of valuation adopted for this Catalogue "I have taken £25 as about the maximum value "at the present day of the rarest Railway "Letter Stamp, but in two instances . . . . I "have ventured as high as £75 and £50.

* * * * *

The new postage stamps for Canada possess a unique interest for collectors in several ways. They were designed by H.R.H. the Prince of Wales, although this statement must be qualified by the fact that the design has, for some unknown reason, been altered in detail—by no means for the better—by the Canadian authorities. The portrait of His Majesty which they bear, being taken specially for the purpose far surpasses any that has yet appeared on a stamp and finally the die was engraved by Messrs Perkins Bacon and Co. the designers of all the beautiful old Colonials. As far as we know these are the first designed by the firm for many years past. We hope that the new stamps for this country, which are now generally supposed to be in contemplation, will be as effective as these new Canadians.

4d., lilac, perf. 10½, controls plain.

6d., lilac, perf. 10½, controls plain.

Issue IIIa. Modified type, as in issue IIa.

(c) With controls and series number, but without contract numbers.

1d., (two), lilac (shades), $\frac{s}{5}$.

2d., (four), lilac (shades), perf. 11, 11½, $\frac{s}{5}$, $\frac{s}{6}$.

3d., (four), lilac (shades), perf. 11½, $\frac{s}{4}$.

(d) With contract number (626) inserted in lilac at N. E. corner of stamps. All printed in many shades of lilac on white paper.

½d., (one), perf 10, control series $\frac{s}{3}$, $\frac{s}{4}$.

1d., (two), perf. 10, 10½, 11½, control series $\frac{s}{7}$ to $\frac{s}{27}$.

2d., perf. 10, 11½, control series $\frac{s}{8}$ to $\frac{s}{23}$.

3d., perf. 10, 11½, control series $\frac{s}{4}$ to $\frac{s}{21}$.

4d., perf. 10, 11, control series plain and $\frac{s}{2}$.

6d., perf. 10½, 11½, control series plain and $\frac{s}{2}$.

Imperforate proofs of the ½d., 1d., 2d., 3d., 4d., and 6d., are known in red lilac, with contract number but no controls.

The stamps of this last series are the only ones now current on the line. It will be seen that there are many gaps in my list of series numbers, so that very possibly other varieties exist of some values. Also that the alterations in the type of certain other values, such as the 3d., 4d., and 6d., were made in the middle of a series, the numbering of which was not thereby interrupted. The latest impressions are in a much redder shade than any of the earlier ones.

Letter Fee Stamps.

Up to date, 39 issues of Letter Fee stamps have been made. They are printed by Messrs. Waterlow in their ordinary type. Five transfers have been employed, and each issue, consisting of about 3000 stamps, can be identified. To describe these at any length, however, would be encroaching too much on Mr. Ewen's excellent work on the subject, and I merely give a list of the main subdivisions of perforation and shade as a general guide to collectors of these very interesting stamps.

1. Perf. 11¼ to 12, green, bright green, pale green. Issues 1, 3, 4, 7, 8, 15, 19
   Perf. 11¼ to 12, dark green, deep green. Issues 2, 5, 6, 9.
   Perf. 11¼ to 12, yellowish green. Issues 10, 17, 18.
2. Perf. 14½, (very rare). Issues 11, 12, 13, 14.
3. Perf. 10, green, bright green. Issues 16, 20, 27, 31, 37, 39.
   Perf. 10, bluish or emerald green. Issues 22, 23, 25, 26, 29.
   Perf. 10, dark green. Issues 24, 28, 35.
   Perf. 10, yellowish green. Issues 34, 36, 38.
4. Perf. 11, green. Issues 30, 32, and part 34.
   Perf. 11, emerald. Issues 33.
5. Perf 10x11. A few copies with compound perforation were issued about May 1902 aspartof the 34th issue. They should become extremely rare.

Victoria. *Railway Stamps.* Mr. Langlois, notifies that he possesses a copy of the 1/6, *green on yellow*, of the 2nd issue (1877), the lower half only. It bears control number in red.

THE FISCAL PHILATELIC SOCIETY.

TELEGRAPH CHRONICLE.

Ceylon. Mr. A. E. Lawrence notifies some unrecorded dates of the "provisional" issue.

20c., green 1-12-98, 1-12-01.
60c., brown 1-12-98.
80c., bronze-green 1-7-98, 1-12-02.

Guatemala. Of Type 181 in our publisher's catalogue we have

50c., black on red-brown, *red* sur.

The discovery of this stamp is due to Mr. G. W. Pepper.

United States. *Western Union Telegraph Co.* Mr. John A. Klemann has discovered a scarce type of the 1902 Western Union telegraph Stamp, and has taken pains to find out all about the issue, which, it appears, is quite small. Our readers are all familiar with this type, which bears the name of the company above "Frank No." and number in centre, with *fac-simile* of President's Signature below. The new discovery has the name of R. C. Clewry in place of Thos. T. Eckert, who he succeeded during the year. So far as we are able to find out, this is the first time two names have been used on one year's stamps. The first Western Union frank was issued in 1871 (undated) and bore the name of William Orton, President, and retained his name on the stamps until 1878. In 1875 the date was placed at each side. Norwin Green signed as president in 1879, continuing in office until 1893. The following year we find the name of Thos. T. Eckert, which remained from 1893 to 1902, he was succeeded by Mr R C. Clewry in 1902, who issued stamps bearing his own name, thus giving us a double issue in that year. The stamps of 1903 bear the name of Mr. Clewry.—*Metropolitan Philatelist.*

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Alsace-Lorraine. 1900. Herr Köhler has shown us of the type illustrated.

5, 10, 20, 30, 40, 50, 60, 80 pf., vermilion and black
1, 1.50, 2, 3, 4, 5, 6, 7, 8, 9, 10 mark, pale blue and black

Bolivia. *Tobacos.* Mr. A. E. Lawrence submits a new issue somewhat similar in design to the one superseded. The stamp is wider and has a tobacco plant in centre. Perf. 12.

1 cent., purple

Buenos Ayres. (*Municipality*) Senor R. Masson sends particulars of two recent discoveries.

Derecho de Guia, 1880. A provisional stamp consisting of the inscription in three lines "MUNICIPALIDAD—DERECHO DE ESTAMPILLA PARA GUIAS—DIEZ PESOS M. C" in black on a large square of white paper, and surcharged in red with the seal of the Municipality bearing the date 1880. It appears that the stamp No. 120 of our Supplement Catalogue was in use for this duty at the time and this provisional was created to supply a temporary dearth of the necessary stamp.

Derecho de Guia, 1897. The sheets of the early printings of the $0,15 contained a stamp, the first on the third row, lettered in error $15. The error was soon detected and corrected, so that only a very few copies exist.

$15, slate (POR UN ANIMAL VACUNO, &c.)

Cuba. *Facturas Segundas de Exportacion.* Mr. A. W. Castellanos sends us a sheet of the 5c., lilac chronicled in March last. It appears that the third stamp on the fourth row and the first stamp of the fifth row have no accent over the "o" of "Exportación." The sheet contains 25 stamps in five rows of five. The following stamps come from the some gentleman:—

Trasportes, 1892-93. An uncatalogued, provisional, being the 5 pesos, pink; *Pagos al Estado* of 1892-93, surcharged vertically upwards in 4 lines in blue ink "Banco Espanol de la I. de C.— HABILITADO PARA—TRASPORTES—BIENIO DE 1892 y 93."

Havana. The Cuba Sello stamp of 1884-85, 37½ c. d. peso, pink with an overprint in an oblong octagon in blue "ADUANA DE LA HABANA —NEGOCIADO DE CABOTAGE" over two stamps and various Trasportes stamps viz.: the 1c. d. p., 50c. d. p., 1 peso and 5 pesos, of 1892-93 with a blue overprint in single lined rectangle in four lines ADUANA DE LA HABANA—(various dates '93 and '94)—CONTADURIA. We doubt whether these overprints are really surcharges from their irregular positions and in the latter case by reason of the various dates in the centre of the overprint. The overprinted 50c. d. peso is however *dark blue* but in the Spanish Catalogue it appears as *bright rose.* Is the latter description an error?

Sello. 1898-99. (Type 98 in Spanish Catalogue).

50c. d. peso, blue-green

Cordoba. *Prov. Argent. Repub.* Mr. Herman Stein submits various novelties from this province.

(1) Provisionals, surcharged on Type. 99, similar to these already catalogued in our Supplement Catalogue
10c., on 19c., brown (violet sur.)
20c., on 2c., green (litho.) (red sur.)
30c., " " " "

(2) Further values of the series, Type 100
5c., green
10c., pale blue
20c., blue
4p., orange

(3) A value of an issue for *1902*. Dated. Arms in rounded rect. in centre. "RENTA PROVINCIAL" on straight label across stamp above Arms and value below, with figures of value in circles on either side. Control in black on blank label at base Perf. 11½.
10c., milky green

(4) *Ganados*. 1902. Narrow rect., with Arms in double lined circle, lettered "RENTA PROVINCIAL DE CORDOBA—1902" in centre. "A GANADOS" on straight label below and control in black on blank lined label above. Perf. 11½. This is probably the right half of a double stamp judging by the inscription "*a* Ganados."
10 cents., slate blue

(5) *Guias*. Date? Arms in double lined circle lettered as last but without date, the lower part of the circle being broken by a straight label bearing the words "DE GUIAS" and value below. Black control on blank label above. Perf. 11½ except 5c. and 3p. which are p. 12½. These are evidently the right halves of double stamps, the left one of which probably bears the word "CONTROL" in place of "DE GUIAS"

5c., pale blue	1 peso, red
10c., pink	1p. 25c., violet
25c., bright green	3p., brown
50c., brown	5p., dark green

1902. Two values of similar design to the "*Ganados*" stamp but lettered "CONTROL DE" and the value below, the Arms in circle being at the top of the stamp. Also black controls on blank lined label at base of stamp. Perf 11½. Probably the left halves of stamps for "Guias."

20c., pale brown	2p., grey
30c., red	3p., magenta
60c., green	4p., maroon
90c., dark grey green	5p., blue-green
1p., carmine	6p., dull blue
1p. 50c., yellow green	10p., brown

Guatemala. 1883-84. Mr. A. E. Lawrence has discovered another error in the 20c. of this issue, reading "TIMRRE" instead of "TIMBRE."

Hesse. Messrs Köhler and Lawrence inform us that the date on the lower label of the current Stempelmarke has been changed from 18... to 19...

Hong Kong. Messrs. Graça and Co. write "On and after the 1st May 1903 the over-"embossing process is authorized for all docu-"ments chargeable with stamp duty and the "following method shall be adopted in over-"embossing stamps under the Rule, that is to "say: On the presentation at the Stamp office "of a document chargeable with stamp duty, "the Collector shall have affixed thereto an "adhesive stamp or stamps denoting the "amount of duty payable in respect of such "documents and shall then cause a stamp or "stamps, denoting the date of stamping, to be "embossed on the document in such a way "that the impression of such embossing stamp "or stamps falls partly upon such adhesive "stamp or stamps and that such adhesive "stamp or stamps is or are cancelled by such "embossment.

"The adhesive stamps to be used shall be of "the following values:—

1c., olive and violet
2 ,, red-brown and black
3 ,, violet and green
5 ,, dark blue and black
10 ,, brown and black
15 ,, green and violet
20 ,, brown and violet
25 ,, dark green and light green
30 ,, indigo and violet
50 ,, yellow and green
75 ,, brown and green
$1, rose and black
$1.50, olive and green
$2, violet and black
$3, green and sea green
$4, blue and black
$5, brown and violet
$6, blue and green
$10, rose and violet
$20, black and violet
$25, violet and black
$40, orange and green
$50, red-brown & black on yellow paper
$100, red on rose paper
$200, blue and black on blue paper

The second colour is the medallion and King's head.

Italy. *Marca da Bollo. 1868.* We have found the 0,15 c on 45c., brown with the figure "1" in the surcharge *inverted*.

Mexico. *Documentos, 1883-84.* Mr. Herman Stein possesses the undermentioned value.
25 pesos, dark green and chocolate

Documentos, 1892-93. Mr. G. W. Pepper submits the 50c. cut in half horizontally and the upper portion used on a portion of the original document. It bears the overprint "Oaxaca."

Documentos, 1903-04. Eagle in centre. Label above with "Documentos", name and date, value below. Printed in first colour on a background of the second. Perf. 12.
1 cent., carmine and green
2 ,, black and orange
5 ,, blue and pink

Renta Interior, 1903-04. Head of Liberty to left in oval, with figure of value above. Talon below bearing value Perf. 12.
1 cent., ultramarine
2 ,, orange

Besides the above mentioned stamps Mr. G W. Pepper sends two values of another series to which we cannot as yet give a name. The stamps bear a cap of Liberty and rays with branches in a hexagon, while a scroll across the lower part of the hexagon bears the inscription "1903—FEDERAL—1904". On the portion of the hexagon below the scroll the letter "M" with a small "o" above it. The value is at the top of the stamp and forms the chief feature of a talon at the base. Imperf.
1 cent., ultramarine
5 ,, brown

The Fiscals of Swazieland.

By A. B. Kay.

At the April meeting this year, of the Fiscal Philatelic Society I showed a couple of stamps of the type here illustrated, that had come into my hands among a mixed lot of African fiscals. Their crudeness and apparent strangeness of the inscription caused doubts to be cast as to whether they were really fiscal stamps, and it was decided not to catalogue them as such until further evidence as to their status was forthcoming.

Recently, however, I have been fortunate in obtaining other varieties and some information respecting them, although hardly so full as might be wished.

A slight sketch of the history of Swazieland is here almost necessary. It was recognised as an independent state by Britain and the Transvaal in 1884, but the white settlers, numbering nearly a thousand, found it necessary to constitute a Governing Authority, and in 1890 the Swazieland Government Committee was formed, of equal numbers of British and Boer representatives, viz: Col. Martin, Mr. D. J. Esselen, Mr. Theophilus Shenstone (Resident Adviser) and Mr. J. Zulch de Villiers (Govt. Secretary). This continued until 1895 when the state became a dependency of the Transvaal, and now forms part of the British dominions.

My knowledge of the stamps is best given by quoting the words of my correspondent:

> "From 1890-1895 when the Swaizeland Government was in the hands of "the Swazieland Government Committee, I was an attorney in Bremersdorp "(the capital), and I used these stamps for transfers of property, Court "documents, &c. As I used them daily to the amount of several pounds, "I bought now and then say £30 worth from the distributor of stamps. When "the Swazieland administration went over to the Transvaal Government by "Convention in 1895, I was just too late to hand these stamps in for money— "they had no funds. In an unused condition these stamps must be extremely "rare, and even used there are but a few in circulation."

The stamps are impressed by rubber stamp in violet ink on rather thin wove paper, the values being inserted by a separate operation, consequently the position

of the figures vary, and in one case have been found inverted. The perforation gauges 12, smooth white gum, and the size is about 43 mm. square.

The values as yet seen are as follows :

1/-, 2/-, 4/-, 5/-, 6/-, on pale straw paper.
1/-, 5/-, 7/-, 10/-, on rose paper.
2/- (value inverted), 10/-, on greenish-blue paper.

Most probably all values exist on the various papers for I learn that a supply of about one to two hundred of each value was printed off, as required, on whichever coloured paper came to hand, consequently the different colours were in use at the same time. The stamps were used for all revenue purposes of the country.

EDITORIAL.

THE sensation of the past few months—attracting attention even amongst the general public—has been the Official Stamp case recently concluded. The continued leakage of Official stamps at last caused the Government to take drastic steps to stop it, with a very effectual result, at least for the present. It is a very unpleasant business all round, not only for the persons concerned but for the British philatelic world in general Yet the evolution of the affair is simple enough. When the great officials of a Government office are known to take official stamps for the purpose of presentation to their stamp collecting friends naturally the smaller fry endeavour to obtain them likewise. At first some are allowed official permission to have specimens and then it gradually grows to substituting ordinary stamps for official ones without permission. This being no fraud but merely "a breach of confidence" the substituters expect that even if detected it will be condoned. Finally, since there are people willing to pay heavily for specimens, some less scrupulous officials effect the substitution on an ever increasing scale and are tempted to sell their ill gotten gains, till at last the substitutions even are effected by tricks which if not absolutely fraudulent are so closely allied thereto as to be indistinguishable, such as substitution by pieces of mutilated "specimen" stamps for the coveted articles—a practice to which the two culprits pleaded guilty at the recent trial. Then comes the penalty and terribly severe it was in the present case.

It seems to us that the matter should not now be left by the Government with the result attained. Sooner or later the leakage will begin again and like disastrous results will arise therefrom unless some method is adopted to prevent it. There are in our opinion *only* two remedies (1) to stop overprinting stamps for Government departments (2) if overprinting is really necessary to sell such overprinted stamps to collectors at face value It has been widely suggested that if the stamps were perforated with initials nobody would collect them. We cannot, however, agree with this suggestion. If the stamps are perforated there are sure to be some individuals who would want them. There are collectors of the 1d. stamps perforated with firms' names of which we gave a lengthy list in recent numbers. Moreover, it is true that Messrs. Stanley Gibbons do not catalogue the stamp perforated with a crown and "B.T." used by the Board of Trade, yet they do catalogue and price a set of stamps for Luxemburg perforated with the word "Official" It appears therefore that the "perforated method" will be useless. We should much like to see all the official stamps abolished. They do not, to us at any rate, present any special interest and we could well spare them in view of the alarming quantity of new issues from all parts of the world If this is impossible, the sale of them, at face value, at Somerset House would at any rate legitimize the possession of these in mint state by collectors and would knock the bottom out of the tall prices which are paid for them.

* * * * *

If the authorities would go so far as to recognize philately by selling official stamps to collectors at face value we might perhaps venture to ask for a further boon on behalf of those interested in fiscal stamps. As far as we are aware Scotch and Irish fiscals cannot be purchased in London and there are various sets of English ones which the average collector does not know where to get. Could not all current fiscal stamps be sold at Somerset House? There are many who would appreciate this privilege.

* * * * *

In the Fiscal Philatelic Society's list of India two varieties of the provisional Foreign Bill, 12 as. on 12 rupees, 1901 issue, are catalogued, one with the word 2½ mm. from the bar through the value and the other with 4½ mm. between the two. Mr. Corfield sends us a photograph of similar variations in the 3as. on 8 rupees, in one case the distance between the word and the bar being 1½ mm. while in the other it is 2½ mm. This opens up the possibility of variations in the other values. Perhaps there was a London and a local print of the surcharge in every case.

We have been favoured by a correspondent with the information that Revenue stamps for Guernsey will be issued this month. Hitherto Guernsey has been exempt from Stamp Duty of any kind but a Stamp Duty Act has been recently passed and will come into force on the 29th inst. when the "Treasurer of the States" will issue stamps for the payment of the new duties.

Messrs. C. Nissen & Co., of 77 High Holborn, London, W.C., inform us of their intention to publish in November, the first issue of a new yearly publication for Philatelists, to be known as "*The Stamp Collectors' Annual.*" This new "Annual" will strive to become the "Whitaker" or the "Hazell" of our hobby. The price will be 1/-.

NOTES ON SOME

LETTER FEE STAMPS

OF THE

NORTH OF IRELAND.

BY "K".

I WONDER whether any reader of this journal has devoted a little spare time to one of the most difficult, and therefore fascinating, tasks, of the many that are offered to the collector of Railway Letter Stamps, to wit, the unravelling of the mysteries surrounding the early issues of the four Irish railway companies whose stamps are printed by the Belfast firm of Carswell and Sons; namely, the Belfast and Northern Counties, the Belfast and Co. Down, the Ballycastle, and the Sligo, Leitrim and Northern Counties Railway. Reference to Mr. Ewen's invaluable work on the subject will show that of the issues made by the B. and N. C. Railway, the first 10 are not clearly identified. The same may be said of the 6 earliest issues of the B. & C. B Railway: and Mr. Ewen makes certain very reasonable conjectures as to the early Ballycastle issues, but they are upset by the official information in the appendix, which shows that there have been 11 issues, the first 6 being unknown! The uncertainty about the Sligo stamps is even greater, as it was not until many weeks after the publication of his work that Mr. Ewen gave in No. 112 of his *Weekly Stamp News* a semi-official list of issues, showing that there were certainly 2 printings that were yet undiscovered.

I have been studying these interesting stamps for some time past, and now, thanks to the kindness of Mr. Ewen, who has allowed me to examine his collection, and to 3 Irish collectors who have also placed their specimens at my disposal for the same purpose, I am enabled to publish some little information that is new to collectors.

For the information of the general reader, I will explain that all the stamps of the above four companies have been printed by Messrs. Carswell & Son, of Belfast, in sheets of 9 (3 rows of 3 stamps), in various colours more or less like green, on thin tough parchment-like paper, which is occasionally found watermarked with the manufacturer's name and date of manufacture. This date, and the occasional existence of date cancelled copies, or of unused specimens which are known to have been procured from stations at ascertained dates, provide the only means of classifying the various issues in their proper order, unless recourse is made to the successive transfers taken at various intervals from the original die, from which one or more different printings have been made before the introduction of a fresh transfer. If these transfers can be arranged in anything like their proper order, the various printings from each can be, at least, grouped together, and as it is practically certain that every transfer is destroyed when the next is introduced, a certain amount of order can be introduced in the arrangement of the issues. The dates on which each printing was ordered, and the distinguishing marks on each stamp on a sheet, in each transfer, as far as was then known, are given in Mr. Ewen's work of 1901, and much valuable information as to the method of lithography employed: I have not space to deal further with the latter subject, but the particulars of the two former will be published, for reference, in appendix form at the end of this article, and I hope that I have given enough explanation as to the different transfers, and to their sub-divisions into printings, (which usually coincide with the issues), to which reference must be made in any attempt to classify these puzzling stamps.

THE BELFAST AND NORTHERN COUNTIES RAILWAY.

This, the largest of the four Companies, has also made the greatest number of issues. Now, with Railway Letter Stamps, when an unusual number of unused specimens of one single early issue are forthcoming, to the exclusion of all others, it is usually safe to classify it as the first, as being generally distributed to all stations on the line, it would remain long on hand where there was little demand, while succeeding issues would only be made to stations where there was a proved demand, and would be quickly used up on letters and become rare in an unused condition. Such is the case with the line under notice. A comparatively large number of specimens are in the hands of collectors, printed in a very bright, clear, shade of yellow green. One sheet exists showing part of the watermark "J. WHATMAN. 1891," and the majority of existing copies are known to have been procured from Belfast station in 1892. In spite of theories to the contrary, it seems quite safe to allot pride of place to this printing. Now, if the 1st printing was exhausted at Belfast in 1892, it would have been replaced there by the 3rd printing of January 7th '92. I have seen seven unused specimens, 2 of which are known to have been bought from Belfast station in the summer of '93, and a used copy, apparently the same printing, dated 20/1/93. They are in a slightly duller, yellower shade than the 1st printing, and from a different transfer; at present I classify them as 3rd printing, from 3rd transfer. This transfer appears to have been used for 2 printings as specimens of another printing from it are known, heavily printed in yellowish olive green. This is the 7th print of Ewen's "History" and the earliest known dated copy is only 3rd January '96; but the fact of the transfer being the same gives me no option but to class them as the 4th printing (3rd transfer) of April 1893. The second printing is thus left vacant. Specimens are known, printed in a peculiar blotchy shade of bluish olive green, and not corresponding in marking with any other known transfer. The earliest cancelled copy is dated 20/3/94, so can not belong to the 5th printing of May '94, and if the 3rd and 4th can be allotted as I have placed them, I am forced to classify this as 2nd printing 2nd transfer. After the above, come a few specimens of extreme rarity; most are remarkable for the "B" of "Belfast" being properly shaped instead of being blotched at the foot like nearly all other specimens, and they therefore must be printed from a different transfer to any

of those mentioned There appear to have been two printings ; one is a shade so dark that it may almost be called "yellow-black-green ;" the other in a paler, bright green shade. The former, though of great rarity, is well known and is quite distinct from all other printings. It is given as the first issue in Mr. Morley's Catalogue, and, as the compiler of that work has a memory that rarely fails him when the date of his receipt of a specimen is in question, it would have very strong claims to, at least, an earlier place than I can give it, were it not that there is certainly not room for two printings off our transfer any where before the 5th and 6th and I therefore term the transfer the fourth and the dark and bright green printings 5th and 6th respectively. The next transfer, the fifth, was used for four or five printings. Nearly all types on the sheet have a coloured vertical scratch, across the bottom label to right of the word Railway ; and specimens showing this marking are to be found in dark grey, dark yellowish green, greenish drab aud apparently two shades of clear olive green. The drab stamps are identified as the 11th issue of Feb. 7th 1898, and one of the olive green printings is usually accepted as its immediate predecessor. To the other 3, clear greyish olive green, dark yellow green, and dark grey, I allot provisionally 7th, 8th, and 9th places. I must here point out, however, that it is perfectly possible that both the olive green printings are really only one, the 10th, in which case the 6th is probably, as Decima Moore used to sing in the Gondoliers, "divisible into two." The 11th issue closes the most interesting epoch of this Company's Letter stamps. With the 12th issue, a new transfer came into use, which, with one retouch after the 14th printing, has continued in use till the present day. In its original stage, every stamp on the sheet was remarkable for two small dots under the "I "and "G" of the word "Single," and in this state the transfer was used for three printings, the 12th, drab ; the 13th, dark grey ; and the 14th, yellow dark green. It was then retouched in various ways and the above mentioned dots removed from all except the last, or 9th, stamp on the sheet. The 15th printing was in very dark, or blue-black green ; the 16th, in greyish green, on thick paper with close clipped margins ; the 17th and 18th are in much the same shade of dark yellowish green and very hard to distinguish from one another ; while the 19th is in bright emerald, with clipped margins. I am not quite satisfied as to the existence of a 20th printing, but if so, it is at present almost indistinguishable from its immediate predecessor.

Belfast and County Down Railway.

My remarks about the 1st issue of the B. and N. Cos. Railway apply equally to this one. A sheet is known to exist, printed in bright yellow green, and watermarked "91 " There is little doubt that this is the first printing I have also seen a pair, printed in a slightly deeper shade, on thicker paper, and showing modified markings. These might represent a second printing, but it is quite possible that they are only early impressions from the 1st. As with the foregoing line, it seems probable that the demands of collectors exhausted the 1st issue at Belfast terminus about the end of 1892, and that this was replaced by the 3rd printing of May '92. I have two specimens which were bought at the same station in the summer of '93 are presumably part of this printing. They are dull yellow green in shade, and, in strange contrast to the B. and N. Cos. early stamps, appear to be still from the original transfer. This is the more remarkable, as the next three issues are all believed to be from different transfers. They are classified in Ewen's History as yellowish green, 2nd transfer, emerald, 3rd transfer ; & deep green, 4th transfer respectively, and at present there is no ground for altering this arrangement. The 5th transfer was in use from "'95 to" '98, and fortunately complete sheets of the 10th printing, made from it in February 7th '98, has been preserved. They are greenish drab in colour, varying enormously in shade and density of printing. Sheets are known imperforate either vertically or horizontally, and a small remainder, with wide imperforate margins, appears to have been received from the printers to meet a hurried demand, and issued about Xmas 1902 Three earlier printings from the 5th transfer are known, and I adopt Mr. Ewen's classification, which is 7th issue, pale yellow green : 8th, greyish olive green ; and 9th, dark yellowish green. With the 6th transfer, a modified type was introduced, chiefly distinguishable through the thicker dash under the "d" of 2d. It has been in use since '98, and the printings from it are believed to be as follows ; 11th, dark grey : 12th, deep green (called by the printers, "Imperial" green) ; 13th, greyish green, on thick paper with clipped margins ; 14th, dark bluish green, brown gum : 15th, deep yellowish green : 16th, dark b uish green, blotchy brownish gum ; and 17th, pale emerald with clipped margins.

Sligo, Leitrim, and Northern Counties Railway.

Here again, few details are obtainable about the early stamps, even the date of issue of the 1st printing being unknown. It was probably in 1891, and is usually accepted to have been in dark yellow-green, with white gum. A specimen is known cancelled 3/93, and the right outline of all known copies is clear and unbroken. All other known examples of the early printings have the right outline clearly broken opposite the middle of the 5th bar in the right pillar, and are probably from the same, or 2nd, transfer. A specimen in bright yellow green is known, showing part of the watermark 1892, and may be the 2nd issue, which was made in that year. Other examples are known, in two shades of olive green ; some, rather heavily printed, resemble in shade the 4th issue of the B. and N. Cos. Railway, and may be the 3rd, issue of the Sligo line, which was printed at the same time. Others, more clearly printed in a paler shade, are propably the 4th issue ; part of a sheet is known, imperforate horizontally. The 3rd transfer, used for the 5th printing of 1896, is well known. The right outline is unbroken in all types but No. 8, and the 3rd stamp is the variety without stop after "Sligo." The colour is greenish drab ; sheets are known showing watermark 1895, and are either perf. or imperf. on the right side.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

British East Africa. *Judicial Fee.* Our publisher submits the current postage stamp, 5 rupees, brown, surcharged "JUDICIAL FEE", in sans serif caps, 3 mm. high, in two lines in red.

Great Britain. *Ireland, Petty Sessions.* We have discovered the 6d., green, Queen's head stamp, perf. 14, *without watermark.*

India. Mr. H. J. Spencer and others send us copies of the new 1 anna Revenue stamp, with King's Head. It is similar in design to the stamp it supersedes.

1 anna, lilac on tinted paper, wmk. Crown, perf. 14.

Jamaica. *Judicial.* Mr. Kay has shown us the 3d. and 6d. postage stamps with this surcharge and informs us that all values up to 5/- are in use. We chronicled the 1/- last October.

La Rioja. (*Prov. Argent. Repub.*) A new issue has appeared here. Mr. Herman Stein sends us a stamp of a type recalling Type 124 in our Supplement Catalogue with modified detail. Perf. 12.

20 cents., slate.

Minas Geraes. (*Prov. Brazil.*) *Secretaria das Finanças.* Mr. A. M. South has shown us an uncatalogued value (Type 317 in Supplement Catalogue).

300 reis, blue.

Miranda. (*Venezuela.*) *Distrito Sucre. Cigarrillos.* Mr. A. E. Lawrence submits a stamp with a portrait of a General in oval, name above and "PATENTE DE CIGARRILLOS" below. Figures of value in ovals above and below each side of central oval. Perf.

3c., green.

Morelos. (*Mexico.*) *District of Jonacatepec.* Mr. A. Hamilton sends a quantity of errors in the $0,36cs. stamp of 1878 for this district. Several of them are already known but all those mentioned below are on stamps lettered "CONTRIBUCION PERSONAL." in error for "CONTRIBUCION &c."

1. Error "1888" for "1878".
2. Error "Jonaeatepec".
3. Error "Jonacatepcc".
4. Lettering of "Jonacatepec" irregular.
5. Surcharge with slanting "$".
6. Surcharge inverted.
7. Surcharge inverted on (2).
8. Error (5) on (3).

and also varieties due to broken letters.

New Caledonia. M. A. Ballière submits a new tobacco band. Inscription "TABAC AMÉRICAN ECOTÉ 50 grammes—Exportation—Bordeux." On left is Anchor and Cable and "Marque déposée". In centre "Contributions Diverses—O fr. 20—Decision du Conseil Général du 29 Aout 1894—Arrête du 8 Septembre 1894 et décret du 15 Janvier 1895.

20c., black on yellow.

Parahyba. (*Prov. Brazil.*) Mr. South possesses, similar to Type 327 in Supplement Catalogue, the undermentioned value. Perf. 11.

$10, rose and red.

Peru. *Servizio Consular.* Our publisher has the 1 and 5 soles of the current type in new colours.

1 sol, yellow-brown.
5 ,, blue-green.

Porto Rico. Mr. O. Marsh submits a companion provisional to that described in our June number of last year. It is the 5 c. de peso, claret, Recibos y Cuentas, of 1882 surcharged in a precisely similar manner, slantwise.

Saxe-Altenburg. Herr Köhler has shown us some values of a set of fiscals for this province of the type illustrated. The entire set is said to consist of the following values:

10, 20, 40, 50 pf., green, black and brown.
1, 1.50, 2 mark, carmine, black and grey.
5, 10, 50, 100 mark, colours?

Tonquin. *Marchés de Vinh.* Mr. A. Baillière submits a stamp bearing the words "MARCHÉS DE VINH" seven times in small Roman caps in a single lined frame. In the centre this inscription is interrupted by two square tablets, one bearing figures of value and the other the same in Chinese. Outside the frame are diagonal lines. The set is said to consist of the following values.

½c.,	black on rose.		3c.,	black on green	
1c.,	,,	pale grey	4c.,	,,	yellow
1½c.,	,,	dark grey	5c.,	,,	green
2c.,	,,	light blue	8c.,	,,	grey

The stamp sent is perf. 10½ at sides only.

Uganda. *Inland Revenue.* Mr. O. Marsh informs us that the following values of the current postage stamps exist with the overprint "Inland Revenue" in addition to those chronicled in the August no.

3 as., grey (black sur.)
4 ,, deep green (red sur.)
8 ,, pale olive (black sur.)

The Life Policy Stamps of Great Britain.

BY L. W. FULCHER.

THE Life Policy stamps comprise one of the most interesting series of British Revenue stamps. This is not surprising if we consider that they were designed and printed by the celebrated firm of Messrs. Perkins, Bacon & Co., for few, if any, stamps which owe their existence to this firm have, by an unexplained magnetism, failed to attract in the highest degree the interest of philatelists. The design, reproduced here, is simple and effective and needs no elaborate description.

Nearly a year ago in studying the specimens of these stamps which I possess, I discovered that the Queen's head was to be found in the two dies so well known to all collectors of postage stamps as existing on the 1d., red-brown, postage stamps of 1854-57, and further that the £1 stamp with the Queen's head, Die, 2, differed remarkably in other respects from that with the Queen's head, Die 1, being in fact as will be seen below from an entirely new plate. With the information respecting these stamps which I obtained at Somerset House and some notes supplied to me by Mr. E. D. Bacon from Messrs. Perkin, Bacon & Co.'s archives together with the inspection of Mr. Morley's fine collection I am enabled to somewhat extend the number of these stamps already catalogued and venture to direct the attention of fiscal collectors to this series with a view of further improvement.

It will facilitate the discussion if I first give in tabular form the results of my researches in the Official archives, merely premising that the word "Die" refers to the Queen's head, "Die 1" being Humphrey's original die and "Die 2" the retouch as described in postage stamp catalogues* and that wmk. "Foul Anchor, wooden stock" is used as a convenient term to denote the first Anchor and Cable wmk., in which the anchor has a doubled-lined stock. The plates of all the values consist of 18 stamps in 3 rows of 6, and there are no marginal inscriptions except on the 1d. and the 5/-, Plate 2, which bear the Plate nos. "1" and "2" respectively,

* See Gibbon's Catalogue Part I, page 2.

in a small circle on the upper and lower margins of the sheets, above and below the outer corners of the four corner stamps and the "current no." above the second stamp in the first row and below the last but one on the bottom row. The "current no." of the 1d. plate is "179" and that of the 5/-, Plate 2, "185".

It will be noted that the 2/6 value—judging from the registered plates—does not exist with Queen's head Die 2 nor the 1d. and 3d. values with Queen's head, Die 1, in the latter case the reason being obvious from the dates of registration. In the 6d., 1/-, 2/-, 5/-, and 10/- values, with Queen's head Die 2, I have not been able to detect any notable differences in the rest of the design from the same values with Queen's head Die 1. Differences if they exist must be minute. In the case of the £1 however there are notable differences. It is sufficient to mention that

(1) In Plate 1, Die 1, the upper cross stroke of the "£" in "£ 1" below the central medallion is on the upper white line across the lower part of the stamp, while in Plate 2, Die 2 it is ¾ mm. below it, and consequently the "£1" in the latter is nearer the bottom white line than in the former.

(2) The curl of the loop of the "£" in "£ 1" is more open in Plate 1, Die 1, than in Plate 2, Die 2.

The 6d., 1/-, 2/6, 5/-, and 10/- values printed in lilac-rose, were almost certainly not issued, especially as the stamps were all registered in the issued colour, together with the 2/- and £1 values, ten days later. This lilac-rose colour is probably the same as that in which the supply of 1½d. postage stamps was prepared in 1860. The chemical action of the ingredients in the paper is very intense and the stamps are so strongly blued as to appear practically violet in colour.

EDITORIAL.

THE lists which have been issued by the Fiscal Philatelic Society embodying the work of last season on the British Colonial Revenue stamps—judging by the numerous notes and additions which are received by the Society—seem to be much appreciated by the members of that body. In the course of a few months we hope they will be available for a wider circle of collectors and in view of rendering the published Catalogue as complete as possible in the present condition of Fiscal stamp collecting it is desirable that all points raised should be very carefully considered. We have recently received from an Australian correspondent a complaint that the stamps of New Zealand and New South Wales on blue paper have not been properly treated in the lists in question, and in fact ought to have been specifically catalogued. In as far as we may be allowed to interpret the feeling of the meeting at which these stamps were catalogued we believe the position is as follows. Let us take New Zealand first. By reason of the separation of the early stamps into sets with due regard to (a) the two dies (b) the two types of watermark and (c) the various perforations we understand that all the blue paper copies come under the issue catalogued as "1867, Die 1, wmk. type 'b' and perf. 12½." If this is not so, it remains for collectors to notify blue paper varieties which will not come under this description. In the case of New South Wales as the paper passes by insensible gradations from white to blue it was considered impossible to draw any hard and fast line between "white" and "blue" paper. The cause of the blueing is no doubt chemical action between certain ingredients in the paper. It appears capriciously but the paper is always the same. There is nothing to prevent collectors from making two sets of these stamps, most will probably do so, but it is certainly doubtful whether the variety is sufficiently important for two sets to be entered in a published Catalogue. These considerations, however, appear to us to be worthy wider discussion and we should be especially glad to hear what our Australian readers have to say on this subject.

* * * * *

While on the subject of Australian stamps we should be very glad to receive some information respecting a variety submitted by M. Albert Baillière to a recent meeting of the Fiscal Philatelic Society but which did not satisfy the members present as regards its authenticity. The stamp in question is the 1/-, grey and red, of the first issue of New Zealand Stamp Duty surcharged with a large figure "5" and bars disposed as in the diagram annexed, which may be regarded as a rough approximation to the surcharge. The stamp purports to be a provisional "5d" and is catalogued in Moen's but the unusual value and singular method of surcharge seem to require very special authentication before it can be regarded as anything but "bogus."

* * * * *

There was a very fine display of the stamps of Great Britain at the Herts Society on Tuesday, Oct. 27 and fiscals were well to the fore. Most of the gems from Mr Morley's collection were on view while Mr. Kay's collection formed a good second. Some of the non-fiscal collectors evinced a good deal of interest in the stamps and perhaps particularly in the Life Policy series when the existence of the two dies of the Queen's head on these stamps was pointed out. But "Municipals" and others gave rise to a number of queries to which the contingent of "fiscalists" present did their best to reply.

* * * * *

We shall endeavour next month to find space for a somewhat lengthy list of additions to the King's head unappropriated dies overprinted for the different series of Fees and Duties since the last list we published about a year ago, bringing the Fiscal issues of Great Britain up to date. The new stamps of Guernsey, which we mention briefly in our Fiscal chronicle, are in Waterlow's best style and form a very handsome set. We have in our possession the official documents relating to these stamps and the Tariff in force. These shall be published at the earliest opportunity. We have also received a long list of additions to and criticisms on our Brazil Catalogue from Dr. Manuel Ramos, which shall have our attention as soon as possible. Lack of space also unfortunately compels us to give but a short instalment of "K's" interesting and valuable article on the Railway Letter Fee Stamps of the North of Ireland but we hope to complete it next month.

NOTE.—In classifying the later issues (after Feb. 7, '98) of this and following lines, I am taking for granted the generally accepted arrangement, in accordance with Mr. Ewen's catalogues. As a matter of fact, these late issues are nearly as interesting as the earliest ones, and will be well worth an article at a later date, but for the present I am bound, by exigencies of space, to confine myself entirely to the early varieties.

STAMPS OF THE PRUSSIAN STATE RAILWAYS.

BY MONSIEUR A. SCHOELLER.

IN 1902 the Minister of Railways announced to the Parliament that his Administration intended to introduce the use of railway stamps and that he expected a great economy in management by this new system.

Before extending the system to the whole of the railway, it was resolved to make an experiment in the vicinity of Berlin and it was decided that the stamps, duly affixed on special forms, could be used by the public to frank the sendings of all kinds, as well for "eilgut" (goods per passenger trains) as for "frachtgut" (goods per freight trains) between Berlin and the following places:

1° Berlin (Silesian terminus) and Guben, Liegnitz, Breslau.
2° Berlin (Görlitz terminus) and Görlitz.
3° Berlin (Stettin terminus) and Angermünde, Stettin, Stargard, Stralsund, Greifswald, Pasewalk and Prenzlau.
4° Berlin (Potsdam terminus) and Brunswick, Goslar, Halberstadt, Magdeburg, Quedlinburg.
5° Berlin (Alexanderplatz-Zentralmarkthalle Station) and Hamburg, Altona, Kiel, Geestemunde, Guben.
6° Berlin (Hamburg-Lehrte terminus) and Hamburg, Altona, Bielefeld, Hanover, Minder, Dortmund, Bremen, Kiel.
7° Berlin (Anhalt-terminus) and Köthen, Leipzig and various other stations of that line

and last for the traffic between Cöpenick and some other stations.

The stamps were put in use on March 9th 1903, but were suddenly suppressed on April 30th, the system having evidently proved unsatisfactory for some cause that I have been unable to learn. In fact the public made very little use of the stamps, and as they have been in use only fifty-two days and the stamps when used remained in the hands of the Administration, they seem likely to become rarities.

The stamps are very handsomely executed by the Imperial Printing Office, the figures of value being impressed in a darker shade on a *guilloché* background. Perforation 14.

THE FISCAL PHILATELIC SOCIETY.

THE Annual General Meeting of the Society was held on October 1st, 1903.

Messrs. E Agnés (Paris), M. Fuertes, (Buenos Aires), and C. J. Preater (Bath) were duly elected members, and the resignations of Messrs. E. Doczkalik and F. Leschevin were accepted with regret.

The election of officers or the ensuing season resulted as follows :—

President—W. Schwabacher.

Hon. Vice Presidents—H. Köhler, M. Langlois, A. E. Lawrence, A. P. Pearce.

Vice Presidents—W. Morley, E. H. Selway.

Committee—B. F J. Cooper, T. P. Dorman, O. Marsh, A. M. South, H. Thompson, D. Thomson.

Librarian—L. W. Fulcher.

Sec., Treasurer, and Exchange Supdt.—A. B. Kay.

Continental Secretary—under consideration.

Auditors—H. Thompson, D. Thomson.

During the coming season the revenue stamps of Great Britain, Peru, and Switzerland will be taken.

Received for the library, with thanks :— "Revista de la S. F. Argentina" (R. Rosauer) June—Aug ; 1903.

"Filatelia" (Tomè) April—June 1903.

Meeting held October 15th 1903—President, Mr. Schwabacher (chair)—Messrs. Fulcher, Köhler, Marsh, Morley, South, Thompson, Thomson and Kay.

Rev. Dr. McKee Wright (New Zealand) was duly elected a member.

M. G. Gilbert was appointed Continental Secretary and Exchange Superintendent.

The list of Colonial Railway stamps was discussed, and the early issues of Peru fiscals catalogued.

The Continental Exchange Section will now be resumed, and foreign members should send their sheets (vide Rules) direct to G. Gilbert, 15 Rue de Turin, Paris.

The sheets of home members, should be forwarded through the Hon. Sec. as previously.

The sales from the September Home packet (value £69) amounted to £23. The October packet lately sent out, totalled to £120. Will all members, including those abroad, endeavour to contribute sheets.

Members whose subscriptions are yet outstanding will kindly remit without delay—see Rule 4.

The Annual Report, Rules of Society, Exchange Sections, &c., will shortly be issued, and copies of same, with any other information desired, can be had from the

Secretary :— A. B. Kay,

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

British Somaliland. *Court Fees.* The 3a., lilac, India Court Fee, surcharged "BRITISH SOMALILAND" has been converted into a 2as. stamp by a surcharge "TWO" in block caps. over the word "THREE" which has a thin bar through it and a figure "2" with thick bar through the figure 3 above the value "$\frac{2}{16}$ R." The surcharge is in black.

India. Mr. W. Corfield very kindly favours us with details respecting a number of interesting stamps which are about to be issued. He has received "advance information" officially

Special Stamps. (Queen's Head). The 4or. surcharged "TWO ANNAS" in black block letters one word on each side of central circle, the old value "40 R" being trebly barred. Also the words "TWO ANNAS" in small block caps, in a curve following the lower curve of the central circle. From a photograph of a block of four stamps submitted by Mr. Corfield we find that the setting of this curved surcharge differs on every stamp and we fear it will turn out that it is different on every stamp on the sheet.

Foreign Bill. (Queen's Head). The 24 rupees surcharged "TWO ANNAS" in black block letters with a thick bar through each of the words "TWENTY FOUR RUPEES." The word "TWO" falls above the word "TWENTY" and the word "ANNAS" below the word "RUPEES"

Court Fees. (Emperor's Head). The 4 annas is about to appear, exactly similar to the large labels with space for writing to left (1883 issue), with Queen's Head.

Special Adhesives. Upright rect. with Emperor's head above and the words "SPECIAL ADHESIVE" overprinted in brown or green on a straight label below, the "rupee" value being larger than the "anna" one

2 annas, lilac and brown
5 rupees, ,, and green

We presume there will be a series of these to take the place of the well known Special Stamps

Small Cause Court, Calcutta. The two annas "Special Adhesive" just described is to be surcharged vertically upwards in three lines "SMALL CAUSE—COURT-CALCUTTA" The colour of the surcharge is not yet settled. It will probably be either in black or red.

Luxemburg. *Effets de Commerce.* Mr. A. M. South shows us the 10frs. in a new colour, *pale brown.* We suppose there are other values in francs in the same colour which have probably been in use for some time as the stamp before us in cancelled 5/1/92.

Orange River Colony. Mr. O. Marsh has discovered the £3, grey, surcharged "V.R.I." in the thinner and wider type, the stops being level. It is thought that this type which has been catalogued on the 2/-, 10/- and £2 represents a third printing of the surcharge.

It is said that the 4/-, 6/-, and £4 exist surcharged "V.R.I." but as copies have not yet been seen by collectors over here, it is not known to which printing they belong.

Mr. Marsh has also shown us specimens of the King's head Revenue stamps recently issued. They are of a similar design to the current postage stamps but larger wmk. Crown C.C. Perf. 14.

6d., purple-brown and slate green
1/-, slate-grey and black
1/6, blue and slate green
2/-, marone and black

Bank Draft. A sub-variety of the 3d., blue surcharged "B. D." type *a* (see Dec. no. page 91) exists with the "d" separated further from the "3" in "3d" than usual.

Philippine Islands. *Recargo de Cedulas Personales.* Mr. G. W. Pepper possesses a 2½ c. d. peso, *orange-brown* of the usual type. Date of issue unknown.

Portuguese Indies. *Contribucao Industriel.* Mr H. J. Spencer has the postage stamp 2 tangas, carmine, of 1895, overprinted "60 reis" in yellow, with a second overprint in black.

A Monthly Paper for Collectors of

VOL. IV. DECEMBER, 1903. No. 12.

The Life Policy Stamps of Great Britain.

BY L. W. FULCHER.

(*Continued from page 83.*)

AS issued stamps the Life Policy stamps are known to collectors on four different papers.

(1) Paper wmk. Foul Anchor, wooden stock.
(2) ,, ,, Foul Anchor, single line stock.
(3) ,, ,, Anchor, 16mms. Imperf. and Perf. 12½.
(4) ,, ,, Anchor, 18mms. Imperf. and Perf. 12½.

These papers were used for the Draft, Receipt and Inland Revenue stamps together with certain other Fiscal stamps which for our present purpose, it is unnecessary to specify. Each sheet of these "Anchor" papers would accommodate four sheets of Life Policy stamps and were cut into four pieces for printing these stamps on. This fact doubtless explains how it is that the watermarks, at any rate on the first two issues, are frequently found upside down, for the quarter sheets of watermarked paper would have no definite top or bottom. The "Imprimatur" sheets at Somerset House do not include sheets of these Life Policy stamps on the different papers, nor should we expect to find them, especially as the paper is not definitely appropriated for Life Policy stamps. It is therefore difficult to fix a date of issue for stamps on the different papers, and, in fact, it is practically certain that each value appeared on the successive papers at dates dependent upon the exhaustion of the stocks in hand. The best guide in fixing dates of issue is afforded by the article on the different "Anchor" papers in the "Appendix to the Postage and Telegraph Stamps of Great Britain, by F. A. Philbrick and W. A. S. Westoby" in the *Philatelic Record*, Vol. V. p. 148. Here we find that the four papers above-mentioned were in use for the periods indicated in the following table.

Foul Anchor, wooden stock. 1853-1856
Foul Anchor, single lined stock. 1856-1865
Anchor, 16mms. 1865- ?
Anchor, 18mms. 1867-1880.

The dates which I append to the various issues in the Reference List at the end of this article depend upon the evidence of such dates of cancellation I have noted and they can only be regarded as the earliest dates which I have been able to find on any one value of the series included under such date. Where they differ from the above table it is probable that further research will bring them into closer agreement. From the details given last month of the sheets found at Somerset

House it will be seen that the values with Queen's head, Die 1, "Foul Anchor, wooden stock" paper were registered in Oct. 1853. As all the authorities are agreed in giving "1854" as the date of issue and I have seen no copy cancelled in "1853" I see no reason for altering the date as already fixed. It is however, worthy of notice that the 3d, and £1, Die 2, appeared first on this paper though they could not have been issued till 1860 at the earliest.

For the issue on "Foul Anchor, single line stock" the earliest date of cancellation I have seen is 31. xii. 185 ?, on the 1/-, value. The bulk of the dates I have noted are between 1862 and 1868, so that we may perhaps adopt 1859 provisionally. Cancellation dates of the "Anchor, 16mms. Imperf." run from 1865 to 1877 and of the "Anchor, 18mms. Imperf." from 1869 to 1877. The 1d. value of course could not have appeared before 1870, nor the 5/-, Die 2, before 1871. The latter stamp I have not yet seen on the "Anchor 18mms" paper, imperf. though I have little doubt of its existence as we find it on the same paper, perf. 12½. When it was decided to perforate the stamps, it seems that there must have been a stock of all the values in hand on both the "Anchor 16mms." and the "Anchor 18mms." paper and that these were perforated indiscriminately and in use simultaneously, for the cancellation dates which I have noted on these stamps all vary between 1872 and 1881 when the stamps became obsolete.

The stamps were abolished by the Act 44 Vic. c. 12, s. 44, which provides that after the 1st July 1881 adhesive stamps are no longer to be used for payment of the duty on Life Poilcies.

The Fiscals of Mysore.

II.

By E. W. Wetherell.

(*Continued from page 58.*)

I must humbly apologise for the long interval which has occurred between my articles on this subject the delay was caused by inability to obtain certain statistics until now.

The Court Fee Stamps.

There are four series of these

(I) The issue of 1872
(II) ,, 1882
(III) The native printed series } dates
(IV) The present issue } unobtainable

Series 1. These consisted of British Indian stamps surcharged "Mysore."

The first consignment was as follows.

1 anna, 120,000	1 rupee, 30,000	40 rupees, 600
2 ,, 30,000	2 ,, 15,000	70 ,, 600
3 ,, 3000	4 ,, 1500	100 ,, 300
4 ,, 33,000	6 ,, none	200 ,, 300
6 ,, 3000	7 ,, 1500	400 ,, 30
8 ,, 180,000	10 ,, 1500	700 ,, 30
12 ,, 6000	20 ,, 600	1000 ,, 30

These were issued to the Treasurer in November 1872, and issued to the public on the 1st Feb. 1873. They are in sheets of 30.

In Feb. 1874 a second consignment arrived in Bangalore from Madras where the surcharging was done, as Mysore at that period was included in the administration of Madras.

The second lot arrived in the following values and numbers.

1 anna, 60,000	12 anna 6000	7 rupees, 3000
2 ,, 30,000	1 rupee, 30,000	10 ,, 3000
3 ,, 3000	2 ,, 15,000	20 ,, 1500
4 ,, 30,000	4 ,, 3000	40 ,, 1500
6 ,, 3000	5 ,, 3000	70 ,, 1500
8 ,, 120,000	6 ,, none	100 ,, 300

The values 1 anna to 7 rupees were in sheets of 120 and the higher values in sheets of 80. No record of colour was kept. It is impossible therefore to say whether the 2 and 12 anna and 2 rupee stamps were all in one colour or in both.

These stamps were sent to local treasurers and many of them were damaged by ants and rains and then were sent back to Bangalore and together with the residue in hand were destroyed in April, May, and July, 1874. Unfortunately no record exists of the numbers condemned. From February 1874 an enormous number of stamps in many consignments arrived as per the list appended below. None of these stamps are now in the treasuries except a few of the 3 annas (an unusual value) of the 1883 issue (of which no account appears in the statistics). These may have been obtained separately. So far as I have been able to learn none of the values above 200r. of the first series were ever used, consequently if any of these are in existence they belong to the category of stamps prepared for use but not issued.

There are no types of surcharge but many of the letters show signs of wear. These are only trivial varieties and may be comfortably ignored. It is surprising that although many hundreds of thousands of these stamps have been used that none of them are common, the only common Court Fee stamps being certain values of the native prints.

EDITORIAL.

A Xmas Greeting to our readers! May the good cheer associated with this convivial time cause nothing worse than an attack of philatelic "Fiscalitis"! The Fiscal microbe is abroad in many forms, but the right one, gummed and perforated if possible, received into a suitable environment, will enormously increase and multiply and possesses many valuable properties producing a general exhilaration of the philatelic organism.

* * * * *

The sign of the times is indicated by the following letter:—

To the Editor of Morley's Philatelic Journal.
Dear Sir,

I am but a novice in fiscal philately and had no idea that the pursuit had assumed such dimensions as to warrant one of our leading daily papers announcing as an important event the publication of a list of revenue stamps. On the 14th inst. "The Daily Express" had for its placard news "Rosebery's Fiscal Catalogue": and much to my regret I was unable to obtain a copy of the paper. Can you give me any information as to the price and scope of the catalogue? Does it give all varieties perforations, watermarks, etc. of fiscals, with illustrations and prices of the same used and unused?

Yours truly,
Enquirer.

We would inform "Enquirer" that we fear the work named would not suit his requirements but we hope that in the near future something approaching his ideal may be available.

* * * * *

We have lately received two works of a very different character on which we should like to say a few words for the benefit of our readers. The first is entitled the "A.B.C. of Stamp Collecting." By F. J. Melville." This little book is intended as a guide to the beginner, young or old, in philately and contains chapters on the history, objects and technique of philately and many other matters relating to the hobby including a collection of the classical "yarns" anent famous collectors and notable finds. It is well illustrated with 19 plates of interesting stamps. Mr. Melville appears to us to have done his work excellently well, for the book is remarkably free from errors which are so often found in cheap guides to philately. We can confidently recommend it as a capital work to put into the hands of a youth just commencing to collect or for that matter for any beginner in our fascinating hobby. We have, however, to regret a serious omission. We do not find any mention in Mr. Melville's book of Telegraph or Fiscal stamps. Telegraph stamps are and have been for some time collected by "postage" collectors and at the present time—especially in view of the success of the Fiscal Philatelic Society (which is not referred to in the chapter on "Societies learned in Philately")—no guide for collectors can be regarded as entirely satisfactory which ignores these branches of philately. Even in the domain of philatelic literature—to say nothing of any works published in this country—the Boston Society's book on American fiscals is quite worthy to be ranked in the highest class. We trust that in a future edition, which we hope to see in a short space of time, Mr Melville will find means to rectify these omissions.

* * * * *

The second work "The Stamp-Fiends' Raid (in Philatelia's cause) A Philatelic Phantasy. By W. E. Imeson" is conceived in lighter vein and purports to be a "humorous and inoffensive skit on many hobbies of the day, chiefly Philately". It recounts the adventures—in verse—of two desperate stamp fiends, Will Wylie, Capt. H. A. C. and Capt. Paul Jones of the Guards but how it came about that Capt. Paul Jones slew Pedlar Jim for a "blood-red Cape" and many other adventures we must leave for the reader to discover. Though appealing in the first instance to the stamp collector yet the book is intended for the general public and a glossary of philatelic terms, &c., is appended for the latter's enlightenment. The book is suitable for the season. It is illustrated with "28 Pen-and-ink Perpetrations" by the author.

A correspondent favours us with the following remarks on the use of the Jersey Revenue stamps.

"Our chief Magistrate or Bailiff is paid £800 "a year from local funds, and to meet this "charge all Court Costs i.e. the fees for bringing "an action, for making an application to the "Court, passing deeds of transfer of realty etc. "are payable by means of adhesive stamps to "be bought only from our local States Treasurer, "and the proceeds of this sale of stamps is "applicable only to the payment of this salary "and not to general revenue. There are a few "other unimportant occasions when documents "require the Bailiff's signature and the fees for "obtaining this is paid in stamps."

APPENDIX II.

Table of minor markings, by which each stamp of printings from certain transfers can be identified.

Note.—The terms used are those given by Mr. Ewen in his History; and the stamps are numbered from left to right and top to bottom.

BELFAST AND NORTHERN COUNTIES RAILWAY.

Transfer I (printing 1)

1. Hairline under "B" and over "S" of "Belfast."
2. No clear marking.
3. Faint white dot to left of shield, under "A" of "conveyance"
4. Line under "IE" of "Counties" broken
5. Blot joining two perpendicular lines S E. of 3rd bar in right pillar.
6. Dot under centre of S.E. triangle. Line under left stroke of "H" of "Northern" broken.
7. Smudge to left of middle stroke of "E" of "Belfast"
8. Dot over "A" of "Conveyance."
9. Dot just under "O" of "Northern; also below line S.E. of "Railway."

Transfer II (printing 2)

The only specimens I have seen do not show the markings of any other transfer. They may be distinguished by the blotchy bluish olive green shade in which they are printed.

Transfer III (printings 3 and 4)

x (1 or 4) 2nd line broken S.W. of "B" of "Belfast."

2. White dot at bottom of 3rd bar in right pillar.
3. Line below top bar in left pillar broken; 2nd "A" of "Railway" broken.
5. Small white dot in middle of top edge of tail of "2" Dot between "EY" of "Conveyance."
6. Back of "C" of "Counties" broken.
7. Bottom bar in left pillar misshapen.
8. Dot joining 2 lines below "T" of "Counties."
9. Line broken to left of top of 2nd bar, left pillar.

Transfer IV (printings 5 and 6.)

Nearly all stamps have the blot removed from the bottom of "B" of "Belfast," sometimes causing this letter to be defective at S.W. corner.

Transfer V (printings ? 7 to 11)

1. Dot between "AN" of "and"; clear break in outline opposite top of right pillar.
2. Smudge above right stroke of "W" of "Railway." Right stroke of "A" of "and" too long.
3 Dot both sides of line above "S" of "letters." Top outline broken above "ERN" of "Northern."

x (4 or 8) Blot on right foot of 3rd bar in left pillar. Line below "Belfast" crossed at left end by small vertical stroke.

5. Left stroke of "A" of "and" broken. S.W. triangle patched up.
6 Coloured spot near left edge of S.W. triangle.
7. Large coloured dot on line below "GL" of "Single," and above 2nd "R" of "Northern". "FA" of "Belfast" joined.

y (8 or 4) White spot to right of N.E. corner of shield: Line above "D" of "and" broken.

Smudge on lines over "RS" of "letters."

All types except 3, 6, and 9, show a faint vertical hairline E of "Railway."

Transfer VI (printings 12 to 20.)

1. Top outline of N.W. triangle broken by white spot under "LF" of "Belfast."
2. White dot on upper edge of shield.
3. Lower outline smudged or dotted under "NT" of "Counties."
4. Minute white dot on left edge of shield opposite foot of "2"
5. No general distinctive marking.
6. Outline broken to left of "Counties."
7. 2nd perpendicular line from left too short at bottom.
8. Line broken to left of 4th bar in left pillar.

6 and 9. Bottom outline bent upwards at left end.

9. Left bottom corner rather defective.

Note.—Several of the printings from the 6th transfer are printed in 4 panes, each showing distinctive markings, and the first 3 issues, 12, 13, and 14, showed, in every stamp, dots under the "I" and "G" of "Single", which, with the exception of that under "I" in type 9, were all cleaned off, when the transfer was retouched before the 15th printing; but every printing that I have examined, except the 12th, shows the above mentioned defects in each pane.

BELFAST AND COUNTY DOWN RAILWAY.

Transfer I (Issues 1 to 3 ?)

1. White scratch on bottom bar in right pillar.

2. Outline broken E. of "County" 2nd line above "TY" of "County" broken.
3. Dot before "B" of "Belfast."
4. White spot at top of bottom bar, right pillar.
5. Outlines broken S.W. of "Belfast" N.E. of "County" and W. of 2 lowest bars in left pillar.
6. Left stroke of "N" of "Down" defective.
7. Stroke or smudge joining the 2 lines under 2nd bar, left pillar.
8. Line under "L" of "Letters" indented.
9. 2nd line over "L" of "Railway" faintly broken.

Transfers II, III, and IV.

As each of these were only used for one printing, I do not at present think it necessary to give their distinctive markings. The printing from the 3rd transfer can be readily distinguished by its emerald hue; while in specimens that I have seen from Transfer II the top outline in very faint and defective, and in Transfer IV it is clear and the same thickness as the lines below it.

Transfer V (printings 7 to 10.)

1. Dot on 2nd line above "T" of "County"
2. 2 dots at the top of N.W. triangle, near apex.
3. 2 dots in the middle of N.W. triangle; foot of "B" of "Belfast" broken.
4. Line broken N.W. of "R" of "Railway."
5. Line below "F" of "Belfast" broken.
6. Right stroke of "U" of "County" broken.
7. "L" of "Belfast" smudged and "B" broken at foot.
8. Dot before "BY."
9. Line in S.W. triangle broken above "F" of "for."

Transfer VI.

In every stamp, the 4th bar in left pillar touches the line beneath.

1. White blot on S.W. triangle above "DO" of "Down."
2. Line indented S.W. of left foot of "R" in "Railway."
3. No general markings.
4. Line broken to left of lowest bar in left pillar.
5. White dot on right edge of 3rd bar in left pillar. 2nd line broken to right of 5th bar in right pillar.
6. White smudge on upper edge of shield.
7. Dot on line below left stroke of 2nd "N" of "Conveyance."
8. 2nd line under "U" of "County" broken.
9. There is an almost imperceptible smudge on line below "ND" of "And."

SLIGO LEITRIM AND NORTHERN COUNTIES.

Transfer I.

Believed to have been only used for the first printing, which can be distinguished by its dark yellow green colour.

Transfer II (printings 2, 3, 4 ?)

In every stamp, the right outline is broken opposite the 5th bar in pillar.

4. Blot connecting top of 4th bar in left pillar with the line to right of it.
5. 2nd line above "H" of "Northern" broken. Top outline defective at left end.
6. Left outline broken opposite "CO" of "conveyance." Smudge under "D" of "And."
7. Coloured dot between the 2 lines W. of top of 3rd bar in left pillar.
8. White dot at S.E. corner of N.E. triangle.
9. White circle round shield broken opposite first "C" of "Conveyance"; N.W. corner of "O" of "Northern" broken.

x (1, 2, or 3) Blot on lines under "L" "Leitrim" and under "LI" of "Sligo." Dot under first "C" of "Conveyance."

y (1, 2, or 3) Right outline strong and unbroken except opposite 5th bar. Top outline weak and jagged above "LEIT" of "Leitrim."

Transfer III (printing 5)

Although only used for one printing, its shade can hardly be distinguished from the preceding, so I give the prominent distinctive marks. The right outline is clear, except on type 8: sheets were either perf: or imperf: on right side.

1. 2nd line above "Sligo" broken or indented near left end
2. Top outline thin above first "I" of "Leitrim."
3. No stop after "Sligo."
4. Thin stroke joining 2 lines N.W. of "Single," also top bar in left pillar to line to right.
5. 2nd line to left of top of 5th bar, left pillar broken.
6. Line above "O" of "Northern" broken.
7. Top bar in right pillar touches line above.
8. Bottom stroke of first "E" of "Letters" too short.
9. Left stroke of first "N" of "Northern" very defective.

Transfer IV (printing 6.)

Easily known by its dark grey colour.

Transfer V. (printings 7 and 8)

Both printings are in bright emerald, and can be distinguished by the stamps of the 7th issue being perforated all round, while the 8th are imperforate on the outer margin of sheet.

BALLYCASTLE RAILWAY.

It is not at present needful to write more about this line, as the printings from each transfer are in such distinctive groups of colours that no further means of identifying their transfer are necessary.

In publishing the above theories about the interesting "Carswell" letter fee stamps, I do so with a full sense of their shortcoming and probable inaccuracies. They are only theories, based on the official list printings received and issued. But my object will be fully achieved if it leads other collectors to look among their specimens for dated copies, and to communicate any discoveries they make to the editor, so that the early history of these Irish stamps may be at last cleared up.

I must also mention that the printer has been indulging in his annual Xmas joke at my expense, having this time cut out and lost all my introductory remarks on the Ballycastle Railway, and half of those on the Sligo one; an apparent hiatus between the first and second instalments of my article.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Notes on the Foreign Bill Stamps of Great Britain.

BY L. W. FULCHER.

THE Foreign Bill stamps, although some great rarities and even unobtainables are to be found amongst them, are for the most part the commonest of British Revenue stamps. Nevertheless, the careful philatelist who does not, as I fear is often the case, despise them on this account, will find employment for many a long hour and opportunity for much exercise of his patience in endeavouring to adequately represent them in his collection. Having spent much time lately in looking through a large number of these stamps and added the results of such investigation to the accumulation of former years I find that there is a good deal to add to existing lists of these stamps, and I publish these notes hoping that others will endeavour to fill the lacunæ which will be obvious to the reader.

The Catalogues, probably following Moens', give the date of the first issue as 1851. This is too early, as the stamps are registered at Somerset House on various dates in September 1854. I have seen many copies cancelled in the later months of 1854 so that there is no doubt but that they were issued soon after registration.

The design is, of course, well known, but is illustrated here and it is probably worth while to recall that in the first issue the value above and below the central oval is in uncoloured letters and figures. The sheet of stamps consists of 4 rows of 20 stamps and the dimensions of the sheet are as nearly as possible 525 x 280 mms. There are no marginal inscriptions or plate number. The paper itself is watermarked with 4 rows of 20 double lined "VR"'s, reading downwards, so that one should fall on each stamp. Along the upper margin is the inscription "Foreign Bill Stamps" in script letters over ten stamps, i.e. twice along the margin, with a small cross between the 10th and 11th stamps. Similarly for the lower margin. At each end is watermarked the facsimile signature "John Wood." The paper is more or less strongly bleuté and as the reason for this has been explained in an article on "British Foreign Bills" in Vol. I. p. 19, I need not repeat it here.

In the case of the values above 1/-, two or more are to be found on the same sheet, a fact which I believe has not been published before. Unsevered pairs of these stamps, if indeed any exist, are of extreme rarity; I do not remember ever having seen such, so that this fact could hardly have been discovered without reference to the Official Archives. All the values above 1/- are found on four sheets (1) the 1/4

and 1/8, (2) the 2/- and 2/6, (3) the 3/-, 3/4, 4/-, and 5/-, and (4) the remaining values.

In the first case the first ten stamps of the top row are labels of the values 1/4 and the second ten of 1/8. This is repeated in the second, third and fourth rows, so that the whole sheet consists of two blocks of 40 stamps each of the 1/4 and 1/8 values. A similar arrangement holds good for the 2/- and 2/6 values. In the case of the 3/-, 3/4, 4/-, and 5/-, the first and each succeeding row contains five labels of each of these values, so that there are 4 blocks of 20 labels of each value. The arrangement of the higher values is more complicated but will be evident at a glance from the diagram which I annex. From this it will be seen that the sheet contains 16 labels of 6/8, 12 each of 7/6, 10/-, and 13/4, 8 each of 15/-, and £1, and 4 each of £1 10s., £2, and £2 5s.

6/8	6/8	6/8	6/8	7/6	7/6	7/6	10/-	10/-	10/-	13/4	13/4	13/4	15/-	15/-	£1	£1	£1 10s.	£2	£2 5s.
6/8	6/8	6/8	6/8	7/6	7/6	7/6	10/-	10/-	10/-	13/4	13/4	13/4	15/-	15/-	£1	£1	£1 10s.	£2	£2 5s.
6/8	6/8	6/8	6/8	7/6	7/6	7/6	10/-	10/-	10/-	13/4	13/4	13/4	15/-	15/-	£1	£1	£1 10s.	£2	£2 5s.
6/8	6/8	6/8	6/8	7/6	7/6	7/6	10/-	10/-	10/-	13/4	13/4	13/4	15/-	15/-	£1	£1	£1 10s.	£2	£2 5s.

The colour of the stamps is purple and the perf. 16.

The second issue is of the same type as the first but the value above and below the central oval is in *red*. New plates were made for this issue and each sheet now only contains one value. Otherwise the number of labels on the sheet remains the same as before viz. 80 and in fact the only difference is that the sheet of each value bears a number in each corner, running from 1 to 25 for the 25 values from 1d. to £2 5s., the 1d., being numbered "1" the 2d., "2" and so on up to the £2 5s. which bears the number "25." Moens gives the date of issue as "March 1856" and the other catalogues follow this but I find all the values were registered at Somerset House on various dates between March and December 1855. The earliest is the 6d., which was registered on the 15th March 1855 and I possess a copy cancelled 10/4/55, so that I have little doubt but that the values appeared as the stocks of the previous issue were exhausted. The colour is purple as before, the paper more or less strongly blued and the perf. 16.

Two or three years afterwards the perforation was changed to 14. Our publisher gives 1858 as the date of change but I have a copy of the 7/6 cancelled 18/8/57 so that we must apparently put this back a year. This set, perf. 14, which may be regarded as the third issue, does not include all the values, the 1/4, 1/8, 2/6, 3/4, 6/8, and 13/4 having been dropped before the perforation was employed. Our publisher's Catalogue includes the 2/6 but I believe no copy is known and it is undoubtedly the best plan to omit it till a copy is actually seen. The £2 10s. and £5 values usually included with this set are really a later issue. I will take take these in there proper place. The paper for the earlier stamps of the third issue remains the same as before but it gradually becomes thinner and finally the blue-producing ingredient viz. the ferrocyanide of potash, appears to be omitted so that it is usual for collectors to make a set on what they term "thin white paper." I find from the experience gained in mounting my collection that it is rather difficult to decide what precisely is to be regarded as "thin white paper" in these stamps and I should recommend collectors to arrange these stamps in two series.

(1) Thick paper. Blued to nearly white.
(2) Thin paper. ,, ,,

I may say I have not copies of the 7/6 and 45/- on thin paper either blued or white. The former is catalogued in our publisher's Catalogue and I have no particular reason for doubting its existence on thin paper, the 45/- is not listed and in this case I expect does not exist, or it is highly probable that the value was dropped in 1860 or 1861 when the high value provisionals and the subsequent permanent stamps made their appearance. The fact that the value 45/- does not occur in subsequent sets strengthens this view. It may perhaps be worth while to mention that I have not got the £1 or £2 on thick paper though the probable reason is that I have not yet seen sufficient copies. The purple colour of these stamps appears to me to be more variable than in former issues but allowance must be made for the depth of the blueing of the paper which tends to produce an appearance of greater variability than really exists. As it is, I think the main variation is merely from deep to pale purple, in the case of the 1/- value, however, I have a copy which seems to me to be a true "mauve."

In the year 1860 apparently a need for values of higher denomination than £2 5s. arose and pending the preparation of permanent stamps, three provisionals of the values £2 10s., £5 and £10 were prepared. For the £2 10s. value the "Bill or Note" Duty die of this value (Die A) used for impressing papers was struck in pink on bluish unwatermarked paper and overprinted "FOREIGN BILL" in brown block letters in two lines. No record exists as to the number of stamps or their arrangement in the sheet. There were black dividing lines between the stamps. For the other two values, the "General Duty" dies of £5 (Die G) and £10 (Die D) were similarly employed. These stamps were brought into use on the 17th August, 1860, though the single specimens of them which only are found in the Official Archives were not registered till the 30th April, 1861.

Marine Policy Stamps.

THE Marine Policy stamps of Great Britain are rather a troublesome class of British Revenues and are at present listed very inadequately. At the December meeting of the Fiscal Philatelic Society when the task of cataloguing them was begun various questions which arose evoked an extremely lively discussion, and we venture to introduce the points at issue to a wider circle of collectors so that any who wish may have their say in the matter. In attacking the first issue the problem at once arises "Are the stamps complete without the blue overprint?" Before we proceed to answer this question let us recall the successive overprints or obliterations as they appear. First we have the blue overprint already referred to. It consists of an oblong with rounded ends bearing the words "POLICY OF INSURANCE" above and "28 & 29 VICT. CAP. 96, SEC. 15." below, there are also date plugs. There are two dies, one without letter and the other with letter "B", the latter being much the commoner of the two. This was succeeded in 1879 (on the red stamps) with an oval obliteration bearing the same lettering with the date in the centre. When the blue stamps come in we find again an oblong with rounded ends bearing the words "MARINE POLICY" above and below and date plugs but no die letter. Concurrently with this appears the same overprint as on the first issue but with die letter "O" or "L". Now single copies of the first issue are found at Somerset House registered *with the blue overprint across them* and the overprint is especially referred to as the *denominating die*. It is our opinion, therefore, that the stamps are not complete without the denominating die. This, of course, necessitates the collection of the stamps on pieces of original sufficiently large to show the whole of the denominating die and as many collectors have removed the stamps from the documents their prejudices are naturally against this view. But still philatelists must show the complete stamp and if unsightly it be in our albums we can only regret the fact. To our mind the fact of the oval obliteration coming in, about 1879, on the red stamps, indicates that the "*denominating die*" was given up by the authorities and on the blue stamps is merely to be regarded as an obliteration. In the case of these blue stamps it is well known that they are used for other purposes such as on Share Transfers—we should be obliged to any one who can furnish a complete list of the duties for which they are available—and we think the Society rightly came to the conclusion to catalogue them as "General Duty" stamps. We must confess it is curious that the old overprint "POLICY OF INSURANCE" turns up again on these stamps, with die letters "L" and "O". Why are no other letters between "B" and "L" found and generally what is the significance of this overprint as distinct from that labelled "MARINE POLICY"? Here is a problem we must leave in the hands of our readers.

Mexican Talons.

The Secretary of the American Fiscal Society of New York City on behalf of the Society communicates to us a new discovery with regard to the use of the "Talon" on the Mexican Revenue stamps. There has been a great deal of discussion as to whether these stamps should be collected with the Talon intact or whether it is allowable to treat the stamp and its talon as separate entities. The new discovery is that the stamp when used on a Bill, is found on the first of Exchange while the Talon is placed on the Second of Exchange and a pair of Bills unsevered has been sent to us showing stamps so placed that when separated the First of Exchange would only show the stamps while the Second would bear the talons. The Society claims that this fact proves that the stamp and the talon may be collected separately. This is an interesting discovery but we doubt whether it proves the claim made. The ideal would surely be to collect the stamps as issued, that is with the talon unsevered. All the same, as very few collectors are likely to acquire the stamps in mint state, most of us will have to be contented with the talon separated from the stamp.

Berlin Exhibition, 1904.

We have received a communication from Dr. H. Lux informing us that a number of leading German philatelists propose to hold an International Philatelic Exhibition in Berlin, from 25th Aug. to the 4th September 1904. The preliminary programme, which lack of space prohibits our giving in full, shows that the Exhibition will be divided into three sections.

I. General Collections. II. Special Collections.
III. Accessories of all kinds (Literature, Albums,) &c.

Fiscal and Telegraph stamps find a place in the division H of Section II. 1 gold and several silver and bronze medals will be awarded in each group.

Any of our readers interested in the matter should communicate with Dr. H. Lux, Berlin-Friedenau, Hauffstrasse 8.

BRITISH RAILWAY STAMPS.

By "K."

The Highland Railway.

IN previous articles on the railway stamps of Great Britain, I have so far dealt for the most part with those of England, which are fairly well known and easily collectible. Wales and Scotland present a far harder task to the chronicler of philatelic history. The comparative inaccessibility of the district where most stamps have been used has, no doubt, prevented early collectors from obtaining specimens as freely as they did those of the great English lines, while the complexity of the many different subissues and series, and the lack of detail in existing catalogues, have perhaps discouraged recent collectors from attempting an apparently hopeless task. For my being enabled to present the following sketch of the history of the stamps of the Highland Railway, I am much indebted to the Secretary of the Company, who has courteously furnished me with information as to the existing issues, without which this article would be of little use; and to Mr. Moens' catalogue, from which I have taken the dates and values of the earlier issues, although in one case only have I included an issue of which I have not seen at least some specimens myself.

The stamps of the Highland Railway may be roughly divided into three main types. Type I is small rect. 32 x 29 mm., and the words that do duty for the design are encased by a straight lined border. Type II is very similar, but the border is composed of florets, or rosettes. Type III is large rect., 46 x 40 mm. All are perforated. The illustrations given next month of type I & III will render it easy to identify the three types.

It is probable that the company first issued parcel stamps about 1864. The design consisted merely of the value, title, control number, and three lines of instruction beginning "to be called for" etc. To simplify description, I call this original wording State A. In 1865 a similar set appeared for the affiliated "Inverness and Perth and Inverness and Aberdeen Junction Railways," and in 1867 for the Perth and Inverness branch of the Highland Railway. About 1874 it was found necessary to add the words "open at both ends" above the original wording, evidently to prevent written matter being forwarded at newspaper rates. This I will call State B. In 1874 and 1877 sets were issued not only for the parent company, but also with appropriate wording for use on various sections of the line. About this time, too, the design of types I and II was further modified by the words "Carried at owner's risk" being added above the instructions at bottom. (State C.) I assume that the sets for "Perth, Keith, and Bonbridge," "Golspie and Helmsdale," "West of Dingwall," and "Bonar Bridge and Golspie," were first printed in State B, and replaced as the original stock ran out, by State C, but have little proof, so far, in support of this theory.

A few years later, possibly about 1885, a new set of parcel stamps was issued for use over the whole Highland railway system, and it has gradually displaced all the older series, which are now extremely hard to obtain, as no remainders are on hand.

Separate sets, however, have since been issued for the "Highland and Wick and Lybster" branch, the "Wick and Lybster," the "Invergarry and Fort Augustus," and the "Dornoch Light Railway." The latter, except that it bears the curious values 01d., 01½d., etc., is of similar type to the parent line. The remainder show yet a fourth state (Type I), (II), the words "open at both ends" being omitted.

THE FISCAL PHILATELIC SOCIETY.

MEETING held November 5th, 1903. Present—Mr. Schwabacher (chair). Messrs. Fulcher, Marsh, Morley, South, Thompson, Thomson, and Kay.

M. A. Schoeller (France) was duly elected a member.

Among the novelties shown were a 7/6, Basutoland and the handsome newly issued fiscals of Orange River Colony, by O. Marsh; a £5, Bechuanaland Protectorate, and £5, violet surcharged Zululand by A. B. Kay; and photographs of provisional 2a. on 18R. Foreign Bill and 2a. on 40R. Special Papers, Indian, by W. Corfield.

The fiscals of Peru were again taken, and the remaining issues (tobacco) will be catalogued at the next meeting. The Marine Policy stamps of Great Britain will also then be listed.

Sheets for the Home and Continental Exchange Sections should be fowarded to the Secretary by the 25th. of each month.

The Second Annual Report has now been issued and copies, giving full particulars respecting the objects and work of the Society, can be had from Hon. Sec.,

A. B. Kay, 2, Haarlem Mansions,
West Kensington, London, W.

Meeting held December 3rd, 1903.

Present—Mr. Schwabacher (chair), Messrs. Fulcher, Marsh, Morley, South, Thompson, Thomson and Kay.

Several unchronicled varieties of fiscals were submitted by A. E. Lawrence, and A. B. Kay showed a previously unknown English Cocoa Tax Label.

The Marine Policy stamps of Great Britain were taken.

Received for library, "Filatelia" (July); "Revista S. F. Argentina" (Sept. and Oct.).

Will members whose subscriptions are outstanding kindly remit same wiihout delay. Vide Rules 4 and 5

The sales from the Home packets of the Exchange Section have lately been very satisfactory. Upwards of £23 was taken from the September packet (value £69), and over £21 from the October selection. The December packet, amounting to £94, has lately been sent out. Will members send sheets regularly by the first of each month.

Any interested in fiscal stamps should apply for Rules &c. to the Hon. Sec.: A. B. Kay.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Brazil. The bulk of the following addenda and corrigenda to the Supplement Catalogue of Brazil come to us from Dr. Manoel Ramos but Messrs. Morley and A. Baillière have also contributed.

We are indebted to Mr. A. E. Lawrence for the above-mentioned stamps.

Cuba. *Habana. Sello Movil.* Mr. A. E. Lawrence sends what we believe to be the first fiscal issue for the Republic of Cuba. Value in circle in centre, above, "Impuesto Provincial", below "Sello Movil, Habana". No wmk. Perf. 11½.

2 cent., blue-green.

Cundinamarca (*Colombia*). Monsieur A. Baillière informs us that he has the undermentioned values of the 1859 issue, Type 389 of our Supplement Catalogue.

2p. 40c., ,,

Dominican Republic. Mr. G. W. Pepper notifies the following varieties:

1c., red. Value in block caps, but with "v" of "CENTAVOS" a Roman cap.
5 cts, green. "CTS." in Roman caps., without stop.
5 pesos, red. Value in block caps. spaced "CINCOP ESOS".

Germany. *Lotterie.* Her Köhler submits the current 50c., grey-blue with red overprint, *Stempel Abgabe*, double stamp, each half of which has been surcharged with the Roman Cap. "L" in black, and states he has also seen the 1, 2 and 5 marks. Other values probably exist. Perf. 13 x 12.

50c., grey-blue and red (black sur.)
1 mk., ,, ,,
2 ,, ,, ,,
5 ,, ,, ,,

Great Britain. *Land Registry.* Herr Köhler notifies us that he has the 6d., Die U, and 1/-, Die E, of the 1862 issue, perf. 12½, while Mr. Morley has the 1/-, Die F, with the same perforation. The stamps do not appear in our publisher's Catalogue though the whole set perforated is listed in Moens', who does not give them imperf. Probably all values exist both imperf. and perf.

Prepared Cocoa. Mr A. B. Kay has unearthed a curiosity in the shape of an old stamp for a duty on "Prepared Cocoa". The general character is that of a Medicine label stamp. The central division contains a Crown and G.R. IV in oblong oval in centre with the words "EXCISE DUTY" above and "ACT" below on curved labels. A small curved label below bears the inscription "3d. Geo. IV. chap. 534." The oblong portions of the label at sides bear the inscription "Prepared Cocoa, ½ Pound, 3d." in a straight label on a groundwork of interlacing circles printed in black and red. Yellowish wove paper. No. wmk. Imperf.

3d., black and red.

Guatemala. Mr. G. W. Pepper has discovered the two under-mentioned provisionals *with inverted surcharge.*

1c., blue, sur. "1901" in red
25c., "1901" black sur. on 50c., orange

Mr. Pepper also notifies the 10c., green, surcharged "1902" in violet.

Honduras. 1903-04. Mr. G. W. Pepper submits two values of the types chronicled by us in March and May last printed in black on a paper bearing a pattern of interlaced double circles of two sizes, the larger ones having a star in the middle. Perf. 11½.

5c., black on yellow, pattern grey.
10c., ,, slate ,, purple.

Mexico. *Renta Interior* (*Jalisco*). Mr. A. E. Lawrence submits the 10c., deep green, 1887-88 surcharged with handstamp "HABILITADO 1880-1889" in *carmine*. The type of the surcharge is different to that on those already listed. The stamp also bears the overprint "JALISCO" in black.

Orange River Colony, We illustrate the type of the King's head Revenue stamps recently issued.

Peru. 1903-1904. Mr. A. E. Lawrence sends us the 1 sol value of this issue Type, etc. as last.

1 sol, brown.

Queensland. *Stamp Duty.* The S. C. F. notes a new type of the King's head, 2d, carmine. The most striking difference is that the value is in larger letters. The new stamp is also about ½mm. shorter than the old one.

Salvador. Mr. A. E. Lawrence has discovered varieties of type in the 50c. and 1p. of 1883. In the case of the 50c. the newly discovered type may be easily distinguished by the following criteria (1) The end of the tail of the "5" in the value "50" in central shield is turned down; (2) the word "CENTAVOS" is larger; (3) the "A" of "REPUBLICA" has no bar. There also other differences especially in the wreath below the central shield. The second type of the 1 peso, black has a reversed "N" in "UN" of the value "UN PESO".

Transvaal. *Pass, 1899.* Our publisher has discovered an issue previous to those yet catalogued. The type is very similar to that of what has been hitherto known as the first issue but may be distinguished by the fact that all the lettering is in black and the value is in a rectangle in the centre. Perf. 11½.

6d., black on white.
1/-, ,, blue.

Notes on the Foreign Bill Stamps of Great Britain.

BY L. W. FULCHER.

(*Continued from page 3.*)

THE permanent stamp of £2 10s. of the type of the third issue was registered on the 21st January, 1861, and the £5 on the 1st July, 1861. The sheets of these two stamps are in all respects similar to those of the 1855 and 1857 issues except that they each bear a plate no. "1," which occurs on the left margin about a third of the way down the corner stamp and in a corresponding position in the lower right corner of the sheet. I have not found either of these stamps on the thick variety of the paper.

The next issue consisted of 17 values in 3 types of a smaller size, one for the pence values (see illustration), one for the shillings and one for the pounds. The types for the pence and pounds have only lately been superseded while that for the shillings lasted until 1881. The sheets for the 3d., 15/- and the £2 10/- (one value in each type) were registered in the Official Archives on the 5th August, 1870, and the remaining values in December of that year except the £5 which was not registered till the 27th January, 1871. The year 1871 is usually accepted as the date of issue and seems to be correct, though it would be possible for one of the three values first registered to have appeared earlier. The sheets of all values measure 237 x 383 mm. in size and contain ten rows of ten stamps, 100 labels. Above the two corner stamps on the top row and below the two corner stamps on the bottom row is the value in figures. Above the second stamp of the top row and below the ninth stamp on the bottom row is the "current no." in an octagon while above the ninth stamp on the top row and below the second stamp on the bottom row is the plate number. On the side margins between the 6th and 7th stamps of the first and last columns is a small ornament. The Plate no. is "3" for the 1d. and 2d. and "2" for each of the remaining values up to £5. The paper is a hard crisp paper, watermarked with ten rows of ten single lined "V R"'s, so that one falls on each stamp. Along the top margin the wmk. consists of the facsimile signature "W. H. Stephenson" and "Inland Revenue" with a cross between which falls opposite the space between the 5th and 6th stamps of the top row. The same wmk. appears on the lower margin of the sheet, but, of course, is seen inverted when the sheet is held in the proper position. On the left-hand margin, reading upwards and on the right hand margin, reading downwards, we have similarly "MARK." (in double lined caps.) "W. H. Stephenson" "Inland Revenue."

As issued stamps the pence values appeared first in a "lilac" of a greyish shade which gradually gets redder as the issue proceeds. The paper is at first thin and crisp but later, especially about the year 1880, becomes denser and rather thicker. All values are found on "bleuté" paper. The bluing appears on the earliest stamps and also on the latest in which it is most marked. The perforation is 14, but the 9d., may be found perf. 12½ while the 6d. is catalogued by Moens, imperf. I have not seen the last mentioned and do not know whether it is to be regarded as a proof or as an issued stamp. The shilling values are usually found printed in "reddish purple" on a thickish glazed paper tinted on the surface with a pale shade of the same colour but quite early in the issue, in 1871 as far as I can judge from cancellation dates, there was an issue in "deep purple" on thick highly glazed bluish paper in which the watermark is scarcely visible. A peculiarity of these stamps is that either owing to the colour in which they are printed or to the paper on which they are printed the surface is friable and the stamps, especially those in deep purple on blue paper, are very easily damaged by friction or damp. The pound values are found in a full "green" on highly glazed paper tinted with a pale shade of the same colour. I have one value, the £1 10s. in a yellow green shade on paper not so highly glazed but I am doubtful whether this is a genuine shade or one due to atmospheric agencies. Mr. Preston Pearce has chronicled the £1 and £5 values on blue paper. I have not yet come across these stamps but I have no doubt of their existence and probably the other three values will also turn up in like condition. The shilling values in "purple" and the pounds in "green" had a very short life. According to the official records "It was found . . . . that the "action of the ink in cancellation obliterated the lettering to some extent and that "the effect was more marked in the case of the purple stamps than in that of the "green. As, therefore, the lettering on the shilling (purple) stamps was smaller and "consequently more easily defaced than on the pound stamps, it was decided to "transpose the colours of these two series." The stamps were not registered again in the transposed colours but a sheet of the 1/- in "dark yellow green" and of the £1 in "purple" are found in the Archives, with the note which I have already quoted appended. The date of issue is usually given as 1872, but I have the 3/- value cancelled in "1871" and have seen several other values used in January 1872, so that the date of issue must go back a year. It appears then that the "purple" shillings and "green" pounds lasted barely a year and I am inclined to think they are much rarer stamps than collectors generally appear to imagine, especially if we take into consideration the difficulty of securing satisfactory copies without a damaged surface. The "green" shillings and "purple" pounds are an intricate series for the earnest philatelist. I have spent many hours on these stamps and have endeavoured to unravel the order of issue of several marked printings, the details of which I must postpone to my next article.

The Revenue Stamps of Guernsey.

AT the end of October, 1903, four values of Revenue stamps were issued for the island of Guernsey to meet the requirements of the new law relating to Stamp Duties which is reproduced below. The stamps, which were chronicled in this journal in the number for last November, are all of the type illustrated and represent Messrs. Waterlow and Co's best work. It may be useful to recall that they are printed on unwatermarked paper and are perf. 13½-14, while the values and colours are as follows :—

1d., mauve
8d., green
1/3, vermilion
2/6, ultramarine

LAW RELATING TO STAMP DUTIES.

Sanctioned by an Order of His Majesty in Council dated the 10th day of August, 1903, registered on the Records of this Island on the 29th day of August, 1903.

1.—A Stamp Duty is established on all instruments specified in the annexed Schedule, which may be passed or signed after two months from the date of the registration of this present law, according to the Tariff contained in the said Schedule.

2.—On instruments signed by the Court and on instruments of which the value of the necessary stamp exceeds two shillings and sixpence sterling the stamp shall be impressed when practicable, adhesive stamps may be used for other instruments.

3.—All instruments passed or signed for the benefit of His Majesty's Government are exempted from Duty and the formality of being stamped.

4.—Societies, Companies and Individuals who desire to avoid the necessity of affixing and obliterating adhesive stamps on cheques, receipts, discharges and other similar instruments are required to deposit these forms and to pay the duty at the States Office where the stamps will be impressed.

5.—If any instrument liable to Stamp Duty be produced before the Court, or a Commissioner of the Court, or any Public Officer or functionary, without bearing the necessary stamp or insufficiently stamped, it cannot be accepted or admitted as legal proof of its contents, except in criminal proceedings. It shall, however, be permissible for the bearer of such instrument to affix thereto or to cause to be impressed thereon the necessary stamp upon payment to the Treasurer of the States of a fine of £5 sterling in addition to three times the value of the Stamp which should have been affixed thereto. Upon the stamp being affixed or impressed and the fine being paid, the instrument in question may be accepted and admitted as evidence.

6.—Any person who shall take from an instrument a stamp which has already been used with the intention of using such stamp again or of selling it or of offering it for sale for that purpose, or who shall knowingly make use of a stamp which has already been used may be produced before the Court sitting as a Police Court, and shall be liable to a fine not exceeding £50 sterling, and in default of payment, to a term of imprisonment not exceeding two months.

7.—Any person who shall counterfeit a stamp which is established by virtue of this law, or who shall knowingly make use of a counterfeit stamp, shall be guilty of felony and shall be liable to the pains and penalties imposed for forgery.

8.—It is forbidden to register and to enroll on the Public Records any document subject to stamp duty which does not bear the Stamp prescribed for by this Law, under the penalty of a fine at the discretion of the Court, which shall not exceed £10 sterling.

9.—In the event of a stamped instrument not being used, the person whom it may concern may obtain reimbursement from the Treasurer of the States of the value of the stamps attached thereto or impressed thereon, less five per centum, upon delivery of the instrument in question, provided that the request for reimbursement be made within two years from the date of the said instrument.

10.—The Person who shall sign or issue any instrument liable to stamp duty, or for whose benefit the said instrument is presented or delivered, shall be the person who shall provide and pay for the stamp.

11.—Any instrument liable to stamp duty must be stamped within two months from the date of issue.

12.—No instrument liable to stamp duty bearing a date posterior to that of the promulgation of this Law shall be received by His Majesty's Greffier for registration, nor shall it be admitted as proof of its contents unless it be stamped.

13.—The Royal Court is authorised to pass such Ordinances as it may deem necessary to put into execution the dispositions of the present Law.

14.—One half of the fines shall be awarded to His Majesty and one half to the States.

EDITORIAL.

Swazieland Fiscals.

THE Swazieland fiscals described by Mr. Kay in our October number have aroused the attention of several fiscal collectors but they do not seem to have inspired confidence in all quarters. The sudden appearance of a number of labels of primitive design and exceedingly crude execution after the lapse of ten years or so is not so much against their authenticity as if they had been postage stamps, for fiscal collectors have often to wait for documents to mature before the stamps are available for their collections. Nevertheless it is well to be cautious and as we have been favoured by some correspondence which raises points for and against these stamps we think we cannot do better than present these to our readers in the hope that further evidence will be forthcoming to settle their status definitely. A South African collector writes "during the last ten years and even "longer, very many legal documents executed "and passed in Swazieland have been examined "by me and since the receipt of the October "number of your journal, I have examined "Deeds of Transfer (i.e. Conveyance of Land, "etc.) executed at the office of the Resident "Adviser and Agent at Embekelweni bearing "date August 1891, November 1892, December "1893 and December 1894 etc., that is to say "over a period covering almost the whole "period of issue of the Fiscals, yet not a single "one of these deeds or any others which I have "seen bear either the stamps now chronicled "or any other stamps. The deeds I have "examined are absolutely genuine and com-"plete without doubt or question, they being "current titles and many of the deeds being "executed by Attorneys-at-Law (i.e. Solicitors) "practicing at Bremersdorp. The Deeds of "Transfer were executed and signed before "Mr. Wm. C. Penfold who signed for "Mr. "Theophilus Shepstone; Resident Adviser." Furthermore the values 4/- 6/- and 7/- are said to be most unusual values for legal purposes in that quarter of the globe and we have no official Proclamation or other document issued by the Swazieland Government Committee notifying the issue of the stamps and setting forth the Schedule containing the tariff. On the other hand it is stated that there were two methods of collecting revenue in Swazieland. The real revenue of the country especially the costs of transfers of landed property was collected by the Agent and Adviser Theophilus Shepstone (W. C. Penfold being his Secretary) in cash, no stamps being used. In 1890 when the Swazieland Government Committee was appointed, a High Court and a Magistrates Court (Landrost) were established by them. The High Court went through all grants and concessions, about 500 in number, given by the late King Umbandine to white people and mostly confirmed them. All the costs of these confirmations as well as all the documents in Court, viz. the original grants, declarations, translations, &c. had to bear a revenue stamp after a fixed tariff and for this purpose the Revenue stamps in question were made. This as well as the fees from the lower court (Landrost) formed the source of the revenue of the Swazieland Government Committee. Hence no stamps would be found on Transfers. Apparently the postage stamps of Swazieland were used for a time when the Swazieland Government Committee was first appointed but as the Revenue raised by the use of these went to the Transvaal they were soon given up. Here, then, we have some of the pros and cons. We shall be glad to hear more on the subject and will some South African collector favour us with a copy of the High Court tariff of Swazieland during the period in question.

S. Nigeria Postal Revenue.

Postage stamp collectors will be interested in the following extract from the *Annual Colonial Reports, No. 405. Southern Nigeria—Report for 1902.* 'It will be noticed . . . . that the revenue "advanced from £1931 in 1900 to "£3577 in the succeeding year, "and to £4846 in 1902. The in-"crease mentioned is due to the "larger amounts received under "Gross Receipts from Letters, Post Cards, "Newspapers. Books and Parcels" under "which head of the Postal Revenue is included "the sales to collectors of stamps. The know-"ledge that the Victorian stamps would soon "cease to be sold by the Post Office naturally "increased the purchases made by stamp "collectors, and the amount of purchases of "stamps therefore during 1901 and 1902 is "probably in excess of the amount which can "be relied upon in future years; the stamp "sales to dealers amounted to £1816 in 1901, "and £2819 in 1902. . . . . If the purchases "by stamp collectors are eliminated from the "Postal Revenue of 1901 and 1902, it will be "found that the revenue shows an increase of "£115. . . . . The increase of £115 men-"tioned, would of course have been insufficient "to convert the deficit into a profit, but if the "sales to collectors continue at a greatly re-"duced rate, say at the rate of £300 a year "only, in future years, the Postal Department "will pay its way."

THE FISCAL PHILATELIC SOCIETY.

MEETING held Thursday, Jan. 7th, 1904 Present Mr. Schwabacher (chair)—Messrs, Fulcher, Köhler, Marsh, Morley, Thompson, Thomson, and Kay.

Messrs. L. Greenburg, H. P. Harris, W. E. Long, and H. B. Phillips, were duly elected members.

The resignation of M. E. S. Auscher was accepted with regret.

The fiscals of Peru (Tobaco) and Marine Policy stamps of Great Britain were discussed and catalogued.

Received for library:— "Filatelia" (Aug and Sep.), "Sterling Monthly" (Nov.), "Revista" S. F. Argentina (Nov.),

BRITISH RAILWAY STAMPS.

By "K."

(*Continued from page 6.*)

Type 1c

Type 3

THE HIGHLAND RAILWAY—*continued.*

THE perforation of this company's stamps has been very consistent. As far as I can see, all the early issues were perf. 12½. About 1885 the 12 gauge was brought into use, and 15 years later this was replaced by an 11 one. Detailed description of the subjoined varieties is not necessary, as they all fall under the 3 main types, and are very easily distinguishable.

Highland Railway.

Issue 1. 1864. Type 1A, p. 12½. ¼d., black on fawn, ½d., red, 1½d., black on green, 3d., black on rose, 4½d., 6d., black on lilac.

Issue 2. 1874. Type 1B, p. 12½. ½d., red, 1½d., black on green, black on pale blue.

NOTE. A variety of the ½d., is known with no line under "Open at both ends."

Issue 3. 1885? Type 1C, p. 12. Black on white. ¼d., ½d., 1d., 2d., 3d., 5d., 7d., 9d.

1900. p. 11. ½d., 1d., 2d., 3d., 5d., 7d., 1/-.

The shilling is from a redrawn die, with a double lined border.

Highland Railway, between Perth and Inverness.

1867. Type 1A, p. 12½. 1½d., black on white, 3d., black on yellow, 4½d., black on blue, 6d., black on fawn, 9d., black on grey.

Highland Railway, twixt Perth, Keith, and Bonbridge.

1874. Type 1B, p. 12½. Black on white. ¼d., ½d., 1d., 2d., 3d., 4d., 5d., 6d., 7d., 8d., 9d., 10d., 11d., 1/-.

1875. Type 1C, p. 12½. Black on white. ½d., 1d., 2d., 3d.

Highland Railway, twixt Perth, Keith, Strome, and Bonbridge.

Type 1C, p. 11. Black on white, ¼d.

Highland Railway, West of Dingwall.

1874. Type 1B, p. 12½. Black on rose. ¼d., ½d., 1d., 2d., 3d., 4d., 5d., 6d., 7d., 8d., 9d., 10d., 1/-.

1875. Type 1C, p. 12½. Black on rose. ¼d., ½d.

Highland Railway, Thurso and Stromness.

1874. Type 1C, p. 12½. Black on blue. ¼d., ½d., 1d., 2d., 3d., 4d., 5d., 6d.

Highland Railway, Wick and Lybster Joint.

1900. Type 1D, p. 11. Black on orange. ½d., ¾d., 1d., 1½d., 2d., 4d., 6½d., 9d.

Highland Railway, Golspie and Helmsdale.

1874. Type 2B, black on fawn. ¼d., ½d., 1d., 2d., 3d., 4d., 5d., 6d.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Brazil. We continue the addenda unavoidably held over from last month.

India. *Small Cause Court, Calcutta.* Mr. W. Corfield has kindly submitted to us a whole crowd of newly discovered provisionals and has notified a few other varieties which he possesses. There appear to be several varieties of these surcharges and we give as accurately as we can the height of the surcharge in mm. (first of "S.C. COURT" and secondly of "CALCUTTA") but, on the Foreign Bill stamps especially, they are very difficult to measure as the ink has a tendency to spread beyond the limits of the letters. The dates of cancellation are given where possible. (1) "Foreign Bill" stamps surcharged "S.C.COURT.—CALCUTTA" in black Roman caps. in two lines at the top over the words "FOREIGN BILL"

4r., purple, 3mm. and 2½mm. 17/8/69
6r., ,, 2½mm and 2mm 2/6/71

The surcharge on the 4r. is in thinner caps. and occupies less space horizontally than that on the 6r. The 6r. is slightly bleuté while the 4r. is on white glazed paper.

(2) "Foreign Bill" stamps surcharged "S.C. COURT." at top and "CALCUTTA" below, the former covering the word "FOREIGN" the latter the word "BILL"

(a) On bleuté glazed paper
4as., purple, 3mm and 2mm. 26/4/70
4as., ,, 2½mm. and 2mm. 21/4/70
2r., ,, 3mm and 2½mm. 2/3/70
2r., ,, 2½mm. and 2mm. 10/9/69

(b) On white glazed paper
2as., purple, 3mm. and 3mm. 5/4/71
2as., ,, 3mm. and 2½mm. 24/3/70
1r., ,, 3mm. and 2½mm 22/9/69

(3) "Foreign Bill" stamps surcharged as last, but with value altered by additional surcharge
(1) "SEVEN" horizontally on the word "TWELVE" (black sur).
7r. on 12r., purple, 3mm. and 2mm 21/4/70
(2) "SEVEN" in a curve on the word "TWELVE"
7r. on 12r., purple, (sur. black) 3mm and 3mm. 15/9/69
7r. on 12r., purple (sur blue)
7r. ,, 12r., ,, (,, red)
7r. ,, 12r., ,, (sur. twice in black and once in red)

(3) "NINE" horizontally on "EIGHTEEN" (black sur.)
9r on 18r., purple 2½mm and 2½mm. 1/4/70

(4) "Foreign Bill" stamps surcharged in a curve, letters of "S.C.COURT-CALCUTTA" all 3mms. high. The second stamp is further surcharged "NINE" with a star before and after this word, on the word "EIGHTEEN."
2r., purple. 14/11/73
9r., on 18r., purple 23/6/73

(5) "Special Papers" stamps surcharged "S.C.COURT-CALCUTTA."
(1) Reading upwards at sides
30r., lilac on bleuté. 3mm and 3mm. 25/5/69
50r., ,, ,, ,, 2½mm and 2mm.
5r., lilac (1868 issue) 3mm and 2mm. 26/4/71
(2) Reading downwards at sides

10r., rose 2½mm and 2½mm 14/11/73
20r., bistre 3mm. and 3mm. 26/4/71
20r., bistre 3mm. and 2½mm. 21/9/70
30r., orange 3mm. and 2mm 12/7/71
50r., grey 3½mm. and 2mm. 16/9/70
50r., grey 3mm. and 2mm. 22/4/70
Error of surcharge "C.S.COURT" for "S.C. COURT."
20r., bistre

(6) "Receipt" stamp surcharged "COURT OF S CAUSES—HALF ANNA" and ditto "ONE ANNA" in a double circle. Perf. 15½ x 15.
½a. on 1a., lilac on tinted 29/4/70
1a. ,, 1a., ,, ,, 15/6/69

(7) "Revenue" stamp surcharged "S.C.COURT-CALCUTTA" letters 2½mm high in two llnes at the top of the stamp. Perf. 15½ x 15.
1a., lilac on tinted 7/11/73

Mr. Corfield also sends us the provisional foreshadowed in the November no. viz; the Special Adhesive surcharged "SMALL CAUSE COURT CALCUTTA." The Special Adhesive is of similar design and colour to the current shilling values King's head unappropriated dies in use in this country and bears the words "SPECIAL ADHESIVE" in brown block letters on the label below. The wmk. is very indistinct but appears to consist of the letters "R" and "I" in script, with a star between. Perf. 14. The stamp is overprinted, as described in November, in black.

We are further indebted to Mr. Corfield for a list of the Calcutta Small Cause Court Fee Stamps now on sale (Jan. '04). The list appears to contain some varieties not yet known to collectors.

Casual Notes on Divers Fiscal Stamps.

(*Awarded the Petersen Prize offered to Members of the American Fiscal Society.*)

By R. R. Thiele.

It is small wonder that fiscal stamps are gaining in popularity among collectors for the field is full of fascination. A large and well ordered collection of revenue stamps seldom fails to interest even the rankest Philistine for whom postage stamps often have little charm : the large size, elaborate engraving rich colors and high face values of so many fiscals usually attract attention. Likewise is the collector well repaid in their collection, for this field is still full of surprises and no end of discoveries remain to be made.

These notes chronicle no discoveries, but merely draw your attention to certain points in my foreign revenues which may perhaps serve to interest you, dear reader, in their collection.

Take the matter of languages. Postage stamp collectors have of course, the quadrilingual stamps of Eastern Roumelia under Turkish government ; then there are also the bilingual stamps of Belgium : certain issues of Switzerland, of Finland, of Turkey, of Persia, of Egypt, and others too numerous to mention here. But the fiscalist can also produce multilingual stamps, though less numerously, as most revenues serve only within the country of their issue and thus have less occasion for foreign inscriptions. The stamps of Bosnia and the Herzegovina are an example. The postage stamps bear no inscription whatever, so as not to offend the susceptibilities of any one of the many races mixed up in this interesting corner of the globe : the fiscals evade the difficulty by the opposite expedient of putting on the stamps as many different inscriptions as

Type 1

Type 2

Type 3

Type 4

their size will permit. The two issues of 1879 (Type 1) bear only two inscriptions, one in Bosnian and one in Turkish. The issue of 1886 (Type 2) bears three of them : one in Bosnian. one in Turkish, and one in Servian. Surely that ought to be sufficient. The idea ought to be adopted for the revenue stamps of Austria proper : it might tend to assuage the conflict of languages raging there. By the way, the 1879 issues of Bosnia plainly show a desire to imitate the design of the Turkish revenue stamps which had been current there before its occupation by the Austrians after the Berlin Congress : compare them with the 1875 and 1879 issues of Turkish fiscals (Type 3). The later issues of Turkey are nearly all bilingual like the postage stamps : French is the other language here also. These later designs seem to have been drawn by the same artist who designed the two last issues of postage stamps for Turkey : they show the same excessive arabesque ornamentation with very small inscriptions and figures of value. Another bilingual country is Finland. The 1866 and 1883 issues show both Finnish and Swedish inscriptions, but no Russian whatever. I presume that Russian oppression has now changed all that, and foisted Russian fiscals on unhappy Finland the same as it has done for its postage stamps. The same change as has come over the postage stamps of Belgium in late years is also apparent on its revenue stamps. The older issues are worded entirely in French : but with the gradual gain in preponderance of Flemish it has made its appearance on the fiscal stamps of late years also. On the poster stamps (Affiches) the change was made in 1886 : on the bill-stamps in 1891. Bilingual inscriptions are also found on some of the Swiss Cantonal fiscals—Biel (or Bienne) in the French part of Bern comes to my mind at this writing—and on various Eastern issues like those of Siam, some of the Indian Feudatory States, and some Persian stamps, also the Egyptian Salt Tax stamps. No doubt there are others which I do not remember just now.

It is of special interest to the collector in looking over his stamps to trace the same design in various adaptations from one country to the other. Thus the Servian fiscals of 1891 (arms in circle, figure in value in large tablet below—Type 4) are almost an exact copy of the French "Quittances, Réçus et Décharges" issue of 1881, except that the French head of liberty has been replaced by the Servian double-headed eagle. Similarly the Belgian "Affiches" fiscals of 1876 and 1886 are fairly close copies of the French "Dimension" stamps of 1872, while this in turn is merely an adaptation of the French newspaper stamps, familiar to all collectors. Other French types have been imitated elsewhere. Thus the French "Effets de Commerce" issues of 1864 (Napoleon) and 1872 (star) have been quite closely imitated in the "Statistische Gebuehr stamps" of the German Empire of 1880 (except for the large figure in the centre) and in the Portuguese "IMPOSTO do SELLO" issue of 1868 (here the head is replaced by the arms.) The "Plakzegel" issues of the Netherlands, issues 1870 to 1883, are another adaptation of this design, also with arms replacing the head. The French issue of 1874 with inscription "Enregt. Timbre Domes" and group (Commerce and Abundance) at the top has also found imitators. One is the fiscal set of Monaco issued in 1888 : the arms of the principality with supporters replace the allegorical group. By the way, the two monks as supporters and the motto *Deo juvante* (By the aid of God) strike one rather oddly when one remembers that Monaco lives almost entirely on the revenue derived from the gambling-den at Monte Carlo. Another imitation, though less plainly so, is found in the Swedish fiscals of 1882 : the arms here also take the place of the group. The excessively plain "Effets de Commerce" issue of Belgium dating from 1857 forms the basis of a number of imitations, more or less close. One, somewhat more elaborate than the original, is the issue of Luxemburg in 1867. Then the same idea was utilized by a number of Swiss cantons for their fiscals : they all bear a certain family resemblance. Two such are the "Actes Administratifs" and "Effets de Commerce" issues of Valais (or Wallis), dating from 1875 and 1870 respectively. Another is the 1879 issue of Luzerne, still another the 1865 issue for the various "Bureaux d' Enregis-

trement" of the canton of Fribourg (or Freiburg), and still another the 1865 issue of Geneva. Several Swiss cantonal fiscals are embossed and in their get-up remind one strongly of the postage set of Switzerland. These postage stamps were first printed at Muenchen (Bavaria) by the same establishment then printing the stamps of Bavaria : it is possible that these fiscals came from the same firm. One such is the 1862 "Timbre de Commerce" set of Fribourg : another the Genevan fiscals of 1860 : another the 1855 issue of Ticino (or Tessin), and still another the 1864 "Effets de Commerce" set of Vaud (or Waadt). The canton of Basel-Stadt in its 1884 issue for "Obligationen & Actien-stempel" has also borrowed the design, but this time from the familiar German "Wechselstempel" of 1882 (arms in left upper corner).

Type 5

Type 6

Type 7

The long Foreign Bill stamps of Great Britain have several counterparts in the fiscals of other countries. The long "Imposto do Sello" set of Portugal issued in 1864 (Type 5) and the Italian "Marca da Bollo" set of the same year (Type 6) are both not exactly copies of the British Bill stamps, (Type 7) but still show an unmistakable family likeness, which is not surprising considering that they were all made by the same firm, De la Rue & Co. of London. This same family likeness is traceable through all the fiscals coming from this firm, including those of India, Cape of Good Hope and other colonies, as well as other fiscals of Italy.

Other Italian fiscals, e.g. the long stamps of 1863 with head of Victor Emanuel, the smaller stamps of the same year also bearing the King's head, and the Sardinian "Passaporto" set of 1858, show by their embossing and general execution that they came from the establishment of Signor Mattraire who printed the Sardinian and early Italian postage stamps.

Type 8

Type 9

Type 10

The control stamps issued by the Spanish Sociedad del Timbre in 1875 and 1878 show by their splendid line engraving that they came from the workshops of the American Bank Note Co. of New York. Outside of these, Spanish fiscals are in a class by themselves, resembling no others under the sun. The labels figuring as Spanish fiscals from 1877 to the present year should properly be placed in poster collections.

Another case of family resemblance is found between the fiscals of Bulgaria and those of Russia : compare for instance the Bulgarian sets of 1879 (Type 8) and 1889 (Type 9) with the Russian fiscals of 1875 (Type 10). The resemblance here

also is explained by the fact that all of these come from the same establishment, the Russian Government printing office. This establishment also printed the Bulgarian postage stamps at that period, and these show the same resemblance to the Russian postage stamps.

The work of this establishment, by the way, is simply superb and the Russian fiscals, e.g. the large tobacco stamps of 1871, are amongst the most gorgeous of our collections : the pages devoted to them in the albums are sure to attract the eye of even a non-collector.

These few casual observations draw attention only to some peculiarities of design in revenue stamps. Much more might be written on the same subject and still more on the absorbing subject of the taxes represented by them and the historical interest possessed by many of them : I hope to take up these subjects at a later opportunity. Meanwhile I hope that these few notes may serve to call the attention of such readers as do not yet collect fiscals, to the charms of this branch of philately.

The Two Dies of the First issue of New Zealand Stamp Duty.

Die 1

Die 2

THE accompanying illustrations of the right upper corners of two Stamp Duty stamps show clearly the distinguishing features of the two dies. As collectors are aware Die 1 has a large number of fine vertical lines within the ornamented label with trilobed ends on which the value is overprinted and also a well defined dot in the angle formed between the upper lobe and the doubled lined frame of the stamp. In Die 2 the internal lines are fewer and thicker while the aforementioned dot is absent.

EDITORIAL.

U.S. Philippine Revenues.

IN the August and September numbers of last year of the *American Journal of Philately* an exceedingly valuable contribution to Fiscal philately appeared from the pen of Dr. J. C. Perry on the "Revenue stamps of the Philippine Islands since American Occupation." Dr. Perry has had the advantage of access to the official records and is able, in most cases, to give exact dates of issue and quantities of the stamps printed, so that, together with Mr Preston Pearce's able contributions to our own pages, we are in a fair way of arriving at a satisfactory classification of these stamps though many knotty points of detail will still remain for the energetic collector to solve. We had intended to have referred to this matter much earlier but partly from the fact of other matters requiring our attention and partly owing to the complexity of the subject we have deferred doing so until we could devote some study to the subject so as to endeavour to lay before our readers as clear an outline as possible of our present knowledge of these interesting stamps.

The American forces occupied Manila on the 13th August, 1898, but the Customs and Internal Revenue Departments were not taken over by the American Officials until seven days later, 20th August, 1898, so that the first issue of fiscal stamps under the new regime commenced on the latter date. The revenue laws of the Spanish Government, with certain modifications, were continued in force and three general classes of stamps were issued, (1.) Stamps for receipts and accounts, used on bills, receipts, &c. (2.) "Sello" stamps on papers issued by the Custom House as permits, entry of vessels, clearance of vessels, manifests, Chinese certificates and on such papers as licences, contracts, deeds, insurance policies, &c., the value depending upon the amount involved in the transaction. (3.) "Giro" or draft stamps used on bank cheques and foreign exchange. Owing to the immediate necessity for stamps the Spanish issues of all three denominations found in stock were made available by being initialled by the Officers in charge of the Inland Revenue Department. Stamps of new designs, however, began to be available in January 1899, though the initialled stamps were in use until all the stocks were exhausted, no remainders being left. Three sets of initials are to be found on these stamps viz.: "C.H.S." (Charles H. Sleeper), "C.S.H." (C. S. Haughwout) and "C.F.M." (C. F. Mudgett.) In 1902 the duty on Custom House documents was required to be paid by stamps specially created for "CUSTOMS," the "Sello" stamps being no longer available for this class of documents. We may now briefly pass in review the stamps issued under the foregoing heads. Firstly, the *Receipt* stamps. Mr. Preston Pearce was the first to announce the discovery of specimens of the Spanish Timbre Movil set surcharged with initials in red ink. Dr. Perry confirms the existence of all four values thus treated as well as the "split" stamp mentioned by Mr. Pearce but states that the 1c and 2c. are extremely rare. The "split" stamp may be found cut horizontally as well as vertically and was used in conjunction with two 10c. stamps in order to make up the amount of 25 c.d.p. on Custom House permits.

We shall continue our analysis next month.

Fiscal Displays.

We must find room this month to notice two fiscal displays which have recently been provided by the energetic President of the Fiscal Philatelic Society for the delectation of the members of the I.P.U. and the Junior Philatelic Society. At the former Society Mr. Schwabacher read some very interesting notes showing how history is recorded on the Fiscal issues of certain countries while the display before the latter country was intended to introduce this branch of collecting to the Junior members of the philatelic world. We are informed that both displays were cordially received. The stamps shown included the fiscals of Alsace, Crete, Peru and the Philippine Islands.

A new Annual.

We have received "The Stamp Collectors' Annual, 1904" Edited by P. C. Bishop and published by Messrs C. Nissen and Co. It is easy no doubt to suggest many subjects which might have been dealt with in such a publication but at any rate we are provided with a large amount of reading matter for the 1/- which the volume costs. "Forgeries at Brighton," "The Present Position of Revenue Stamp Collecting" (By Mr. Preston Pearce) "The Government Stamp Prosecution" "The Stamps of Great Britain" (with a guide to values) "Through Philatelic London" (with portraits of the leading dealers) are some of the chief articles. It is proposed to make this "Annual" a permanent addition to our philatelic periodical literature. We wish it success. Might we suggest that in the next issue advertisements be not inserted throughout the reading matter.

NORTH OF SCOTLAND AND ORKNEY AND SHETLAND STEAM NAVIGATION COMPANY

This is a favourable opportunity for chronicling these stamps, although they are a different type, and I believe are not connected with the Highland series. They are 41 x 33 mm. in size, the design being merely printed title and conditions and bear a red surcharge "For Pentland Firth only." In the early printings, this is vertical ; in current ones, diagonal ; a new type has already been introduced for the lower values, the ornament outside each corner of the outline being now foliate, instead of rectilinear. All are perf. 11.

Issue I. 1902. Surcharge vertical. ½d. black on green, 1d. black on rose, 2d. black on grey, 3d. black on greenish blue, 5d. black on yellow, 7d. black on white, 9d. black on pale rose.

Issue II. 1903. Diagonal surcharge ; same colours ; ½d., 1d., 2d., 3d., 5d., 7d

Issue III 1903. Design redrawn, with foliate ornaments at corners, ½d., 1d.

Before leaving these Scottish parcel stamps, I append the regulations governing their issue, as they are of more than passing interest.

1. That the Railway Company shall not be responsible for delay, damage, or loss in the conveyance of said Parcels.
2. That the carriage of each Parcel shall be prepaid (on the postage principle) by a Label affixed to it representing the charge for carriage.
3. That the Labels shall only be available for Parcels requiring to be conveyed between the Stations stated above.
4. That Labels used contrary to the terms hereof, or insufficient to pay the carriage of the Parcels to which they may be affixed, shall be forfeited and cancelled, and the full ordinary rate of carriage charged.
5. That no receipt shall be required from the Company for Label prepaid Parcels.
6. That the carriage of Parcels, as aforesaid, shall be prepaid as follows—by affixing the aforesaid Labels thereto
7. That all Parcels intended to be conveyed, as aforesaid, shall be delivered at the Booking Office of the Railway Company 15 minutes before the departure of the Trains for which they are so intended ; and to be called for by Consignees at the respective Stations.
8. That in the event of the present system of Label prepaid Parcel Conveyance being discontinued by the Railway Company, the value, at the rates above mentioned, of any of the said Labels which may remain unused in your possession, shall be paid to you on delivering up said unused Labels, and this agreement be at an end.

The last paragraph is especially noteworthy. If a great Railway Company, which issues stamps, at a loss, solely to meet the convenience of its customers, can so far consult their interests, despite a thousand other worries, as to make good the value of its stamps when obsolete, surely it is not too much to expect that some of our Colonial Governments, which run their postal departments as a huge money making machine, and turn out commemorative or surcharged issues whenever money is wanted, in hopes that the "gullish herd" of stamp collectors will disburse a few more pennies on the rubbish, should take back their paper progeny at face rate when it becomes otherwise worthless or not required ; but from recent articles in the philatelic press, it would appear that this is the last thing they will think of doing, and that the public, having once bought their stamps, are not allowed to return them to the Post Office except at a pecuniary loss to themselves.

THE FISCAL PHILATELIC SOCIETY.

MEETING held February 4th, 1904. Present—Mr. Schwabacher (chair). Messrs. Fulcher, Marsh, Morley, Thompson, Thomson, South, and Kay.

A vote of thanks was accorded to W. Corfield for his notes of new varieties of Small Cause Court, Calcutta, fiscals.

Mr. Schwabacher showed a Gold Coast Judicial, £1 Queen's head, and the $2 grey and $5 green, Maranhao (Brazil). A forgery of a $1.50 Hong Kong fiscal was submitted by G. W. Pepper, and A. B. Kay showed a 50c. blue and black, 2nd. issue, U.S.A., pin perf. 11, with good margins.

The English Municipal stamps were discussed and catalogued.

The list of Colonial Revenues is now ready for the press, and any members having additions or corrections to the issued MS. lists, should send same to the Secretary without delay.

The Home Exchange packet for February amounted to £78, and the contribution to the Continental Section to nearly 1200 francs nett. Sheets for circulation should be sent in before the end of the month.

M. G. Gilbert remains Continental Secretary.

Applications for rules, and information respecting the Society should be addressed to the Hon. Secretary,

A. B. Kay, 2, Haarlem Mansions,
West Kensington, London, W.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

British Somaliland. We illustrate the provisional chronicled last November.

Ceylon. *Judicial.* Mr. O. Marsh has shown us a new Stamp Duty label with King's head surcharged "JUDICIAL" (15 x 3 mm.). in red block caps. Wmk. Crown C A. (wide) Perf. 14. We presume the stamp exists also without overprint.

5c., lilac and red.

Colombia. The recent fiscal issues of this country are very complex, probably due to political troubles. There appear to be several issues per year, all poorly executed and apparently of a provisional nature, but they do not seem to fall naturally into sets. Messrs. Lawrence and Morley send us a number of recent issues.

Habilitacion, 1903-04. Of the usual triangular type, but with the word "HABILITACION" on the left side of the triangle and the value "15 PESOS" along the base both inverted. Imperf.

15 pesos, black on rose

Timbre Nacional, 1901-02. Arms in circle in centre, value below and date in small rectangles in upper corners. This stamp may belong to the third set for 1901-02 catalogued in our Supplement Catalogue of Colombia, p. 118. Imperf.

4 pesos, black on rose (3a Clase)

Do. *1901-02.* Apparently the first member of fourth set for this year. Value and date in a rect., on a reticulated ground. Inscriptions at top, bottom and sides. Imperf.

60 cent, black on yellow

Do. 1903-04. Of Type 378 in our Supplement Catalogue. Dated "1903-1904" Imperf.

1 peso, black (1a Clase)
3 ,, chocolate (2a Clase)
10 ,, pale pink (3a Clase)
15 ,, emerald green (4a Clase)

Do. 1903-04. Another set dated "1903-1904" Various designs, with Arms in centre. The 6 pesos has the Arms and lettering printed in black on an ornamental background, mainly of a lozenge pattern, in pale claret, on white paper. Imperf.

1 peso, black on dark blue (1a Clase)
3 ,, ,, ,, deep violet (2a Clase)
6 ,, black and pale claret on white (3a Clase)
15 ,, black on pale green (4a Clase)

Cordoba. (*Prov. Argentine Repub.*) *Renta Provincial.* Mr. G. W. Pepper has shown us the provisional chronicled last Sept. "30" on 2c., green, litho. in red, with rouletting as well as perforation. On all the copies discovered, some 4 or 5, the rouletting is found only on the left side.

Mr. A. E. Lawrence submits, of Type 100 in our Supplement Catalogue, the following values :—

10 pesos, lilac-grey
15 ,, grey
20 ,, lilac

And of the issue for 1902, of which we have as yet only chronicled the 10c.

20 cent, brown
25 ,, pale blue
50 ,, orange
1 peso, carmine rose
3 ,, rose lilac

Germany. *Schaumweinsteuer.* (Champagne Duty.) Herr Kalckhoff notifies an additional value (for quarter bottles).

12 pf., violet, lilac background.

Frachtstempel. (Freight stamp.) From the same gentleman comes a small oblong stamp,

with a Head of Liberty (or Germania ?) in a small circle on left and lettered on right "Deutsches Reich" "10 Pf." "Frachtstempel." Perf.

10 pf., carmine.

Gold Coast. *Judicial.* Mr. Schwabacher has shown us the £1, Queen's head, which was the only value of the Queen's head set of which the colour was unknown, wmk. Crown C.A. Perf. 14.

£1, lilac and black on red.

India. Mr. Corfield's second communication referred to last month brings news of the discoveries detailed below. The most notable is perhaps the discovery of the second die of the 8as. Special Papers. Collectors would do well to scrutinize other values of this series as it seems likely that there should exist second dies of other values especially of the 4as. and 1r. for example.

Postal Service. Mr. Crofton states that the 4as. and 8as. are found with error of surcharge "Servcie" for "Service."

Small Cause Court, Calcutta. The current surcharge, Roman caps. "SMALL CAUSE COURT," along top margin of stamp and "CALCUTTA" below, is found inverted on the 1r. Special Papers. Our publisher also notifies this surcharge on both dies of the 8as., Special Papers, as described below. The 3r on 8r. Foreign Bill, has the words "FOREIGN BILL" and "EIGHT" barred and "THREE" in small sans serif caps. over the word "EIGHT." The 10r is surcharged on the 12r. Foreign Bill, the words "FOREIGN BILL" and "TWELVE" being barred and "TEN" overprinted in sans serif caps over the latter. The 20r. is surcharged on the 24r. Foreign Bill, the words "FOREIGN BILL" and "FOUR" being barred. All these stamps have the current surcharges of "SMALL CAUSE COURT—CALCUTTA" reading upwards. It will be remembered that these three stamps were still on sale according to the list printed last month.

There is another error of surcharge on the 20r. bistre, Special Papers, words 2½mm. high, reading "C COURT" instead of C.S. COURT. Date of cancellation 5/6/72.

Special Papers. Mr. Crofton has discovered two dies of the 8as., blue. The most noticeable point of difference is the lower half of the right hand "8." In the second die the scroll work does not show on the left of the figure and the scroll through the figure is in the middle instead of rather to the left. The left hand bases of the "A's" are smaller and there is one more blue line within the left hand margin of the stamp.

Malay Federated States. *Judicial.* Towards the end of last year a series of Judicial stamps was created consisting of the 5c. and 20c. Postage and Revenue stamps surcharged "Judicial" in red and 4 other values of a special type. The illustrations preclude the necessity for any further description.

(1) On Postage and Revenue Stamps
5c., carmine and green on yellow (red sur.)
20c., black and violet (red sur.)

(2) Permanent type
10c., pale brown and black
50c., green ,,
$1, orange brown ,,
$2, blue and green

Mosquito Reserve. *Nicaragua.* Of exactly similar type to that chronicled in May last we have received from Mr. A. E. Lawrence the two following values. The lower is cancelled 20/6/93.

5c., black on blue
10c., ,,

Peint State. (*India*) 1877. Mr. Crofton has discovered the 1a., India receipt stamp surcharged "Peint State" in red. He writes that these stamps "were in use only for one "year (1877) after which the state lapsed to "Government. It is in the Nasik District "and only contains one village with any shop in it."

Victoria. *Stamp Duty.* Of the new type with numeral in centre, our publisher has shown us the following values :—

1d., olive-bistre, perf. 11
6d., ,, ,, 12½
1s., ,, ,, 11

The 1d. we chronicled in April 1902, *perf. 12½*.

Mr. A. M. South sends us the current 3d in what appears to be a new shade, *slate-green*, perf. 12½.

Western Australia. *Internal Revenue.* Mr. A. E. Lawrence sends us the 1d., bistre, wmk. Crown CC. perf. 14. surcharged "1 R" in green both with *one* and *two* bars through the word "POSTAGE" the copy with two bars being cancelled 31/12/81, that with one bar 19/1/82, and also the 1/-, of 1882 (surcharge on 3d., postage stamp, printed in lilac) with no stop after "1" of "1. R." Our publisher shows us the tall rect. 1/-, of 1882 on the paper with Crown and C A wide.

Notes on the Foreign Bill Stamps of Great Britain.

BY L. W. FULCHER.

(*Continued from page 10.*)

AT the end of my last article I arrived at the point of the consideration of the various printings of the "green" shillings and "purple" pounds of 1871-81. There are a large number of "shades" of these stamps and I find it a difficult matter to classify and describe them in a scientific manner. However, taking the "green" shillings first, it appears to me that at least six different printings or groups of printings may be readily recognized which according to cancellation dates may be considered to have been issued at the following periods (1) 1871-72 (2) 1872-73 (3) 1873-79 (4) 1880 (5) 1881. The last named printing of 1881, however, for reasons which will be fully entered upon below, must be regarded as a distinct issue. The colour of the first two printings is characteristic, the first being a *deep yellow-green*, in which I find all the values except the 15s. ; the second for which I can find no suitable name is a grey-green with a quantity of blue in it, *bluish grey-green*, if not elegant, will perhaps pass for the present as sufficiently descriptive. The third group of printings from 1873-79 include a number of shades which may be sufficiently designated as "*green*" without any epithet but collectors will find that three distinct sets at least may be readily made viz. (a) deep green (b) green and (c) green on bleuté paper. The deep green copies are usually found cancelled in 1873 and 1874, while the bleuté paper is very general in 1877 and 1878. I am not sure whether another set should not be added to these, for I possess the 1s. and 3s. values in "*apple-green*" cancelled in 1876 but I have not seen any other values in this shade. In 1880 an entirely new shade appears viz. *bright yellow-green*, and the stamps in this colour are to be found on two varieties of paper, the first *thin*, of the same quality as the previous issues, the second thicker and denser, readily distinguishable at sight if a number of these stamps on the two papers are laid face downwards on a dark surface. The second paper moreover seems to be "chalk-surfaced" as the colour of the stamps on this paper very easily rubs off (even when the stamp is dry) and as far as my experience goes it is impossible to obtain an undamaged specimen for one's collection. This paper is often, I might say usually, bleuté. The printing of 1881 I have already stated must be regarded as a distinct issue and the reasons are (1) that an entirely new pigment viz. "doubly fugitive" green is employed (2) that the set is registered—presumably for the first reason—at Somerset House *together with the £1 in lilac*, (wmk. V.R.) The last mentioned stamp has been, hitherto, more or less regarded as an error of watermark but we now see that it is

a member of a definitely issued set. The colour of the "doubly-fugitive" green may be designated "*dull green*" and collectors are warned that it is highly sensitive to wet. The immersion of one of these stamps in water results in the abstraction of a quantity of blue pigment, the stamp being spoilt. The "purple" pounds may be grouped in a somewhat similar manner to the "green" shillings viz. (1) 1871-75 (2) 1875-76 (3) 1877-80 (4) 1881. The first group is characterised by "purple" shades and at least two sets including all the values may be made "*deep purple*" and "*reddish purple*," and I may state here that I have not found the £5 in any subsequent colour. In 1875 a very characteristic colour is introduced viz. : *bright violet* which is very sensitive to wet and it is interesting to record that this colour was apparently used for all "*purple*" fiscal stamps printed by the Government during the years 1874-76. It is found for example on the Admiralty Court Stamps, Chancery Court, Common Law Courts, Companies Registration and even on Indian Foreign Bills. It would be convenient to have a term to designate this colour. For the present I propose to call it "soluble violet". This is not strictly correct as a definition of the quality of the pigment as it does not dissolve in water but there is an ingredient either in the pigment or more probably in the paper employed at this date which disintegrates the surface of the paper when it is wetted, so that the slightest touch removes the pigment from the paper when it is in this condition, the nett result being as if the pigment was soluble. Following this "soluble violet" shade we have several *violet* printings, not so soluble in water as the one just described but still liable to be affected if moistened, two sets (except the £5) may be made in *deep violet* and *reddish violet*. I have moreover found the £1, £1 10s. and £2 10s. on bleuté paper. In 1881 the chalk surfaced paper already mentioned in connection with the "green" shillings comes in and I have all the values, except the £5, on it.

The stamps described in this paper are of course all perf. 14 and with wmk. "V.R." The 5s. and 10s. are, however, known to collectors perf. 12½ and Mr. Morley has just made the interesting discovery of the £1 in *deep purple* and *reddish purple* with this perforation. For convenience of reference it is desirable to tabulate the results described in this paper.

ORDINANCE OF THE ROYAL COURT.

Passed at the Chief Pleas after Michaelmas, adjourned to the 12th October, 1903.

Provisional Ordinance relating to Stamp Duties.

WHEREAS the Law relating to Stamp Duties, sanctioned by an Order of His Majesty in Council, dated the 10th August, 1903, registered on the Records of this Island on the 29th August, 1903, authorises the Royal Court to pass such Ordinances as it may deem necessary to put into execution the dispositions of the said Law :—The Court, after hearing the conclusions of the Crown Officers, has ordered and hereby orders as follows :—

1.—The adhesive stamp must be affixed at the foot of the instrument. It shall be affixed and immediately obliterated by the apposition, in ink, across the stamp, of the signature or the initials of the creditor or of the person giving the receipt or discharge, or of the person for whose benefit the instrument is made, as well as of the date of obliteration, failing which the instrument will be null and void.

Such signature may be replaced by the application in ink of a fac-simile of the signature or of a stamp, indicating the name or the business style and title of the person, society, or company responsible for providing the stamp.

2.—No person may stamp instruments or forms of instruments with the official impress except by virtue of a special written commission signed by the Supervisor of the Harbour and Treasurer of the States, under the penalty of a fine at the discretion of the Court, not exceeding £50 sterling.

This present Ordinance shall be in force from the 29th October, 1903, until the next Chief Pleas after Michaelmas.

EDITORIAL.

U.S. Philippine Revenues.

LAST month we broke off our notice of Dr. Perry's article on the U.S. Philippine Revenues at the end of the first issue of the Receipt stamps. Continuing, we find that the second issue appeared two months later, the four values of the Timbre Movil set being surcharged "U.S. INTERNAL REVENUE" in blue with a rubber hand stamp. Dr Perry informs us that three types of this surcharge exist which may be found on all the values. The types are (1) 3 lines of sans-serif caps. U.S. 3 mm. high the rest 2½ mm. high (2) "U.S." in centre, in narrow Roman caps. 5 mm. high "INTERNAL" curved above and "REVENUE" curved below, in sans-serif caps. 2 mm. high. (3) 3 lines of small Roman caps, 1¾ mm. high. The surcharges came into use in the order described. The 10c. d.p. may be found with inverted surcharge in all three types and the 1c. d.p., and 2c. d.p. with inverted surcharge in type 3; also the 1, 2 and 10 c.d.p. with double surcharge in type 3. The 10 c.d.p. with Type 1 surcharge was "split" to make a 5 c.d.p. value.

The third issue consisted of the stamps of the well known type, No 318, of the *Catalogue of the Revenue Stamps of Spain and Colonies*. They were lithographed and issued in the early part of 1899. Several printings of each value were made during 1899 to 1902, of which the details will be found in Dr. Perry's paper. We can only give here a short summary (1) of the total number of each value printed and (2) of the number of printings in each of the four years.

(1) *Number printed.*

1c., black (shades)	9,000
2c., red (shades)	2,150,000
5c., blue (shades)	120,000
10c., brown (shades)	580,000
10c., green (shades)	1,045,000

(2) *Number of printings in each year.*

	1899	1900	1901	1902
1c.	1	0	1	0
2c.	4	5	3	2
5c.	2	1	2	1
10c.	3	6	5	1

Dr. Perry mentions that slight differences of type exist in the 2c and 10c. values of the printings of 1899 but Mr. Preston Pearce has succeeded in finding all the values in two types, which our readers will find described in our April number of last year. The 2c. *pink* (Type 1) is the first printing of this stamp while according to Dr. Perry the whole of the 9 printings of the 10c (in 1899 and 1900) may be distinguished by the shades which he gives as follows (in the order of the printings): 1899 (1) *light reddish brown* (2) *brown* (3) *yellow-brown*; 1900 (1) *bistre* (2) *yellow-brown* (3) *orange-brown* (4) *chesnut* (5) *brown* (6) *orange-brown*. The 10c., embossed with the letters "U.S." belongs to the later printings of 1900. In 1901-02 all the printings of this value are in *green*, only one printing, that of June 1901, 75,000 stamps, in *olive-green* being distinguishable by the shade. In October 1902 the 2c and 10c. were issued from electrotype plates, the other two values being discontinued. These stamps are the current issue. There is nothing to add to Mr. Preston Pearce's account of them in the article already referred to.

We now come to the *Sello* stamps. There is nothing to add to the regular 1898 issue as given in the Spanish Revenue Catalogue but two additional provisionals are chronicled by Dr. Perry. The first is the 25c., claret, surcharged U.S. INTERNAL REVENUE, which also occurs with double and inverted surcharge and a 5 peso provisional made by reducing the 15 pesos to this value by changing the series No from "2" to "4" in the upper frame and cancelling the figure "1" of the value in red ink. The provisional catalogued (No. 434) in the Spanish Cat. was also "split" horizontally and vertically to make a 25c. value. The 1899 imperforate set is as given in the Catalogue; only 500 each were printed of the values above 2 pesos. As regards the perforated set Dr. Perry states that the 40 c.d.p., the 2, 3, 10, 15 and 20 pesos do not exist but that there are 4 varieties of the 25 c.d.p. which may be distinguished either by colour or differences of type in the figures of value and also two printings of the 1 peso which may be differentiated by colour. Mr. Preston Pearce has added the 2 p. *brown* and 3 p. *pink* to the set for 1900, we may now add from Dr. Perry's list the 5 p., *slate*, 10 p., *yellow*, 15 p., *red-brown*, and 20 p., *lilac*. The three last are still current and the 2 p., *brown* is an error of colour, 1000 stamps having issued in this shade. The 25c. was the only stamp embossed with the letters "U.S." as in the Spanish Revenue Catalogue. To the 1901 issue we have to add the 25 c.d.p. *carmine*, 25 c.d.p., *purple*, 50 c.d.p. *yellow*, 1 p., *purple*, 1 p., *chocolate*, (error), 2 p., *pale lilac*, 3 p., *dull pink*, 5 p., *slate* and to the values embossed with letters "U.S." the 2 p., *pale lilac* and 5 p., *slate*. Readers should compare these additions with Mr. Pearce's remarks on page 42 of Vol. iv, as our two authorities do not seem to agree as to colours and Dr. Perry does not refer to any difference of type as regards the 1 peso, *chocolate*.

THE FISCAL PHILATELIC SOCIETY.

MEETING held March 3rd, 1904. Present—Mr Schwabacher (chair). Messrs. Cooper, Fulcher, Marsh, Morley, Thompson, Thomson, South, and Kay.

A. G. Burgoyne (U.S.A.) was duly elected a member.

Mr. Morley showed some interesting "Specimen" Great Britain fiscals, viz. :—Chancery Court 3/6, Foreign Bill, value in red, perf. 16, 6/8, 13/4,—perf 14 1/4, and several others. Mr. Schwabacher exhibited a Spain Giro (lilac) with large type of war tax surcharge, and Mr. Thompson some lately issued Uruguay fiscals.

The Swiss revenues of Aargau and Basle were discussed and catalogued.

The Secretary would be glad to hear from any home members who intend exhibiting fiscals at the Philatelic Exhibition to be held at Berlin in August next.

Received for the library, with thanks—"The Sterling Monthly" (Dec. 1903).

The Home Exchange packet for March amounted to £94, and the contribution to the Continental Section to 956 francs nett. Members will oblige by sending sheets regularly before the end of each month.

Applications for Rules and information respecting the Society should be addressed to the Hon. Secretary,

A. B. Kay, 2, Haarlem Mansions,
West Kensington, London, W.

BRITISH RAILWAY STAMPS.

By "K."

(*Continued from page 22.*)

THE HIGHLAND RAILWAY—*continued.*

Letter Fee Stamps.

HIGHLAND RAILWAY.

THERE have been about 14 printings made to date, of which, I believe, only 12 have been issued, and several of these are very much alike. All are in the ordinary McCorquodale (Scottish) type. The first issue, January '91, was in dull yellowish (or olive) green, on thick paper; the 2nd is not yet identified, but the 3rd (Feb. '93) and 4th (August '94) are on thin paper, in a deep green shade. The 5th issue (September '96) is bluish green, and the 6th (December '98) and 7th (April '99) bright green. All the foregoing are perf. 12. In Oct. 1899 the 11 gauge was introduced, since which the following printings have been made:— 8th (Oct. '99), 9th (May '00) and 10th (Oct. '00) all in shades of bright green; 11th (Sept. '01) pale yellow green and 12th (March '02) in yellowish green. It would be trespassing too far on Mr. Ewen's "History" to give all the minor distinctive marks by which the successive printings can be identified, but a total of 3 printings, such as the 1st, 6th, and 10th printings, will suffice, in a general collection, to illustrate the main varieties of Highland Railway Letter Stamps.

INVERGARRY AND FORT AUGUSTUS RAILWAY.

This, the latest company to issue Letter Fee labels, has only used one printing. It is perf. 11 and the shade resembles that of the 12th Highland, so they were probably printed at the same time. The type is the ordinary Scotch McCorquodale one.

TELEGRAPH CHRONICLE.

India. Mr. W. Corfield notifies the issue of another value with the Emperor's head.

2 rup., orange

Orange River Colony. Many minor varieties exist of the 1s. on 3d., blue chronicled last Nov. Mr. S. A. Klagsbrun signals the following which have not yet been recorded.

(1) "n" in "One" and "n" in "Shilling" with long tails.
(2) "n" in "One" and "g" in "Shilling" in a different fount type.
(3) "h" and "n" of "Shilling" with long tails.
(4) "n" of "One" and "h" and "n" of "Shilling" with long tails.
(5) "n" of "One" and "n" in "Shilling" with long tails and "g" in latter word in a different fount
(6) "h" of "Shilling" with long tail and "g" in a different fount
(7) "n" of "One" with long tail.
(8) "n" of "One" with long tail and "g" of "Shilling" in a different fount.
(9) "n" of "Shilling" with long tail.
(10) Thick "V" of "V·R·I·" with normal surcharge.

Transvaal. Dr. F. Kalckhoff informs us that the following stamps have been surcharged **"Transvaal" Telegraphs** in black, viz.

6d., lilac and green, postage stamp of 1896, surcharged "E·R.I."
10s., blue and black, Revenue, King's head.
£1, olive and black, Revenue, King's head.

The *1s.* Revenue chronicled in April, 1903 is an error. It should have been the *£1*, Revenue, now noted by Herr Kalckhoff.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Arroyo. (*Porto Rico*). *Arbitrio Municipal.* Mr. A. E. Lawrence submits a type-set fiscal for this Municipality, lettered in three lines with "rules" between: "Ayuntamiento de Arroyo"—: "ARBITRIO MUNICIPAL"—"Vale 5 centavos", the whole enclosed in a double lined oblong frame. Imperf.

5c., black on yellowish.

Bolivia. *Tabaco.* Mr. A. E. Lawrence has discovered the 1c., dark blue "Transacciones" of 1892 and the 5c., dark blue of 1883 surcharged "TABACO" with a handstamp. In the case of the 5c., the surcharge is in large block letters covering several stamps

1c., dark blue (sur. "TABACO" in magenta)
1c., " (" " in vermilion)
5c., " (" " in violet)

Consumo. For Foreign Manufactures. Mr. A. M. South sends us another value, similar in type to Type 265 of our Supplement Catalogue

60 reis, carmine

Brazil. *Thesouro Nacional.* Dr. Ramos writes that owing to a great robbery of stamps at Rio, the colours of the current issue have been changed. He notifies (Type 292 of Supplement Catalogue)

400 reis violet
500 " olive-green
1000 " green
2000 " rose
5000 " purple-brown

These stamps are likely to be scarce as they were in use for about two months only, an entirely new set being in preparation for issue in January last, a remark which applies to the undermentioned stamp.

Districto Federal. Thesauro Federal. Type 312 of Supplement Catalogue. Perf. 11½.

300 reis, brown

Mr. A. M. South also submits a copy of this stamp.

Buenos Ayres. (*Province*). From Senor Pont's Catalogue in the *Revista de la Soc. Fil. Argentina* we make the following additions to our Supplement Catalogue.

Documents, 1889

24 p. n. brick-red	500 p. n. brick-red
32 " ultramarine	600 " green
40 " yellow	700 " d. chestnut
90 " brown-grey	800 " rose
300 " dark grey	900 " orange
400 " orange yellow	

The 25c., 30c., and 50c., exist with two types of control nos.

Documents, 1890. The 200 p.m. is "*red*" not "*ultramarine*" and the 300 p.n. "*chestnut*" not "*red*"

With control in medium sized figures, add 5, 10, 15, 20, 25, 30, 35, 40, 50, and 60c., 1, 2, and 3 p.n. The last 12 values of the 14 just mentioned only exist with the medium controls.

Documents, 1891.

200p., yellow	800p., chestnut
300p., lilac-grey	900p., dark slate
400p., yellow-brown	1000p., yellow
500p., greenish blue	2000p., grey
600p., carmine	5000p., bright rose
700p., yellow green	

The 20, 32, 36, 40, 50, 60, and 100 p. exist with two types of control no.

Documents, 1892.

28p., grey	400p., vermilion
36p., yellow	500p., ?
50p., yellow-brown	600p., yellow
60p., blue	700p., bright rose
70p., bright green	800p., violet-black
90p., carmine	900p., yellow-green
200p., blue	5000p., pale chestnut
300p., yellow-brown	

The 10c. and 15c., exist with 4 types of control nos. the 5c. and 25c., with three and the 20c., 30c., 40c., 50c., 60c., and 70c., with two.

Cauca. (*Colombia*). Mr. A. E. Lawrence submits various Colombian "Timbre Nacional" stamps surcharged with a double lined circle in violet or blue containing the inscription "ADMON DE HDA. DEL CIRCUITO—CALI." which are said to have emanated from this province.

1899-1900. 30c., black on yellow (1a Clase)—Blue sur.
1901-02. 30c., black on yellow (1a Clase)—Blue sur.
1p., black on pale blue (2a Clase)—Blue sur.
2p., black on rose (3a Clase)—Violet sur.
1903-04. 6p., black and pale claret (3a Clase)—Violet sur.

None of these stamps without the surcharge, except the last, which was recorded by us last month, appear to have been notified for Colombia.

Cundinamarca. (*Colombia*). M. A. Baillière notifies that he has the two undermentioned values of the issue for 1859 which have not yet been listed (Type 389 of Supplement Catalogue)

1p. 20c., black
2p. 40c., "

Germany. *Schaumweinsteuer.* Dr. Kalckhoff informs us that two more Champagne labels have been issued. Perf. 14.

5pf., black and light green
10pf., carmine and pink.

Great Britain. Mr. Morley has discovered some interesting items.

Chancery Court. The 3/6, perf. 16. A copy surcharged "Specimen" which, as it has the perf. of the first issue, seems to indicate that it was actually issued.

Foreign Bill. The 1/4 of 1858, *perf. 14.* Also a "Specimen" copy.

1871. The £1, perf. 12½ in *deep purple* and *reddish purple* (see the Article on page 26.)

Patent. The 2/6, green and carmine, wmk "V.R." of 1872, *perf. 12½.*

Probate Court. The values 3d. and £5, violet, perf. 15½ x 15," both "Specimen" and a £10 of a different design, imperf. The two values first mentioned are not in our publisher's Catalogue, the £10 stamp is probably only an "Essay."

Hawaii. Mr. A. E. Lawrence submits the 25c green "Stamp Duty" of 1877 surcharged in block type in gold (!) "REPUBLIC OF HAWAII-TWENTY CENTS" and also two values in a new design containing the value in centre in a transverse oval. Perf.

20c., rosy red
25c., purple

Maranhao. (*Brazil*). Mr. Schwabacher submits the following values (Type 315 of Supplement Catalogue).

2,000 reis, grey and red. Perf. 11
5,000 " green and red. Perf. 11½

the latter was chronicled in February but the perf. was not recorded.

Mexico. *Hilaza y Tejidos.* Mr. G. W. Pepper notifies two values for 1903-04 but no details as to type. Perf. 12.

5c, blue | 5 pesos, mauve

Panama. Mr. A. E. Lawrence submits various stamps of Colombia surcharged with an oval inscribed "TIMBRE ESPECIAL DEPTO DE PANAMA."

Cigarillos. Tne 2c. black on yellow of 1887 (Type 352 of Supplement Catalogue). Surcharge magenta.

Habilitacion. 1891-92. The 20c., black (No. 14 of Supplement Catalogue). Surcharge violet.

1899-1900. 2 pesos on 30c. black. Surcharge magenta, with words "VALE 2^{00}" in centre of oval.

Timbre Nacional. The 1p., vermilion on rose, perf. 13½ (No. 80 in Supplement Catalogue). Surcharge violet.

1899-1900. Type 378 of Supplement Catalogue).

30c., black on yellow. Surcharge violet
2 pesos, black on rose. Surcharge violet
2 p. on 1 peso, black on pale blue. Surcharge magenta.

The last stamp bears the words "VALE 2^{00}" in the centre of the oval.

Paraguay. M. A. Baillière notifies the following additions to our Catalogue.

Instruccion primaria. 1898 20c. (in red) on 5c., green.

Sello. Surcharged "*J. de C. Publico*" 2 p. 50c., grey. M. Baillière considers that this overprint is rather a control mark than a true surcharge.

1892. The colours of two of the higher values are 4 pesos, dark blue
5 ,, brown

1898. With control nos.

80c., blue	20p., violet
1p., grey	30p., grey-black
5p., brown	40p., brick red
8p., green	50p., blue

The 60p., yellow-green, No. 95, has control nos.

Provisional, "Uno" (in black) on 5c., brown.

Servicio Consular. Type analogous to the Sello of 1898, with words "SERVICIO CONSULAR" below.

50c., blue and white
1p., brown and white

Also a stamp, long rect., with Arms in centre, "INT. MUNICIPAL" above and value below.

1 peso, green on white

Parana. (*Brazil*). Mr A. M. South calls our attention to the fact that the illustrations of the first three issues in our Supplement Catalogue are misplaced and one wrongly numbered. Type 331 should be "329." Type 399 should be "330" and Type 330, "331." He also sends us an additional value of the issue of 1894. Perf. 11-11½.

1,000r., green and red

In consequence of this alteration readers are requested to note that the first stamp recorded last month is No. 5 of the Catalogue, the 2nd will be No. 5a while the 3rd, 4th, 5th and 6th are Nos. 12-15.

Philippine Islands. *Recargo de Consumos.* Our publisher has discovered another variety surcharged on "GIRO" of 1880, in black. The stamp would be "281a" in the Spanish Revenue Catalogue.

17½c. on 5p. 25c. green

Porto Rico. *Facturas segundas de Exportación. 1892-93.* 5c d. peso, rose. *Perf. 12.*

Giro. The provisional chronicled in June 1902, *perf. 12.*

Recibos y Cuentas 1891. 5c.d. peso, green. *Perf 12*, imperf vertically

For the above we are indebted to Mr. A. E. Lawrence.

Salvador. *Timbre Municipal.* M. G. W. Pepper sends us certain values of two issues. The design consists of Arms in circle, with name above and the date "1899" in lower angles. Perf. 11½.

1899. 5 cent., pale red-brown
10 ,, orange
25 ,, lilac
25 ,, violet (litho).

1903. Same type surcharged "1903" in black. Lithographed.

10 cent., rose
25 ,, grey
50 ,, pale green
1 peso, blue

Spain. *Giro, 1874.* Mr. W. Schwabacher submits a new variety of surcharge in caps 4 mm. high viz.: "IMPUESTO DE GUERRA" in a curve and "CINCUENTA POR CIEN" in a straight line, reading downwards on the 25 centimos, lilac, of 1870.

Transvaal. Our publisher has shown us the £10, green of the last Boer issue, *perf. 11½.*

Recently the daily papers have been making much of the discovery of the current 5/- Revenue stamp with the King's head inverted. Mr. S. A. Klagsbrun writes that a sheet was found most of which was issued before the error was noticed.

Turkey. *Forest Administration.* Mr. A. E. Lawrence submits two stamps of a similar type to those of the first issue for "Licences to cut wood" but larger. It is only the similarity of type that leads us to class the new stamps under this head, there being no inscriptions in any of the languages of Western Europe. Imperf.

10 paras, pale red-brown
20 ,, pale grey-green

Uruguay. Mr. H. Thompson sends us the undermentioned Bill stamps, surcharged "TRIMESTRE CUARTO 1903-1904" in black.

1c., red. Perf 12
2c., yellow-green. Perf. 12
5c., yellow. Roul
10c., bistre. ,,
15c., red-brown ,,

Also, surcharged "1904 1ER TRIMESTRE."

Notes on the Foreign Bill Stamps of Great Britain.

BY L. W. FULCHER.

(*Continued from page 26.*)

TOWARDS the end of 1881 the whole of the values in pence, shillings and pounds appeared uniformly on the paper watermarked with a script "VR", the shilling values in a new type. This paper was made to take two panes of 7 rows of 12 stamps and bears the marginal watermarks, the facsimile signature "C. J. Herries" at top and bottom and the word "STAMPS" in large double-lined caps, at the side of each pane. It was very strongly blued at first but as the issue proceeds loses every trace of blue. The 1d. and 2d. from plate 3 of each value, and the 3d., 6d. and 9d. from plate 2 of each value, remodelled to suit the new paper, were registered on various dates from April to June, 1881, but plate 4 of the 1d. and 2d. and plate 3 of the other three values came into use in 1887 and 1888. As regards shades the pence values vary from pale to deep lilac, the shillings were at first very pale dull (soluble) green, but the green gradually gets deeper and yields more soluble blue pigment when dipped in water. The pounds vary but little. There is one remarkable variety in this issue. The £2 10s. is found with the watermark *horizontal* and I must confess that I am at a loss to suggest how this stamp could have been printed, unless on a fragment of a sheet.

This issue continued in use until superseded by the King's head stamps in respect to which it is too early for us to offer any remarks. It is, however, very necessary to mention certain provisionals, made by overprinting the "General Duty" dies "FOREIGN BILL" in black although it is to be feared that these will have to be classed with the "unobtainables" of British fiscals. The values which have been recorded are given in the Reference list appended to this paper. The £10 was registered at Somerset House on the 7th Jan., 1891 the other values, except the £30 which I was unable to find in the Archives, on the 27th Feb. 1890.

During the publication of these notes I have been favoured by several collectors, to whom my best thanks are due, with specimens of these stamps which I had not seen before and I take this opportunity of recording them. Perhaps the most surprising discovery is a copy of the 1s. 4d. of 1855, *perf 14*, which Mr. Morley showed at a recent meeting of the Fiscal Philatelic Society. The copy, it is true, is a "Specimen" one, but it seems to indicate that a supply must have been perforated with this guage. Mr. Preston Pearce has shown me copies of the £1 and £2 of the 1857 issue on thick paper, varieties the existence of which I did not

doubt. Mr. Morley has acquired a used copy (cancelled 30th June 1871) of the 6d of 1871 *imperf.* and Mr. Hinton informs me he also possesses a used copy, so that there is no doubt of this stamp having been issued. Finally Mr. Preston Pearce submits a copy of the £5 of 1871 in a distinct *violet* shade while Mr. A. Marsh has sent me a copy of the 1d. of the same issue, on blued paper, with the perf. 12½.

Reference list.

1854. Head of Queen Victoria to left in oval. Uncoloured letters and figures in value above and below oval. Paper more or less blued. Wmk. "**V R**" Perf. 16.

With name of paper at left hand side of the die.

Dies were prepared for the names of papers and were inserted at left hand side of the Duty die. Mr. Fulcher obtained a list of Paper dies, with dates of registration from 1842-1850 and I shall give these dates in my list. As this does not cover the whole period of use of this duty, I shall not be able to give dates of registration of some paper dies. For some papers more than one die was prepared. This series was also available for free conveyance by post after 1855.

Mr. Morley has acquired a used copy (cancelled 30th June 1871) of the 6d of 1871 *imperf.* and Mr. Hinton informs me he also possesses a used copy, so that there is no doubt of this stamp having been issued. Finally Mr. Preston Pearce submits a copy of the £5 of 1871 in a distinct *violet* shade while Mr. A. Marsh has sent me a copy of the 1d. of the same issue, on blued paper, with the perf. 12½.

EDITORIAL.

DURING the past few weeks two or three new philatelic publications have reached us which we can confidently recommend to the notice of our readers. The first is entitled "*The International Directory of Philatelic Literature, etc.*" and is edited and published by Victor Marsh, 389 Brixton Road, S.W. This little volume will be found very useful to all working philatelists who must necessarily have access to a tolerably large library of philatelic literature. The "births, deaths and marriages" of philatelic periodicals are numerous and complex and there is a genuine need of more literature dealing with this subject as of philatelic bibliography in general. The chief articles in Mr. Marsh's volume are, firstly "The most important Scientific journals of the world, published to the end of 1900" by Victor Suppantschitsch the well-known German writer on philatelic literature. This paper, in the title of which the word "Scientific" is obviously a slip for "Philatelic", contains a very useful annotated list of the chief journals which have been published since the earliest days of philately and will serve as a valuable guide to the philatelist who is endeavouring to form a library of reference. Secondly, we find another annotated list of the journals published in 1901 and 1902, by Dr. Rommel of Leipzig. The volume also contains lists of collectors of and dealers in philatelic literature, a reference list of current periodicals showing the cost of each and where it may be procured as well as other useful notes. In fine, we hope collectors will support the volume, which only costs 1/3, as an encouragement to the author to issue further contributions to the study of philatelic literature. Indexes to philatelic literature are especially needed. We are aware that one philatelist has been at work on a general subject index for some years but pending the issue of an elaborate work we should be very grateful to any one who would publish a classified list of even the main articles in all the chief philatelic journals, say up to the end of the year 1900. A work such as this would not be an excessive labour and might be produced at a low price.

Philatelic Literature

* * * * *

The second publication is one which will appeal especially to our readers. It is no less than the commencement of a complete catalogue of fiscals, a project which Messrs. Yvert and Tellier of Amiens have been bold enough to undertake and which we hope they will prosecute to a successful end. We have the first 96 pages before us. The exact title is "*Catalogue prix-courant de tous les Timbres Fiscaux emis dans le monde entier.*" It is arranged in alphabetical order (*Afrique centrale anglaise* to *Argentine* as far as we have it) with the fiscal issuing States and Provinces grouped after their respective Countries. The cataloguing is well done and a feature which will commend itself to many is the fact that a very large proportion of the stamps are priced. The subscription to the whole work is 10 francs.

A complete Fiscal Cat.

* * * * *

Philatelic literature is further enriched by the appearance of a new periodical "*The West End Philatelist*" with which is incorporated *Poole's Monthly Philatelist*. This is edited by Bertram W. H. Poole and published by D. Field, the well known dealer of Old Bond Street. The *pièce de résistance* in the first two numbers is an able article on the stamps of Corea, the postal emissions of which will probably appeal to a large section of the philatelic public at the present time. Other items are "Things worth knowing" being papers for beginners by the editor and "Our publisher's corner." The paper will appear monthly, subscription 1/6 per annum.

The West-End Philatelist

Having disposed of certain works which have actually been published we have finally to make the welcome announcement, kindly communicated to us by Mr. Corfield, that the Philatelic Society of India has resolved to published a work (fully illustrated) on the Fiscal and Telegraphs issues of India. It will probably take the form of a special extra number of the *Philatelic Journal of India* devoted entirely to the subject and will be issued this year, about October. When we add that the authors of the work will be Messrs. Corfield and Crofton who have communicated the numerous discoveries in Indian fiscals to our own pages recently, it will be seen that the work is in very capable hands and we may expect an extremely valuable addition to Fiscal literature.

Official Stamps.

THE OXFORD UNION SOCIETY 1d. POSTAGE STAMP.

A New Discovery.

MESSRS Herbert James and Co., of 43 Eastcheap, have shown us the 1d., lilac postage stamp (16 pearls) overprinted on the back "O.U.S." in *lilac* (the colour of the stamp). The surcharge reads downwards between narrow wavy lines. This is a very interesting discovery as the variety previously known to us has the surcharge in *red*. The discovery was made by Mr G. C. Warden while examining a very large number of English stamps. This surcharge ceased in October, 1882 and the 1d., lilac, with red surcharge, is extremely scarce so that this newly discovered variety, with lilac surcharge, must be a very rare stamp.

MOSQUITO RESERVATION.

By Lionel M. Homburger.

THE stamp chronicled in the Journal for May, 1903, is a member of an issue of 1891.. The stamps of this issue are circular in form and four in number, all printed in black on blue paper, viz. 5c., 10c., 50c., and $1. The last mentioned value is very rare, only two copies being known to me, the 50c. is also scarce while the 10c., is the most common variety. I have fortunately obtained a specimen of the 10 cents on the original receipt. This relates to the delivery of 25 cases of wines, spirits, &c. costing $10.50. The stamp is cancelled Oct. 13th, 1892, the words "Recd. payment" being written across the receipt. In 1893 the Mosquito Reserve was absorbed into Nicaragua. Telegraph stamps of Nicaragua were in use surcharged "Mosquito Reservation."

THE "CONSULTATION FEE" STAMP, GUILDHALL.

By D. Thomson.

OF the various issues of Municipal stamps now current, that of the City of London is quite distinct in design and color from those in use elsewhere. Besides the "Justice Room" issue of stamps used at the Mansion House, there exists a stamp in use at the Guildhall only, for a purpose which cannot strictly said to be legal work. The stamp is large rectangular, printed in black and perforated: the design consists of the arms of the City of London surmounted by a crest, at the top a fancy label containing "Consultation Fee, Guildhall," and at the bottom "Half-a-Crown." Before the existing Royal Courts were built, the Common Law Judges used to hold Sittings every term at the Guildhall for the trial of Commercial actions: the Counsel and Solicitors engaged found it necessary occasionally to have consultations together, and for this purpose they required the use of a room: a room was always available, and could be secured on application to the proper Official, and the amount to be paid for the use of the room was 2/6, a formal receipt for which was given with one of these stamps affixed to it. It will thus be seen, that the "Consultation Fee" was merely an amount paid to the Guildhall Authorities for the hire of a room. The plate from which the stamp was printed, was it appears a costly one; the authorities have never recouped themselves for the outlay as few of the stamps were ever used, they are seldom used now, and are not sold to the public as the authorities "cannot assent to "the disposal of the stamps in any way other "than that for which they are specifically "issued."

THE FISCAL PHILATELIC SOCIETY.

MEETING held Thursday, April 7th, 1904. Present—Mr. Schwabacher (chair), Messrs. Fulcher, Marsh, Morley, Thompson, Thomson, South and Kay.

A. C. Roussell (Canada) was duly elected a member. Two applications for membership were declined by the Committee.

Mr Morley showed many interesting fiscals, including Ceylon receipt, 1d., no wmk., perf. 13, —Great Britain, Foreign Bill, small 6d. lilac, imperf,—£1 purple, perf. 12½, and several unchronicled Indians.

The fiscals of Berne were discussed and catalogued.

Received for the library, with thanks,—"Die Stempelmarke" (Feb. 1904), "New Zealand Philatelist" (Jan. 1904), "Revista S. F. Argentina" (Dec. 1903).

From the March packet of the Home Exchange Section, upwards of £22 was sold from a total circulated value of £94. The April contribution to the Continental Section amounted to 1077 francs nett. Members will oblige by sending sheets more regularly, and selections from continental members for circulation in the Home Section, are particularly requested.

Applications for Rules and information respecting the Society should be addressed to the Hon. Secretary,

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Bikanir. M. Baillière kindly sends for inspection two copies of the 10 annas of 1884, one of which has a *green centre* and *red frame*, while the other has a *red centre* and *green frame*. We believe the former is the normal stamp so that the latter is an "error."

Buenos Ayres. (*Province*). We further extract the following from Senor Pont's Catalogue:—

Documents, 1893

35c., rose
45c., bright green
60c, dark orange
32p. grey-brown
60p. yellow-brown
70p ultramarine
80p. greenish grey
90p. yellow-brown
300p. slate-blue
400p mauve
500p. yellow
600p. lilac-rose
700p. violet
800p. yellow
900p. chestnut
1000p. olive-green
2000p pale green
5000p. orange-red

Senor Pont gives the colour of the 30c as "*ochre*" not "*violet black*" and of the 80c. as "*mauve*" instead of "*brown-red.*" The 1p. exists with two types of control.

Documents, 1894.

60p orange
300p. blue
400p. deep violet
500p. yellow-green
600p. golferino
700p. red-brown
800p. grey-blue
900p. bright green
1000p. chocolate
2000p. grey
5000p. olive

The 70p is "*chestnut*" not "*violet*" Documents, 1896. The 80c. is "*rose*" not "*orange*." The 6, 8 and 10p. exist with two types of control nos.

Buenos Ayres. (*Municip*). *Documents, 1903.* Our publisher has received two values of the series for 1903. The type is analogous to the issue for 1901. Controls in black on blank label above. Perf. 11½.

10 pesos, red-violet
20 ,, bronze-green

We beg to remind our South American readers that we have not yet received any particulars of the issue for 1902.

Ceylon. *Receipt, Draft, or Order.* Our publisher has found the 1d., Head of Queen in circle, on unwatermarked bleuté paper, *perf. 13.*

Colombia. *Timbre Nacional.* Mr. A. E. Lawrence submits four novelties. Firstly a block of five of the 20c., black of 1878 (Type 366 in Supplement Catalogue) two stamps of which are placed sideways. The stamps on the sheet are therefore evidently arranged in a somewhat similar manner to that recently discovered by Messrs. T. W. Hall and E. D. Bacon for the postage stamps of 1863. Secondly, a stamp for 1897-98 viz. 50c., *black on pale blue* (*2a Clase*). It will be remembered that the 1 peso in this colour and lettered "2a Clase" is already catalogued, so that it seems as if the stamp before us is a provisional made by altering the value only of the 1 peso stamp.

Thirdly, two values of yet another set for 1903-04. Design: Inscription and Arms in centre, in a rectangle, surrounded by floral ornament. Date above. Imperf.

1 peso, violet (1a Clase)
15 ,, green (4a ,,)

Dawson. (*Canada*) *Mining Court.* Our publisher has received a copy of the 25 cents Mining Court Law Stamp issued recently. The central design is that of a prospector examining a piece of rock, an effective and interesting stamp which we shall illustrate next month. Perf. 12.

25 cents, vermilion
50 ,, ,,

Great Britain. M. Baillière submits a remarkable "piece" which we know not how to account for. It consists of the ½d. Queen's head Postal wrapper stamp, in green, cut square, surcharged "POLICE COURTS" in two lines in black Roman caps and affixed to a portion of a document, a cancellation date (?) 7. 6. 76, being perforated through stamp and document. Can our readers throw any light on this curiosity.

Southampton Town Court Fee. Our publisher submits the 18/-, brown, *with stop* after value, perf. 12.

Liverpool Cotton Brokers' Association. Our publisher has found a 2/-, green, perf. 12½.

India. Following on top of the discoveries of Messrs Corfield and Crofton in the fiscals of this country Mr. Morley has made another batch on his own account. Some of the following we expect will want some looking for on the part of collectors.

Appelate High Court, Tullubana. The Foreign Bill stamp of 4as. (purple, bleuté) and the 8as., blue, Special Papers, surcharged "Appelate High Court. Tullubana." in red. On the Special Papers stamp the word "Appelate" is above the Queen's head and "Tullubana" below, the words "High" and "Court" being on either side of the central circle. The surcharge is similarly disposed on the Foreign Bill stamp but is accommodated to the shape of the stamp by reading upwards.

Court Fees. The Share Transfer stamp, 1a., purple and red, perf. 15½x15, surcharged "Court Fees" in black, the words "SHARE TRANSFER" being erased by a curved bar.

High Court. "Special Papers" stamps surcharged "High Court." in black.

1a., lilac
12as, pale rose

High Court Advocate "Special Papers" stamp surcharged "HIGH COURT" along top margin and "ADVOCATE" below Queen's head in black Roman caps.

50 rupees, grey

High Court Service. "Special Papers" stamp surcharged "High Court" in black, with additional surcharge "Service." in the same type, reading upwards across centre

6as., lilac on bleuté
1 rup., pale red

Special Papers. We chronicled a provisional 2as. on 40rup., blue in November last. Three others with a similar style of overprint have been issued viz. :

12as. on 20rup., bistre
1r. ,, 50 ,, grey
3r. ,, 40 ,, blue

Special Adhesive. The values of the King's Head set are now coming over. We have seen the following :—

2as., green and brown
1r., lilac and green
3r., ,,
5r., ,,

La Rioja. (*Province, Argent. Repub.*) Somewhat similar to type 124 we have a 5c. pink, of which two varieties are before us. One has a larger figure of value than the other and is printed on thicker paper. Perf. 11½.

Natal. M. Baillière possesses the undermentioned unchronicled varieties.

Embossed on azure paper. 4/6., 15/.
Embossed on white paper. 1/3., 12/-., 15/-., £1 2s. 6d., £3 10s., £25.

Peint State. Mr. Corfield writes that he has received from Mr. Crofton a batch of Indian Court Fee stamps surcharged "PEINT STATE," the surcharge being 22mm. in length.

(1) Black sur., twice, (a) reading upwards, (b) reading downwards, (1875).

1a., green (a)
8as., bistre (a)
2r., orange (b)

(2) Red sur., twice, reading upwards (1876).

1a., green
8as., bistre

(3) Red surcharge, once, reading downwards.

2r., orange

(4) Red surcharge, horizontal (1877).

1a., green
2as., grey
4as., red-brown
8as., blue
1r, green
5r., lilac

Some other values found used with the above bore no surcharge.

Queensland. *Stamp Duty.* The perf. of the current issue with King's head seems to vary considerably. Mr. Marsh has shown us the following :—

1d., purple, p. 12½ x 13
2d., carmine (Type 2), p. 13
3d., green, p. 12½
6d., lilac-rose, p. 12
1/-, pale blue, p. 13

Santa Fe. (*Province, Argentine Repub*). Our publisher has discovered the 1 peso, orange-yellow, type 149 in Supplement Catalogue, imperf.

Selangor. *Judicial.* M. Baillière writes that he has several unchronicled varieties.

(1) Surcharge "J." in *black* on postage stamps. $5, $10, $25.

(2) Surcharge "J." in *red* on postage stamp. 3c.

(3) Surcharge "Judicial" in *red* on postage stamps, $1, $5.

Tasmania. *Stamp Duty.* Mr. H. Thompson submits a new value of the Ornithorhynchus type. The stamp is lithographed and perf. 12, the value being inserted by a second printing and much out of "register." Furthermore it is postmarked.

2d., red-brown

Mr. Thompson also sends us the 1d. provisional on 3d., red-brown, surcharged "REVENUE" twice.

Transvaal. *Pass, 1899.* M. Baillière informs us that he possesses a 5/-., black on rose, of the issue chronicled in our January number.

Victoria. *Beer Duty.* Mr. H. Thompson has a small square stamp, with Head of Queen to left in a small oval in centre and words "BEER DUTY" on either side, "VICTORIA" above, "FOUR PENCE" below, also inscriptions "INLAND REVENUE" and "TWO GALLONS" with value in figures, all contained within a frame of a Greek key pattern. Wmk. V. and Crown. Perf. 12-12½.

4d. (2 galls.) aniline-red.

VOL. V. JUNE, 1904. No. 6.

The Fiscals of Swazieland.

TO THE EDITOR OF MORLEY'S PHILATELIC JOURNAL.

Sir,

UPON reading Mr. A. B. Kay's Article, under the above heading, appearing in the October number of this Journal, I felt very doubtful about the genuineness of the stamps there described and chronicled, nor were my doubts in any way diminished on subsequently being sent a few specimens by Mr. Walter Morley for my inspection. When returning these specimens to Mr. Morley I explained that for sundry reasons I doubted the issue. To this I received a reply stating that there were two sources of revenue, namely, that collected on behalf of King Umbandine in respect of which no stamps were used; and that collected by the Swazieland Government Committee per High Court and Landdrost (Magistrate) Court.

I thereupon made enquiries and succeeded in securing a few used specimens. From those obtained by me, I am now in a position to add the following to the varieties listed by Mr. Kay, viz :—

(*a*) *On yellow paper.* 10/-; 3/- (value inverted).
(*b*) *On rose paper.* 1/6. (Provl. 6d. being added in ink to 1/- value).
5/- (Value inverted).
(*c*) *On pale or whitish green.* 1/-, 1/6. (Provl. 6d. being added in ink to 1/- value).
(*d*) *On blue paper.* 1/- (Pair, one stamp having double imprint of both inscription and value).

The cancellations on some of the stamps bear the initials of "G.W.H." i.e. G. Wreford Hudson who appears to having been the Taxing Master to the High Court of Swazieland.

My informant writes to me :—

"So far as my recollections serve me the 'Swazieland Government Committee' "did not pass any resolutions or issue proclamations dealing with the franking of "documents. I only recollect using the stamps I have sent you in connection "with Court work. This was by virtue of the Rules of the High Court of "Swazieland which were drawn up by Chief Justice Kotzé *of the Transvaal. "The High Court of Swazieland was authorized by the 'Memorandum of Princi-"ples' agreed upon between the British and (late) South African Republic "Governments with the consent of the Swazi Nation in 1890. These Revenue "stamps were used up to the date when the late S.A. Republic took over the pro-"tectorate of the country, after which Transvaal stamps were utilized.

"I enclose you a copy of the 'Stamp Tariff' which I have taken from an old "copy of the Rules of Court."

From the above information and that obtained by Mr. Kay from his correspondent, I do not think we need any longer doubt the genuineness of the stamps nor hesitate to accept them in our collections.

I subjoin a copy of the "Stamp Tariff."

Yours faithfully.

SAUL A. KLAGSBRUN.

EDITORIAL.

U.S. Philippine Revenues.

WE wish to conclude this month our remarks on Dr. Perry's paper on the U.S. Revenue stamps for the Philippines in the *American Journal of Philately* which we suspended for a number in order to work off some other matters requiring attention. There remains to see what Dr. Perry has to say with regard to the "Giro" and "Customs" stamps. As in the case of stamps for other duties the first issue of "Giros" consisted of the Spanish set initialled by American officials. All three signatures referred to in the March editorial may be found on each denomination. Dr. Perry only gives them as initialled in *red* ink but as Mr. Preston Pearce has found the 2 pesos initialled in black (see January, 1903 No.) and possibly other values will turn up, since owing to the rapidity of production and short time of use it would probably be considered immaterial what ink was used for initialling. The last mentioned gentleman is perfectly correct in his surmise that the Giro stamp surcharged "U.S. INTERNAL REVENUE" in blue and listed in the Spanish Catalogue under the Receipt Stamps is incorrectly placed and that the surcharge did not alter the duty for which the stamp was intended. Dr. Perry states that "very few" of the Spanish set were so treated and only gives the two values (viz. 20c d. peso and 2p. 40c.) known to Mr. Pearce as having been seen by him. We now arrive at the complex but interesting issues of 1899-1901. The first issue was Type 315 (III) of the Spanish Catalogue, with no serif to the figure "1" of the date. Dr. Perry lists all the denominations in this type and gives the number printed as follows 5c.d.p., 4000; 15c.d.p., 2500; 20c.d.p., 3000; 30c., 60c., 80c., 1p. 20c., 2000 each; 1p. 80c., 1000 and of the remaining values 500 each. It is curious to note that the 5c.d.p. and 20c.d.p. which appear to be the commonest according to the numbers printed are not recorded by Mr. Pearce in his revised list in the Feb. 1903 number; the three other values not yet found by Mr. Pearce must it appear be added to the Catalogue. As regards Type II. we learn that these belong to a second printing from new stones, the numbers printed being 5c., 20c., 30c., 60c., 1p. 20c., 7500 each; 15c., 5000; 2p. 4500; 80c., 3500; 1p. 40c., 1500; 1p. 80c., 2p. 40c., 1000 each and 500 each of the remaining values. The types I. and IV. of the Spanish Catalogue as well as others described by Mr. Preston Pearce seem to belong to this printing and Dr. Perry accounts for their existence "as a result of more than one engraver having been employed in preparing the stones" but he closes his remarks on this issue with the statement that "These stamps "were reprinted from new stones, as those in use "became broken during the process of printing "the stamps," which apparently refers to the 4 and 6 pesos in Type IV. We fear that owing to the scarcity of blocks or pairs of stamps of this issue the arrangement of the varieties on the sheet will long remain in obscurity. It is worth noting that the stamps are printed in sheets of fifty. Coming to the issue for 1900 we note that all denominations exist in Type II. The quantities printed are 5c., 22,000; 15c., 18,000; 20c., 30c., 10,000 each; 60c., 8,000; 1p. 20c., 1p. 40c., 1p. 80c., 4,000 each; 80c., 5p., 2,000 each and 1,000 each of the remaining values. No further light is thrown on the numerous varieties. In Dec. 1900, 5,000 each of the 5c., 20c., and 80c. *without date* were printed and later the following values in the quantities given were added to this set:—5c., 32,000; 30c., 25,000; 20c., 24,000; 15c., 60c., 15,000 each; 80c., 2p., 6,000 each; 1p. 20c., 2p. 40c., 3p.; 3p. 60c., and 4p., 1,000 each. In Dec. 1902 the current set came into use. We can but glance at the "Customs" stamps. They were created by the "Philippines Customs Administrative Act" which came into force on Feb. 6, 1902. Provisionals were issued on Feb. 7th, 1902 as described and listed by Mr. Preston Pearce in the Dec. 1902 number, but Dr. Perry's list contains many which must be added thereto and as we have no space to enumerate them here we must refer those interested to the paper itself. On April 18th, 1902 these provisionals were superseded by the lithographed Customs stamps which themselves were replaced by an engraved set on Oct. 31st., 1902.

We have reviewed this paper at some length as we consider that these stamps are of the greatest possible interest and that nothing even in the postal line affords such an opportunity for the highest kind of philatelic research. Moreover Dr. Perry's article embodies information on which future study of these stamps must be based. The types of the Giro series are complex it is true and the existence of the stamps in limited quantities adds to the difficulty of elucidating the distinctive features of the various printings but with patience these difficulties may be overcome and the careful study of these stamps should afford many hours of the keenest enjoyment to the philatelist who has been initiated in the esoteric mysteries of his pursuit.

BRITISH RAILWAY STAMPS.

By "K."

THE NORTH EASTERN RAILWAY.

ONE of the first to issue parcel stamps, this company retained its original designs for over 45 years, so that a general collection of its labels is a fairly simple process. On the other hand, owing to the long period the dies have been in use, the numbers of minor varieties of type, surcharge, etc, have been almost innumerable, and a specialized collection becomes so unwieldy that such hints as I can give towards its completion are better confined to small print. The classification of North Eastern Railway stamps is further complicated by several different series, although serving more or less the same purpose, being in use on different sections of the line at the same time; and it therefore seems simpler not to attempt, at present, to describe each issue in its exact chronological order, or under its separate series, so much as under such main varieties of type and perforation as may be useful for purpose of classification. I shall, therefore, distinguish each subtype by letters, instead of figures, in the hopes that further investigation may clear up many details as to date and purpose of issue that are at present obscure about these stamps.

Anyone who has dabbled in Railway Philately must be familiar with the plain, ugly, design of the early North Eastern stamps. I will not, therefore, waste space in illustrations, or in too elaborate description of the types, but proceed at once to what must appear, to outsiders, an almost unnecessarily long list of main issues; although even now I must leave all details of the many minor varieties of each issue to an article which at some future date I may have time to compile and Mr. Morley space to include in his journal.

Issue A. 1855. (For conveyance of newspaper parcels by weight.) Large Rect. 58 x 45mm. Background of wavy lines running down from left to right with Arms of Company (3 shields) in centre, nearly covered by large figures denoting weight, in pounds. Scrolls above and below, inscribed respectively "North Eastern Railway" and "Prepaid Newspaper Parcel." Large vertical control numbers, in black; and most bear a red diagonal surcharge, LOCAL, in block capitals. Black on white, perf. 12½.

1½lbs., 3lbs., 6lbs., 12lbs., 24lbs., 48lbs.

Note. Several values are known without the surcharge "LOCAL," and I have not yet seen a surcharged 6lbs.

Issue B. About 1875? Similar to above, but with the words "At owner's risk" added in the bottom label.

Black on white, red surcharge, perf from 11 to 12½. 1½, 3, 6, 12, 24, 48lbs.

Note. A 9lbs stamp is catalogued by Morley, but neither Mr. Potter nor myself have ever seen it. In addition to innumerable varieties of control numbering, and of flaws of minor importance in the background, etc, I have met with no than less 4 different kinds of type in the figures of the 1½lbs., 3 of the 6lbs., and 2 each of the 12 and 24lbs.

The 3lbs is known with with surcharge "LOCAL" inverted.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Ceylon. The various series with the King's head are now appearing. We have not yet listed the following, most of which have been shown to us by Mr. O. Marsh.

Foreign Bill.

40c., yellow green and carmine.
80c., yellow and black.
1r. 20c., violet and green.

Judicial. Surcharged on "Stamp Duty".

10c., lilac and blue.
15c., ,, black.
25c., ,, black.
50c., ,, green.
1r., green and green.
2r., ,, orange.

Stamp Duty.

5c., lilac and red.
10c., ,, blue.
15c., ,, black.
25c., ,, black.
50c., ,, green.
1r., green and green.
2r., green on orange.

Colombia. *Habilitacion.* Our publisher has seen another value of the issue for 1897-98 Triangular type as usual.

30c., black

Timbre Departmental. Our publisher has a small oblong stamp, with Arms on left and inscription and value to right. Imperf. and perf. 10 horizontally.

50c., black on flesh

Timbre Nacional. 1895-96. Mr. A. E. Lawrence submits the 20c., black on yellow surcharged "REVISADA" in faint red Roman caps.

1903-04. Our publisher submits a 1 peso, similar in type to Type 374 of our Supplement Catalogue. Imperf.

1 peso (1a Clase), black on rose

1903-04. Mr. A. E. Lawrence sends us a stamp of much superior workmanship to the various crude productions which we have been chronicling lately for this "biennium". The design is a small upright rectangle with Arms in a circular band lettered "TIMBRE NACIONAL" in centre Name above with date in two small transverse ovals. The value "QUINCE PESOS" on a straight label at the base, with a curved scroll just above it bearing the words "CUARTA CLASE". Perf. 12.

15 pesos, green

A minute inscription below the frame of the stamp informs us that it is lithographed by J. L. Arango of Medellin.

Cordoba. (*Prov. Argent. Repub.*) Mr. H. Thompson submits some values of various duties for 1902 which do not appear to have been recorded.

Guias. Type described in September 1903. Perf. 11½.

10 pesos, blue

Impuesto à Frutos? We have before us four stamps, three of which are lettered "IMPUESTO" and the fourth "A FRUTOS," all being of a similar type to the "Guias" series. As the fourth, a 50c., agrees pretty well in colour with one of the three bearing the word "IMPUESTO" on a straight label in similar type and position to the words "A FRUTOS" on this stamp we surmise these stamps are representatives of a double set for this duty. If this be so, we can record the following values. Perf 11½. Controls in black at base.

50c., blue
1p., brick-red
5p., red-violet

Duty.?. A stamp of same general design to the preceding bearing the word "CONTROL" in coloured letters on a blank label at base. Perf 11½.

1.25 pesos, lilac-rose

1903. One value of new design containing Arms on a shield with inscription "AÑO 1903" on either side Above is the inscription "RENTA PROVINCIAL DE CORDOBA." Below, the value in white figures on a coloured ground in circles with "PESOS NACIONALES" between and the word "CONTRALOR" in colour on white ground. At the base is a lined label for control no. which is in black. Perf. 12½.

3p. nac., brown

Corea. In October 1901 under the heading "Japan" we chronicled four values of the current Japanese Revenue stamps bearing an overprint, in red, which we were unable to identify. We now learn from a correspondent in Corea that these stamps are in use there and that the following values may be found with this overprint, viz: the 1, 2 and 5 rin, 1, 2, 5, 10 and 50 sen, 1, 5 and 10 yen. It is reported that they will shortly be obsolete The Corean government has not as yet issued any fiscal stamps.

Cuba. *Policia.* Mr. A. E. Lawrence submits a portion of a document bearing half stamps, split diagonally, of the 62c., orange and 3 75p. brown of 1879.

To the same gentleman we are indebted for a number of handsome labels beautifully engraved by the American Bank Note Co., for various articles of consumption. These seem to fall into two series, one for Home Manufactures lettered "*Fabricacion y Consumo*" all in *green* and another for importations lettered "*Importacion*" in *carmine*. The stamps are oblong rectangles of various sizes, bearing the words "REPUBLICA DE CUBA" and suitable inscriptions. There are probably a number of other values as the stamps before us all bear a double enumeration (1) of a series denoted by letters (2) of the no. in the Series. We give these nos. on the stamps sent by Mr. Lawrence

I. FABRICACION Y CONSUMO.

Agua Artificial o Refresco. 5c., green (½ botella) No. 15. Série C. Imperf.

Licores Fuertes. 10c., green (½ botella, ½ litro). No 2. Série C. Roul.

Picadura. 3c., green (½ libra) No. 9. Série C. Roul.

Vinos. The stamp for "Agua artificial etc." surcharged in red in three lines "**Un centavo** ½ BOTELLA—VINOS."

1c. on 5c., green. Imperf.

II. IMPORTACION.

Cerveza. 5c., carmine (½ botella) No. 9. Série A. Imperf.

Vino Comun. 3c., carmine (botella o litro) No. 5. Série A. Roul.

Havana, Arbitrios Municipales, 1883. Mr. A. E. Lawrence sends the "Cuba—Policia" stamp of 1881, 25c. de peso, bright rose, surcharged "HABILITADO—ARBITRIOS—MUNICIPALES—1883" in four lines in a single-lined rectangle, in *blue*.

Dominican Republic. Mr. A. E. Lawrence submits a vertical pair of the 1c., red of 1884, the upper stamp of which has a small "N" and a Roman "V" in the word "CENTAVO".

India. *Court Fee* and *Court Fee Service.* Mr. W. Corfield sends us an interesting communication with respect to these stamps. He writes "In the Government collection here I yesterday "saw a list with attached specimens of Court "Fee stamps. The colours given are those of "the printed notification dated 29th Jan. 1875 ". . . . There are two types of the surcharge "'Service.' The larger (*a*) has no stop, the less "(*b*) has a stop. I have *seen* those indicated but "there are probably others."

The Revenue Stamps of Dominican Republic.

BY WALTER MORLEY.

THIS is one of the unexplored countries as far as fiscals are concerned. With one or two exceptions the stamps have been rarely met with in this country, and it is only recently that some batches of these have been ferreted out from the country by American collectors. Moen's Catalogue lists 13 varieties only, and one of these is a ? as to the colour, viz. the 25c. of 1883, while he could only affix selling prices to three stamps.

Roussin in 1898 lists 16 varieties, pricing ten of them, and from the lists now published it will be seen that recent discoveries have added a great deal to our knowledge of these interesting stamps.

1881. Arms in centre, "TIMBRE" above and value below "UN CUARTO DE CENTAVO," with figures of value at each side of arms. The whole enclosed in upright rect. lined frame (Type 1). Printed in blue on white wove paper in sheets of 40 (4 rows of 10).

¼ centavo, blue.

Type 1

Type 2

Type 3

Type 4

Similar design, but larger (Type 2). Printed in sheets of 24 (6 rows of 4). Imperf.

5 pesos, rose.

Variety: surcharged "TIMBRES" in an oval, in violet.

5 pesos, rose.

1882. Smaller design (type 3). Rouletted on coloured lines.

¼ centavo, blue.

Similar design to 1881 issue, but background filled in (Type 4). Rouletted on coloured lines.

5 pesos, rose.

Varieties: surcharged "TIMBRES" in oval, in violet.

½ centavos, blue.

5 pesos, rose.

1883. Similar design to the postage stamps of this date. Arms in centre of a double lined rect. frame printed in colour on thin white wove paper, with "TIMBRES" at top and value at bottom added by a second printing in black. Printed in sheets of 28 (4 rows of 7). Imperf.

UN centavo, red and black.
5 CTS. green and black.
25 CTS. yellow and black.
UN PESO violet and black.

NOTE. This 25c. stamp is somewhat rare, Moens did not know the colour of it, and Roussin omitted it altogether from his Catalogue.

1883? Provisional issue? This is apparently sheets of the *postage paper*, and type of arms of 1866, "TIMBRE" above and "CINCO CENT" in block type below Arms in a single lined rect. frame, the whole printed in black on pale green wove paper. Imperf.

CINCO CENT, black on pale green.

1883? Provisional? The postage stamps of 1880 and 1881 surcharged vertically with "TIMBRES" in oval in violet. Rouletted.

25c., mauve (of 1880).
25c., „ (with rose coloured network of 1881).

EDITORIAL.

WITH the month of July commences the "off" season for philately and most of our philatelic brethren are putting aside their albums and betaking themselves to fresh fields and pastures new. We have to make the most of what sunshine we get in these remarkable islands of ours so that indoor pursuits are laid aside and matters for comment are not so plentiful as an editor would wish.

* * * * *

Most of the activity in fiscal philately now centres in the Fiscal Philatelic Society and as far as we can judge the Society has accomplished some important work this season. Quite a new departure has been made in attacking the fiscals of a European country viz.: Switzerland. Some of us have thought that this country has been pretty well done already, yet as a matter of fact it has been found to bristle with intricate details, and though one or two fine collections of the country have been brought to the meetings, yet the Society has felt itself severely handicapped by the want of more specimens for examination. It seems that the fiscals of European countries meet with unwarranted neglect amongst us here and we would take this opportunity to appeal to our leading collectors to pay more attention to these stamps, which we know to be full of interest, apart from the many unexpected things which are likely to turn up with the further study of them.

* * * * *

Our Supplement Catalogue of the fiscals of South America is drawing to a close. We believe that the list of the fiscals of Uruguay which we conclude in this number is a vast improvement on any that has yet been published and we particularly wish to state that this result has been attained by the kind co-operation of Mr. H. Thompson whose magnificent collection of these stamps stands unrivalled. We tender him our grateful thanks for the many additions—some hundreds—to our first draft of the catalogue which we have made from specimens in his collection. As a completion of the Catalogue we shall publish a title page and index to the whole so that the Catalogue may be bound up by those who so desire as a separate work.

The question is being considered as to what shall follow. It is proposed that "United States, Mexico and Central America" would meet with the approval of our subscribers and it seems probable that this will be adopted.

* * * * *

The *Philatelic Society of New York* have recently devoted an evening to the inspection of part of the wonderful fiscal collection of our valued correspondent Mr A. E. Lawrence. The *Metropolitan Philatelist* in commenting on the fact, offers some sensible remarks which we reproduce for the benefit of our readers. "Monday evening last revenue amateurs were treated to a view of part of the magnificent collection of Mr. A. E. Lawrence. The volumes on exhibition contained the stamps of Cuba, Porto Rico, Spain, and Uruguay, and form the most complete assortment of these stamps in existence. The collection was greatly admired by all present and there are indications that there will be several new revenue collectors to add to the growing number interested in fiscal stamps. The great advantage offered by this field of effort is the absence of a catalogue and consequently of speculating. Each amateur has to do his own hunting, so that the reward goes to the keenest hunter instead of to the owner of the largest purse. The Philatelic Society should offer a medal to the most interesting collection of revenue stamps that can be secured by any member in the next six months."

* * * * *

Last year—in April to be exact—we chronicled and illustrated some stamps supposed to be fiscals from "Samos." Herr Kalckhoff afterwards wrote us that the inscription on them seemed to infer that they were intended for "internal postage." Major Evans in the *Monthly Journal* commenting on this stated that he had chronicled them many years ago and asks for further information. Much to our astonishment the stamps turn up as a novelty in *Ewen's Weekly Stamp News* for June 4, accompanied by an illustration of another type of stamp. Cannot somebody unravel this mystery?

* * * * *

While looking through a specialized collection of the postage stamps of Fiji some time ago we noticed several copies of the earlier stamps apparently surcharged with a "D" in two different types and pen-cancelled. The date on one copy was "1872." The owner of the collection did no know what they were. Can it be that these represent a provisional issue of fiscals for these islands, the letter "D" standing for "Stamp Duty." The *Fiscal Philatelic Society's* list gives the date of issue of the well known long stamps as "1883." Assuming that we deciphered the pen-cancellation correctly as "1872" it would seem that these stamps, if provisionals they were, existed for some time, so that it is strange we have not heard of them before. We shall be glad to receive information on this subject.

BRITISH RAILWAY STAMPS.

By "K."

(*Continued from page 46.*)

THE NORTH EASTERN RAILWAY.

ISSUE C. 1903. As issue B, but lines of background run downwards from right to left. The surcharge "LOCAL" is in thinner type.

Black on white, red surcharge. perf 11. 1½, 3, 12 lbs.

Note. Issues A, B, and C, the latter of which is only just replacing the other two, have been mostly issued for the head offices of big daily papers, which send off large parcels at a time.

Issue E. 1855? (for conveyance of newspapers by number) Size, shape, controls, design, as in issue B, but the control figure is smaller, and denotes value in pence, while the word "PRICE" is added, across the top shield, above the figure of value. Lines of background run downwardsfrom left to right, as in issues A. and B.

Red on white, black controls, perf. 12, 1d., 2d., 3d., 4d., 6d.

Note. As in issue B there are very many minor varieties of issue E. The figures of value and of control vary considerably. The letter "d," is often an inverted "p," and the full stop, either under or after it, is frequently missing. I have collected up to date, 4 varieties of the 1d, 11 of the 2d., 4 of the 3d., 6 of the 4d., and 2 of the 6d. values. Since about 1902, the ink used has been of a very fugitive shade of carmine.

Issue F. 1903. Similar to latest printings of issue E, but lines of background run downwards from right to left.

1d., 2d., perf. 11.

Note. Issues E and F have been chiefly issued to small dealers, such as stationers shops. Sheets consist of 12 stamps arranged in 4 rows of 3.

Issue G. Very similar to issue E, but figures are larger and colour changed.

1899? 1½d., blue (many shades). perf. 11.

Issue H. As above, but the figures of value are replaced by 3 thin red lines, running diagonally from left to right across the stamp. About 1902? No value, blue, red-lined surcharge, perf. 11.

Note. These blue stamps appear to have only been issued in one or two large stations, for use over a somewhat restricted area. Both issues G and H franked parcels of the same weight to the same stations, so that it seems probable that one replaced the other, in which case the earlier, with value 1½d., expressed, will eventually become rare.

Issue K (For conveyance of prepaid through newspaper papcels) Exactly similar to issue E, except that the bottom label is inscribed "Prepaid through newspaper parcel."

1858? Red on white, p. 12. 1d., 2d., 3d., 4d.

Issue M. (For conveyance of single newspapers only.) Smaller rect, 45 x 32 mm. Design similar to issue E, on a smaller scale; the lines of background run down from right to left; the words "For single newspaper only" are printed across the shields instead of figures of value, and the bottom label is only inscribed "Prepaid Newspaper." The upper left edge of the top scroll is single lined, and the lower right edge of the bottom one double.

1860? Red on white, black controls. (½d.) rouletted.

Issue. N. Exactly the same as issue M, but perf. about 12½.

Issue O. As above, but the lower right edge of the bottom scroll is single lined, not double.

Issue P. Similar, with the addition of the words "At owner's risk" beneath the scroll at the left bottom corner of stamp.

Perf. 10½ to 11½. Very many shades from salmon to red.

Issue Q. 1903. p. 10½, 11. As above, but both upper left and lower right edge of scrolls are double lined.

Note These stamps are printed in sheets of 30, 6 rows of 5.

Issue S. For conveyance of all prepaid parcels. Medium rect, 43 mm x 29 mm. Arms of company in centre, encircled by solid white band inscribed "North Eastern Railway" "Parcel Stamp." Each corner of the stamp bears the figure of value, and the background consists of the words "North Eastern Railway" many times repeated in minute letters. The paper is tinted the same colour as the impression. June. 1898. 1d., green, 4d., blue. 5d., rose red, 6d., black, perf. 11.

Issue T. As above, but rouletted.

? September 1898. 1d., 4d., 5d., and 6d., rouletted.

Issue T. (A). Mr. J. G. Cairns informs me that he has the 6d., of this issue perforated at top and rouletted at sides.

6d., black on white, perf 12 x roulette.

Issue U Somewhat similar to foregoing, but instead of the corner numerals, the word ONE, FOUR, etc, to denote value, is printed horizontally in block capitals at the top of each stamp, and the denomination (PENCE, SHILLING, etc.) at bottom Sept. 1902. 1/-, brown on rose, rouletted.

Issue V. As foregoing, but perforated.

Feb. 1903. 1d., 4d., 5d., 6d., perf 11. Colours as S and T.

Note. These parcel stamps are used for the conveyance of prepaid parcels, by weight, between any stations on the line, irrespective of distance. They are printed in sheets of 50, the control number of each sheet appearing in black above the middle stamp of the top row. There are many interesting shades, especially of the 1d., and 4d., values.

Issue Y. Envelope stamp. There seem to be many shapes and sizes of envelopes made for special use on the line; they are of buff paper, overprinted with the name of company and other details. The stamp is rectangular, 37 x 32 mm.; its design is similar to that for conveyance of single newspapers, except that there is no overprint across the arms, and the stamp is cut off short beneath them.

Envelope stamp. No value. Blue on buff, in many shades.

Note. I am much indebted to Mr. J. G. Cairns for kind assistance in collecting the greater part of the information contained in the above article.

THE FISCAL PHILATELIC SOCIETY.

MEETING held Thursday, June 2nd 1904. Present Mr. Schwabacher (chair) Messrs. Fulcher, Marsh, Morley, Thomson, South and Kay.

Mr. Marsh showed an interesting collection of Indian Native States fiscals, Mr. Morley several unchronicled Japanese revenues, and Mr. Schwabacher exhibited types in the numerals on the 4 and 5 marks 1883 Finland, M. Bailliére sent for inspection a fine collection of G. Britain Playing Card stamps, Canadian proofs, and Bikanir State fiscals, and M Pepper a series of Salvador surcharged for the years from 1901-04.

A vote of thanks was accorded to L. Greenburg for his donation of a $1 Hawaiian Manifest.

The fiscals of Switzerland (Bienne and Fribourg) were discussed and catalogued.

Received for the library "The New Zealand Philatelist" (Feb. and March) and "Der Philatelist" (April and May), with thanks.

The Annual general Meeting is fixed for the 6th October next. Exchange packets will be circulated as usual.

JOHANNESBURG PHILATELIC SOCIETY.

We have received the following letter, which needs no comment, from this Society:—

JOHANNESBURG PHILATELIC SOCIETY.
P. O. Box 4967. Johannesburg. 20 May, 1904.

Dear Sir,

At a meeting of the above Society held here on the 17th inst. it was resolved to draw the attention of Philatelists at home to the apparently wrong estimate formed of the value of the 5/- King's Head Transvaal fiscal with inverted centre. It appears two specimens were sold lately in London at a figure running well into three figures,—consequently it may be of interest to know that a dealer in this town had a block of 7 in his window, and the price he asked per copy was £2 10/-; besides these there are known to members of this Society over 20 specimens, which would point to the likelihood of at least one complete sheet having got into the hands of the public.

Hoping the above may be of interest

Yours faithfully,
W. G. BYRON,
Hon. Secy.

Editor,
Morley's Philatelic Record,

The Society held its Annual Meeting on May 4th, an account of which, extracted from the *Rand Daily Mail*, we append:—

RAND PHILATELISTS.

ANNUAL MEETING LAST NIGHT.

The annual meeting of the Johannesburg Philatelic Society was held last night at the Masonic Hotel. There were present:—Mr. M. Neuburger, in the chair; Messrs. S. Klagsbrun, C. E. Lawson, A. G. Cohen, F. H. Brennan, A. Law, H. H. Robinson, E. Harford, R. Syme, W. W. Green, W. R. Cohen, A. Sonn, F. H. Ansell, and W. G. Byron, acting secretary.

ANNUAL REPORT.

The annual report and balance sheet were received. The former showed that although the Society had not been all that could be desired, their efforts had not been entirely fruitless. There were at present 42 members of the Society, a decrease of seven as compared with the previous year. Several exhibitions of stamps of various countries have been held during the year. Amongst the donations to the Society are three volumes of Stanley Gibbon's album, the gift of Mr. E. O. Meyers, to whom the thanks of the Society are due, while Messrs. Sonn, Byron and Neuburger have contributed to the library.

The financial position of the Society can also be considered satisfactory, the credit balance to date standing at £33 4s. 8d. It is proposed to hold a banquet at the Masonic Hotel on Tuesday evening next.

The Chairman moved the adoption of the report, and on Mr. Klagsbrun seconding, it was carried unanimously.

The following officials were then elected:—Mr. M. Neuburger, chairman; Mr. S. A. Klagsbrun, vice-chairman; Messrs. E. Harford, C. R. Schuler and Dr. L. F. H. Brennan, committee. Mr. W. P. Cohen was appointed superintendent of exchange and hon. treasurer; and Mr. W. G. Byron as hon. secretary.

It was intimated that visitors will always be cordially welcomed to the meetings of the Society.

The members then discussed the arrangements for the forthcoming banquet, after which the meeting terminated.

TELEGRAPH CHRONICLE.

Ecuador. Mr. A. E. Lawrence submits a queer looking label printed in black on white paper containing Arms in an oval in centre with label above and below, the upper bearing the words "TELEGRAFOS DEL ECUADOR" and the lower the words "VALE VEINTE CENTAVOS" in two lines. The stamp appears to have been used and is possibly a provisional.

20c., black. Imperf.

Guatemala. Our publisher has the 10c., black on blue, postage stamp of 1897, with the surcharge "Telegrafos" in *red*.

India. Mr. W. Corfield reports the issue of the 2 rupees with King's head. The colour of the stamp is not yellow as the one which it supersedes but has reverted to the shade of the old 2r. 8as.

2 rupees, orange

Orange River Colony. Mr. S. A. Klagsbrun notifies another variety of the 1s. on 3d., blue in addition to those chronicled last April, viz: with the first "i" in the word "Shilling" of the surcharge omitted.

He also possesses the 1s. brown "Army Telegraphs" with double surcharge.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Ceylon. *Foreign Bill.* Mr. O. Marsh submits another value with the King's head.

10c., slate.

Cordoba. *Prov. Argent. Repub.* Mr. F. L. Applegate notifies some varieties which we have not yet chronicled.

Renta Provincial. 1897 To the provisionals recorded for this year add

5c., on 4c., blue (*red* surcharge)
10c., on 4c., blue (*violet* surcharge)
20c., on 4c., blue (*violet* surcharge)

Control de Guias. 1901. Design ?

5c., blue	1p., scarlet
10c., pink	1p., 25c., violet
25c., yellow-green	3p., brown
50c., dark brown	

Finland. Mr. Schwabacher has discovered marked differences in type of the 4 and 5 mark values of 1883. There are two types of each value differing noticeably in the figures of value both in the central oval and in the angles.

Great Britain. *Ireland. Records.* Mr. Schwabacher points out that the set overprinted on the Queen's head unappropriated die is not listed in our publisher's Catalogue and submits several values The complete set is as follows, the watermarks being as usual "orb" for the 6d., script V.R. for the shilling values, "orbs" for the £1. Perf. 14.

6d., lilac and green
1s., green and black
5s., " violet
10s., " carmine
£1, lilac and black.

They were issued in 1889.

Malay Federated States. *Judicial.* Mr. O. Marsh has shown our publisher the 10c., claret and black, Postage and Revenue type, surcharged **"Judicial"** in *red* with a second surcharge in *black* below it.

Norway. *Stempelmærke.* Mr. A. M. South submits a value of a similar design to that of the 1878 issue, but modified in details. Perf. 13½ x 14.

20 ore, blue and black.

Porto Rico. *Aduanas.* Our publisher submits the 5c.d.p., red-brown, Recibos y Cuentas stamp surcharged in three lines, reading upwards, "ADUANAS—35 CTVS.—1898-99" in violet.

35c., on 5c., red-brown

An error exists with the "CT" in "CTVS." omitted.

Salvador. *Timbre.* Mr. G. W. Pepper notifies the undermentioned additions to the Catalogues. The type is similar to the illustration annexed.

1891. 5c., black on blue. Black control no.
10c., black on rose. Violet control no.
25c., black on blue. Black control no.
5p., green on white " " no.
1892. 5c., black on blue. Violet control no.
1895. 5c., black on blue. Blue control no.
1896. 5c., black on blue. Blue control no.
1897. 5c., black on blue. Black control no.
1p., blue on white. " "
1898. 1c., black on yellow. Black control no.
5c., " " green " "
10c., " " rose " "
1900. 1c., green on yellow. Blue control no.
5c., black on green " "
1902. 5c., black on green. Black control no.
10c., red on pale lilac " "

Provisionals. "1902" surcharged over the date in *violet*.

1c. green on yellow (1900). Blue control no.
5c., black on green (1900). Black control no.
50c., " on lilac (1891) " " "
1p., blue on white (1897) " " "

Ditto but "1902" surcharged in *blue*

5c., black on green (1900). Black control no.
1903. 1c., black on yellow. Blue control no.
5c., " green " "
10c., " lilac Black control no.

Provisionals. "1903" surcharged over the date in *blue*

1c., green on yellow (1900). Blue control no.
5c., black on green (1902). " "
1904 "1904" surcharged over the date in *blue*
1c., green on yellow (1900). Blue control no.

All the above mentioned stamps bear a control no. Some time ago an official in Salvador informed our publisher that all stamps bearing control nos. were used for telegraphic purposes and several were listed as telegraph stamps by us in January 1901. This point, however, seems to require confirmation, as all the evidence on hand seems to show that they are really fiscals, for example, copies have not yet been found without control nos.

1884. The arms and general design of the stamp is evidently a copy of the Postage stamps of 1880, with "TIMBRE" above and value below (Type 5). There have been apparently, judging by the variations of the shades and also of the types employed for the different values, very many printings of this series. I am unable to assign correctly the different sets but have placed them in order as far as possible by the obliterating dates found on some of the stamps. They are all printed in colour on white wove paper and are imperf.

There are also other minor errors of spacing, dropped and raised letters in the letters of value. I have only listed the principal ones I have seen and it is probable that some of these varieties exist on other of the values.

Some values have been seen with a monogram (CM) in violet and information is wanting concerning this, possibly it may be the mark of some firm using the stamps.

In conclusion I would point out to collectors the probability of some other varieties that might exist. There might have been a 5 pesos of the 1883 issue, while of the Provisional Postage surcharged "TIMBRES" other values besides the 25c. may have been utilized. Possibly other values of the 1883 provl. issue printed on the postage paper and type might be unearthed, and while I query the date of issue being 1883 for this stamp, I am also of opinion that it may have been issued prior to 1881 (our Type 1). As the postage stamps date *from 1862*, where and what are the fiscals that were used during that time? If I am right as to the two duties being somewhat similar in types, the single stamp we chronicle as "1883?" will be found to be one of the series in use probably from 1866 to 1881.

EDITORIAL.

AN important change is taking place in regard to the watermark of stamps obtained for certain British Colonies from Messrs. De la Rue and Co. by the Crown Agents. Hitherto this watermark has consisted of a single "Crown and CA" appearing once on each stamp but a new paper has now been prepared in which the Crowns and CAs are so arranged that portions of three or four of them will occur on each stamp. This is a very serious change for the collector of postage stamps as it certainly means a new set of stamps for each of 42 colonies and possibly an extension of the new principle to the "star" watermark of India, the "anchor and cable" of the Cape, &c, will cause a change in nearly all existing British Colonials. It does not however yet appear to be of so far reaching a character in the case of fiscal stamps unless the principle affects such stamps as the long Foreign Bill stamps of Ceylon or those of Mauritius. The immediate effect, apart from stamps like the "Judicials" of Gold Coast and Jamaica, will be on such stamps as the current Transvaal and Hong Kong Revenue which are at present printed on the old "Crown CC" paper for large size stamps. In fact the exhaustion of this paper is the signal for the introduction of the multiple Crown and CA paper in pursuance of a settled policy of many years ago. The old "Crown CC" paper was made in two kinds, corresponding to the different sizes of the sheets of stamps, one for ordinary sized stamps and another for stamps of the size of the current 2/6, 5/-, and 10/-, stamps of Great Britain. It will be readily seen that by the new arrangement of "multiple" watermark only one kind of paper will be necessary for stamps of any size or arrangement on the sheet and the multiple "Crown and CA" paper has been prepared with this end in view.

Fiscal collectors are well acquainted with the sets of Queensland Impressed Duty stamps, of values from 1d. to £500, only slightly cancelled with an embossed impression or with a small circle in black on the corners of four stamps, which are offered for sale at curiously varying prices. We have had many enquiries as to the value of these stamps and they have been offered to us at all sorts of prices from £3 to £50 a set and even above the latter figure in two or three instances and moreover the offers come from all parts of the world. The true history of these sets appears to be that while possibly the earlier sets in this condition were "specimen" sets the Queensland Government has taken to selling these stamps in the condition described at 50/- a set. At present they appear to be in the hands of speculators rather than *bonâ fide* fiscal collectors but it is certainly doubtful whether a set, in a genuine used condition, could be got together by the collector at so low a figure as they may now be obtained. Nevertheless, used copies of some of the values are coming over more and more freely so that collectors should proceed with caution in acquiring these "cancelled to order" sets.

A bill was introduced last month into Parliament with a view of abolishing the commission on Money Orders presented for payment after the lapse of three months and also, which is especially of interest to philatelists, of regulating the use of embossed stamps cut from envelopes &c. for the prepayment of postage. The second clause of the bill runs "The Treasury may by "warrant under the Post Office Acts, 1837 to "1893, regulate the use, by way of prepayment "of postage, of embossed or impressed stamps "cut out or otherwise separated from the cover "or other paper, cardor thing on which the "stamp was embossed or impressed, and section "nineteen of the Post Office Act 1870, which "prohibits such use of such stamps shall be "repealed."

MM. Yvert and Tellier's Fiscal Catalogue by M. Forbin-l'Hoste to which we referred last month is now complete and may be obtained, bound, for 6/-. We can only congratulate the author and publishers on the publication of this valuable work which is thoroughly up to date, conveniently arranged and well illustrated. The publishers, moreover, have endeavoured, with what success it is not within our province to determine, to affix prices to the great majority of the stamps. We expect this Catalogue will give a great impetus to the cult of fiscal philately as collectors have now available a handy Catalogue on which to base their collecting and exchanging. It may be desirable to mention that the Catalogue is about as big as "Gibbons Part 2" but about half an inch taller. In October next M. Forbin-l'Hoste will publish the first number of the "*Bulletin Fiscaliste*" a new journal exclusively devoted to fiscal philately. In this paper will appear additions to the Catalogue and modifications of the prices as may be necessary.

BRITISH RAILWAY STAMPS.

THE NORTH EASTERN RAILWAY.

Railway Letter Fee Stamps.

THE North Eastern Railway Company is believed to have issued more Letter stamps than any other, and is certainly responsible for the greatest number of printings and varieties. The first issue (Feb. 7th, '91), printed in vermilion to the number of 18,000, soon became famous for contravening both in type and colour, the ugly design conventionalised by the red tapists of the post office. The unissued remainders were therefore destroyed, and a new issue made the following month, conforming to the official taste. These first two printings bore large vertical control numbers. The red stamps numbered from 17460 to 18000, which were destroyed, are stated to have been replaced by green ones bearing the same numbers, but no specimens are now known, and it is uncertain whether they were a special printing or were part of what is now known as the 2nd printing, with vertical controls. Commencing with the 3rd printing, number 20,001, May, 1891, all stamps have been numbered with horizontal control figures, which vary very greatly in size and shape. There have been, to date, about 66 issues, 20 printings, and 9 transfers. The difference in shade between stamps of various printings is very marked, and the perforation, originally 12, was changed to 11 with the 44th issue in March, 1900, since when all stamps have been perf 11 except the 48th issue, in Dec., 1900, which reverted to the old gauge of 12.

The main varieties are as under:

Issue.

1 Feb. '91. 2d., vermilion. Type I., perf. 12. Large vert. controls. Nos. 1 to 17,460.

2 Mar. '91. 2d., green. Type II., perf. 12. Large vert. controls. Nos. to 20,000.

3-13 May '91 to Nov. '93. Green. Type II., perf. 12. Medium horiz. controls. Nos. to 63,000.

14-16 Feb. '94 to July '94. Olive green. Type II, perf. 12. Large horiz. controls. Nos. to 73,000.

NOTE. A few specimens with large controls were of the older green shade

17 Sept. '94. 2d., olive green. Type II, perf. 12. Medium controls. Nos. to 76,000.

18-22 Nov. '94 to Sept. '95. Bright green. Type II., perf. 12. Medium controls Nos. to 91,000.

23-25 Dec. '95 to June '96. Dark blue green. Type II., perf. 12. Medium controls. Nos. to 100,000.

26-44 Aug. '96 to Jan 7, 1900. Green (shades). Perf. 12. Medium or small controls. Nos to 169,000

45-58 Mar. '00 to Oct. '02. Green, yellow-green. Type II., perf. 11. Medium or small controls. Nos. to 198,960, except the 48th, numbered 166,001 to 169000, which is perf. 12.

58-66 Jan. 1903. 2d., green. Type III., perf 11. Medium controls. Numbers from 198,961 to 223,000, so far. Type III is similar to type II, but redrawn. The types and issues can be easily distinguished through the control numbers. A part sheet, (20 stamps) of the 15th issue was not numbered by the printers. The company gave these stamps to certain collectors who applied for specimens; they are naturally rare, but were never actually issued for use on the line.

SOME NEW RAILWAY STAMPS.

By G. W. J. POTTER

NORTH EASTERN RAILWAY.

AS a supplement to "K's" interesting and instructive article on the stamps of the North Eastern Railway contained in the last two issues of M. P. J. it may be noted that this company has recently n augurated a night parcels express service, the charges of which are to be prepaid by special stamps affixed by the sender. By this new scheme, parcels up to 112 lbs in weight are conveyed at especially reduced rates from certain of the larger stations on the system to those stations that are 51 or more miles distant. This privilege does not apply to stations on foreign companies' lines (all companies are "foreign" to any one company, although of course British) but only to those of the N. E. R. To secure these benefits the parcels must be handed to the company before 6.30. p.m., delivery being effected on the following morning. The idea is of course to free the passenger service from the encumbrance of parcels, etc., and by the time thus saved at stations to expedite the working of the day trains generally, and as a matter of course the night trains also.

Particulars of the stamps are not yet to hand, but later on I hope to be able to give a full description of this latest addition to the complex N. E. R. series.

GREAT WESTERN RAILWAY.

On the Great Western Railway the way billing of prepaid parcel traffic (under 2 cwt.) has been abolished since the end of last June. Special adhesive stamps ranging in value from 1d to 5/- have been issued, and these to the requisite value are affixed to each parcel at the fowarding station. This plan should largely simplify the station accounts and should also save much time and unneccesary labour.

Here again I have not yet seen these new stamps, but probably some of the few readers that are interested in this branch of philately will soon meet with specimens, and I hope that they will give the benefit of their experiences to this paper without delay.

Colombia. Dr. F. Kalckhoff writes "The "new 1 peso [fiscal], which you chronicled in "the May number has a companion in carmine "on rose. These two stamps differ from the "former type principally by two changes: the "figure "1" is enclosed in a circle instead of a "shield, and the word "PESO" is cut out from "the coloured ground, while formerly it was "given in coloured letters."

The Embossed Consular Service Stamps of Great Britain.

BY A. B. KAY.

According to Moens these stamps were issued in "April 1855" which is obviously a misprint for "1885." Mr. Fulcher informs me that none of the stamps are to be found in the archives at Somerset House but that the embossed die is registered on the 1st April 1885. We may therefore accept April 1885 as the date of issue. The next issue, overprint on unappropriated dies, are registered at Somerset House in the later months of the same year, so that the embossed stamps had a life of barely 6 or 7 months. The stamps themselves consist of an embossed die containing Arms in an oval and the words "CONSULAR SERVICE" on a scroll on either side this die is embossed in colour, with the value in words, figures and control numbers overprinted in black, on thin white paper, watermarked in the sheet. The stamps are roughly perforated 12. Two sets, one with value in British and the other in dollar currency, exist. The former was apparently used in all British Consular offices except where the Chinese dollar was current, when the latter were employed.

Paper. At least four kinds of paper were used, but all are very similar in texture and colour, and can only be definitely distinguished when portions of the watermark are to be seen. These watermarks are :—

I. **J. R. JONES.** in double-lined block capitals 12mms. high.

II. ..... **EN & SON** 1884. } in large double-lined Roman capitals.

III. **J. WHATMAN.** 1885. } in large double-lined Roman letters (most frequently found).

IV. **J. R. D ?** in double-lined block letters 12mms. high.

Copies have also been found showing part of a design.

Printing. It is most probable that the stamps were printed in four operations, so that variations in the positions of the overprint are of little importance.

1. Value in figures at top of stamp and centre of counterfoil, dividing line between stamp and counterfoil and value at base of stamp.
2. Value in middle of stamp.
3. Embossed coloured die.
4. Control numbers on stamp at left and on counterfoil at right.

Control numbers. It is reasonable to suppose that the stamps were numbered consecutively, so that the highest number noted on any one value, should be a guide to the number issued. Several types of control numbers were used, doubtless differing with the various printings, and the classification in the following lists is only intended to distinguish the principal types.

The stamps were issued in book form, bound in vertical strips of 5 with counterfoil at left. The right sides of the stamps are always imperforate, those with control numbers ending in "1" or "5" are imperf. at top and those ending in "0" or "6" imperf. at bottom.

My thanks are due to Messrs. O. Marsh, W. Morley, and A. Preston Pearce, for allowing me to examine their collections of these stamps.

A. VALUES IN BRITISH CURRENCY.

I. Value in figures, with stop, at top right hand corner of stamp.
   (a) Small, 3¼ mms. high. (b) Large, 4½ mms. high.

II. Value in words, in one line, without stop.
   (i) Across middle of stamp, 2¼ mms. high.
   (ii) At base of stamp, 1¾ mms. high.

III. Control nos. at top left hand corner of stamp.
   (w) Small, narrow, 3¼ mm. high, "2" with curved tail, "7" with curved top.
   (x) Medium, 3½ mm. high, "2" with straight tail, "7" with straight top.
   (y) Large, 4 mm. high, "2" with curved tail, "7" with curved top.

When two control nos. are given in the list they are the lowest and the highest seen. Control nos. are given of the varieties, as it is probable that stamps with controls ending in the same number (or 5 more) may show the same variety. The stamps found are given in the list on the preceding page. The letters and figures refer to the varieties of overprint as described above.

EDITORIAL.

IN *Mekeel's Weekly* for Aug. 27th will be found a very interesting paper, well worthy of perusal even by active fiscal collectors, on "Fiscal Philately: its Progress and Prospects" which was read at the Convention of the American Philatelic Association at Pittsburg by A. E. Burgoyne.

Fiscal Philately. The paper is an admirable one to bring before an audience, of which we suppose the greater number were postage collectors solely and it should serve to bring a number of recruits to the fiscal side of philately. The arguments in favour of fiscal collecting we need not enter upon here but it is sometimes well to be brought face to face with some of the difficulties attendant on the cultivation of this branch of philately. The "enormous quantities" of fiscals appear to be a great stumbling block in the way of those who might otherwise be tempted to take them up and even many who collect seem to be overwhelmed at the supposed task before them. It is, of course, the "general collector" of fiscals who feels this weight of numbers pressing upon him, but we strongly doubt whether he is much worse off in this respect than the "general collector" of postage stamps only. Fiscal philately has hardly as yet reached the stage of "specialism" but it seems to us, notwithstanding, that at this time of day it is far wiser for a collector to collect one or a group of countries rather than attempt to conquer the whole fiscal world. *Multum non multa* is a golden rule in many other pursuits besides stamp collecting.

Is the total number of known fiscals so vastly in excess of that of postage stamps? We doubt it. Some countries such as Argentine Republic and other South American states, Mexico, Spain and some other European countries, Great Britain and India have, it is true, very long lists to their credit, but taking all countries into account the excesses of these few are swamped by the smaller numbers of many others. For example, let us compare Yvert & Tellier's new Catalogue which contains all known fiscals with Gibbons Postage Catalogue Part II, i. e. without the postage stamps of Great Britain and Colonies. Yvert and Tellier's Catalogue contains 607 pages as against 527 of Gibbons, it is half an inch taller, it omits Italian Municipals—a very large class, and the matter, especially as regards the chief "varieties" of fiscals is more condensed, but on the other hand the type and of necessity the illustrations are larger. The two volumes, therefore, probably contain somewhat the same bulk of matter, so that if we throw into the postage scales Great Britain and Colonies as well as locals it does not appear that the number of fiscals can exceed that of postage stamps. So far as we can see, then, the number of existing fiscals need alarm no collecter but there are two other difficulties which appear to us more serious. One is the impossibility of collecting fiscals unused owing to the high values to which they run and the other the difficulty of completing almost any country owing partly to the extreme rarity of many fiscals and partly to the fact that some, neither in a used nor unused state, come into the hands of collectors. For the former difficulty we fear there is no remedy, all the collector can do is to secure as clean copies as possible, the latter may partly remedy itself as fiscal collecting progresses. The more demand there is for fiscals the more likelihood there is of hidden stores being unearthed and some of the great rarities of the present time may come to light in quantities a few years hence. It is curious why some of the British Colonial fiscals should be so rare; such as the second issue of Ceylon (these bear no name and may have been used in some other colony) the Foreign Bills and Judicials of the Straits Settlements, the lilac Special Papers of India, etc. At the present time it seems to be a peculiarity of fiscals that rare ones are practically unobtainable. It only remains for the eager collector to wait and hope.

Junior Philatelic Society. About October the Junior Philatelic Society proposes to repeat the successful exhibition of the stamps of Great Britain held in 1901. An elementary handbook on the stamps of Great Britain by the President of the Society, Mr. Fred J. Melville, will be published at the same time. The book will endeavour to supply the requirements of the young collector and beginner. Copies will be obtainable at 1/- each.

* * * * *

Great Britain 1d., lilac. Mr. Geo. C. Warden submits to us a number of copies of the 1d. lilac postage stamp, with 16 pearls in the corner and points out that on some of the copies (1) the lettering is smaller, as well as the dots in the oval band containing the lettering (2) the lines at the sides are thinner and the end pearls smaller and (3) the white lines in the oval band are narrower.

These differences certainly exist but we cannot convince ourselves that a second die (or a third one, if the stamp with 14 pearls is regarded as Die 1) exists. We are of opinion that the differences are due to the fact that some of the electros are better or perhaps less worn than others.

Herr Kalckhoff calls our attention to the fact that the provisional chronicled in February last has three lines of surcharge instead of two as stated, the third consisting of the date "1902" which was concealed by the obliteration on the copy from which our note was made.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the

A Newspaper Extract—August 1863.

THE STAMP MANIA.—"The cheapest postage stamp (says the *Nation*) is the French at one centime, and the dearest is that for the horse post of California, which costs four dollars (21f.). The prettiest and best engraved of all the stamps are those of France, Greece, and particularly that of New Caledonia, which merits the first place. The ugliest are those of Belgium and the English, at one penny. The largest are those of Siberia, and the smallest those of Mecklenburg-Schwerin, which bears the head of an ox. The collection of stamps representing the head of Queen Victoria is composed of 40 different models. The stamps most sought after by amateurs, either on account of their constantly increasing value, or because they have been changed, and are no longer in use, are those of the Isle of Bourbon and New Caledonia, as well as those of Spain, Portugal, English Guyana, and Van Dieman's Land. Those of the Sandwich Islands, Nicaragua, the Philippines, and the old Duchies of Italy are also very scarce."

EDITORIAL.

ON another page will be found the Report of the proceedings at the Annual General Meeting of the Fiscal Philatelic Society on October 6th. Besides the details which may be gathered from a perusal of this report we are glad to learn that the Society enters its third Session with a total membership of 69 and a substantial cash balance to its credit. This is eminently satisfactory not only for the Society but also for the cause of fiscal philately in general and now the Society, encouraged by its first flutter, has resolved on a bolder flight. The labours of the Society on the fiscal emissions of the British Colonies have considerably extended our knowledge of these stamps and have laid secure foundations for their further study so that it appears a favourable time to bring to the notice of the philatelic world in general what progress has been made and what future possibilities the prosecution of studies in fiscal philately may have in store. Accordingly the Society has decided to hold an Exhibition of British Colonial fiscals at a convenient centre in the metropolis in the early spring of next year. A circular letter, which we reproduce with the Report of proceedings to which we have already referred, has been addressed to the members and that the fiscal collecting world may be informed as to the lines on which the Exhibition is to proceed we will attempt to still further elucidate the matter by remarks based on the discussion of the proposal at the meeting aforesaid.

A Fiscal Exhibition.

The scope of the Exhibition will include the fiscal stamps of India and the British Colonies but not those of Great Britain and it is also proposed that Telegraph stamps should be shown. Including India and Ceylon there are but barely a dozen British Colonies which have issued telegraph stamps and as these have not hitherto been recognised in Exhibitions of postage stamps, it seems that they may reasonably appear in a fiscal Exhibition. Telegraph stamps, in fact, may be regarded as a kind of connecting link between postage stamps and fiscals. Gibbons has gone so far as to include the telegraphs of Great Britain in his Catalogue perhaps the remaining countries will one day be added thereto; the general feeling in this country, however, appears to be that Telegraphs are more of the nature of fiscals than postage stamps. A Prospectus will be drawn up dividing the fiscal issuing Colonies into Classes so that the competition in each class may be as nearly as possible between equally difficult countries. As this is the first time this has been attempted for fiscals no doubt changes will have to be made in the preliminary prospectus on which the Exhibition Committee is already at work, but this will be published as soon as possible so that all suggestions may have due consideration. There will be one or two classes for rare stamps, proofs and essays, curiosities, etc. The Society, by the co-operation of its members, will be able to represent practically every Colony but it in no way wishes to be exclusive and invites non-members to compete. In the latter case, however some small charge for space will be made. The continental members are reputed to have many fine things and it is hoped they will exhibit freely, in which case a very fine show indeed may be expected. At present it is contemplated to keep the Exhibition open for two days. The nature of the prizes to be awarded, will depend on the donations received. In any case, first, second and third class diplomas will be given and exhibits failing to secure diploma may be "highly commended" but if funds allow some other prizes will be awarded. The feeling of the meeting was against the issue of medals so that, as a kind of innovation in the case of stamp exhibitions, the prizes will probably take the form of small "objects of bigotry and virtue." The success of the Exhibition will, no doubt, in some measure depend upon the amount of financial support received. As there will be no charge for admission, in fact tickets will be freely distributed or for prospectus, the finances will depend on the generosity of collectors. Probably a small catalogue will be printed and charged for but this will hardly cover its own expense. An endeavour will be made to include in this Catalogue some features of permanent interest so that it may serve as a welcome addition to a philatelist's library. A further proposal is that a Fiscal Auction be held on one evening while the exhibition is open and if this can be arranged it will be interesting to see what results will attend the first purely fiscal auction ever held.

It is ten years since the Leeds Philatelic Society held its Fiscal Exhibition. Many of the exhibitors on that occasion are, we are glad to say, still available and will no doubt render assistance both with exhibits and with their advice and suggestions based on their experience but the Exhibition Committee will give due consideration to any proposals which may be offered from any source and such may be addressed to us or to the Secretary of the Exhibition Committee.

In our next issue we will report progress and if possible publish the preliminary prospectus.

BRITISH RAILWAY STAMPS.

(*Continued from page 62.*)

THE DUBLIN LIGHT RAIL & TRAMWAY SYSTEM.

A very interesting series of parcel stamps is that issued for use over the complicated network of rails that unite in making the County Dublin tramway system one of the most perfect in the world; and the issue of a new set, by the leading Company, seems to afford a favourable opportunity for putting on record a complete list of its many labels before the earlier varieties join the ranks of the unobtainables, as some of them will soon do. Although some parts of the Dublin system are worked by tramcars, many of the affiliated Companies are practically Light Railways, and the stamps, which are used for the prepaid carriage of newspapers and parcels throughout the County, are fully entitled to be included in a collection of Railway stamps.

DUBLIN UNITED TRAMWAYS COMPANY.

Issue I. Supposed to have been issued for through parcels on the Dublin and Lucan section.

1890? Large rect. 60 x 40 mm. p. 10. Name of Company, in old English Characters, at top; special contract conditions at bottom; figure of value, weight, and controls, etc., in centre.

5d., (under 7lbs.) black on green
7d., ,, 14 ,, ,, ,, blue
8d., ,, 28 ,, ,, ,, white

Issue II. Smaller rect, about 45 x 40 mm. p. 10. For conveyance of small parcels on the Dublin lines. Title in fancy letters, at top; 3 lines of conditions at bottom; large figures of value, conditions as to weight, and control numbers, in centre.

1d., black on fawn.

Issue III. 1892? (a) For conveyance of newspapers. Medium rect, 35 x 32 mm. perf. 10, 10½ 11. Design exactly similar to Issue II, but the colour is applied so as to leave a large white star in the centre of stamp, which gives it a novel and quite unique effect.

1d., black and red on white

NOTE.—There have been many printings of this stamp, which is still current. The earliest was on surfaced paper since which ordinary paper has been employed. The first series of controls was unlettered; about 1897 a series with A before the number was commenced; and the B series is that now in use.

Issue III. (b) For conveyance of parcels. Exactly similar to III (a) except for the colour.

1d., black on yellow (shades to buff.)

NOTE.—The earliest of this issue known to me is of the A series, with control in red. In 1896 B series with red controls was in use. During this series, the controls were changed to black; and it was succeeded by another A series with black controls.

Issue IV. 1895. For conveyance of all parcels handed into stations on the D. U. T. Coy's line. Medium rect, about 40 x 32 mm. perf about 10. Design somewhat similar to the 1d., value, but name of Company in thin block capitals.

2d., under 7lbs. black on white
3d., ,, 14 ,, ,, ,, pink, rose
4d., ,, 28 ,, ,, ,, grey blue, greenish blue, blue
5d., under 42lbs. black on lemon, buff
6d., ,, 56lbs. black on green, greenish blue, pale blue, bright blue green.
1/-, black on pale pink
5/-, ,, ,, fawn

NOTE—There were many printings during the long life of this issue; the order of colours given above is that in which the successive varieties were issued.

ORANGE FREE STATE.

COMMANDO BRIEF.

A number of forgeries of the well known yellow stamp have lately appeared. The forgeries differ amongst themselves but all can be detected by the difference in the frames from that of the genuine stamp. In the genuine stamp the pearls in the frame are large and each contains a clear curve of shading, in all the forgeries the frame is confused, the pearls small irregular and irregularly shaded. There are

also differences in the letter "R" of "FRANCO" most of the forgeries having the top loop rather smaller than on the genuine stamp. The forgeries also bear a forged postmark, the tails of "99" in the date being too long. In one cass a postmark purporting to be "BARKLY WEST—CGH" has "C. C. H" instead of "C. G. H." The colour of the forgeries though sometimes approaching that of the genuine, is generally buff or orange instead of bright yellow.

The following letter has been addressed to the members of the Society :—

Dear Sir,

It is proposed to hold an exhibition of British Colonial Fiscal stamps in London in March or April 1905.

The exhibition would be held under the patronage of our Society, but nonmembers would also be entitled to compete.

The Society intends to grant Diplomas for the best exhibits and if the financial support given to the exhibition allows, also to award prizes in some other shape.

The Society will be glad to receive contributions to the fund which is being raised to cover the expenses of this exhibition.

The exhibition Committee are desirous to receive suggestions as to the classification and arrangement of the programme of the exhibition. A prospectus will be issued as soon as possible.

Yours faithfully,

L. W. Fulcher

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the

Argentine Republic. The stamps listed in our issue for April 1903 under the title "Juegos de Estampillas" are the "Foreign Bills" for 1902. According to the "*Bulletin Fiscaliste*" the colours of the issue for 1903 are as follows

50c., lilac	8p., brown-violet
1p., carmine	9p., dark green
2p., violet	10p., black
3p., brown	15p., lilac
4p., bright rose	20p., brown
5p., dark violet	25p., olive
6p., claret	30p., reseda
7p., dark green	40p., olive
	50p., brown

According to the same journal the "Documents" set for 1903 is, as far as yet known, of the following values and colours :—

5c., slate-grey	80c., red brown
10c., rose	90c., olive-grey
20c., red-brown	1p., sepia
40c., orange	2p., deep slate
50c., sepia	3p., deep blue
60c., claret	4p., claret
70c., dark grey	5p., green
75c., dark green	10p., deep green

Two of these items are taken from M. Forbin L. Hoste's Catalogue.

The set for "Patentes" exists with change of date.

Baroda. *Court Fees 1887.* Mr. Schwabacher submits a handsome label consisting of a panel on left of the well known design of the current fiscals, and a large blank rectangular panel on the right the background of which is filled in with numerous repetitions of the names and titles "Srīmat Sayajī Rāo, Mahārāja Gaekwār" in native characters together with the date 1943 (=A. D. 1887). The inscription above and below the portrait on the left reads "His Highness the Gaekwar of Baroda" and on the straight label underneath "1000 rupees"

1000 rupees, puce

Canada. *Yukon.* Our publisher has received copies of the Law stamps for the Yukon district which were announced some time ago The design consists of "Justice seated" with the inscription "Yukon Territorial Court Law Stamp" above and the value below. Perf. 12.

1d., lilac and carmine
1s., ,, ultramarine
2s., ,, yellow-brown
5s., ,, black

Ceylon. *Foreign Bill.* We have seen the undermentioned values of the King's Head series.

60c., brown and violet
1r., carmine and blue

Cordoba. (*Prov. Argent. Repub.*). *Renta Provincial, 1902.* The following values, additional to those chronicled by us in March 1904 and Sept. 1903, are mostly taken from *Le Bulletin Fiscaliste.*

5c., blue	15p., violet
30c., rose	20p., orange
60c., dark green	25p., red
80c., red	30p., sepia
4p., sepia	40p., yellow
5p., dark green	50p., sky blue
10p., brown	

The issue for 1903 consists of double stamps, of somewhat similar design. The left hand stamps bear the inscription "IMPUESTOS GENERALES" and the right hand stamp the word "CONTRALOR" on a straight label, above the blank label at the base for the control number.

5c., emerald	1p., lilac
10c., blue	3p., red-brown
20c., sky blue	4p., green
30c., orange	5p., dark blue
40c., dark blue	10p., mauve
50c., red-brown	100p., blue
60c., red-brown	200p., dark green

60c., slate	5p., violet
90c., lilac	6p., dark green
1p., grey	10p., orange
1.50p., claret	20p., dark grey

Costa Rica. Mr. Schwabacher submits a pair of the 25 pesos, carmine, of 1883, the left hand stamp of which lacks the figures "25" in the circular space in the top left hand corner.

Great Britain. *Customs.* Mr. Schwabacher has found the 5/-, Die N with the overprint "CUSTOMS" inverted The date in the date plugs is "16.7.00" with letter "B" in the "year" plug.

Mayor's Court. Another error of surcharge which Mr. Schwabacher submits is 4d., perf. 11½, with the value reading "OUR PENCE."

Mendoza. (*Province Argent. Repub*). The following are additions to the series for 1900-1903, mostly taken from *Le Bulletin Fiscaliste.* Those previously chronicled by us will be found in the number for April 1903.

1900.	4p., blue-green	5p., brown
1901.	10c., brown	5p., sky-blue
	2p., brown	

1902.

5c., brown	4p., green
10c., sky-blue	5p., vermilion
20c., grey-green	10p., brown
25c., dark blue	15p., grey-green
30c., violet	25p., yellow-bistre
70c., emerald green	50p., lilac-rose
3p., ultramarine	

1903.

1p., orange	10p., green
2p., blue	15p., lilac
3p., yellow-bistre	20p., brown-violet
4p., rose	25p., ultramarine
5p., bistre	50p., emerald-green

Peru. Mr. Schwabacher submits an unchronicled provisional viz: the 1 sol, rose, perf. 14, of 1886, surcharged "BIENIO 1883 Y 1884" in oval in magenta.

Transvaal. In the August number of the *Philatelic Journal of India* Mr. N. Yaar states that among the records of the Dutch printers to the Transvaal Government he found a letter from the Postmaster General of the Transvaal, Mr. T. van Alphen, date (?) 1885, authorizing them to draw a new design for fiscal stamps, at the same time enclosing a fiscal stamp of the 5s., value, black on orange, surcharged in black "V.R. TRANSVAAL" and mentioning the list of stamps in use, from which it appears that the following two values ought to be added to the Catalogue.

£10, black on red
£20, black on yellow

It seems as if these should exist both without and with the surcharge "V.R. TRANSVAAL."

Uruguay. Mr. Schwabacher has shown us various values of the Bill stamps bearing an overprint "SELLO DE MULTA" in an oval frame in blue, sometimes falling over two stamps. There appears to be no reason for regarding this overprint otherwise than as an obliteration.

AWARDS.

A diploma will be given for the best exhibit of each country provided it is of sufficient merit. In classes I, II, III & IV, first and second prizes will be awarded for the best two exhibits, irrespective of country and in addition to the diplomas; in class VIII first and second prizes will be awarded; in classes V, VI, VII, IX, X, XI & XII one prize only. An exhibit of sufficient merit which does not obtain a diploma may be marked as "Highly Commended." All awards will be made subject to the discretion of the judges whose decision must be taken as final. No exhibits by any of the judges can be entered for competition.

The number of prizes may be increased if sufficient financial support is given to the exhibition fund.

In making their awards the judges will be requested to take into consideration, not only the completeness of the exhibit and the rarity of the specimens contained there, but also the neatness and accuracy of arrangement and the philatelic knowledge displayed by the exhibitor.

NOTE. By the award of a diploma for each country even the most modest exhibitor may hope to compete successfully; the Society trusts that this will create a keen competition.

EXHIBITS.

Exhibits in all classes except VII & XIII must be mounted on cards, paper, or loose album leaves. It is hoped that exhibitors will as far as possible assist the Committee in securing uniformity by mounting on sheets not exceeding 13 x 11 inches so that space may be economised. There will be no charge for space to members of the Fiscal Philatelic Society but others will be charged a fee of 5/-; exhibitors will be required to send in their exhibits about a week previous to the opening of the exhibition so that they may be described in the Official Catalogue and they are requested to send particulars of their exhibits calling attention to anything which they consider specially worthy of note. The right of refusing any exhibit without assigning any reason for such refusal is reserved by the Committee and also the right of showing only part of any exhibit in the case of insufficiency of space.

INSURANCE.

Arrangements will be made by the Committee against loss by fire or theft of exhibits. The charge for insurance will be payable by the exhibitor.

JUDGES.

The following gentlemen have consented to act as judges.

E. D. Bacon.
L. W. Fulcher.
A. B. Kay.
H. Thompson.

It is hoped that the names of one or two Continental members of the Fiscal Society may be added to the above list.

DONATIONS.

The exhibition will be supported mainly by voluntary contributions ; the Society therefore requests donations to the Exhibition Fund The names of subscribers, but not amounts subscribed, will be published in the official catalogue. A donation form is enclosed herewith.

The amount already subscribed is 16 guineas.

OFFICIAL CATALOGUE.

It is proposed to issue a Catalogue containing notes of interest on each of the exhibits. Mr. A. Preston Pearce has kindly undertaken to write a preface " On the History of Fiscal Stamp Collecting."

A limited number of advertisements will be received, the charge for space being fixed as below.

£1, per whole page.
10/6 per half page.
6/- per quarter page.
Small advertisements 2/6 per inch.

AUCTION.

An auction sale of fiscal stamps of all kinds and countries, will be held on April 7th. Mr. W. Hadlow has kindly consented to act as auctioneer. Full particulars will be issued later and can be had on application to the Secretary.

The Fiscal Stamps of the Indian Native States.

By Walter Morley and Oswald Marsh.

Very little is known about the fiscal issues of the Native States of India, with the exception of those of Mysore for which collectors are indebted to Mr. E. W. Wetherell who has obtained a mass of information from an inspection of the Government current stock and their older documents and records. When this part of the Catalogue of British Colonials was reached by the Fiscal Society only one collection, and that a very imperfect one, together with a few fragmentary ones of other members were available for study and it was left to us to draw up the list; after doing so, by means of investigations and requests for supplies from some of the states, we discovered much interesting matter and unearthed issues unknown to us so that we are now preparing a pioneer catalogue of the various states and we hope other collectors, especially our French colleagues who we believe have many of the older issues, and our Indian ones on the spot, will submit to us for inspection any varieties we omit from our lists.

A few notes seem necessary to explain the systems of Government under which these stamps are used. An official paper issued by the Government of India in 1886 recorded 629 subordinate or Feudatory states, with territories aggregating 628, 672 square miles and a population of 66 millions. These states vary in size from Haidarabad (83,000 square miles and a population of 11 millions) to a *share* of a petty village in Kathiawar. The one feature common to all alike is that ordinary British administration is excluded, in Anglo-India phraseology; all relations with them are "political" but everyone of these native states has yielded up the management of its *external* relations to the British Government. In one department of internal administration, the Judicial authority of the chief, there are degrees of limitation, for while in the larger states, sentences of death can be passed by the states tribunals, in others a reference to the British agent is necessary, and in the lesser states the judicial power is graduated according to class or capacity. The States of the first magnitude to each of which a superior Resident is attached are as follows:—

1. Haidarabad
2. Mysore
3. Travancore
4. Gwalior
5. Indore (Holkar)
6. Baroda
7. Kashmir.

Rajputana denotes a group of 19 states, extending across India from the borders of the North West Provinces and the Punjab on the east, and north to Sind and the Bombay Presidency on the West, the best known to collectors being Bikanir, Alwar, Bundi and Kishangarh.

In Central India are seventeen principal states (with Gwalior and Indore, Bhopal and Dhar) and a number of petty chiefships.

There is a group of minor states on the south west border of the North Western Provinces in *political* relation with the Central Indian Agency. The very numerous minor states not belonging to above groups, are all attached to the local governments of the British Provinces to which they are adjacent, including besides those mentioned, Bengal, Madras &c. and Baluchistan, under the superintendence of a British Resident at Quetta.

At the moment of writing we have only seen stamps issued by 44 of these states and some of them have very recently become known to us. We are unable to state how many actually issue special revenue stamps of their own; though it is probable several others, besides those known to us, may do so. In this article we are not taking them in alphabetical order, but taking those first in which we have obtained all available information at present forthcoming.

AKALKOT STATE.

This state is in the Deccan division of Bombay. Area, 498 square miles. Population (1891) 75,744, (1901) 82,052. In 1897-98 the gross revenue was 352,867 rupees, the chief is a Mahratta of the Bhonsle family.

The Revenue Stamps of the Dominican Republic.

By Walter Morley.

(*Continued from page 58.*)

Since writing the MSS. of this article I have seen a few fresh varieties and our esteemed American contributor Mr. A. E. Lawrence, has communicated some information as to the settings of the 1884 issue and has shown me some additional varieties including a variety of type of the 25 centavos, which curiously I overlooked myself when arranging my collection of these stamps, but like myself Mr. Lawrence has retained several blocks of this issue, with the idea of plating them at some future time, as our knowledge of the stamps accumulates.

1883 Issue. Mr Lawrence thinks the 25c. will be found to be not only a *very scarce* stamp but a *very rare* one and that the 1 peso will be found to be very far from common, which fully confirms my own observations.

I have to add the following variety :—
UN CENT, red, with comma after "CENT,". Value in block capitals.

1884 issue. (Illustration Type 5)
Some of the sheets of this issue contain 28 stamps, 4 rows of 7.
1c. I have seen a larger block (part of a sheet) of this value.
5c. One setting contains 1 stamp without stop.

Another setting includes the stamp with comma and the error "CINCC"
Add the following variety :—

CINCO CTS, green, no stop after "CTS".

25c. Add the following varieties :—
25 CENTVS, orange, no stop after "CENTVS".
25 ,, yellow, variety "25" with curly tail to "2".
25 ,, orange, ,, ,, ,, ,, .
25 ,, ,, ,, ,, ,, ,, and Roman "V" in "CENTVS'.

1 peso. There must be at least two settings of the 1 peso with stop after value.
I have a block of 9 of this stamp (*purple*) containing the variety with comma and the error "NU" for "UN" arranged as in the annexed diagram, the 7 other stamps all having a stop after the word "PESO."

UN PESO.	UN PESO,	UN PESO.
UN PESO.	UN PESO.	UN PESO.
UN PESO.	UN PESO.	NU PESO.

5 pesos. There are at least two settings of this value.
I shall be glad to see any additional varieties to our list that collectors may have in their collections or may meet with in order that we may be enabled to compile as complete a list as possible when cataloguing this country.

EDITORIAL.

The Fiscal Exhibition.

THE delay in the appearance of our October number was somewhat protracted to allow of the "Preliminary Announcement" of the proposed British Colonial Fiscal Exhibition being appended thereto. It will be seen from this "Preliminary Announcement" that the time and place of the Exhibition have been definitely fixed and the ideas of the Fiscal Society's Exhibition Committee are formulated on many points which we could only vaguely indicate in our last month's editorial as the latter was written several weeks before the scheme of competition was discussed by the Committee. It is a matter of importance that this scheme should be circulated as widely as possible at the earliest opportunity not only that the fiscal-collecting world may be made fully aware of the scope of the exhibition but also that it may be subjected to criticism before it is crystallized into a fixed prospectus of the exhibition. This last process must be accomplished as soon as possible so as to give intending competitors ample time to decide what countries they wish to exhibit, to fill up gaps and to mount their collections for exhibition. A notable innovation for stamp exhibitions is proposed with regard to the awards and we shall be much interested to see how it works. It appears to be practically impossible under any scheme yet invented to prevent the weathiest exhibitors from carrying off the big prizes but by the offer of a diploma *for every country* apart from the prize for the group or class it seems that "even the most modest exhibitor" may hope to secure recognition in any class; the "big man" can only get a diploma and a prize so that there will remain a number of diplomas in that class to be carried off by any exhibitor who can show one of the easier countries in the group in a tolerable state of completeness and accuracy of arrangement. We hope, with the Fiscal Society, that this will have a due effect on the keenness of the competition. At the present time we hear of many expressed intentions to exhibit in a way which augurs well for the success of the exhibition.

Le Bulletin Fiscaliste.

Last month lack of space prevented us from referring to M. A. Forbin L'Hoste's new periodical "*Le Bulletin Fiscaliste*" although we extracted from No. 1 a few items for our Fiscal Chronicle. Since then we have received No. 2 and this fully confirms our first impressions that here we have a publication which all fiscal collectors who desire to be kept *au courant* with this branch of philately will find indispensable. The *Bulletin* is in the form mainly of a supplement to Yvert & Tellier's new Fiscal Catalogue and is of the same size and shape. Both the numbers which have as yet appeared chronicle a large number of novelties and contain corrections for the catalogue and revision of prices. Moreover official decrees relating to recent fiscal issues in French Congo and French Guiana and official information with regard to the Bill stamps of Martinique make up excellent value for the low subscription (2 frs) asked. We trust that the enterprising editor will meet with the support which his venture so well deserves.

* * * * *

Caution.

An unpleasant reminder that popularity of fiscals has its disadvantages comes to us in the form of a report that a quantity of forgeries and fakes of Indian fiscal stamps are about to be put on the market. These are said to include mainly the lower value Indian Foreign Bill stamps faked up and with forged surcharge of "COURT FEES" and "PETITION" but also the Electric Telegraph stamps surcharged "COURT FEES" in red with the surcharge removed and offered as the Telegraph stamps. We have not actually seen any of these productions but it is as well that collectors should be on their guard.

Railway Letter Fee Stamps

Collectors of Railway stamps will welcome the 2nd edition of *Ewen's Priced Catalogue of the Railway Letter Stamps of the United Kingdom* which has just been issued. It appears that there are now in existence 637 issues of this stamp, of which no fewer than 21 are completely unknown and something like 100 others are in an unused condition as rare as or rarer than the two famous "Post Office" Mauritius stamps. "Of the 637 issues, "636 "were of the face value of 2d and one of 1d; "603 were printed in green, 3 in blue and 31 "in red or carmine; 587 were perforated 10" "left imperforate and 40 rouletted; 424 were" "un-numbered, 1 was numbered in manuscript" "and 212 had printed numbers." If, however, a collector goes in for plating, a fascinating occupation to which these stamps readily lend themselves, the number of possible varieties to be acquired is approximately 14,654.

SCARCE WELSH RAILWAY STAMPS.

By G. W. J. Potter.

Llanelly Railway & Dock Company.

SOME little time ago (*M. P. J.* I, 38) I commented upon the fact of Messrs. Mc.Corquodale having used the design of the 'one newspaper' stamps of the Great Northern Railway for the same stamps of the Manchester and Milford Railway. Since writing that account I have been surprised to find, upon going through my collection, that another Welsh company had been treated in a similar manner. The victim in this case was the Llanelly Railway and Dock Company, whose Act for the construction of a Railway dates back to 1835; a previous Act in 1828 referring to the making of docks.

Since June 1889 the Llanelly company has been amalgamated with the Great Western Railway. Thus there are no present day issues, and the stamps under discussion must date back for some considerable period; the design appearing to be made from a very early state of the transfer used for Issue B3 of the G. N R. (*M. P. J.* III, 6).

The upper label has "LLANELLY RAILWAY" and the lower "& DOCK COMPANY." In the upper half of the white centre is "ONE NEWSPAPER" as in the G. N. stamps, but one is pleased to note that the shields of England and Scotland have been removed, and in their place appears "½d" in black; the fractional line being horizontal and not diagonal as in the case of the English company. The stamp is printed in red on stoutish white paper and is perforated 10. Size 28 by 32 millimetres.

Morley's *Catalogue* chronicles this stamp but no selling price is quoted. I have not seen any other copies, either of this or of other values, if such were ever issued by this little known company; thus it may be undoubtedly reckoned as a very scarce and interesting stamp.

Mid Wales Railway Company.

Another rare stamp, which I am pleased to be able to illustrate herewith by means of an excellent half-tone block, is one that was issued some years ago by the Mid Wales Railway.

As will be seen, the design is one of the most artistic that have been employed on railway stamps, it seems strange that it should be left for a little line to bring out an issue like his while the L. & N. W.—whose early attempts were fair—have steadily sunk, lower and lower, until they have reached their present awful prepretrations in carmine beyond which it is hardly possible to go.

Besides the value illustrated I also have the good fortune to possess an unsevered and unused pair of the 1d value; this is similar to the 2d except that "*ONE PENNY.*" and "*Not exceeding 1lb*" take the place of the respective legends shown in the engraving. The 2d is printed in black on a rather rough surfaced dark blue paper; that chosen for the 1d being of a slightly smoother quality and white in colour; both being perforated 12. Size 3.7 by 4.2 centimetres.

Although the Mid Wales may be claimed as a more modern railway than the Llanelly—its Act dating from August 1859—it seems to be even less known than the other, and its philatelic issues are probably somewhat rarer. It has been worked by the Cambrian since January 1888, and may now be regarded as an integral portion of that company,

In conclusion I may say that I shall esteem it a favour if readers possessing copies of the above that are in any way different from the description given, or of any other rare railway stamps—especially those not contained in Morley's *Catalogue*—will write me, through the the Editor, upon the subject, as it is earnestly desired to chronicle all stamps that have been issued by the railway companies of Great Britain and Ireland.

THE DUBLIN LIGHT RAIL & TRAMWAY SYSTEM.

Issue IV (A). For use by private firms. The 1d. of issue III and 2d. of issue IV were surcharged with 3 horizontal blue lines, and issued to private firms for prepayment of carriage of parcels throughout the system.

1d., black and blue on yellow, B series
2d., " " " " white

Issue V. Jan. 7th 1901. Somewhat similar to issue IV. The title is in Roman print.

½d., green on white Perf. 12

Note. This value was required for through parcels on the Clontarf and Howth line, where several half-penny rates were in force. It is now obsolete.

Issue VI. 1902. Rectangular frame, 40 x 22 mm; with space at bottom for the control nos, and at top for the initials D. U. T. Co. Large figure of value in centre, with labels inscribed "parcels" "ticket" above and beneath.

1d., black on buff. Perf. 12.
2d., " " white. Perf. 12, 11.
3d., " " rose. Perf. 12
4d., " " grey-blue. Perf. 12.
4d., " " blue. Perf. 11.
5d., " " pale yellow. Perf. 12.
6d., " " bright blue green. Perf. 12.

Note. In 1903, the contract for supply of stamps was given to another firm, and I think it probable that the varieties perf. 11 were pertorated, if not printed, by them. In the above issue, there are small scrolls above the letters P and S of parcels, and these are finely printed, and terminate in a knob.

Issue VI (A). For use by private firms. As issue VI, but 3 horizontal blue lines across stamp.

1d., 2d. Perf. 12.

Issue VII. 1903. A very good copy of the preceding design. The chief difference is that the little scrolls above "parcels" finish in more or less of a point, instead of a knob. The lettering on the whole, is slightly thicker.

2d. black on white. Perf. 11
3d., ,, ,, pink ,,
4d., ,, ,, blue ,,
5d., ,, ,, pale yellow. Perf. 11
6d., ,, ,, green ,,

Issue VII (A). For use by private firms. As foregoing, but with changed colours, and a broad red horizontal bar across the centre of each stamp.

1d., red and green on yellow. Perf. 11
2d., ,, ,, ,, white ,,

DUBLIN AND BLESSINGTON STEAM TRAMWAY COMPANY.

Issue I. 1895. Large square, about 46 mm. Name of Company, and "PARCEL TICKET" at top; large figure of value in centre; and 4 lines of conditions at bottom. Controls running vertically upwards, on left of stamp.

1d., black on orange. Perf. 10
2d., ,, pale rose. Perf. 10
3d., ,, white ,,
1/-, ,, pink ,,

Issue II. 1897? Much smaller, the printing occupying 30 mm. square;

1d., black on pink. Perf. 11½

NOTE. Specimens of this printing are of the extremest rarity, and it is not known whether other values were issued.

Issue III. About 1898, but remainders not issued till after issue IV. 48 x 32 mm. Figure of value same as first issue, but remainder of printing narrower.

3d., black on white, *perf. 10*

Issue IV. 1899. 48 x 35 mm. Wording as before, but figures etc., modified. *Rouletted in black lines.*

1d., black on rose
3d., ,, ,, white

THE FISCAL PHILATELIC SOCIETY.

Meeting held October 20th, 1904. Present—Mr. Schwabacher (chair). Messrs Fulcher, Marsh, Morley, South, Thompson, and Kay.

The fiscals of Switzerland (Geneva, Lucerne) were discussed and catalogued.

At the meeting on December 1st, Mr. R. B. Yardley has kindly consented to give a display, with notes, of his collection of the stamps of Griqualand.

With reference to the forthcoming exhibition of British Colonial fiscals, the Committee have to acknowledge with thanks the receipt of many donations and offers of assistance, and desire to hear from all interested in fiscal philately

Members are reminded that sheets for the Home and Continental Exchange Sections should reach the Secretary before the 1st of each month.

Meeting held Thursday, November 3rd 1904. Present.—Mr. Schwabacher (Chair), Messrs Fulcher, Gilbert, Hadlow, Marsh, Morley, Thompson and Kay.

It was decided to form an American Exchange Section on similar lines to the Continental Exchange. The sheets will only be circulated among members in Canada and the United States. Mr. G. W. Pepper, 220, East 57th Street, New York, was appointed American Secretary.

Many novelties were submitted for inspection Mr. A. Baillière sent an interesting proof of a £2 5s. first issue Foreign Bill, Gt. Britain and Mr. P. F. Evans showed various types, for different towns, of the 1877 Habilitado surcharge of Mexico.

The embossed adhesive stamps of Great Britain (Bankruptcy, Chancery Fee Fund, Copyhold &c., Commission and Customs) were discussed and catalogued.

The next Meeting will be held on Thursday, December 1st, at 65, Bishopsgate Street Without London E. C., at 7 p.m. when Mr. R. B. Yardley has kindly consented to give a display with notes of his collection of Griqualand stamps. Special attention will be given to the surcharges found upon the fiscal stamps, and all members will oblige by submitting varieties they may have.

Members whose subscriptions for the current season are yet outstanding are requested to remit same without delay.

Copies of the Annual Report, Rules of Exchange Sections, and particulars of the forthcoming Exhibition of British Colonial Revenues, can be had on application to the.—

Hon Secretary.—A. B. Kay,

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Argentine Republic. *Seguro.* Mr. A. E. Lawrence submits a number of the Documentary series surcharged "SEGURO." Certain values of the series for 1901 and 1902 are recorded in Yvert & Tellier's new catalogue, in addition to these we can now add the following three values of the series for 1903.

5c., slate grey (sur. violet)
20c., orange-brown (sur. violet)
25c., brown (sur. magenta)

The last named value has not yet been listed without this surcharge.

Ceara. (*Brazil*). M. Ballière notifies an unrecorded value of the issue for 1891.

$10, rose

Ceylon. Mr. Corfield writes to point out an error in the description of a provisional 10 rupees sur. on 1000r. carmine on page 23 of Vol IV (March 1903). This stamp does not bear the surcharge "JUDICIAL." It is a provisional "Stamp Duty" label. The 1r. on 20r., green listed at the same time is Water-marked Crown C.C.

We have also seen two further Judicial provisionals viz. the 100r., orange, "Stamp Duty" surcharged ONE RE with a bar through the value, and the 500r., bistre sur. "10" and "TEN RUPEES" in black Roman caps. Both the stamps bear the overprint "JUDICIAL" in red block caps.

1r. on 100r., orange, wmk. Crown C.C.
10r. on 500r., bistre, wmk. Crown C.A.

Colombia. *Timbre Nacional, 1901-02.* Mr. A. E. Lawrence submits two stamps which appear to be unlike any yet recorded. On a reticulated background in ultramarine with a small ornament in the centre is printed the inscription "REPUBLICA DE COLOMBIA" on a straight label above and "SEGUNDA CLASE" on a straight label below. "TIMBRE" on the left and "NACIONAL" on the right. Value and date in central rectangle. Imperf.

1 Peso, black and ultramarine on blue (2a Clase)
2 PESOS, black and ultramarine on blue (2a Clase)

Cordoba. (*Prov. Argentine Repub.*). Mr. A. E. Lawrence has discovered a variety of type in the series Type 100 of our Supplement Catalogue. This new type is readily distinguished by the fact that the figures of value in the upper corners are enclosed in single lined circles and are much smaller in the values in centavos, but larger in the case of the 1 peso. Mr. Lawrence sends for inspection both types in the three following values

20c., blue
50c., pale brown
1p., brown

Cuba. *Trasportes 1888-89.* Mr. A. E. Lawrence has found some values of an issue earlier than any listed in the Spanish Revenue Catalogue. These are, however, catalogued by Yvert and Tellier from whose Catalogue we take the highest value.

1c d. peso, yellow-green
5 " "
10 " "
50 " "

Ecuador. Mr. A. E. Lawrence sends the undermentioned values of the series for 1901-1902 surcharged "RIOS" with a handstamp in blue the 5c., 10c., 20c., 25c., and 1 sucre have in addition the figure "19." As in the case of the postage stamps there are said to be many varieties of these surcharges and as "they were "applied to stocks in hand in the various "provinces (after a fire at Guayaquil which "destroyed a large quantity of stamps) to "prevent the use of any stamps which might "have been stolen during the fire", we suppose they ought to be catalogued.

1c., carmine	25c., yellow
2c., dark green	1 sucre, sky blue
5c., grey	5 " brown
10c., black	10 " dark blue
20c., grey	

The two highest values of this set have not yet been listed without the surcharge.

Espirito Santo de Guarara. (*Mun. Brazil.*) M. Baillière notifies a value for this municipality, the chief features in the design being a dove and rising sun.

$2, red

Macao. *Contribuçao Industrial.* Our publisher has the 20r., postage stamp of 1894, the 2½r. Journal stamp of the same date and the 1 avo, postage stamp of 1898 surcharged "IMPOSTO INDUSTRIAL" in Roman caps, in two lines. Surcharge black.

2½r., brown (Journal stamp)
20r., lilac (1894)
1avo, orange yellow (1898)

Matangas. (*Cuba*). Mr. A. E Lawrence sends us a set of hideous roughly lithographed labels, the lowest value of which is illustrated in Yvert and Tellier's Catalogue.

1c., blue-green	15c., violet
2c., carmine	20c., yellow
5c., indigo	25c., bronze-green
10c., brown	50c., dark green

Orange River Colony. Mr. S. A. Klagsbrun informs us that he possesses in his collection a pair of the 1/-, blue (Orange Free State, 2nd issue) *tête bêche* in which one stamp shows the design embossed on the back. Apparently, therefore, the sheets were embossed doubled in a similar manner to that already known to us in the 1d. embossed Transvaal. Mr. Klagsbrun also announces that the Orange Free State issue surcharged "Ord., 22.85" exists both with and without stop after "Ord." but he has not yet seen all the values in both types.

Peru. Mr. A. E Lawrence submits the 10c., of 1868-69 with the surcharge "LIMA" in green, *inverted.* M. Ballière informs us that he has the same stamps surcharged "JUNIN" as well as the 5 soles and 25 soles of 1868-69 surcharged "TARAPACA" and the 1 sol, orange surcharged "AYACUCHO" and "1872-73"

Uruguay. Mr. Schwabacher has shown us the 2c., red brown of 1884, No. 212 in our Supplement Catalogue in which the value appears as "002" i.e. without comma after the first zero. M. Baillière informs us that the 5c., yellow surcharged "2° Trimestre 1904" has been further surcharged "Tercero provisorio" in green and that the value 80c. (olive) has been overprinted for 1904. We have also received a lengthly list of additions to our Catalogue of this country from Mr. A. E. Lawrence, which we are compelled to hold over till next month.

The Fiscal Stamps of the Indian Native States.

BY WALTER MORLEY AND OSWALD MARSH.

(*Continued from page 86.*)

CUTCH.

CUTCH or Kachh is a native state in the South Western extremity of Hindustan, situated between 68° and 72° E. long. and 22° and 25° N. lat., with an area of 6500 square miles. The inhabitants are estimated at 500,000. The Rao of Cutch pays an annual subsidy of 200,000 rupees to the British for the maintenance of the military force stationed within his dominions. Estimated gross revenue, 2,521,670 rupees. In 1897-98 the customs duties amounted to 817,000 rupees.

Only one set of stamps is known to us, our illustration being the ½ korri value.

The values we have seen are on laid paper, finely rouletted. The currency is expressed in korri or corri (1 korri=4 annas).

The high values are said to be in different colours. The two centre rows of the sheets are *tête bêche* in some we have seen, but we do not know if this is normal condition of all values. The same designs are also used for the stamped paper duties and are on wove paper.

We have the ¼, ½, 1, 2, and 4 korri in *tête bêche* pairs and probably all values exist thus, as the sheets seen contain 32 stamps in 4 rows of 8, the two centre rows being *tête bêche*.

BAMRA.

A feudatory state of India, in the Chattisgarh division of the Central Provinces. Area, 1988 square miles; population in 1901, 123,289. Estimated revenue, 76,000 rupees. Tribute, 1500 rupees. Most of the country is forest, the northern border is touched by the Bengal Nagpur Railways with a station at Bamra town.

The only information at present available as to its issue of revenue stamps is from the two solitary specimens (used) illustrated in our journal in May 1902. They are somewhat roughly drawn and printed on white wove paper. Imperf.

BARODA.

A native state of India, within the Gujarat province of Bombay but in direct relation with the Governor-General. It consists of four isolated divisions, each of which is surrounded by British territory or by other native states. The total area is 8226 square miles; population in 1901, 1,950,927. Revenue in 1894-95 was 16,814,810 rupees. In 1901 the state currency of Babashai rupees was withdrawn and the British rupee was introduced.

Our enquiries regarding the Revenue stamps have not yet resulted in any additional information being acquired and we are induced to insert this state early in our list, in the hope of getting further particulars from some of our Indian contributors. It is presumed the stamps known are for Court Fees.

NOTE. The native inscription at top is different on these two last series. It may denote different uses for the stamps or possibly one for each of the separate divisions of this territory of which the fourth has not yet been seen. There are no doubt other values, as a 1000 rupees was chronicled recently, having been discovered by Mr. Schwabacher:—COURT FEES. 1887. A handsome label consisting of a panel on left of the well known design of the current fiscals, and a large blank rectangular panel on the right the background of which is filled in with numerous repetitions of the names and titles "Srīmat Sayajī Rāo, Mahārāja Gaekwār" in native characters together with the date 1943 (=A.D. 1887). The inscription above and below the portrait on the left reads "His Highness the Gaekwar of Baroda" and on the straight label underneath "1000 rupees"

1000 rupees, puce

BHOPAL.

A native state of India in the Central India Agency, with an area of 6874 square miles. Population (1891), 952,486. Estimated revenue, 4,000,000 rupees. In 1897-98 the exports of opium were 678 chests paying a duty of 367,500 rupees. The state pays a subsidy of 200,000 rupees for the Bhopal battalion, besides which a regiment of Imperial Service Cavalry is maintained. For three generations the ruler has been a woman. Suetan Shah Begum succeeded on the death of her mother in June 1901.

MEXICO.

Documentos. The provisional 1877 series surcharged "Habilitado para 1877" on the 1876 issue seems to require some little study by fiscal collectors, very little being known about the issue. Apparently the surcharges are local and differ for each town or district using them. Yvert and Tellier's Catalogue lists 3 varieties for Carmen, Chihuahua and Durango, but it is not quite certain if the types given are correct for each. Mr. Morley has the 3c., 10c. and 50c. values surcharged vertically "*Habilitado 1877*" in addition to the 5c. catalogued for Chihuahua. Mr. P. F. Evans has also discovered some new types which were shown at the November meeting of the Fiscal Philatelic Society. These were as follows :—

(1) Surcharged horizontally "*Para 1877*" for Zacatecas.
1c., lilac
3c., carmine

(2) Surcharged horizontally "PARA 1877" (block caps.) for Jalisco.
1p., green on yellow

(3) Surcharged in MSS "Para 1877" for Tequila.
5c., olive

ENGLAND.

All business matters are referred to the Publisher:
WALTER MORLEY, 15, Brownhill Gardens, Catford, London, S.E., England.

Publishers of Magazines who desire to exchange with this "Journal" are requested to send one copy of their publications to each of the above addresses

EDITORIAL.

THIS number completes our fifth volume and five years is a tolerably respectable age for any philatelic journal. We may, therefore, reasonably be jubilant on having attained such a mature age and thanking our readers for their support, which we hope they will continue, we wish them the Compliments of the Season.

The Fiscal Exhibition.

At this season of the year when all normally constituted people feel generous and even the meanest among us are apt "to pat youngsters on the head and talk to them vaguely about sixpences" we venture to issue an appeal to fiscal philatelists on behalf of the approaching Exhibition. We understand that the rank and file of fiscal philatelists have not yet responded very heartily to the request of the Fiscal Philatelic Society for donations towards the expenses of the Exhibition and we now ask especially each one to contribute his mite. Perhaps many feel some timidity in venturing to offer a small donation but we can assure such that contributions of a few shillings from each one will soon be sufficient to meet the estimated cost, as nearly one half of the sum required has already been promised. The success of the Exhibition and the value of the prizes will entirely depend upon the financial support and if only each member of the Fiscal Philatelic Society would contribute something the expenses would be adequately met.

We hope, too, that fiscal collectors will not be diffident with regard to exhibiting. Every member of the Fiscal Philatelic Society ought certainly to show something and there is no excuse for not doing so, as it will cost them nothing except the expenditure of a little time and trouble in arranging their exhibit, while there is every prospect of winning at least a diploma. For non-members the cost of 5/- for exhibiting is purely nominal and as for that sum they can exhibit in all classes, we hope that many will come forward.

The Stamp Collectors' Annual.

We have very much pleasure in highly recommending the "Stamp Collectors' Annual," edited by Percy C. Bishop and published by C. Nissen & Co., a copy of which has been sent to us for review. This second issue of the annual (for 1905) is a great improvemnt on the one which was published last year and contains a number of interesting papers. Among these we would especially mention "Notes on the Stamps of Victoria," by W. H. Terry; "The Telegraph Stamps of Great Britain" by C. Nissen; "A short Dictionary of philately," by P. C. Bishop; "Postal fiscals of the United Kingdom," by C. Nissen; "The story of a philatelic year: being a review of the philatelic press for 1903-1904," by P. C. Bishop. We are particularly glad to see that fiscals are not ignored, for besides the article by Mr. Nissen in the postal fiscals of Great Britain, we find "A Recruit" waxes enthusiastic over the "Joys of Revenue Stamp Collecting." The "Recruit" has tackled the revenue stamps of Great Britain as a start and naturally has soon found that many of them are by no means easy to get but a big show of these can be got together at small expense and we doubt if a beginner of fiscal collecting could make a better selection as a commencement.

Postage Stamps of Great Britain.

We have received a small book on "*The Postage Stamps of Great Britain.*" *By F. J. Melville*" which is designed "as a facile and straight-" "forward guide for the young collector of the" "stamps of Great Britain. To meet his needs," "all the niceties of ultra-" "specialism have been" "omitted, while a short" "bibliography of the sub-" "ject is added for those who desire to continue" "the study of this interesting branch of philate-" "ly." The work is excellently illustrated and appears to us adequate for the purpose intended. As an appendix is reproduced the paper by H.R.H the Prince of Wales on King Edward's stamps from the London Philatelist though from the book itself at first sight it seems as if H.R.H had written it especially for Mr. Melville's book!

BOARD OF TRADE OFFICIALS.

The 1d and 4d. King's head postage stamps have been recently seen perforated with "Crown and B.T." and cancelled on 1st November 1904. Are these stamps still in use or is the stock in hand being used up? Rather high prices are being asked for them, which may be right if the stamps are obsolete but too high if they are in current use. The following is a list of the stamps known perforated in this manner "Crown and B.T." we should be glad to see any not mentioned.

1880. 2d.. rose
1881. 1d., lilac
1884. 2d., lilac; 5d., green
1887. (Queen) ½d., 1½d., 2d., 2½d., 3d., 4d., 5d., 6d.
1902. (King) 1d., 1½d., 2d., 4d., 9d.

BRITISH RAILWAY STAMPS.

By "K."

(*Continued from page 90.*)

THE DUBLIN & LUCAN ELECTRIC RAILWAY COMPANY.

Issue I. 1895. Medium rect, 36 x 32 mm. Inscribed "Dublin and Lucan Steam Tramway Company" in old English type; below this are the words "parcel ticket", 8 lines of weight and rate, and 4 lines of conditions. Large figure of value in centre. No controls.

2d., black on pink. Imperf.
4d., ,, ,, green ,,
6d., ,, ,, orange ,,

NOTE. Very few impressions of the above series were taken, and it is uncertain whether any were ever actually used on the line.

Issue II. 1895. Same design, but perforated, and with the addition of horizontal control numbers across the value.

1d., black on carmine. Perf. 10
2d., ,, ,, green ,,
3d., ,, ,, greenish-blue. Perf. 10
4d., ,, ,, pink ,,
6d., ,, ,, orange ,,

NOTE. The one, two, and sixpenny values are obsolete; the latter is a rare stamp in mint condition. Labels have lately been printed for this line, inscribed "Electric Railway Company" but such as I have seen are of the nature of cloak room tickets.

THE CLONTARF & HILL OF HOWTH TRAMWAY COMPANY.

Issue I. January 20th 1901. For full description, see M.P.J. for February 1901. Black impression on coloured paper; perf 11.

2d., black on rose
2½d., white
3½d., grey-blue
4½d., lemon
6d., green

NOTE. The size of the sheets varies considerably. The 2d is sometimes found printed in horizontal rows, tête bêche to one another. One stamp in each sheet of the 4½d was lettered "PARCEL TICKETS" by mistake for "TICKET." During 1901 the half penny rate was abolished, so that 3 of the above values became obsolete, and the following new ones were required.

Issue II. July 1901.

3d., red on white, black controls
4d., black on fawn

THE FISCAL PHILATELIC SOCIETY.

Meeting held December 1st 1904. President Mr. Schwabacher (chair) Messrs Yardley, Cooper, Fulcher, Marsh, Morley, South, Thomson, and Kay.

Mr. R. B. Yardley exhibited his collection of the postage stamps of Griqualand, and comparisons were made with the surcharges found on the fiscal stamps. It was found that the majority of types were common to the postage aud revenue emissions, but later settings of the fiscal overprint contained types not found in the postage, and vicè-versâ. Mr. Yardley also presented the library with plates showing the various types of surcharges, and an unanimous vote of thanks was passed for his kindness in giving the display.

Mr. C. S. Sheldon (U.S.A.) was duly elected a member.

A copy of the "Surcharged Stamps for Indian Native States" was presented to the library by Mr. Corfield.

Subscriptions for the current season are overdue, and should be remitted to the Secretary before the end of the year. Attention is drawn to Rules 4 and 5.

The Home, Continental and American Exchange Sections are now in regular working order and it is hoped that members will contribute sheets more often.

With regard to the forthcoming exhibition of British Colonial fiscal stamps it is hoped that all members will exhibit, as the programme has been framed with a view to the most modest exhibitors successfully competing. The Secretary will be glad to have more donation forms returned, however small the amount, as the expenses will be considerable.

Messrs. A. P. Pearce, and A. Schoeller, have kindly consented to act as Judges in addition to those previously published.

Particulars of the Fiscal Auction Sale will shortly be published, and together with Prospectus of Exhibition, Annual Report, or other desired information may be had from the—

Hon Secretary.—A. B. Kay,

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

South Australia. *Stamp Duty.* A new type of the 1d, violet and blue-green, King's head has appeared. The words "DUTY STAMP" are now in coloured letters on a white ground. Perf. 10.

Swazieland. Mr. S. A. Klagsbrun informs us that, by recent legislation, stamp duty as applicable by the Transvaal laws has been imposed in Swazieland by which special stamps are necessary. We have seen three values of Transvaal stamps surcharged as described below, but probably other values exist. The 1d and 6d, Transvaal postage and Revenue stamps, have been surcharged "**Swaziland.—Revenue—only.**" in three lines in black. The 1d is on the multiple Crown C.A. paper. Also the Transvaal Revenue stamp, 1s., green and purple, surcharged "**Swaziland.**"

The Fiscal Stamps of the Indian Native States.

BY WALTER MORLEY AND OSWALD MARSH.

(*Continued from Vol. V. page 95.*)

BHOR.

A NATIVE state in the Deccan division of Bombay, situated among the higher peaks of the Western Ghats. Its area covers 1491 square miles; in 1901 the population was 137,269. The gross revenue is estimated at 430,528 rupees. The tribute is 4643 rupees. Pant Sachiv, the chief is a Brahman by caste. There is a state printing press. The only fiscals, probably for Court Fees, were known in 1880, but were not long in use, we think, as all existing copies in the hands of collectors come from the Roussin stock. They are of the design illustrated (2 annas) and are printed in black, on coloured laid paper.

COURT FEES?

1880. Laid paper. Imperf.

2 annas, black on lilac.
4 ,, ,, rose.
8 ,, ,, green.
1 rupee, ,, yellow.

CAMBAY (KHAMBHAT).

A native state within the Gujarat division of Bombay. Area 350 square miles; population in 1901, 759,122. Estimated gross revenue, 618,139 rupees. The Tribute 21,924 rupees. There is a state printing press which issues a monthly gazette. The first record of fiscal stamps is found in *Morley's Philatelic Journal* under the heading of Khumbat, the stamps seen being in grey, green, violet and vermilion, without value expressed on the lower label, and pin perf. 12½. These are now regarded as proofs by us, see illustration.

The stamps obtained by us from the state have the values filled in in MSS., a different colour being utilized for each value and are imperf. They are in sheets of 12 (3 rows of 4).

DHRANGADRA.

A native state in the Gujarat division of Bombay situated in the north of the peninsula of Kathiawar. Area 1,156 square miles; population in 1891, 103,754. Estimated gross revenue 575,110 rupees. The Tribute is 44,677 rupees. There is a printing press, issuing an official gazette. Only one stamp is known to us, of the type shown, printed on white laid paper, and finely rouletted to shape of the stamp.

RECEIPT. ?

GONDAL.

A native state within the Gujarat division of Bombay, situated in the centre of the peninsula of Kathiawar. Area 1,024 square miles; population 161,036 in 1891. Estimated gross revenue 1,500,000 rupees. The Tribute is 110,721 rupees. The present chief, whose title is Thakor Sahib, is a Jareji Rajput of the same class as the Rao of Cutch. He was educated in the Rajkot College and afterwards graduated in arts and medicine at the University of Edinburgh. This state has always been conspicuous for its progressive administration, and was recently raised from the second to the first class. It has a state printing press, issuing an official gazette. The only series of fiscal stamps known to us are "Bill Stamps." Design as in illustration, printed on wove paper and perforated.

JANJIRA.

A native state in the Koukan division of Bombay, situated along the coast among the spurs of the Western Ghats. Area 324 square miles; population 85,392 in 1901. Estimated gross revenue 509,750 rupees. No tribute payable. The chief, whose title is Nawab Sahib, is by descent a Sidi, or Abyssinian Mahommedan. This state did not come under direct subordination to the British until 1870. There are revenue stamps for Receipts and Court Fees, other values than the one seen probably exist for the latter.

EDITORIAL.

IN opening a new volume of our journal it may be well to say a few words as regards the philatelic subjects for study which we have in contemplation. In the first place the valuable notes of Messrs. Morley and Marsh on the fiscals of the Indian Native States—a quaint and interesting field of study for the fiscal collector—will run their course for a few numbers.

Our Programme. The articles of the first named gentleman on the Newspaper Tax stamps—a difficult subject which has been tackled for the first time in our pages—are however approaching completion. We propose shortly to start a parallel series of articles on the Embossed Deed stamps to take their place. As some of our readers are doubtless aware there were many collectors of these stamps at the time when Mr. Lundy's articles were running in the *Fiscal Philatelist* and we believe these articles were much appreciated. However, they came to a premature end with the decease of that periodical and nothing has appeared on the subject since. Mr. Lundy had, however, done an immense deal of work on the subject and we are fortunate enough to possess his MSS, which contains his researches on these stamps as far as the year 1804. We have been devoting much time to a study of these stamps and the various Acts under which they were created in order to treat the subject as fully as possible. We propose to begin at the beginning with a short revision of the matter which has already appeared in print but we shall consider this class of stamps from a somewhat wider point of view and not only deal with the embossed stamps found on parchment but also with all embossed stamps whether on paper or parchment as far as they are known. Our knowledge of the stamps issued from the commencement of the nineteenth century will, we hope, be rendered tolerably complete as a result of our researches in the official archives at Somerset House.

There is some indication that a revision of the fiscals of Japan would be timely and possibly we may attack this subject and endeavour to simplify it, especially in the direction of calling attention to numerous labels of the "silk" order which can in no sense be regarded as fiscal stamps, and by which many collectors are deceived.

We have already indicated that our Supplement Catalogue will treat of the fiscals of the United States, Mexico and Central America. Unfortunately for a variety of reasons we have not been able to get it ready to start this month but our next number will contain the commencement of United States.

* * * * *

We have to call attention to another subject which, we venture to think, will shortly assume a considerable degree of importance.

"Cut outs." Our readers will remember that last August we stated that a Bill had been introduced into Parliament for regulating the use of embossed stamps cut from envelopes and stamps cut from wrappers and post cards for the prepayment of postage as adhesives. This bill became law on the 15th August 1904 and is known as the Post Office Act, 1904. The Postmaster-General has now given notice that from the 1st Jan. "cut outs" will be accepted as adhesives and we have already received a number of letters duly adorned with cut post cards, wrappers and letter cards, etc. which have passed the post. We have always considered that all officially issued envelopes with impressed stamps or post cards, as sold at Post Offices—not those stamped to order—could only be collected from a philatelic point of view as entires, but now, as the stamps when cut out are available for the prepayment of postage as adhesives, we must certainly admit that they may also be studied philatelically from this second point of view as adhesives. It would be an interesting but we expect rather a difficult task to acquire a set of all the somewhat numerous dies of the envelope stamps, nevertheless we recommend it strongly to the collector who is casting about for something new to specialize. In fact the cut squares, being entirely on the same footing as fiscal postals, should logically appear in future editions of Gibbons or Bright's or any other of the great postage catalogues and we should not be at all surprised to see them there in the near future.

* * * * *

An Extraordinary Speculation. In a recent number of the Colonial Reports issued by the Colonial office entitled "*St. Lucia—Report for 1903*" we read:— "The "Revenue of the Department "[Post Office] was £6751 15s. "10d. of which £3,029 was received from "letters, post-cards, etc. and £3,488 16s. 8d. "from sales of stamps to collectors. *The latter "receipts were abnormally increased by the sale of over "£3000 worth of 10s. 'Queen's Head' Stamps.* "The expenditure was £2,782 6s. 3d. and the "surplus of revenue over expenditure was, "therefore, £3969 9s. 7d." The italics are ours. We have no space for comment, but it is needless.

NOTES ON THE HISTORY OF

BRITISH RAILWAY STAMPS.

By G. W. J. Potter.

Recently, I have had an opportunity of inspecting some of the earliest of the philatelic journals, and I have been very pleased to find that a considerable amount of information relative to the first issues of railway newspaper stamps was contained therein. The gist of some of these entries I propose to reproduce herewith, together with such notes as may seem appropriate. It will be seen, by a perusal of this article, that I am able to throw a little light on some of the early issues, and thus incidentally to add to, and in some cases to correct K's Descriptive Catalogue, which is now appearing in the pages of this journal. It may be premised that the first appearance of English railway stamps for the carriage of newspapers was in 1855, the event being duly recorded in what was then one of the most important chronicles of the day, the *Illustrated London News* (21 July 1855). This extract has already been given in *M.P.J.* (Vol. I. page 22), and although it is not an accurate transcript, there is no need to reproduce the original text here. The five pioneer companies were the Midland; Lancashire and Yorkshire; North Eastern; Manchester, Sheffield, and Lincolnshire; and East Lancashire: all provincial lines and owning territory in the north of England, it is significant to remark. As a matter of fact, all these companies were more or less closely connected with each other at several points; thus it would be to their mutual advantage to have a through system of carriage prepaid by labels, as was the intention of the new scheme.

A brief sketch of the companies will serve to elucidate matters: the Midland, at that date, was purely a country line, and only reached London by means of a connection at Rugby with the London and North Western Railway. The Lancashire and Yorkshire together with the North Eastern are still in the same category, but the term must not be taken as in any sense derogatory, only as a means of classification. When the Manchester, Sheffield, and Lincolnshire had decided upon obtaining its own route to London, it naturally thought that the former title did not accurately describe present day developments, so from 1 August 1897 it assumed the name of the Great Central. The East Lancashire was absorbed by the Lancashire and Yorkshire in August 1859; four years therefore would be about the limit of time during which it issued its own stamps, thus we have an explanation of the excessive rarity of the stamps of this company, no mention of them whatever being made in Morley's *Catalogue*.

Most of us who collect railway stamps would, if questioned as to the design of the first issue of the M. S. & L., say that the figures of value were shown in solid colour upon a white oval, similarly to the first series of the L. & Y.; the former being printed in blue and the latter in rose; the two sets of stamps otherwise being identical except for the necessary change of title. Until the time that I commenced my search in these early philatelic magazines, I should most certainly have said that such was the case, but the following extract from the *Stamp Collector's Magazine* for April, 1865 opened my eyes to the fact that this was not so, and that there was a difficulty that required elucidation.

A correspondent had sent a copy of the engraving of the M. S. & L. stamp as it appears in the *Illustrated London News* for 21 July, 1855, and the editor replies thus:—

> A communication from one of our correspondents clenches the old proverb of nothing being new under the sun. A decade has passed away since the first proposal of a stamp for prepaying railway parcels, and it is within a few months only that the idea seems to have taken permanent root. We shall be inclined to believe that the actual stamp figured in the *Illustrated London News* no longer exists, or it would doubtless have fallen under the notice of collectors long since. Perhaps some Lancashire, Yorkshire, or Lincolnshire inhabitant will favour us with information thereupon.

The description of the M. S. & L. stamp is as follows:—

> In the centre of the stamp is a cross bearing various heraldic devices, which a large figure **3** disfigures. LB. at the side intimates the weight covered by the label. A scroll above shows Manchester, Sheffield, and Lincolnshire Railway; another below has Prepaid Newspaper Parcel.

Upon reading this my first thought was to see, if possible, the original engraving; accordingly I obtained the *I. L. N.*, and found that the stamp was there represented as described in the above extract. The general appearance of the stamp is very similar to those first issued by the North Eastern; the 'various heraldic devices' resolving themselves into five shields arranged thus 1 2 3. The towns indicated by the charges borne upon the shields are, 1 Manchester, 2 Sheffield, 3 Lincoln, 4 Liverpool, 5 Grimsby. The size of the engraving is 4·5 by 5·9 centimetres. The design is *not* the same as that which appears on the smaller stamp (3 by 4·5 cm.) for one newspaper, as the shields are there grouped in a circle around a mullet, in the centre of which is displayed a rose—possibly a reference to the white and red roses of York and Lancaster.

The interesting question is—was this issue ever put into use, or was it only an unsuccessful proof? If in use at all, it must have been for a very short time only, and then succeeded by the so-called First issue. The appeal in the *S. C. M.* failed—as far as I can discover—to reveal any copies, or to extract any information whatever from the readers of that paper. Is it too much to hope that the readers of *M. P. J.* in 1905 will be able to throw some light on this subject, and thus clear up the matter in a satisfactory manner?

We have seen that the early, even if not the first, issues of the M. S. & L. were similar to

those of the L. & Y., and it must be noted that the same design was also used by the Manchester, South Junction, and Altrincham (owned jointly by the L. & N. W. and L. & Y.) at a little later date—probably about ten years, but the exact time I am unable at present to state.

I have never seen any of the stamps that were issued by the East Lancashire, but should be inclined to think that they also might have been printed from the same die. However it is to be hoped that specimens will come to light some day.

The Midland and North Eastern preferred to exhibit their respective heraldic bearings on their stamps; the former producing a series in orange; the latter in black, but with this important alteration: the *weight* allowed to be sent under any one stamp was shown upon the face of it instead of the price charged for carriage, the more usual arrangement. This, it appears to me, was rather a good idea as these stamps franked large parcels, and weight was the thing to be considered; once this was known it was an easy matter to attach the requisite stamps for that number of pounds.

These companies probably had the field to themselves for some few years, their distance from and non-dealings with London contributing to this state of affairs; but judging from the extracts given below there would seem to have been a great awakening and a general issue, by all the companies, of sets of newspaper stamps about the years 1866, 7, and 8. Most of the lines that were then in existence appear to have had various kinds of labels for different purposes, and from that time onward the practice has remained, although with modification. The chief exceptions were the three Southern companies; the London, Brighton, and South Coast; the South Eastern; the London, Chatham, and Dover; and it is only within the last few years that these lines have issued anything whatsoever that can be regarded as coming within the definition of a newspaper and parcel stamp. This I should define as "an adhesive label for the purpose of sending carriage paid, either newspapers—singly and in bulk—or parcels; such label being attached to the object that is to be forwarded".

THE FISCAL PHILATELIC SOCIETY.

Exhibition of British Colonial Fiscal and Telegraph Stamps.

TO BE HELD ON

APRIL 7th and 8th, 1905,

AT

EXETER HALL, STRAND, LONDON, W.C.

EXHIBITION COMMITTEE.

L. W. FULCHER	W. MORLEY
A. B. KAY	A. P. PEARCE
O. MARSH	W. SCHWABACHER

THE particulars previously published in the preliminary announcement as to the scheme of competition remain unaltered, and no further prospectus will be issued. It is to be clearly understood that in all Classes, *only* British Colonial Fiscal, Telegraph and Railway Stamps may be exhibited.

EXHIBITS.

Exhibits must be sent so as to arrive before March 20th next. To members of the Fiscal Philatelic Society no charge will be made for space, but non-members must prepay a fee of 5/-. Cost of return carriage of exhibits must in all cases be sent. The exhibits may be sent to W. HADLOW, 12, Adam Street, Strand, W.C., to the Secretary, or any member of the Committee.

INSURANCE.

Arrangements have been made for the insurance of exhibits against loss by theft or fire during the time the exhibition is open. A charge of 1/- per £100 insured value must be prepaid by the exhibitor.

JUDGES.

The following gentlemen have kindly consented to act as Judges—

E. D. BACON, L. W. FULCHER, A. B. KAY, A. P. PEARCE, A. SCHOELLER, and H. THOMSON.

ADMISSION TO EXHIBITION.

Admission to the Exhibition will be free, and tickets may be had on application to any member of the committee.

ADVERTISEMENTS IN OFFICIAL CATALOGUE.

Advertisements for the Official Catalogue must reach the secretary before March 6th next.

AUCTION SALE OF FISCALS.

The Auction Sale of Fiscal Stamps of all kinds will be held by W. HADLOW, at Covent Garden Hotel on April 7th. Lots for inclusion must be sent to the Auctioneer at 12, Adam Street, Strand, W.C., before February 14th, to allow of the Catalogue being issued for circulation abroad.

Reserves, if any, must be stated at the time of sending. Common fiscals are unlikely to sell.

The charge for selling will be 10% on the amount realised, with a minimum charge of 2/- per lot. A charge of 1/6 will be made for lots bought in. Catalogues may be had on application to the Auctioneer or Secretary.

Any further information respecting the Exhibition or Auction may be had from the Secretary—

The Fiscal Stamps of the Indian Native States.

BY WALTER MORLEY AND OSWALD MARSH.

(*Continued from page 3.*)

BAHAWALPUR.

A native state within the Punjab, which stretches for more than 300 miles along the left bank of the Sutlej, the Punjnud, and the Indus, and is bordered on the other side by the desert of Rajputana. Area 17,285 square miles; population in 1901 was 720,662. The estimated gross revenue is 1,600,000 rupees. There is no tribute. The chief whose title is Nawab, is a Mahommedan of the Dandputra family from Sind. The dynasty established its independence of the Afghans towards the end of the 18th century and made a treaty with the British in 1838, to which it has always been loyal.

JHIND.

A native state within the Punjab. It ranks as one of the cis-Sutlej states, which came under British influence in 1809. The territory consists of three or four isolated tracts, amid British districts. Total area 1,268 square miles; population 282,051 in 1901. Estimated gross revenue 628,000 rupees. No tribute. The stamp illustrated is probably one of a series.

REVENUE.

EDITORIAL.

THE Fiscal Philatelic Society's Committee have been hard at work preparing for the Fiscal Exhibition and satisfactory progress is being made with the arrangements. The only serious criticism which has been levelled against the scheme of the Exhibition is the limitation of its scope to British Colonials which falls hardly on the continental members of the Fiscal Philatelic Society in particular. The matter is, however, solely a question of ways and means. It would have been very nice to have had a grand Exhibition of the Fiscals of the whole world but the undertaking would have been a great deal too much for the Fiscal Philatelic Society, both on the score of finance and of space required. It is tolerably certain from the exhibits already offered that the total space at Exeter Hall will be completely occupied by the fiscals and telegraphs of the British Colonies and on the financial side the resources of the Committee will be taxed to the uttermost. We feel sure that collectors will, on due reflection, see the wisdom of restricting the Exhibition to British colonials especially as the latter are most favoured in this country and we trust that, in the interests of fiscal philately, they will not refuse their co-operation. We may perhaps hold out a hope that, if this first Exhibition should prove a success, in another year or so the idea of an Exhibition of "Continentals" or "Americans" might be entertained, but we fear it will be some time yet before the philatelic public is sufficiently educated in fiscal philately to support a general Exhibition of all fiscal stamps.

The Fiscal Exhibition.

* * * * *

As regards the finances of the Exhibition we must earnestly appeal to collectors for more donations The amount yet received—something under £40 we believe—will hardly be sufficient to meet the expenses. The Committee have now opened a guarantee fund and those who do not wish to subscribe may perhaps be willing to become guarantors for a sum which will only be called for in case of necessity. We are glad to state that as an aid towards the finances a stall will be opened for the scale of fiscal literature the publishers of which have kindly offered to hand over half the sums realized on the books sold to the Exhibition fund.

The fiscal Auction which will be held by Mr. Hadlow at Covent Garden Hotel on Friday April 7th, at 5 p.m. promises to be a success. The Catalogue is now out and includes a number of rare fiscals such as the B.C.A. £25; B.S.A £100, red and violet, £100 on £5, green; Cyprus, 1s. on 3d. perf. 12½. and perf. 14; Hair powder duty, 1786, 1d, red; Transvaal 5/-, with King's head inverted; U.S. 6c. Proprietary, $20, Probate of Will, Zululand, £20 and many others for which the bidding should be brisk. A copy of the Catalogue may be obtained from Mr. Hadlow or the Sec. of the Fiscal Philatelic Society

Philately has sustained a heavy loss by the death of Gordon Smith. After a successful course at Cambridge he became a barrister but gave up the law—where his great abilities held out every prospect of a brilliant career—to devote himself to philately. As a philatelist he will be remembered as long as philately lasts. As a writer and expert he was in the front rank and as a collector he got together some notable collections such as South Australia, Great Britain, etc. while he was one of the first to tackle the complicated issues of the English Private Telegraph Companies. His loss will be severely felt in many circles of activity.

Gordon Smith.

* * * * *

We must congratulate the Junior Philatelic Society on the very successful Exhibition which was held in Exeter Hall on Feb. 3rd. A capital show of all varieties of British stamps was on view and that it was appreciated is evidenced by the fact that over 10,000 visitors attended.

Jr. Phil Soc. Exhn.

A noteworthy effort is being made to train the young philatelist in the way he should go by the enterprising firm of Messrs. Stanley Gibbons & Co. If the future numbers of *Gibbons Stamp Weekly* sustain the promise of the numbers which have been already issued, this paper will command success and deserve it.

We are informed by a New Zealand correspondent that the stamps of that country belonging to the "Not-Liable" series are so scarce by reason of the fact that they are only used on deeds of gifts to churches. This being the case the majority of the stamps probably remain on the deeds and collectors who possess a copy may consider themselves lucky.

Probably a complete series of values of each set exists and Railway Stamps have apparently been placed in use again as copies we have are cancelled 1903 and 1904.

PHILATELIC SOCIETY OF INDIA.

We append some extracts from the report of the Proceedings at the Annual General Meeting of this Society, kindly sent to us by Mr. W. Corfield.

The annual general meeting of this Society was held in Calcutta on Friday the 27th, January, 1905 at 6 p.m., Mr. C. Stewart-Wilson presiding. The provisional accounts for the year 1904 disclosed a satisfactory financial position. Since the last meeting the second edition (revised) of the Society's handbook on the surcharged stamps of Chamba, Faridkote, Gwalior, Jhind, Nabha and Patiala by Messrs. Stewart-Wilson and B. Gordon Jones has been published and has met with a favourable reception. The

nucleus of a public collection of Indian stamps has been formed, the arrangements for continuing which were entrusted to Mr. Corfield

An advance copy of the Society's new handbook on the Fiscal and Telegraph issues of British India by Messrs. C. S. F. Crofton, I C. S., and W. Corfield was laid on the table.

The work was very fully illustrated and is the first of its kind to deal with the non-postal emissions of India. It covers all the ground from 1860 to the end of 1904, and deals with following classes of stamps of both this and the last reign; Receipts, Foreign Bills, Customs, Share-Transfers, Special Adhesives (including Hundis and Advocate, Attorney, and Vakil issues), Petitions, High Court, Small Cause Court, Calcutta Small Cause Court, Court Fees, Notarial, Forests, Postal Notes, Postal Service and Telegraphs. Full reference lists are appended. The Secretary was instructed to submit copies to London in time for the forthcoming exhibition of the Fiscal Philatelic Society in Exeter Hall. It was reported that the Society's handbook on the Postal and Telegraph issue of British India by Messrs Hausburg and Stewart- Wilson is making good progress. It will be the most complete work on the subject yet attempted and will be sumptuously illustrated and produced. Its appearance cannot, however, be looked for this year as the detail work necessitated by its compilation is very considerable.

THE FISCAL PHILATELIC SOCIETY.

MEETING held January 5th, 1905. Present, Mr. W. Schwabacher (chair), Messrs. Fulcher, Marsh, Thompson, Thomson, South and Kay.

The embossed adhesive fiscals of Great Britain, (Customs, Police Court) were discussed and listed.

The details of the Exhibition of British Colonial Fiscals, and Auction Sale have been settled, and the complete announcement published. Copies can be had on application to the Secretary.

It is to be hoped that all able to exhibit will do so, as the scheme of competition has been arranged so that the most modest exhibitor may successfully compete. In the interests of the furtherance of fiscal stamp collecting, and the success of the Exhibition as large a display of stamps as possible is desired.

Donations to the Exhibition Fund have been received with thanks from the following gentlemen :—Messrs. A. Baillière, E. Cornish, T. P. Dorman, L. W. Fulcher, A. B. Kay, O. Marsh, W. Morley, A. P. Pearce, G. W. Pepper, Ph. le Renotière, W. Schwabacher, A. M. South, H. Thompson and D. Thomson. The expenses however, will be very considerable and the Committee will be glad to receive further contributions from any interested, as it is essential that the Exhibition be not unduly hampered financially.

Attention is drawn to the notices regarding the Auction Sale, and advertisements for the Official Catalogue.

Sheets for the Exchange sections Home Continental and American, should reach the Secretary before the end of the month.

Meetings have been held on February 2nd & 14th, but owing to the vast amount of work in connection with the forthcoming Exhibition, the usual cataloguing of Great Britain fiscals has not been proceeded with.

Messrs C. Stewart-Wilson (India) W. W. Norton (U.S.A) and T. H. Hinton (London) have been duly elected members.

Further donations to the Exhibition Fund have been received from Messrs. Cooper, Evans, Gilbert & Köhler, Hadlow, Preater and Wells. The amount as yet subscribed being about £25. The expenses however will be considerably more, and it is hoped that all interested will help to make the Exhibition a success and thus aid in the furtherance of fiscalism.

Advertisements for insertion in the Official Catalogue of the Exhibition must reach the Secretary before March 14th. Intending Exhibitors will also kindly notify, without delay, in what countries and classes they intend exhibiting, so that arrangements can be made for all countries to be shown.

The Exhibition of British Colonial Revenue Stamps will be held on April 7th and 8th next at Exeter Hall, London, W.C. Admission free by tickets which can be obtained, together with the Rules of Society and any desired information respecting fiscals from the Secretary :—

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Brazil. *Consumo.* Our publisher submits two high values, the first of Type 262 of our Catalogue of South American fiscals, with value inscribed "2 mil reis." Rouletted.

2 mil reis, green

The second is of an analogous type to type 265. Imperf.

1000 reis, green

Dr. Ramos also sends us a 10,000 reis value, printed in two colours on the underside of a thin transparent paper and informs us of the existence of three higher values of the same type and colour. The design is oblong and consists of the Head of Liberty to left, surrounded by 21 stars in a central circle. At the sides are two circles lettered "CONSUMO" and each cut by a vertical band with figures "10,000." The part of the design above described is in green, the background and frame

of the stamp is in lilac. Above the central circle is the name "E. U. DO BRAZIL" and on a thin plain label at the top of the frame, between the vertical bands bearing the figures of value are the words "TALAO" against the left vertical band and "GUIA" against the right. At the bottom the word "CONSUMO" in similar positions. The stamps are special for the duty on "Tecidos" (Textiles) and are cut in half when used. Perf. 12½.

Ceylon. Mr. Crofton has discovered two types of the Foreign Bill, 1s., red-brown, of the first issue. In the newly discovered type the most noticeable differences are (1) that the "E" of "ONE" is larger and (2) the line of the background running through the round stop under "s" of "1 s" is to the right instead of through the centre.

Cyprus. Mr. Kay, has discovered the 2/-, green and blue, Queen's head, wmk. script VR. perf. 12½.

Gwalior. Mr. A. H. Smith sends us a Receipt stamp for this state which was issued on the 1st, January. Wmk. Quatrefoils. Perf. 14. Type as illustrated.

Malta. The 4d., brown and 1s., lilac have been issued with the overprint **"REVENUE"** in *block* letters.

Dawson. *Canada.* We have not yet illustrated the type of the Mining Court Law Stamps which we chronicled last May. We now rectify this omission.

Mexico. We are indebted to M. A. Baillière for the following items:—

Contribution Federal. 1870-71. The 1 peso exists in *green* and in *black* the latter being an error of colour.

1877. Besides the two types already known of the 5 pesos, *green* and *yellow-green*, there exists a third in which the ornaments are different.

CASHMERE (KASHMIR).

Since 1880 the Kashmir Durbar has resumed its authority over those outlying provinces, stretching to the north west, the centre of which is Gilgit and resulted in March 1889 in the establishment of the Gilgit agency. The British President who permanently represents the British Government in the Durbar, resides at Srinagar and Jammu. The population of Cashmere and the outlying provinces including Chitral was 2,906,173 in 1901.

BIKANIR.

A native state in the Rajputana agency, with an area of 2309 square miles. In 1901 the population was 584,712. The present Maharaja, Ganga Singh, was born in 1879, succeeded in 1887 and was intrusted with full powers in 1898. In 1897-98 the gross revenue was 2,146,064 rupees. An imperial service corps is maintained which took part in the China expedition of 1900-01. The town of Bikanir is surrounded by a stone wall 6 feet thick, 15 to 30 feet high, and 3½ miles in circuit, with five gates. It has an estimated population of 60,000. The series of stamps of this state are more difficult to describe and more numerous, and we may not have fitted in some of the issues which we describe as Court Fees correctly, as they may represent different duties. In fact the earlier issues were imported and sold as *Postage ! !* by dealers for some time, and it is probably owing to this fact that some of them survive for our fiscal collections to-day. The Foreign bill series only recently became known to us while trying to obtain material from the state itself.

Indian Fiscals.

AN important and valuable addition to the literature of fiscal philately has just come to hand in the shape of a monograph on "*The Adhesive Fiscal and Telegraph Stamps of British India. Compiled from Official and other sources for the Philatelic Society of India by C. S. F. Crofton and W. Corfield.* The authors are both active members of the Fiscal Philatelic Society as well as of the Society under whose auspices the work sees the light, and both have recently added largely to our knowledge of Indian fiscals stamps. We think that the Fiscal Philatelic Society may justly consider itself entitled to some credit for having perhaps indirectly stimulated the authors, by its studies of British Colonial fiscals, to the valuable researches, the fruit of which is now at the disposal of the fiscal collecting fraternity, contained in the present work. Having had the advantage of information from official sources this work sheds valuable light on the issues of the various complicated provisionals which makes India such a "difficult" country fiscally and it at once becomes indispensable for the collector of Indian fiscals. We need hardly say that being excellently got up, well printed and abundantly illustrated, as we are now accustomed to expect in works published by the Philatelic Society of India, the work is a handsome addition to any philatelist's library.

As the work breaks so much new ground we are constrained to venture a brief analysis of some interesting points for our readers. This will perhaps serve to show what a philatelic feast is here set forth and we hope will induce many to acquire the work and regale themselves at leisure on the dainties spread before them.

As regards the order of treatment our authors say that "Owing to the large number of provisionals of various classes and to avoid inconvenience we have followed the principle of describing the stamps in chronological instead of alphabetical class order, taking the Commercial before the Judicial." Hence we stamps are treated in the following order:—(1) Receipts (2) Foreign Bills (3) Customs (4) Share Transfers (5) Special Adhesives (6) Petitions (7) High Court and Small Cause Court (8) Calcutta Small Cause Court (9) Court Fees (10) Notarial (11) Forests (12) Postal Notes (13) Postal Service (14) Telegraphs. The Receipt Stamps call for no special remark. As regards the first issue of Foreign Bills, embossed dies struck in pink and overprinted "FOREIGN BILL" in green, the authors are apparently quite correct in their surmise that these were printed at Somerset House, for we remember to have come across single copies of these stamps among the Archives while studying the British Adhesive Fiscals. We also believe that there were in the Archives two dies "A" and "B" of each value. Our authors say that the 4r. exists with die letter "A" only, but if we are correct Die "B" was made, although it may not have been brought into use. We are glad to note that the sheets of these stamps consist of five rows of eight, the two bottom rows being *tête bêche* with respect to the upper three as no doubt this is the arrangement of the sheets of British fiscals of similar character such as Bankruptcy, Chancery Fee Fund, Patents, &c., though we have never hitherto found any evidence on which to base a presumption. It is a very remarkable fact that remainders of the 1 rupee value, printed in 1860, were issued in Calcutta in 1901 with an 8 anna surcharge in black and again in 1904 with a 4 anna surcharge. The latter provisional is entirely new to us. The long rect purple Foreign Bills are fully dealt with in their various printings as indicated by shades; these, again, present a close analogy to similar British fiscals printed in purple. Three different papers were employed for these stamps and illustrations are given of the two types of wmk. which exist on these (as well as the Special Adhesives). We gather that the second type of wmk. came into use in 1882. Only values up to 3r., except the 3as, 1r and 2r. exist on the third paper with the second type of wmk. In 1898 a 2as provisional was made, to fill a want, by surcharging the 2r., but the provisionals which appeared from 1901 to 1904 were made to work off surplus stocks. The numbers of the latter created are given from which it appears that the 2as., on 24r., and the 3r., on 8r., should be the rarest. We propose to continue this review in our next number.

Paris Fiscal Exhibition.

We were surprised in perusing last month's "*Bulletin Fiscaliste*" to find a report of a Fiscal Exhibition recently held in Paris as we had previously heard no rumours that such an event was in contemplation. It appears to have been a great success. The fiscals of all countries were shown and we read that the number of exhibitors, necessarily limited for a first exhibition, was redeemed by the quality of the exhibits. We hope to present our readers with a further notice of this exhibition in a future number.

NOTES ON THE HISTORY OF

BRITISH RAILWAY STAMPS.

BY G. W. J. POTTER.

(*Continued from page 6*)

The earliest entry connected with our present subject which I have found appears in the *S.C. M.* Vol. II p. 153, this being the number for October, 1864. A woodcut of the stamp issued by the Caledonian Railway for the conveyance of one newspaper is given, thus negativing K's claim for the Bristol and Gloucester stamps (*M.P.J.* II. 14.) that they were the first railway parcel stamps reproduced in an English *philatelic* journal. True, the C.R. stamp is portrayed by means of a wood block, and those of K's by half-tone blocks, but both kinds are copies or reproductions in the correct sense of the word. The letterpress is as follows:—

> We have now actually to describe and depict another private office stamp of our own country. In this instance, not England but Scotland affords the specimen. The figure represents the stamps except in hue, which is pale green.

The following extract is from the *Scotsman* alluding to this stamp:—

> The Caledonian Railway has just adopted a plan for the transmission of single copies of newspapers by rail which is likely to prove of great use to newspaper readers on that line, and in the locality it traverses; the system is simply an issue of farthing stamps, prepared after the fashion of postage stamps; perforated and gummed like those, they are sold in sheets containing a dozen, the price of the sheets being of course, threepence.

It must be noted that the stamps were *rouletted*, not perforated, but this is an excusable slip on the part of the Editor; probably, few people other than philatelists know the difference between perforation and roulette. The size of the stamp, according to the engraving, is 3.3 by 4.2 centimetres; this refers only to the printed portion and not to the stamp as a whole. Practically it is a *facsimile* of the original label, even to the control number which is 1774.

In the next month's issue we read that—

> Country subscribers must be familiar with the invariable practice of a flock of sheep to follow the leader, right or wrong. We have already chronicled the appearance of two local British postal parcel emissions, and we have now to note two more. Should the example be generally adopted, as many pages of an album will have to be devoted to British as at present to the United States locals.
>
> One of them emanates from the Edinboro and Glasgow Railway and is identical with that for the Caledonian Railway, figured in our last, with the natural exception of name and number.
>
> The other, for the L. & N. W. is more pretentious in appearance, being just double the size. It is printed in green on white. A large lozenge is inverted in two triangles, whose points, were they visible, would touch each other. In the centre of the lozenge is a large 3d., and on the white triangles and upper part of the frame of the lozenge is LONDON AND NORTH WESTERN RAILWAY COMPANY. PREPAID NEWSPAPER PARCEL. Four triangular interstices are filled in with ornamentation.

In the number for January, 1865, further details of the premier issue of the 'premier line', as the L. & N. W. likes to be thus described, are given.

> We have received others of similar device and colour numbered respectively, 2d., 4d., 6d. and 9d. These are at present in use on the northern parts of the line, not franking packets from London; but we have also been favoured with a sight of another series submitted to the authorities for approval, and prepared exclusively for newspaper packets from town. These are the same in design, but printed in black on yellow paper; they range in price from 2d. to 5s., the intermediate ones being 3d., 4d., 6d., 9d., 1s. and 2s. 6d.

Here we have another interesting statement, and again we have to ask the question— were these stamps on straw coloured paper ever issued, or did they they never get beyond the status of essays or proofs?

At all events both sets were chronicled by *Le Timbre-Poste* in the issue dated 15 December 1864; and *Le Timbrophile*, in February 1865, comments amusingly upon the large size of these stamps.

> Decidedly this country [Great Britain] has thrown itself headlong into fantasticalness and eccentricity. Already the railways of the North of Scotland are endowed with stamps of a more than reasonable dimension; but, behold, the L. & N. W. R. jealous of their predecessors, have produced a series of eight stamps, good truly for the inhabitants of Brobdingnag, but not for poor little human beings like ourselves; truly it is contrary to all reason, for they are not any longer stamps, but hand bills. . . . . .
>
> The essays that we have are black upon yellow. The stamps are printed in green upon white.

It is a fairly well-known, but none the less a regrettable, fact, that the average stamp collector objects to include fiscals in his album—why? The answer is found in the above extract: the stamps are too large; they are of different sizes; and worst of all, they overlap the regulation space in his dearly cherished album, with its rectangular ruling designed to accommodate only the respectable postage stamp, which seldom deviates much from the orthodox size. Although the growing cult of the fiscal stamp has induced those who collect such to mount their treasures in albums without rigidly defined spaces, still there are some—especially those of the postal section—who are nevertheless infatuated with the idea that each stamp should

be duly confined in its own four-barred cage. I sincerely hope that there are not many people left who use those albums wherein a regulation number of spaces and no more is left for the stamps of each particular country; some of these books being further embellished (!) with wood blocks of the stamps that are to fill the spaces. Without doubt this method brings collecting down to its lowest form: all that is required being to beg, borrow, or appropriate the requisite number of stamps to fill the cages, and the task is done. No varieties of shade, perforation, surcharge, or anything else are allowed. Likewise new issues, and old issues should such be unknown, are both strictly warned off; no provision being made for them. When a collection is built up on these lines there can be no inducement for research, and the owner usually displays very little knowledge of the items contained therein; naturally, when the stamps have been obtained all interest has vanished, and usually the *collector* sells out, disgusted with the whole thing. Such, I submit, is emphatically not the way to collect, and if more beginners would include fiscals with their postals, and start with an album where the stamps can be placed in any desired position on the leaf, I am convinced that the study of fiscals —including rails—would receive a well deserved impetus, and collecting as a whole would be placed upon a more rational basis.

However this is somewhat of a digression so I will return to the notes and discoveries.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Bhopal. Major Evans informs us that he possesses a copy of type 1 illustrated in our December number and that it is dated 1287 (1870-71) on the left and 1296 (1878-79) on the right of the lower label. Our publisher has also since acquired a copy of this stamp but with the large perforation (5). Major Evans also informs us, after an examination of our publisher's collection that our illustration Type 2 is dated 1301 (1883-84) at left and 1311 (1893-94) at right and the copies which we assigned to "Type 2 (redrawn ?) are dated 1300 at left and 1310 at right so that this issue should come before "Type 2" and Type 2 should be really "Type 2a". Our publisher has a copy of this stamp without "00" of the date "1300" A similar type to this also exists dated 1303 at left and 1313 at right. Our illustration Type 3 is dated, with one date only (1311), in left upper spandrel.

India. *Foreign Bill.* In 1904 the 1r. of 1860 was issued surcharged "4 ANS" in black. See Editorial.

Mexico. Our publisher notifies the undermentioned varieties

Cuernavaca. 1877. On an entire sheet of the no value vermilion stamp of this date the following varieties occur:—

(1) "1877" in large figures.
(2) Large "7" in last figure of "1877".
(3) "187" only, in large figures.
(4) No stop after "Cuernavaca".

The sheet consists of 32 stamps (4 rows of 8). Type 1 This stamp was surcharged "10,00 cs." Hence all the varieties above mentioned are found with this surcharge and several stamps on the sheet exist without stop between "10" and "00" of "10,00 cs.".

Type 1.

Type 2.

1881-82. A hitherto unchronicled district "Jieutepec" surcharged with the value "32 c." in black on no value, brown, the surcharge reading downwards. A variety is found reading "Cuernavaca" for "Cuernavaca".

1882-83. Type 2 exists surcharged "Tlaltizapan" 32 c., in black on no value, green. The surcharge may be found reading both up and down, together with a variety surcharged in smaller type. The sheets are printed in four panes, two of which are on the reverse side of the paper. Side pairs may be found, showing the face and back of each stamp respectively and vertical pairs showing the same disposition and in addition the stamps *tête bêche*. In this issue there is no stop after "Cuernavaca".

Cuautla. 1882-83. District "Yecapixlta" 32c., yellow. Surcharge reads both up and down.

Varieties: (1) No stop after "Cuautla"
(2) Vertical pairs *tête-bêche*.

Jonacatepec. 1878.

32c., brown. Date in large figures.
36c., " " "
37c., " " "
48c., " " "
36c., brown. No stop after "Jonacatepec"
48c., " " "
32c., brown. Large date. Vertical pair, *tête bêche*.
32c., " Vertical pair, *tête-bêche*, one stamp with large date, one with small.
36c., brown. Horizontal pair, tête-bêche, one stamp having the surcharge inverted.

Morelos. 1877. Similar to Type 3 (which we will insert next month) but with words "DISTRITO DE MORELOS" in two lines in lower label in lieu of value.

No value, brown. Without stop after "Morelos"
" " "1877" in large figures.

1884. Type 3. An unchronicled value.
87c., blue.

1885. 32c., blue Comma after "s,"
36c., " Stop before "cs" instead of after "s"
50c., " No stop after "s"
56c., " Stop raised after "s"
87c., " No stop after "s"

Yautepec. 1881-82 50c., rose. Variety: pair, one stamp with "Yautepec" omitted from bottom label In all values there are varieties in the types of date, the most noticeable being one with a curly tail to "2" instead of straight tail. The 40c., rose is found with a comma instead of a stop after "Yautepec,".

1882-83. 32c., blue. Error "sc" for "ec" in "Yautepec".

Straits Settlements. Of the 50c., Revenue stamp of the first issue two varieties have been catalogued, one with the word "CENTS" measuring 12 mm., and one in which it measures 14½ mm. A third variety exists with the word "FIFTY" measuring 8½ mm instead of 11 mm. It occurs in the printing in which the words "CENTS" measures 12 mm.

Swaziland. Mr. S. A. Klagsbrun informs us that the recent surcharged Revenues which we chronicled in January are provisionals only. Special stamps are being prepared.

Uganda. Mr. Morley has received three values of the East Africa and Uganda Protectorate King's head postage stamps surcharged **"Uganda Revenue"** in one line in black.

5 rupees, rose and black
10 " blue "
20 " grey "

THE FISCAL EXHIBITION.

THE Exhibition was duly opened to the public at the appointed time on Friday, 7th April. For the whole of the two previous days and on the morning of the Exhibition the Committee were hard at work in mounting the exhibits in the frames, some of which were kindly lent by the Philatelic Society, London and some by Mr. D. Field of the Royal Arcade, Old Bond Street. For the loan of these frames the thanks of the Fiscal Philatelic Society are therefore due to the Philatelic Society and Mr. Field. All the exhibits were duly arranged in order in good time except the exhibits from France which only arrived on the morning of the Exhibition and were consequently not classified in their proper order. The arrangement adopted was that of alphabetical order of countries, first, Fiscals and secondly, Telegraphs. The Indian fiscals being somewhat numerous were arranged round the walls of the hall, while the miscellaneous exhibits were placed at the further end of the hall away from the entrance. The descriptions in the Catalogue of the stamps of the different countries were disposed in a similar order. This arrangement has the merit that the exhibits of any country can be very readily found by a visitor but gives a little more labour to the judges in comparing different exhibits for the purpose of settling the awards.

The Exhibition must be regarded as a grand success for the Committee succeeded in their endeavour to get every country shown and in fact the fiscals of each were well represented. Selections from the best collections known were on view and many being explained by short notes, a visitor was in a position to gauge at once what has been done in fiscal philately of the British Colonies and could note what stamps are wanting even in the best collections so that he could accurately estimate in what direction further research would be profitable.

Some of the finest stamps came from France which country may be regarded as the stronghold of fiscal collecting but it is somewhat of a surprise that nothing was received from America or Germany. In the case of America it is well known that there are some collections which would have competed successfully with the winning exhibits. The fine exhibits from India proved what great strides fiscal collecting has made in that country and with what zeal and success collectors out out there have been unearthing new varieties. Our lists of Indian fiscals will have to be entirely re-written in consequence of these researches.. As regards the scheme of competition it was arranged to give every collector as far as possible a chance of an award. In the different classes were placed countries of equal difficulty and the different exhibits of each country were judged first, a diploma being given to the one which the judges considered the best. When all the diplomas had been awarded, the prizes were adjudged to the best exhibits in each class as a whole. It was hoped by this means that there would have been a great deal of competition in the small countries but strange to say this was not realized, what competition there was being confined to the big countries. The judges were all in attendance and worked hard to allot the awards satisfactorily.

The attendance of visitors was the most disappointing feature of the exhibition. It was hoped that the novelty of the show would attract the curious of the philatelic world but apparently the postage stamp collector is not to be easily drawn to the study of fiscals. Nevertheless many notable philatelists did come and expressed themselves much interested in what was provided for their inspection. Amongst such were noticed the following :—Major Evans, Stewart Wilson, T. W. Hall, E. D. Bacon, R. Ehrenbach, Baron A. de Worms, W. Dorning Beckton, A. W. Maclean, Mrs. Corfield and daughter, J. C. Sidebotham, J. E. Joselin, Hayman, A. Preston Pearce, W. Morley, Mr. & Mrs. Field, A. B. Kay, H. Thompson, A Schöeller, J. H. Chapman, Raffalovitch, M. Z. Kuttner, W. Hadlow, L. S. Wells, H. A. Hinton, Oliver, C. J. Preater, D Thompson, O. Marsh, H. L. Ewen, Messrs. Gilbert & Köhler, C. Nissen, Myerscough, Coates, W. Fish, W. G. McDiarmid, G. T. Richardson, G. W. Feast, J. H. Butt, Crawford, Bignold, Lincoln, and a large contingent of the Junior Philatelic Society with

their energetic President, Mr. Melville and Secretary, Mr. Johnson, also paid a visit on Saturday afternoon. This Society also had a stall for the sale of their publications. The only other stall was that of the Fiscal Philatelic Society at which fiscal literature was sold, half the profits of which were devoted to the Exhibition expenses. The awards were according to the following list :—

Particulars of the exhibits may be gathered from the Official Catalogue which may still be obtained from the Hon. Sec. of the Fiscal Philatelic Society, Mr. A. B. Kay, 2 Haarlem Mansions, West Kensington, W., but the chief features of the prize winning exhibits may be noted here.

Class I. 1st Prize. Mr. Morley's *Ceylon*. Very strong on the early issues of the Foreign Bills. A fine range of the first issue including the 2d. with unofficial perf.; several values of the 2nd issue, the only other exhibit of these being Mr. Bacon's which was not for competition; a grand range of the 3rd issue, including unused tête bêche pairs of several values. The remaining issues of the Bills nearly complete a fine series of the Judicial and Stamp Duty issues.

Class I. 2nd Prize. Mr. Crofton's *India*. A very fine collection, especially strong in Court Fee, Petition and Small Cause Court, Calcutta, issues.

Class II. 1st Prize. Messrs. Gilbert and Köhler's *Mauritius*. A very complete collection, including a very fine series of the first issue of Bills. Many stamps were unused.

Class II. 2nd Prize. Mr. Dorman's *Canada*. Many very fine proofs were a feature of this collection which included several of the excessively rare type set Manitoba provisionals.

Class III. 1st Prize. Mr. Morley's *Victoria*. A fine collection, well worked out, due notice being given to the perfs. It contained several varieties of the £25, £50, and £100, Stamp Duty fiscals.

Class III. 2nd Prize. Mr. Wells' *St. Vincent*. A fine collection, with many rare stamps such as the £50 on 5s., rose, and a £10 on 5s., violet, and "3" on 1s., lilac, a pair showing two types of surcharge, the last two items being unique.

Class IV. 1st Prize. Mr. Morley's *Queensland*. A fine collection, tolerably complete.

Class IV. 2nd Prize. Mr. Hadlow's *Queensland*. Not so complete as Mr. Morley's but containing an interesting proof of an 8d. value of the first issue, not known as an issued stamp.

Class V. Prize. Mr. Morley's *British East Africa*. A nearly complete collection of the surcharged postage stamps, which are difficult to obtain.

Class VI. Prize. Mr. Marsh's *Malta*. This collection included fine mint pairs of the postage stamps with local surcharge "**Revenue**" showing types of the "R" of Revenue.

Class IX (Telegraphs). Prize. Mr. Crofton's *Ceylon*. A fine collection including many rare stamps, with the errors "oo" for "8o".

Class X (Telegraphs). Prize. Mr. Morley's *Natal*. A very fine collection, showing all known types of the 1902 provisional surcharges on the Revenue stamps.

A Fiscal Auction was held by Mr. Hadlow on Friday evening, 7th April. There were 32 persons present and the following is a selection of the prices realised.

EDITORIAL.

THE Fiscal Exhibition has been the chief feature of the month in philatelic circles and must be accounted a great success as an Exhibition though the attendance was somewhat disappointing. Nevertheless it was visited by a large number of keen philatelists who one and all expressed themselves interested in the fine show which was placed before them. A full report will be found on another page. We learn that there is a deficit of £15 on the working expenses but we hope that some further donations may be forthcoming.

The Fiscal Exhibition.

* * * * *

Resuming our remarks on the Indian Philatelic Society's Handbook of the Fiscal and Telegraph Stamps of India we note that three provisionals exist in the "Share Transfer" series caused by a temporary shortage of certain values in Sept. 1890. These provisionals consist of the Special Adhesive stamps of 2, 3 and 6 as. surcharged "SHARE TRANSFER" in one line across the top in block caps. A similar 4as. provisional is referred to in official correspondence of the period, but it is doubtful if this was issued as no copy has yet been found. Most interesting information is given with regard to the Special Adhesives. We note that the provisionals of 1903-04 were only issued in comparatively small quantities. Under this heading are described the Advocate, Attorney and Vakil stamps. "By Act I of 1879 adhesive stamps "were prescribed for the payment of fees levied "on commissions to practise as Advocate, "Attorney and Vakil. A Vakil is a species of "lower grade Barrister. Special Adhesive "stamps were adopted for the purpose with "special overprints. As these stamps are "prepared only when actually required and "no stocks are kept, they can hardly be considered separate issues. The overprints "applied in Calcutta consist of the words "HIGH COURT ADVOCATE" or "ATTORNEY" "or "VAKIL" as the case may be in two lines "in black. The Bombay overprints consist of "black handstamps on which the words "ADVOCATE" &c. appear alone."

Indian Fiscals.

"Petition" stamps were used for the payment of fees on miscellaneous non-judicial applications mostly to Revenue Officers. These applications *inter alia* dealt with income-tax, hereditary offices, cash allowances and licenses. At one time it was contemplated to issue a permanent set of labels but they never appeared. The various provisionals on parts of Foreign Bill stamps are fully described. The High Court and Small Cause Court stamps are treated together. We learn that the 70r and 75r of the latter series were never used unsurcharged. The 8a., Special Adhesive, surcharged "Appela late High Court Tullubana" in red represents a fee paid for serving processes. The latter word may be found handstamped on some of the values of the permanent issues for Court Fees. The section on the stamps of the Small Cause Court, Calcutta must be regarded as superseded by Mr. Stewart Wilson's article in the February number of the *Philatelic Journal of India* which adds a considerable number of varieties to the existing catalogues. Visitors to the Fiscal Exhibition had an opportunity of examining Mr. Stewart Wilson's very fine collection of these stamps. The complicated series of Court Fee provisionals are fully explained and classified but we must refer our readers to the work for details as the changes are too numerous to summarise. It is interesting to learn that several values of the permanent set of Court Fee stamps were successfully forged to defraud the revenue and that these forgeries led to the issue of elaborately engraved and watermarked stamped papers manufactured by De la Rue and Co. and the large lilac adhesives, with space for entry of name of purchaser, date of purchase and vendor, of 1882. The remaining fiscal issues call for no special remark. The Telegraph stamps are much better known than the fiscals. We may note, however, that the provisional issues, on Special Adhesives, of 1881 may be divided into Calcutta, Madras and Bombay surcharges, differing in the size of the overprint "TELEGRAPH". Altogether the work is most instructive and absolutely essential to the collector of Indian Fiscals.

Among the exhibits at the Fiscal Exhibition held recently in Paris we select the following from "*Le Bulletin Fiscaliste*" M. A. Baillière, Bikanir, Buenos Ayres including the very rare series of 1869, complete, and also that of 1876 (without surcharge), Canada including proofs; M. Forbin l' Hoste, Buenos Ayres, 1877 up to the 200 pesos, Municipality of Buenos Ayres, the series of 1898 and 1899 complete up to the 200 pesos, with selections of other countries and some sheets of rarities. The awards were:—Gold medals, MM. Forbin l' Hoste, Gilbert and Köhler; Silver medals, MM. Baillière, Nicolaïdes, Roussillon, Vassard.

Paris Fiscal Exhibition.

NOTES ON THE HISTORY OF

BRITISH RAILWAY STAMPS.

BY G. W. J. POTTER.

(*Continued from page 23*)

In the *S.C.M.* for June 1866, we meet with the original source of error as to the inclusion of a 9lbs. stamp in the N.E.R. series. A copy of the 3lbs. value had been sent to that journal, and after describing it, the *S.C.M.* stated that it belonged to 'an ugly set printed in black on poor paper and perforated'; and then gave, on the authority of their correspondent, the following list of values: 3, 6, 9, 12, 24, and 48 pounds. Probably it was this list that induced Morley to enter the 9lbs. in his *Catalogue*, but no price is given against it, and I shall be greatly astonished if one is ever asked or obtained for this especial stamp.

The 1½lbs. does not seem to have been included in the set at this time, but may have been omitted by a slip; anyhow it must have been brought out very shortly afterwards if it was not then really in existence. It will be noticed that the weights given increase in direct ratio from 1½ to 48lbs; each higher value being double that of the preceding, thus there would be no place for the 9lbs.; moreover there never has been a 9lbs. value in any of the other series issued by the North Eastern.

The consumption of these stamps was already fairly large, as we find that the control number of the 3lbs. that had been forwarded for description was 502075. Of course ten years had elapsed since their introduction, and this particular stamp was the lowest—or lowest but one—value in use, still the above figure is an eloquent testimony of the newspaper traffic then dealt with by the great lines; also the need for such an item as the prepaid newspaper stamp.

On the same page (*S.C.M. IV. 89*) a reference is made to some rare stamps alluded to by K when dealing with the stamps of the Midland Railway (*M.P.J. I. 94*).

" A second stranger, unintroduced in our " list given last month, is as large as the pre- " ceding but not perforated, and has the cor- " ners cut off by curves. Green lattice work " makes the ground, which has a narrow " white border dotted with the same colour " and a white circle in the centre, obscurely " figured with armorial insignia the figure 2 " and a small D in an undescribable frame and " surmounted by a griffin. MIDLAND RAIL- " WAY above, LOCAL PREPAID PARCEL ON " CORN OR COAL BUSINESS below, printed " green; and on the left side a number, in the " example under description, 5882 in black " figures."

It is further stated that the "Midland emits a large rectangle, orange, PREPAID NEWSPAPER PARCEL, 3lbs."

From this it will be seen that K's sub-issues **n** and **o** really refer to the first of the above stamps. Whether it went beyond the experimental stage, or only had a short life, I cannot say; but if issued, as it appears to have been, it is without doubt an extremely rare stamp.

With regard to the second item, 3lbs. is probably a slip for 3d., and it may be conjectured that this is the source from which emanated the stamp that appears in the *Catalogue*, and which has since been classified as sub-issue **m** by our worthy contributor, K. It seems to me most likely that these 2lbs. and 3lbs. orange are really the 2d., and 3d., of the first issue of the newspaper parcel series; the only other issue of the Midland having pounds as the unit of classification is that intended for the carriage of corn samples, and here 1lb. is the limit. Naturally the bulk of any amount of corn could be gauged by one pound of it, hence there would be no necessity to send a larger amount, and higher value stamps to frank such quantity would not be required.

The smaller sized ½, 1, 1½, and 2d., values (K's 2nd Issue? 1875) of the same company are described in *Le Timbre Poste* of January 1869 as being red on white.

In the same issue there is also given the following list of Great Western stamps:—One, two, three, and four newspapers, orange; and the different series of "prepaid newspaper parcel" as below

Blue.	Green.	Red.
3lbs. 3 pence	3lbs. 4 pence	3lbs. 2 pence
6 ,, 4 ,,	6 ,, 5 ,,	16 ,, 4 ,,
12 ,, 6 ,,	12 ,, 7 ,,	24 ,, 6 ,,
24 ,, 8 ,,	24 ,, 9 ,,	48 ,, 9 ,,
48 ,, 1/0 ,,	48 ,, 1/1 ,,	

Further it is stated that "these large stamps (47 by 62 mm) which are about to be suppressed are of three colours, and are employed between various stations for the purpose of prepaying either a part or the whole of the carriage." The blue and green specimens are described and it is noted that the red stamps are overprinted NORTHERN DIVISION, UNDER 40 MILES in black.

In the March number reference is made to a new series that had just been received; in which PREPAID PROVISIONAL NEWSPAPER PARCEL takes the place of the more familiar PREPAID NEWSPAPER PARCEL; and that the value appears instead of the weight as formerly. This series was printed in red on white, and comprised the values of 2, 3, and 4 pence.

Judging from these extracts it would appear that the blue, green, and red N.D. stamps were in use together, and that the difference in price was occasioned by the length of journey that was franked by each particular colour and type of stamp.

(*To be continued.*)

RAILWAY STAMPS.

China. M. A. Schoeller submits copies of a set of stamps for the "Chemin de Fer de Pekin à Hankow." The stamps are oblong and bear an engine to right in centre, with the name of the railway above. The value is surcharged in large red figures. They are watermarked with an inscription, part of which only falls on single copies of the stamps such as those before us, which contains the words "PEKIN" "HANKOW" in large Roman caps. Perf. 11.

OF. 10, dark green
OF. 20, dark blue
OF. 30, yellow
OF. 40, rose
2F. 00, violet

Germany. With reference to the German Railway Stamps chronicled in our February number Dr. F. Kalckhoff writes as follows;—

"The first issue was a trial only for some "routes of the Prussian Railways; this series "comprised the values given in the Journal for "November 1903 and was in use but two "months, from the 1st of March to the end of "April 1903.

"The trial having given satisfaction a new "definitive issue took place on February 1st, "1904. In the new series the values of 1, 2, "10, 20 pfennig, 2, 5 and 10 mark were sup-"pressed, but the values of 40, 70, 80 and 90 pf. "were added. At the same time another series "appeared with the inscription "Preusz. Hess "Staatseisenbahnen" and of the same values "(5, 30, 40, 50, 60, 70, 80, 90 pf. and 1 mark). "These two series are used promiscuously on "all Prussian and Hessian Railway routes. The "first series of the Kgl. Sächs. Staatseisenbah-"nen appeared on January 1st, 1904 and com-"prised the same values as above (besides those "mentioned by you the 5 and 60 pf. and 1 "mark in the same colours as the Prussian "stamps but with black figures) I do not know "when the new type came out.

"Then there is a series of the same values "for the Kgl. Württ. Staatseisenbahnen (for "Wurttemburg) issued about May 1904. It is "very likely that other administrations will "follow suit.

"All these stamps are used for the franking "of parcels and other goods for conveyance "over the lines of the respective administra-"tions."

THE FISCAL PHILATELIC SOCIETY.

Meetings of the Society have been held on March 2nd and 17th 1905, but matters concerning the forthcoming exhibition have mainly occupied the time.

Messrs. J. H. Butt (London) and E. C. Mayne (Bristol) have been duly elected members.

Donations to the library have been received, with thanks, as follows:—

'The Adhesive Fiscal Stamps of British India' (Philatelic Society of India.)

'Catalogue of Fiscal Stamps of South America' (W. Morley).

'Laws relating to the Fiscal Stamps of Jersey and Guernsey' (A. P. Pearce)

Sheets for circulation in the Home, Continental and American Exchange Sections must reach the Secretary before the end of the month. The sales from the first packet returned from the American Circuit average 50%, which is very satisfactory.

Hon. Secretary—A. B. KAY,

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. When ever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Brazil. *Fumo.* M. A. Baillière informs us that he possesses the undermentioned values in the Type 274 of our Supplement Catalogue and that all values of this type exist perf. 11½ as well as imperf.

2000 ,, grey-blue

Thesauro Federal. Dr. Ramos sends us specimens of a new issue, the values of which are as given below, but the colours of some are not yet known. The main feature of the design is a five rayed star, with "BRAZIL" above and "THESOURO FEDERAL" with the value below on the lower values. The higher values have the words "THESOURO FEDERAL" above, value below and the word "BRAZIL" many times repeated minute letters in the backgroud of the central oval containing the five rayed star.

French Congo. M. A. Baillière kindly sends us some official information relative to some new fiscals for this country.

(1) By decree of the 1st June, 1903 postage stamps of this country have been surcharged to provide values of 1 fr., 2 fr., 5 frs. and 10 frs. for "*Enregistrement*".

(2) New special adhesives will replace these provisionals for the same four values and also for a new one of 100 frs.

(3) New special adhesive Fiscals of the values 60c., 1 fr. 20 c. and 2 frs. 40c. have just appeared for "Copies" of the same type as the analogous stamps of France.

Geneva. M. E. Moroy sends a type set adhesive lettered "**Taxe d' Hopital-** 1905-**2fr. 50** inthree lines. Perf.

2fr. 50c., black on blue.

Great Britain. *District Audit.* Mr. A. B. Kay has discovered the £2 of the first issue wmk "Balances" in the colour of the second issue, *lilac* instead of violet, and also the £2 of the second issue with the wmk. "Orbs" *horizontal.* Further the 5s. of 1888, wmk. "script V.R.' with the overprint in *brown* instead of violet.

India. *Foreign Bill.* In Mr. Crofton's collection at the Fiscal Exhibition we noticed a copy of a new provisional.

HAIDARABAD (or HYDERABAD).

A native state, also known as the Nizam's Dominions and the Deccan, occupies the eastern portion of the plateau of Southern India. Area 82,698 square miles, population in 1901, 11,174,897. The yearly revenue of the state is estimated at Rupees 40,000,000. The currency is based on the *halli* rupee, which contains approximately the same weight of silver as the British rupee, but its exchange value has fallen heavily since the closing of the mints. The conventional rate of exchange is 128 halli rupees=100 British rupees. The revenue stamps known to us are Court Fees and Receipts.

HYDERABAD RESIDENCY BAZAR.

A small portion of British territory round the Residency at the capital of His Highness the Nizam's dominions. The Philatelic Journal of India ("British Indian Fiscals surcharged for Native States," by C. S. F. Crofton) informs us that the currency in this area is that of Hyderabad, and this furnishes the reason of the surcharge. The stamps are sold at the fixed rate of 110 rupees face value for 100 British rupees.

The revenue stamps used on Court Fees, Foreign Bills and Receipt.

COURT FEES

ON another page will be found the first official announcement with respect to the International Philatelic Exhibition to be held next year. It is the intention of the working Committee to issue these notices from time to time so that collectors may keep in touch with the progress of the arrangements. The Hall which has been engaged for the Exhibition is a new one, having been open barely a year, but it seems that it will leave nothing to be desired in the way of a *locale* for the Exhibition. The floor space available is 13,000 square feet, all top lighted, while there are several rooms available for Committee rooms, etc. There are perfect summer ventilating arrangements, fresh air being forced through cold water into the Hall at four different points each some 12 feet from the ground, the exhausted air being carried away by an electric fan in the roof. Further for cooling purposes water is laid on to the top of the roof and can be run down over the glass when it gets too hot. There are also outside sun-blinds to cover the glass at those places when the sun shines most. The Exhibition will be opened about the 23rd May.

International Philatelic Exhn. 1906.

The prospectus of the Exhibition has been in active preparation and will be issued as soon as it has been passed by the Grand Committee which will soon be called together. The Exhibition will probably be confined exclusively to postage stamps as it is expected there will be no room for entires, fiscals or philatelic publications. The chief features of the prospectus will be an entirely new arrangement of classes e.g. Great Britain and Colonies are not to be shown in classes by themselves but will be mixed with other countries, the different countries being arranged in groups of approximately equal difficulty irrespective of their political relations; the creation of a championship class in which all collections which have won a gold medal in any previous exhibition in London or Manchester will have to compete but no collection, the owner of which aspires to the highest honours, will be barred in this class; a liberal provision has been made for medium and junior collectors.

We think it may be worth while to reproduce here the following interesting note concerning Hong Kong stamps overprinted "s. o." and "s. d." contributed by Commander W. C. Eaton (U.S. Navy) to *Gibbons Stamp Weekly* "In "your answer to the correspond-"ents in Vol. I, No. 11, of the "weekly, you say the letters "S. "O." and "S. D." on Hong Kong "stamps are probably the initials of the "mercantile firms using the stamps. I confess "I am considerably surprised at this statement "from so learned an authority as Stanley "Gibbons, or the Editor of the *Weekly* and beg "permission to set your readers right. I "happened to be in Hong Kong shortly after "the stamps were put in use, and learned that "this surcharge was an official one of the "Treasury Department. The first surcharge "S. O." stood for "Stamp Office" but as this "was considered erroneous it was shortly "changed to "S. D." which stood either for "Stamp Department" or "Stamp Duty"; "after this length of time I am not quite certain "which, but my recollection is that it was "Stamp Department" *i-e* in lieu of "Stamp "Office." This surcharge made the stamps "fiscal as well as postal. On learning of their "existence I went personally to the Treasury, "where I purchased the few remaining, only "eight or ten of them being left, which I used "upon letters, and it was at the Treasury that "I gained the information given above. On "inquiry at the Post Office as to whether "fiscals could still be used as postage I was "told that they could not be so accepted with "the exception of these "S.O"s & "S.D"s. "I was told that this surcharge, though making "them available for fiscal use, did not affect "their postal character, and they are, therefore, "in the same class as other British Colonial "Postage and Revenue" issues and should be "catalogued among the postal issues. I have "several on original covers which I myself "used. These were not cancelled by favour of "any postal clerk, but were regularly dropped "in the ordinary letter-box and delivered in "the usual way. A very interesting variety of "these stamps exists. Among the eight or ten "I purchased at the Treasury were two 2c. on "which a vertical bar had been printed over "the left curve of the "O" thus transforming "it into a "D" in accordance with the correct "surcharge. Of these I know of only two "copies used postally, the one in my own "collection and the other in the collection of "Mr. Luff, of philatelic fame, both on original "covers. I trust that the above will cause "recognition of these stamps in the class where "they belong *i-e* of British Colonial "Postage "and Revenue" stamps."

NOTES ON THE HISTORY OF

BRITISH RAILWAY STAMPS.

BY G. W. J. POTTER.

(*Continued from page 34.*)

Returning to the article in the *Stamp Collectors' Magazine* (June 1866) we read that

> The Great Northern supplies a whole series of more elaborate but less tasty design. They are transverse rectangles, 2¼ by 2 inches, perforated. A large octagon formed by a fancy pattern printed green on white, contains armorial bearings in centre, and GREAT NORTHERN PREPAID NEWSPAPER PARCEL in upper and lower scrolls; 3 lbs. and TWOPENCE are impressed thereon in black; and the corners are completed by triangles patterned with green. Waterlow and Sons, London, own beneath, to have lithographed this production. There are, it seems, in addition, same colour and device, a 3d., for 6 lbs weight, a 4d., for 12 lbs., and 6d., no weight expressed, we suppose intended for the full allowance thereof.
>
> There has existed, moreover, since New Year's day, a comrade impressed in vermilion, marked ONE NEWSPAPER; and value, though not indicated, one halfpenny.

In the issue for October 1866, 2 other stamps of the G N. are described: these are the 1½d. (3 newsp.) and 2d., (4 newsp.), the colours being given as brick-red and blue.

The following interesting notice concerning the first issues of the London and South Western Railway is from *The Philatelist* of November, 1868.

> ENGLISH RAILWAY LOCALS. These impressions are not usually collected by philatelists; but our magazine being circulated on the continent, as well as at home and in the colonies, for the benefit of those subscribers who include them in their albums, and at the risk of drawing down sundry diatribes from both genuine and *quasi* Pendragonites, we note some which have but just come under notice, though we understand that they have been in use for some dozen years. They are employed for newspaper parcels on the L & S.W.R. They are upright oblongs, printed in sheets containing twenty each; most of the values have armorial bearings in a central circle, partially obscured by figure and denomination of value: LONDON & SOUTH WESTERN RAILWAY, on radiating lines above; NEWSPAPER TICKET below. At each corner is a conventional rose. The values of this type are 1, 2, 3, 4, 6, and 9d. The 2 and 4 are of a dull brownish violet hue; the others are lilac. The 3, 6 and 9 are perforated. The remaining three, as well as the one about to be described, require the aid of scissors or knife for separation. There is but one value, 1½d., of the second pattern. The same inscription appears above and below, with the addition of the word THREE; but there are no radiating lines. The value is also in the centre, topped by AT OWNER'S RISK, in a semi-circular band. No armorial bearings are on this specimen; but the ornaments at the angles are more artistic, and the stamp altogether is neater and better engraved than its fellows. We should add that the whole set is on thick, violet-tinted paper, and well gummed.

It will be observed that the 1/-, value is not mentioned in the above account, but in a list given in the issue for June 1869, this stamp is included and its colour is said to be red mauve. While on the subject of colour it may be interesting to give the shades that were assigned to the various values by *Le Timbre Poste*.

A few years later (June 1873) we read in the *Gazette des Timbres* that 'the L. & S. W. R. has changed the type of the greater part of its stamps. All, save the 1/-, are of the design of the ½d., and 1½d. (Figure on solid background, encircled by a garter). The paper and printing vary in shade' The colours ascribed to the stamps are seen in the following list.

Very many entries of the different varieties issued by the numerous Scotch companies are scattered throughout the philatelic journals, but I have not thought it necessary to reproduce all these in detail. A lengthy list of the issues of these and other companies was given by Dr. Magnus in the pages of *Le Timbrophile*, the descriptions being mostly from specimens in his own collection. The subjoined account of some changes in the issues of the Highland Railway is taken from *The Philatelist* for September, 1868.

> The Highland Railway have discarded the plain double thread which had heretofore framed their emissions, substituting a fancy framework. They are all perforated.

INTERNATIONAL PHILATELIC EXHIBITION.

1906.

FIRST OFFICIAL NOTICE.

It has been decided to hold an International Philatelic Exhibition in London in 1906 under the auspices of the Philatelic Society, London, and a Working Committee has been appointed consisting of the following.—

Two members representing the Provincial Philatelic Societies, viz. Messrs Dorning Becton & Slade.

Four of the London Stamp Dealers, Messrs. Oliver, Peckitt, Phillips & Hamilton-Smith.

The Working Committee have engaged the Royal Horticultural Society's Hall, St Vincent Square, Westminster, for the exhibition which will be held towards the end of May or the beginning of June, and the arrangements for the programme are in process of consideration.

In the course of the next few weeks invitations will be issued to the various Philatelic Societies and to prominent Philatelists with the view to the formation of a thoroughly representative General Committee.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Ceylon. *Stamp Duty.* Mr. A. M. South reports the 50c., lilac and green, King's head stamp on *multiple Crown CA* paper.

Great Britain. *Land Registry.* Mr. A. M. South has the shilling value of the Queen's head unappropriated die series with overprint of figure of value. Wmk. Script VR. Perf. 14.

1s., green and black-purple.

Japan. Mr. A. M. South informs us that he possesses a hitherto unrecorded value of the current series.

3 sen., lake-red.

Malay States. *Judicial.* At the Fiscal Exhibition we saw a high value of the permanent type illustrated in our number for March, 1904.

$25, violet and green.

Malta. *Ewen's Weekly Stamp News* reports the issue of the 5s., rose, Queen's Head surcharged "REVENUE" in black block letters. Wmk. Crown CC. Perf. 14. This completes the series with surcharge in block type.

Natal. At the Fiscal Exhibition MM. A. Schœller and A. Baillière showed between them the following values on *white laid paper*. 9d., 2s. 3d., £1. 10s. 6d., £2, £3. 10s. and £5.

M. Baillière also showed the two undermentioned stamps on plain coloured paper

1s., green
1s. 6d., blue

New Zealand. *Stamp Duty.* Mr. Morley has discovered the following varieties:—

1s., lilac and red, value in one line, wmk. "NZ", *perf. 12½*.

1s., lilac and green, Die 1, wmk. "tall NZ", *perf 12½*.

1s., violet and green, Die 2, wmk. "tall NZ", perf. 10 x 12½.

3s., lilac and green, Die 2, wmk. "wide NZ", perf. 12½.

Orange River Colony. According to *Le Bulletin Fiscaliste* the colours of the higher values of the King's head series are as follows:—

5s., rose and grey
10s., orange and green
£1, black and lilac
£2, brown and lilac
£5, green and lilac

Parahyba. (*Brazil*). *Barreiras, 1905.* Dr. Ramos submits one value of a new issue. The design is difficult to describe but on a curved label across the stamp is the inscription "SAHIDA POR BARREIRAS" in white letters on a red ground. Figures of value in left upper corner and on a wavy lined label below the curved band across the stamp. The background consists of a floral design and the sun's rays in the upper part, while a curved label near the right hand upper corner gives the date of the decree authorizing the new stamps viz: "Dec. No. 244 de 22 de Novembro de 1904." Imperf

Stanley Gibbon's Catalogue, 17th Edition.
A few figures.

BY BURTON F. J. COOPER.

WHATEVER differences of opinion there may be amongst stamp collectors generally as to the trustworthiness of this Catalogue as the "Guide to Values" which the publishers claim it to be, there can be but few philatelists (the leading specialists excepted) who do not look upon this useful work as in some sort reflecting the popularity or the reverse of the stamps of a country, an issue, and even of individual varieties.

The following list, compiled from the latest edition of the Catalogue, may therefore have some interest for the numerous philatelists who make a special feature of the stamps of Great Britain and her Colonies.

The figures are divided into two groups—unused and used. In each of these groups the prices given in the current edition have been compared with those in the last. The numbers of stamps which have advanced or decreased in price have been placed in the two first columns. In the *third* column, the preponderance of increases or decreases is placed over the total number of varieties priced in both editions, so as to form a fraction. This, in the fourth column has been expressed as a percentage. The minus sign (—) indicates the instances in which decreases are in the majority.

Bearing in mind the general inadvisability of theorising from figures and without placing implicit reliance on the prices either as a whole or in particular countries, a few deductions may reasonably be drawn from the figures given.

(1) The generally increased demand for Colonials, as shown by an average rise in price by 11% and 12·4% for unused and used respectively.

(2) The growing popularity of Philately amongst those of modest means is evidenced by the way in which the mostly cheaper used stamps hold their own against the more expensive unused. This should aid in justifying the belief (held by many of us) in fine used copies, as a good investment.

(3) The very general liking for the stamps, particularly in used condition, of that most interesting group, Australia and New Zealand. Such varieties as are priced unused have evidently had due regard paid to their scarcity in earlier editions, whilst the large number left unpriced are too rare and therefore too expensive to appeal to the purse of the average collector.

(4) The extent to which the stamps of our South African Colonies have suffered from the inflation produced as a result of the late war. Assuredly, however, no changes of fashion can permanently affect the well-deserved popularity, with the earnest philatelist, of the early issues of the Transvaal, or of the triangular Capes with the general collector.

(5) One other feature may be noticed, viz.:—even the "superficial" philatelist begins to set comparatively little store by the "picture" emissions of Labuan, N. Borneo, and Tonga in an unused condition. This would seem to show that the enthusiastic philatelist prizes his stamps for something more than their "beautiful faces".

But this is mere sentiment!

To conclude, the Colonies showing the largest proportion of increases in price (unused and used) are :—

EDITORIAL.

WE have lately received two little works by the energetic President of the Junior Philatelic Society, Mr. Fred J. Melville which we have much pleasure in recommending to our readers The first is entitled "*The Tapling Collection of Stamps. A Descriptive Guide and Index*" and is published by Messrs Lawn and Barlow. The most valuable part of this work is the Index which shows at a glance the numbers of the frames in which the stamps of any given country will be found. This is as valuable to the specialist as to the beginner for the former often requires to examine the rich stores of rare stamps which is a feature of the collection. The work begins with a very readable "Story of the Tapling Collection" reprinted from "The Connoisseur" and this is followed by a list of "Stamps to look for" intended for any interested visitor. The work is illustrated by portraits of Mr. Tapling and Mr. Bacon and photos showing the method of arrangement of the stamps and some of the "stamps to look for."

The other little work is an elementary treatise on "*The Postage Stamps of Hayti.*" Published by C. Nissen & Co This work only claims to be elementary and those who wish to go deeper into the subject are referred to an important scientific work on the history of the postal issues of Hayti which has been in preparation for several years by Messrs. A Holland, J.B. Leavy & J. F. Rich, of the Boston Philatelic Society The work justifies the claim and will be found reliable as far as it goes. The various issues are described and chapters are added on Essays and Forgeries.

Postage Stamps of Hayti.

We have to warn our readers against certain forgeries of Guanacaste. Our correspondent Mr. G. W. Pepper writes "Collectors will do "well to be careful in buying Costa Rica stamps "surcharged "Guanacaste." I have seen a "number which have been sent direct from "Costa Rica which are undoubtedly with bogus surcharge. I "have seen three different types "of surcharge and all are on the "commonest remainders of the issue of 1883. "The different types are evenly assorted and "are offered at 3s. per set of 10 varieties. "The parties doing the work evidently had no "genuine stamps to copy as all three types "were such as are found on postage stamps. "This fact would imply that the same parties "had been getting in their work on the postage "stamps also."

A pending new issue for Bolivia is announced by *Mekeel's Weekly Stamp News*. "President "Montes promulgated a decree on March 1 "authorizing the issue of consular stamps of the "values of 1, 2 and 5 bolivianos. These stamps "must be attached, in the amount required by "law, to consular documents of all "kinds except invoices. The revenue law for the Republic which "became effective December 27th "last, provides for revenue stamps of the "following denominations: ·02, ·05, ·10, ·20, "·40, 1, 2, 10, 20 and 40 bolivianos, while "stamped paper of the following denominations "is authorized ·10, ·20, ·30, 1, 2, 4, 10, 25, 40, "and 50 bolivianos. Nothing is given as to "designs or colours."

Several, if not all, of the current Transvaal postage stamps have been seen surcharged "C S.A.R." which stands for "Central South African Railways." These railways are under Government control and it appears to be as yet undecided whether these stamps are to be classed under the category of "Railway Stamps" or of "Official Postage Stamps." We suppose that sufficient evidence will shortly be gathered so that this question may be settled, in any case we should be glad to hear what values have been surcharged. It is also stated in some quarters that Orange River Colony stamps are being similarly surcharged.

Recent numbers of *Le Bulletin Fiscaliste* give particulars and somewhat lengthy lists of Beer Duty stamps issued in 1903 for Victoria and New South Wales. They are of similar design, lettered "Commonwealth of Australia" the name "Victoria" or "New South Wales" appearing on a central label. We hope to give a list of these in a future number at an early date. The same journal records rather numerous additions to the fiscal issues of the South American republics with the help of which we will endeavour to set our lists in order as the exigencies of space permit.

NOTES ON THE HISTORY OF

BRITISH RAILWAY STAMPS.

BY G. W. J. POTTER.

(*Continued from page 42.*)

NORTH OF INVERNESS

2d., Green on pink, above 3 lbs.
4d., ,, ,, white, from 3 to 7 lbs.
6d., ,, ,, yellow ,, 7 ,, 14 ,,
8d., ,, ,, buff ,, 14 ,, 28 ,,
1/-, ,, ,, lavender ,, 28 ,, 56 ,,

From other sources we find that the 7 to 14 lbs. and 14 to 28 lbs. of the Perth and Inverness section should be 4d., and 6d.; their colours blue and fawn; that the first weight in each set should be *under* not above 3 lbs; and that the gauge of the perforation should be 12½. In the very excellent list of the Highland's issues (*M.P.J.* V. 6, 14, 22). K has, following Morley's *Catalogue*, omitted to include the series that were issued for use 'North of Inverness.' This, like all the other units, must not be regarded as the title of a distinct company, but only as a section of the Highland. Undoubtedly some of these lines were planned and carried out as independent companies; however, they gradually came under the influence of the H R., and they now form part and parcel of that wide stretching company.

In a Catalogue of stamps (24 pages) issued by W Lincoln, jr., sometime after 1865, we find but two railway stamps offered for sale, namely, one each of the New Caledonian Railway (*sic*), and the North British Railway; both green, and in unused condition, the price asked being 2d., in each case.

Some of the other issues that were chronicled in these journals during the cycle of years from 1864 to 1873 may be briefly summarised as below; where the account appears in more than one paper, I have collated the descriptions and affixed the earliest of the dates. In June, 1866, we find the four values of the G.E.R. chronicled. The colours were the same as those of the present day, but the early printings had no control numbers, and a few sheets appear to have been issued without being perforated.

½d., yellow-green and black. Imp.
½d., pale green ,, p. 11½. Imp.
1d., blue and red ,, ,,
1½d., lilac ,, blue ,, ,,
2d., red ,, green ,,

The 1d., value of the Bristol and Exeter with signature of *Henry Dykes* was also recorded in the same month.

In February, 1869, we have the stamps of two Welsh companies described. The size of the Sirhowy issues is given as 3 inches by 2 inches. Colours and values;

1d., black on white under 1lb. Perf.
2d., ,, ,, pink ,, 2 ,,
3d., ,, ,, blue ,, 7 ,,

The Taff Vale had a small stamp, 1½ inch square, perforated, and of a dull bluish-green, which was termed a SINGLE NEWSPAPER FRANK. The remaining four values, exactly double the size of the halfpenny, were intended for Prepaid Newspaper Parcels, and were as follows;

1d., black on white 1 lb.
2d., ,, ,, blue 3 lb.
3d., ,, ,, pink 7 lb.
6d., ,, ,, yellow 14 lb.

The autograph of the Traffic Manager, which is reproduced on these stamps, has proved a stumbling-block to various editors; thus *Le Timbre Poste* reads it as *Edwin E. Tayl*; Morley in his *Catalogue* has *Edwin Wagh*; while in reality it is *Edwin E. Page*. Evidently people were as careless in writing their signatures then as they are now.

February, 1870, witnessed the arrival of a set issued by the Monmouthshire Rail and Canal Company.

1d., black on white, imp.
1d., ,, rose, perf.
2d., ,, yellow ,,
3d., ,, blue-green. Perf.

It is interesting to note that the two types of the 1d., were even then in use together; see *M.P.J.* I. 46, II. 14.

The last that I am including in this article are the two values of the Rhymney Railway, which were listed in June, 1870.

2d., blue | 3d., lilac

During part of its existence the *Philatelist* was in the habit of giving prizes for essays on various subjects connected with stamps, and in September 1869, the usual prize of one guinea was offered for the best essay on a descriptive list of British and Foreign Railway Stamps. There were not many competitors, and according to the account in the issue of February 1870, one claimant only mentioned 5 railways in both England and Scotland, and no Colonials or Continentals!

The award went to Mr W. D. Hemming (Hon. Asst. Sec. to the Philatelic Society) for a list of 238 British and 20 Foreign railway stamps; his paper being further embellished with ten *facsimiles* of some of the more interesting varieties.

From the *S.C.M.* for December, 1866, is extracted the following amusing paragraph:—

> ENGLISH LOCALS.—The stamp, of which we append an illustration, explains itself. Its colour is green on white, and its design is, perhaps, the most tasty of any of the railway labels. Those who collect these hybrids will, therefore, find it a welcome addition. A French journal, in chronicling this stamp from hearsay, makes a ludicrous mistake as to its origin. Understanding that it was issued by the Great Eastern Company, and being unaware that that name applies equally to the big ship and to the *ci-devant* Eastern Counties Railway, the chronicler goes on to inquire— 'Is it the *Great Eastern* which after aiding for a time in the glorious work of laying the transatlantic cable, has been chartered by an English company for the carriage of circulars?' We do not wonder at our neighbours' astonishment at the idea of the *Great Eastern* being employed to convey Brown, Jones, and Robinsons' circulars by the ton, across the water, for distribution amongst our esteemed friends on the other side. Such an advertising millenium has not yet arrived.

INTERNATIONAL PHILATELIC EXHIBITION.

1906.

SECOND OFFICIAL NOTICE.

The arrangements in connection with the International Exhibition have been in active progress, and the period for which the Royal Horticultural Society's Hall has been reserved is from Monday, the 21st. May, until Saturday, the 2nd June, 1906. Doubtless two days will be required for mounting the exhibits and one or two days for unpacking, so that the Exhibition will probably be open to the public for some nine or ten days from the 23rd May. Invitations have been issued to various Philatelic Societies and to Philatelists, and the General Committee is now in course of formation. The programme has been drafted, but before publication it will be submitted for approval to the General Committee.

H. R OLDFIELD, Hon. Sec.
L. L. R. HAUSBURG, Hon. Asst. Sec.

THE FISCAL PHILATELIC SOCIETY.

MEETING held on April 13th, 1905. Present, Mr. Schwabacher (chair) Messrs. Fulcher, Marsh, Morley, South, Thompson, Thomson, and Kay.

The accounts of the Exhibition were submitted showing an estimated deficit of £15. It is hoped that any interested will be so good as to send a small donation towards reducing this as the results of the Exhibition will be for the benefit of fiscal philately generally.

Copies of the catalogue and list of awards can be had from the Secretary on payment of postage. The book will be found a useful handbook on British Colonial Revenue Stamps.

Received for the Library with thanks:—

'The Stamps of Panama' (Scott Stamp & Coin Co.)

'Der Philatelist' March & April 1905.

'Filatelica' November & December 1904.

Sheets for circulation in the Home, Continental, and American Exchange Sections must reach the Secretary before the end of the month. The sales from the American Circuit again average over 50%.

Meeting held on May 4th, 1905. Present, Mr. Schwabacher (chair). Messrs. Fulcher, Morley, Thompson, Thomson, South and Kay.

The list of dates on the embossed adhesive fiscals of Great Britain was completed as far as known, but the Secretary will be glad to hear of any additions to the published lists.

It is hoped that further donations to the Exhibition Fund will be forthcoming as the accounts unfortunately show a deficit which the funds of the Society are unable to meet. Donations are acknowledged with thanks, from C. Nissen and J. Verzyl. Copies of the Exhibition handbook can be had on payment of postage.

During the summer months the Exchange Sections will be continued, and members should be careful to notify any change of address. The attention of Continental members is particularly called to the Rules regarding the circulation of the packets, as much inconvenience is caused by the present delays.

Received for the library, with thanks :—

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

British Somaliland. *Court Fees.* In the Queen's head series of most of the values above 2as. there has been found a second setting of the surcharge. The earlier setting has the space between the words approximately 37 mm. whilst in the later is 45 mm. The catalogue should read:—

Queen's head. 1st setting. 1, 2 (small fig. "2"), 3, 4, 6, 8, and 12 as., 1, 2, 3, and 5 (?) rupees.

Queen's head. 2nd setting. 2 (large fig. "2"), 3, 4, and 8 as., and 5 rupees.

King's head (space 45 mm.) 6 as., 1, 2, and 3 rupees.

Canada. To the "Series for 1897" of the undermentioned duties add the values as indicated.

EDITORIAL.

WE have received from the British South Africa Co. a pretty set of postage stamps which have been issued in connection with the forthcoming visit of the British Association for the Advancement of Science to Rhodesia. The issue serves to commemorate the formal opening of the Victoria Falls bridge over the Zambesi river, one of the greatest engineering marvels of modern times, and a most important link on the Cape to Cairo Railway. The set consists of the 1d., vermilion, 2½d., blue, 5d., rose-lilac, 1s., green, 2s. 6d., black and 5s., violet, the design on all being the same, a fine view of the Victoria Falls. Although commemorative stamps are being rather overdone in recent years and as a rule find but little favour with the more serious of collectors yet many will no doubt be glad to have a picture of the famous Victoria Falls, first discovered by Livingstone, one of the marvels of nature and noblest of waterfalls, represented in their albums. The Zambesi above the Falls is a beautiful wide river, dotted with numerous islands, flowing peacefully onwards except that here and there a few rocky bars cause small rapids. The river banks as well as the islands in mid-stream are covered with tropical vegetation forming a habitation for an infinite variety of water-fowl and including among the larger denizens of the animal kingdom, the crocodile and the hippopotamus. Game is plentiful on the banks and the waters offer a happy hunting ground to the sportsman. The broad expanse of water, about a mile wide, suddenly meets with a deep chasm, at right angles to the river bed, some 300 feet in depth, or more than twice the depth of Niagara, down which it is precipitated in a cascade of dazzling whiteness with a tumultuous roar, which can be heard several miles away. The air sucked down by the weight of waters, catches up the broken spray and whirls it in drenching gusts to a vast height in cloud-like masses. In the rainy season the column of spray has been computed by actual measurement to rise nearly 3000 feet into the air, while it can be seen at a distance of 20 miles. These dense clouds of spray enhance the beauty of the spectacle by affording optical effects in the form of rainbows, brilliant in the sunlight, pale and weird in the moonshine, while the constant dampness of the air permits the tropical vegetation in the neighbourhood to flourish in all its utmost luxuriance. From out the chasm into which the waters fall there is no outlet except at a point about two-thirds of the distance across the river, where the opposite wall of basalt has been broken through a narrow gorge barely 100 feet in width. Through this the waters pass into the "Boiling Pot" so called not from its turbulence, but because countless myriads of air bubbles entangled in the fall of the waters, rise from the depth of the main current. At lower end of the Boiling Pot the waters emerge in violent rapids, partly forming a whirlpool and flowing onwards through a rocky canon of zigzag form between high cliffs of basalt for a distance of thirty or forty miles.

B.S.A.

The Victoria Falls are now no longer inaccessible; luxurious corridor trains replete with every comfort, with sleeping, dining and restaurant cars, and fitted with library, writing room, observation platforms and other conveniences, make the journey from Cape Town in 3½ days or from Beira in 2½ days. Soon they will be visited as frequently as Niagara and the ubiquitous Cook's tourist will post picture postcards from the Falls Hotel.

The current number of the *West End Philatelist* gives some excellent advice to those postage stamp collectors who contemplate collecting fiscals also. We are glad to welcome the Editorial in question as an indication of the growing interest in fiscal issues on the part of collectors in general. Of course for the "general collector" to take to general collecting of fiscals means adding enormously to an already gigantic undertaking, but as a matter of fact, we believe, most general collectors soon unconsciously if not actually find their interest centre chiefly in a few countries only and we think that such would find it add to the interest of the particular countries affected to take the fiscal issues as well as the postage. The collector who really studies his stamps, or the specialist should certainly collect the fiscals of the country collected as the fiscal issues will sometimes be found to throw light on problems connected with postal issues and vicè-versâ.

NOTES ON THE HISTORY OF

BRITISH RAILWAY STAMPS.

BY G. W. J. POTTER.

(*Continued from page 50.*)

Nearly three years later (May 1869), we read in the same journal of the judgement and final verdict given by the editors of *Le Timbrophile* and *The Stamp Collector's Magazine* concerning these interesting and legitimate stamps

In the French paper, a new G. N. stamp had been described, and M. Mahé adds

> Each day witnesses the appearance of new series of railway stamps, the use of which seems to us rather problematical. We believe it then our duty to stop here, and from this day we shall pass in silence all such stamps of this class as may be emitted, unless a great number of our readers should wish them to be described; we will then take them up and continue the description, but until further orders we declare these stamps to be of very mediocre interest.

Evidently M. Mahé had a suspicion that the English railway companies were bringing out these different varieties of stamps more for the collector than for their own use: in this, he was without doubt, quite mistaken, but the interest taken in them may have been somewhat limited. The views of the English editor are far more to the point, although one might very fairly doubt if 'a few thousands' of the stamps were ever purchased by collectors. Appended is his summing-up:

> We quite agree with M. Mahé as to the amount of interest appertaining to these stamps. They are genuine enough, are issued by companies to whom the profit accruing by the sale of a few thousands to collectors would not be an object; and they do prepay the carriage of newspapers

from station to station; but they are as a rule, unsightly, and inconveniently large. Their number is now large, and their employment at most only semi-postal.

This then concludes these notes for the time being, and to those who are engaged in working out the history of these fascinating stamps, I hope that some of the information contained therein may be found of use to them. I should at any time be pleased to hear from anyone in the matter of corrections, additions, or fresh discoveries.

THE FISCAL PHILATELIC SOCIETY.

Meeting held June 9th, 1905. Present—Mr. Schwabacher (*Chair*). Messrs. Corfield, Fulcher Morley, South, Thomson and Kay.

A letter was read from the High Commissioner for Canada announcing that the Canadian Government had presented to the Library of the Society the collection of Canadian Revenue Stamps sent for display at the recent exhibition. A vote of thanks was unanimously passed for the very acceptable gift, which comprises specimens of all revenue stamps at present in use in the Dominion, including a fine series of Tobacco Stamps, many of which are, as yet, unchronicled.

The accounts for the Exhibition are now being made up but unfortunately there is still a deficit of £18, which must be met by the Committee should no further donations come to hand. It is hoped that members will make an endeavour to help the Society towards a more satisfactory settlement.

The American Exchange Superintendent reports that packets will not be circulated in his Section till September next, owing to absence of many members from home.

Due notice will be given of the Annual General Meeting, which will probably be held on October 5th next.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

The Impressed Duty Stamps of Great Britain and Ireland.

By L. W. Fulcher.

"BLUE Deed Stamps" have always been a class of stamps which has found favour with fiscal collectors. This fact is perhaps hardly surprising if we consider the length of time they have been in use and the historical importance of the creation of the various stamp duties while no other category of fiscal stamps show such variety of design or offer such a wide field for discovery. Most of our present knowledge of these stamps is to be found in Mr. Lundy's articles in *The Stamp Collector* which were continued in *The Fiscal Philatelist* until the untimely end of the latter. Mr. Lundy devoted a vast amount of time and labour to elucidating the issues of these stamps, and beyond what has already been published had accumulated a quantity of MSS. dealing with the issues up to the year 1804. This MSS. has, I am glad to say, come into my hands and forms the basis for the series of articles which I now propose to offer to the fiscal collecting world in general. As regards the issues from the early part of the 19th century I have secured a mass of information from official sources and I hope to lay down a reliable foundation to serve as a guide to collectors of these stamps and on which future research may erect a noble and imposing edifice.

In dealing with the earlier issues I shall not repeat in detail the information which is already available to collectors in "*The Embossed Deed Stamps of Great Britain—Reprinted from 'The Stamp Collector' and 'The Fiscal Philatelist.' By F. G. C. Lundy*" and the continuation of it in *The Fiscal Philatelist* but shall only offer a brief summary incorporating the additions which have been made to our knowledge since that date so that these articles may cover the whole ground. I propose to do this not only for the sake of completeness but more particularly because I am desirous of treating the subject in a somewhat different manner from that adopted by Mr. Lundy. In the first place I intend to include all impressed duty stamps and not only those found on blue or other coloured paper attached to parchment; for it is only the accident that parchment will not take satisfactory impressions from a die, which will last, especially under the influence of damp, that led to the invention of a particular device for securing impressions from a die on this material. This device, it may be as well to recall, consisted in first affixing a piece of paper to the parchment, then having cut two small parallel slits in the centre, a piece of tin foil was passed through, folded on the back of the parchment and secured by gumming a label over the folded ends; this done, the die was impressed on the

paper so affixed. The dies denoting the stamp duties are the same whether used for paper or parchment, and if we confine our collections to those impressed, in the manner described, on the latter material only, we make an arbitrary distinction of no logical value and only arrive at a partial illustration of the various issues. For among the earlier issues it may happen that some dies will only be found on paper and some only on parchment: which of the two would depend on the nature of the document, that is to say whether it was of sufficient importance to be preserved for long periods or whether it was of a nature to mature at an early period and become useless: among more recent issues, whole classes of these stamps, such as the "Receipt" or "Bill or Note" series and several others are not found on parchment. However as some collectors may prefer to confine their attention to "Blue Deed Stamps" and as the labels at the back afford some indication as to the periods during which certain dies were in use I shall, in dealing with the various issues, note, as far as is known, which dies are found on paper and which on parchment, in the latter case adding the different reigns in so far as these are distinguished by the labels on the reverse.

A second feature of the method of treatment of these stamps which I propose to adopt is that of placing all dies of the same design or those which maintain an unbroken sequence of die letters with the first issued stamp of such design or of the series of die letters. For example the "VI PENCE" of William and Mary was used without change of design in the next two or three reigns though fresh dies appeared from time to time. I shall, therefore, catalogue all the dies known under date of issue of the first stamp of the series. In fact, it is probably impossible at the present time to discover the date of issue of any particular die of these early stamps. Date plugs were not used until 1833 and previous to this date, unless we obtain the complete document to which the stamp is affixed we have no means of discovering even the date of use. When the stamp is affixed to parchment the label on the back may help to assign a limit but as the tickets of one reign were generally used up in the next even this is not a guide of much value.

I have to express my acknowledgements to Messrs Walter Morley, A. B. Kay and O. Marsh for permitting me to inspect their collections and from whom I have obtained much useful information.

For the identification of the stamps it is necessary to refer to the Armorial bearings of Great Britain in the different reigns. I give them here for reference, the descriptions being taken from Mr. Lundy's papers already mentioned.

William and Mary. Arms of James I, viz.: Quarterly, 1st and 4th, France (three fleur-de-lys) and England (three lions passant) quarterly; 2nd, or, a lion rampant within a double flory counterflory gu. for Scotland; 3rd, az. a harp or, stringed arg. for Ireland;—with an escutcheon of pretence (on the centre), thereon the Arms of Nassau—viz. az. billity or, a lion rampant or. Mottoes; "Je maintiendra" and "Honi soit qui mal y pense".

Anne. Same armorial bearings as William and Mary, *without* the escutcheon of pretence for Nassau. After the union with Scotland her Majesty bore: 1st and 4th, England impaling Scotland; 2nd, France; 3rd, Ireland. Motto: "Semper Eadem".

George I. 1st, England, impaling Scotland; 2nd, France; 3rd, Ireland; 4th, gu. two lions pass. guard. in pale or, for Brunswick, impaling or, semee of hearts gu. a lion ramp. az. for Lunenberg: and on a point in point gu. a horse courant az. for Saxony. On the centre of the fourth quarter an escutcheon gu. charged with the crown of Charlemagne or, as the Arch Treasurer of the Holy Roman Empire.

George II. Same as George I.

George III. Bore the same armorial bearings as Geo. I and Geo. II until the union with Ireland, when the fleur-de-lys of France were abandoned: and, by his Majesty's order in council dated 5th Nov., 1800, it was decreed that the following be the armorial bearings of the United Kingdom:—Quarterly, 1st and 4th, gu. three lions pass. guard. or, for England; 2nd, or, lion ramp. gu. within a double tressure flory counterflory of the last, for Scotland; 3rd, az. a harp or, stringed arg. for Ireland. In the centre an escutcheon of pretence for Hanover, viz.: gu. two lions pass. guard. in pale or, for Brunswick, impaling or, semee of hearts gu. a lion ramp. az. for Lunenberg, on a point in point gu. a horse courant for Saxony. On an escutcheon gu. the crown of Charlemagne or, as arch Treasurer of the Holy Roman Empire; the first escutcheon being ensigned with an electoral bonnet. In June, 1816, this electoral bonnet was changed by Act of Parliament to a royal crown.

George IV. and William IV. Same as George III.

Victoria. Same as Geo. III, *without* the escutcheon of pretence for Hanover.

EDITORIAL.

THE series of articles which commence in this number on the impressed Duty Stamps of Great Britian will we hope stimulate the exertions of those collectors who are now engaged in endeavouring to form collections of these stamps and at the same time attract some new recruits for the study of an interesting class of stamps of their own country. To those fiscal collectors who are on the look out for some object of attack we can confidently recommend the one in question as possessing considerable interest and as affording opportunity for abundant study and research. At present it does not involve much expense but depends largely on personal effort in hunting amongst old papers, which is in itself a fascinating pursuit especially when attended with an excellent prospect of turning up many stamps to add to one's collection and above all of discovering many undescribed novelties. For the benefit of those who may be tempted to make a start in this direction it may be useful for us to offer a few suggestions as to the lines on which a collection of these stamps should be formed. In the first place, up to the present time, it has been mainly the practice to limit one's collection to "Blue Deed Stamps". This we consider to be a mistake, for as explained in the article published in this number, these offer but a partial view of the impressed duties in general. The collection of "Blue Deed Stamps" no doubt arose from the idea that they were considered by many to be "adhesives" but as the impression of the die is the last operation in affixing the stamp we do not see that they have any claim to be regarded in the same category as adhesive fiscals. The collector who wishes to make a complete study of impressed duty stamps will then decidedly not confine himself to the stamps affixed to parchment only.

Impressed Stamps.

The simplest lines on which a collection could be formed is for the collector to take one impression from each die. He could then be satisfied with such an impression whether it were on paper or parchment and could ignore, in the case of the latter, whether it were impressed on blue, vermilion or green paper and also the labels of the various monarchs on the back. In the other extreme a collector would try and make two series, one on paper (it would be absurd to collect *varieties* of paper) and one on parchment, the latter including all possible varieties which we have mentioned as to be omitted in the first case. Between these two limits other paths lie and with these few remarks we leave it to each collector to choose his own way.

Collectors of King's head postage stamps have their work cut out. The paper with multiple CA watermark is to be "*chalk-surfaced*" in future owing to some stamps having been successfully cleaned and used again to defraud the revenue.

King's Head postage stamps

Mr. Kay informs us that some of the Colonials have now appeared on the new paper. We suppose there will now be a mad rush to secure the stamps watermarked on multiple CA unsurfaced paper as there has been recently for the stamps on the single CA paper.

The following extract from a contemporary weekly journal (not a philatelic one) is appropriate to the "Silly Season." "Could any kind reader "of "Ours" describe the black stamp of "1840? "How much are they valued at? One I am told, "was sold for £1000". This seems "incredible." To those of us who collect stamps it sometimes seems "incredible" that any one, at the present time, could be so absolutely ignorant of quite rudimentary stamp matters but such extracts serve to remind us that people do exist who know naught of stamps or stamp collecting.

Mr. Kay informs us that some new values viz: 6d., brown, 1s., ochre and 1s. 8d., carmine of the Guernsey Revenue Stamps have been issued, the exact date of issue being the 25th Aug.

Guernsey.

These new values are necessitated by some new "Laws relating to Stamp Duties" which have just come into force, the old laws having been repealed. We hope to be able to publish the details of these new Stamp Duty laws in the near future. The stamps are of the same design as those already known.

INTERNATIONAL PHILATELIC EXHIBITION, 1906.

THIRD OFFICIAL NOTICE.

THE Prospectus of the Exhibition has now been practically completed and will probably be issued early in September, 1906, after it has been submitted to and approved by the General Committee, which includes many of the leading collectors, not only in this country, but also on the Continent and in America.

The Exhibition will be held under the patronage of His Royal Highness the Prince of Wales, with the present Postmaster-General and the three preceding Postmasters-General as Vice-Patrons, while the Chairmanship of the Committee has been accepted by the Right Honourable the Earl of Crawford.

The Committee have done and will do everything in their power to make the Exhibition of 1906 at least as successful as the one in 1897 and if they receive, as they anticipate, the co-operation and support of philatelists generally there can be no doubt about the result.

Information as to the Exhibition can be obtained on application to the Hon. Secretaries 13 Walbrook, London, E. C. and remittances by donors or guarantors can be sent direct to the Hon. Treasurer, F. Reichenheim, Esq., 29 Holland Villas Road, Kensington, London, W. The Committee will be glad to receive further promises of financial support.

Donors and Guarantors to the Exhibition will be entitled to tickets of admission.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

The Impressed Duty Stamps of Great Britain and Ireland.

BY L. W. FULCHER.

(*Continued from page 63.*)

STAMPS CREATED IN THE REIGN OF

WILLIAM AND MARY.

28TH June, 1694. By the Act, 5 and 6, W. and M. c. 21, s. 3, entitled "*An Act for granting to their Majesties several duties upon vellum, parchment and paper, for four years, towards carrying on the war against France,*" duties of 1d., 6d., 1s., 2s. 6d., 5s. and 40s. were created on various classes of documents, and Commissioners were appointed in England and Wales, who were required to provide six several stamps or marks to indicate these duties. It would be too tedious to enumerate the various documents here, but the Act provides a duty of 1d. on 4 classes of documents; a duty of 6d. on 11 classes; a duty of 1s. on 3 classes; a duty of 2s. 6d. on 4 classes; a duty of 5s. on 11 classes, and a duty of 40s. on 10 classes.

The designs of the stamps are indicated by the diagrams and were as follows;—

1d. Rose in circular garter, bearing motto "HONI SOIT QUI MAL Y PENSE", with crown above. Value in a straight line below. No die letter, and afterwards die letter in left lower corner above the figure "I".

6d. Similar design to the 1d.

1s. Arms of Great Britain (William and Mary) on a shield, surmounted by a crown. Value in a straight line. No die letter, and afterwards die letter at the base of the crown, on the left.

2s. 6d. Arms of Great Britain (William and Mary) enclosed in a circular garter, bearing motto "HONI SOIT &c." and surmounted by a crown. Value at base in two lines. No die letter, and afterwards die letter above the first "s" of "SHILLINGS".

5s. Arms of Great Britain (William and Mary) on a shield, surmounted by a crown. At the sides the Lion and Unicorn as supporters. At the base a curved riband bearing motto "DIEU ET MON DROIT". Value in a straight line at base. No die letter, and afterwards die letter above the first "s" of "SHILLINGS".

40s. Arms of Great Britain (William and Mary) on a shield in an oval garter, bearing motto "HONI SOIT &c.", surmounted by a crown. Lion and Unicorn as supporters on the sides and a curved riband bearing motto "DIEU ET MON DROIT". Value at base in a straight line. No die letter, and afterwards die letter over the "x" of "XL".

At the commencement of the use of these stamps on parchment, the blue paper was simply gummed on, no tin-foil clip or label at the back being used. Sometimes a deeply impressed device (a small crown?) is found when there is no tin foil or label. The tin foil and labels at the back apparently came into use towards the end of the reign.

EDITORIAL.

COLLECTORS of British Revenue stamps are well aware that "date plugs," showing the date at which the stamp was affixed to the document on which it denotes the stamp duty, have been in use for some considerable time. As a matter of fact "date plugs" were introduced in 1833 but until quite recently we believe, no collectors have any idea as to the interesting circumstances attending their origin. These circumstances will be found related at full length in the recently published "*Autobiography of Sir Henry Bessemer*" but a brief review of them will no doubt be entertaining to our readers. When quite a young man Bessemer had successfully invented a process for making castings suitable for stamping ornamental scroll-work, medallions and *basso relievos* in cardboard and experience gained in this and similar work led him to the further discovery of making from an embossed paper design, dies which were capable of reproducing thousands of facsimile impressions. The latter discovery led him to reflect that in the hands of an unscrupulous person, it might have disastrous applications to the forgery of stamps affixed by the Government to papers and parchments for the various classes of stamp duties. In fact there was a serious loss of revenue—estimated at £100,000 at this period (1833)—due to the removal from old and useless parchments of stamps, which were again stuck on new skins and thus used a second time. Bessemer thereupon turned his attention to the manufacture of a stamp which it would be impossible to transfer from one document to another and at the same time could not be reproduced from a die manufactured from the stamp. Having succeeded in this after some months of labour, in order to convince the authorities that it was absolutely necessary for them to adopt his new invention, for which he expected to be handsomely rewarded, he thought it advisable to make a die from an ordinary impressed stamp so as to show that it could be easily done. Having obtained some ordinary impressed bill stamps, he made the die and produced from it as many impressions as he had real stamps and in order to prove that they were forged he stamped these impressions on a large sheet of paper and then cut out a slip from it with a slightly indented edge but otherwise of the same form and size as the real ones which he had purchased. The Government stamps could not, of course, be impressed in the *middle* of a large sheet of paper, so that these particular stamps with their slightly indented edges, could be s hown not to emanate from the Stamp Office by exhibiting the sheet of paper from the centre of which they had been cut. Armed with these genuine and false stamps, Bessemer called on the Chief of the Stamp Office, Sir Charles Pressly, who was considerably astonished at what was communicated to him and suggested that Bessemer should work out the principle of his invention more fully. This Bessemer proceeded to do and produced a newly designed stamp. This new stamp consisted of a circular design, about 2½ inches in diameter, formed of the Garter, with motto "*Honi Soit,&c*" in capital letters, surmounted by a crown. Within the Garter was a shield with the words "Five Pounds" The space between the shield and the Garter was filled with network in imitation of lace. The whole stamp was *perforated* by means a steel die in the parchment so that, of course, it could not be removed or obliterated nor could any impression be taken from it capable of perforating another skin. The stamp was approved and Bessemer was asked, if, instead of receiving a sum of money from the Treasury, he would be satisfied with the position of Superintendent of Stamps at a salary of £600 or £800 a year. Bessemer was overjoyed at this prospect, as he was engaged to be married and such a post seemed to secure his position. Hurrying off to the young lady he communicated the good news and showed her his new stamp for parchment, explaining how it could not be removed and used again to defraud the revenue. But would not dating the stamp do as well? said the young lady. Somewhat startled by this reply Bessemer found after consideration that movable dates, in a steel die were by no means impossible and was thus led to the invention of the method which has been so long in use. This plan, of course, being simpler, as efficient and taking less time and money to inaugurate than the elaborate perforated dies which Bessemer first proposed was communicated by him to the Stamp Office. Here, as all the old dies, old processes and old workmen could still be employed, it found great favour, so much so that it appeared the new Superintendent of Stamps ot £600 a year would not be required. So Bessemer got nothing for his trouble but after a lapse of 46 years he was knighted for these services rendered to the Government.

The Impressed Duty Stamps of Great Britain and Ireland.

BY L. W. FULCHER.

(*Continued from page 72.*)

BEFORE proceeding to describe the stamps of Queen Anne I wish to acknowledge with many thanks some valuable criticism and notes from Mr. Preston Pearce. The most important contribution from that gentleman is, however, the discovery of a third type of the 1d. of William and Mary. It is similar to type 2 but the central stamens of the rose are represented with one circular ring of dots *less* (*i.e.* three instead of four, not counting the dot in the centre) than on type 2, while the jewels on the base of the crown are different. In type 2 there are five diamond shaped jewels separated by single dots, in the new type there are 3 square and 2 diamond shaped jewels with a colon between each. Mr. Preston Pearce submits a pair of this new type in blue on parchment without label at the back. I have also found a fourth type, similar to that discovered by Mr. Preston Pearce, with three rings of dots in centre, but with *colons* between five diamond-shaped jewels on the base of the crown.

STAMPS CREATED IN THE REIGN OF

ANNE.

The Act 8 Anne, c. 9, entitled "*An Act for laying certain duties upon candles, and certain rates upon monies to be given with clerks and apprentices, &c.*, dated 1709, provides that from and after the 1st May, 1710 there shall be levied a duty of 6d. for every 20s. for every sum of £50 and under and 1s. for every 20s. for every sum amounting to more than £50 paid on Indentures, and stipulates the provision of two new stamps "the one of which new stamps shall denote the said duty of *sixpence in the* "*pound* an d the other of the said new stamps shall denote the duty of *one shilling in* "*the pound.*"

Design. Rose and thistle, emblematic of England and Scotland, on one stem, surmounted by a crown. Value in words, in two lines, at the base. The design is enclosed by a serpentine outline. No die letter and afterwards die letter "A" to left of base of crown.

(1) SIXPENCE PER POUND.
(2) SHILLING PER POUND.

The Act 9 Anne c. 23. entitled "*An Act for licencing and regulating hackney coaches and chairs; and for charging certain new duties upon stampt vellum, parchment and paper and on cards and dice, &c.*", creates the following duties in sect. 23:—"For every "skin, or piece of vellum or parchment, or sheet or piece of paper upon which "shall be ingrossed or written any certificate or debenture for drawing back any "customs or duties or part of any customs or duties, for or in respect of the re-"shipping or exporting of any goods or merchandizes, which at any time or times, "within or during the term of two and thirty years, to be reckoned from the first "day of August in the year of our Lord 1711, shall be exported or shipped to be "exported from Great Britain for any parts beyond the seas, to be paid by the "person for whose benefit or at whose instance such debenture or certificate shall "be obtained the sum of 8d.

"For every piece of vellum or parchment, or sheet or piece of paper, upon which ". . . . . any note or bill of lading, which shall be signed for any goods or mer-"chandizes to be exported at any time or times within or during the term last "mentioned the sum of 4d.

"For every piece of vellum or parchment or sheet or piece of paper on which "shall at any time or times within or during the term last mentioned, be ingrossed "or written any license for retailing of wine, the sum of 4s.

"For every piece of vellum . . . . . on which shall (during the same term) be "ingrossed or written any license for selling of ale, beer, or other exciseable liquors "by retail, the sum of 1s."

§24 of the Act provides that further new stamps be made to denote the duties. I have not seen the three higher values. Mr. Lundy does not mention the 8d. on "Drawbacks on Shipping" or the 4d. on Bills of Lading, but states that the design of the 1s. and 4s. on Licences consists of the Lion on Crown? surmounted by a crown, the design being enclosed in a serpentine lined frame As regards the 4d. I believe the stamp described below to be the one referred to, but I am not certain of the identification. My chief reason for including it here, is that, at present, I am unable to identify it with any other 4d. value created by a later Act.

Design. A crown in centre, with die letter immediately below, surrounded by crossed branches in a circular frame. Value "FOUR PENCE" above.

(3) FOUR PENCE.

(4) EIGHT PENCE.

(5) ONE SHILLING.

(6) FOUR SHILLINGS.

The Act 10 Anne, c. 19, entitled "*An Act for laying several duties upon all sope and paper made in Great Britain or imported into the same and upon chequered and striped linens imported; . . . . . and upon several kinds of stampt vellum, parchment and paper, &c.*, provides in §100 for a duty of 2s. 3d. on any instrument of surrender or resignation of any messuages, houses, lands, &c., and various other documents, within or during a term of 32 years to be reckoned from the 1st August, 1712.

Design. Arms of Anne on a shield, surmounted by a crown. Lion and Unicorn as supporters at the sides and curved riband below bearing motto "Semper Eadem". Value below in two lines. Die figure above "s" of "SHILLINGS."

(7) II SHILLINGS III PENCE.

The Act 10 Anne, c. 26, entitled "*An Act for laying additional duties on hides and skins, vellum and parchment and new duties on starch, coffee, tea, drugs, gilt and silver wire and policies of insurance, &c.*" provides in §67 for a duty of 2s. 4d. on every Policy of Assurance for 32 years from the 1st August, 1712.

Design. Oval; containing Arms of Anne surmounted by a crown Curved riband, with value in words, extending three-quarters of the way round, below. No die letter and afterwards die letter to left of crown, the riband with value shorter.

(8) TWO SHILLINGS FOUR PENCE.

The Act 12 Anne, c. 9 entitled "*An Act for laying additional duties on sope and paper, and upon certain linens, silks, calicoes and stuffs and upon starch and exported coals, and upon stampt vellum, parchment and paper, &c.* provides in §§21-24 for further additional duties on various documents which trebled the duties imposed in the reign of William and Mary. No new stamps were provided for this purpose but the old ones were impressed in strips of three. Besides these additional duties however, a new additional duty of 4s. 6d. was imposed on any transfer of stock in any Company, Society or Corporation whatsoever, within Great Britain which involved the creation of a stamp of this value. These new duties came into force on the 2nd August, 1714, and were imposed for a term of 32 years from that date.

Design. Rose and thistle with letter "T" above in circular garter bearing motto "HONI SOIT QUI MAL Y PENCE", surmounted by a crown. On either side of the base of the crown is the monogram "AR" with crown above. Value below in two lines. The only copy I have seen of this stamp is in Mr. Kay's collection, it bears the die figure "2" above the "N" of "SHILLINGS" in the value.

(9) IV SHILLINGS VI PENCE.

EDITORIAL.

THE event of the past few weeks in philatelic circles has been the issue of the Prospectus of the forthcoming International Exhibition. We have no space to reproduce this in its entirety in our columns but any one interested may obtain a copy from our publisher or from the Hon. Sec. Mr. H. R. Oldfield, 13 Walbrook, E. C. It may be well, however, to mention some of the more important features in which it differs from those of previous Exhibitions in London. In the first place the countries are grouped according to their difficulty from a philatelic point of view and not from that of political relations. The grouping of the various countries has naturally been a very difficult task and can hardly be expected to escape criticism but the arrangement is one which should lead to an interesting competition in the different classes though the judges will possibly find it embarrassing to appropriately allocate the awards. It is further to be commended as it tends to encourage the international element. The creation of a championship class, as we have already foreshadowed, should help competition, as intending competitors in any of the classes will be free from the fear of having to compete against certain well known collections which have previously won gold medals. Many collectors will regret the exclusion of "entires" from the exhibition but it is explained that this is due to want of space. This is very unfortunate as the decision will tend to discourage still more a class of philatelic objects which are really of great interest but as, to be shown properly, they take up a great deal of space and moreover not very many collections have been shown in previous exhibitions we cannot but acquiesce in the decision of their exclusion. Fiscals, Albums, Philatelic Literature and accessories fall under the same ban as entires and for a like reason. As far as we can ascertain the Prospectus has met with very general approval amongst philatelists and we hope that all will endeavour to lend their support to make the Exhibition a success in every way.

Mr. Ewen has recently published a very valuable priced Catalogue of what he calls the "*Unadhesive Postage Stamps of United Kingdom, 1840-1905*" meaning the dies cut from stamped envelopes, &c, which by the Post Office Act, 1904, became available for prepayment of postage as adhesives. Exception may possibly be taken to the title of the work, but there can only be one opinion as to its contents. It includes a surprising amount of research, especially in clearly setting out the distinguishing marks for the different dies; details which simplify the collection of these stamps enormously. It is often so difficult to see the die numbers that without such help most collectors would abandon the task of distinguishing the dies in despair but now the path is made smooth. We advocated the collection of these "cut outs" as an interesting study in our January Number and now that collectors have a reliable guide on which to form their collections we should not be at all surprised to find it become a very popular appendix to the collection of the stamps of Great Britain. We hoped that special provision would have been made in Sect. 3 of Class 1 in the Prospectus of the International Exhibition for an exhibit of these "Unadhesive Postage Stamps" but though this has not been done it appears that such a collection will not be debarred but may be entered in Sect. 1 or Sect. 2.

It appears that the credit of announcing the new Guernsey Revenue stamps which we notified last month is due to Mr. P. Evans, who was actually on the Island on the day of issue. We have, moreover, to thank that gentleman for a copy of the new "Stamp Laws" which we reproduce on another page as a record of the history and use of these stamps. We have now seen the stamps themselves and agree with Mr. Evans that the colour of the 1/- is "deep orange" rather than "ochre" as announced last month. We have a copy of another Guernsey stamp which has not yet been listed by us. It is 1d., surcharged "STATES" in black sans serif caps. We have no information as to the significance of this surcharge and should be glad for enlightenment on the matter.

We have received from the Junior Philatelic Society their Prospectus for the coming Season. It is a full and varied one, all branches of philately being fully provided for, while the social element is not lost sight of. Moreover the Society has especial organisation for helping its members in every conceivable manner, not only providing its members with expert advice as to forgeries and other matters but even arranging for the sale or exchange of their duplicates. The Society is without doubt doing good work in the cause of Philately.

GUERNSEY.

Law relating to Stamp Duties.

SANCTIONED BY AN ORDER OF HIS MAJESTY IN COUNCIL DATED THE 11TH DAY OF JULY, 1905.

REGISTERED ON THE RECORDS OF THIS ISLAND ON THE 25TH DAY OF JULY, 1905.

1.—A Stamp Duty is established on all instruments passed or signed one month after the registration of this law, and specified in the Schedule hereunto annexed, and according to the Tariff therein contained.

.—Instruments liable to stamp duty are divided into two classes; the 1st Class comprises instruments such as transactions relating to realty and other instruments signed by the Court, Bonds, Leases, Agreements, all instruments other than those which are negotiable and Deeds of similar nature where the value of the necessary stamp is two shillings and sixpence and above, and for the stamping of which a certain lapse of time is allowed;

The 2nd Class comprises such instruments as are liable to a stamp duty of less than two shillings and sixpence and commercial deeds, and negotiable instruments which must be stamped at the time of their execution.

3 – The impressed stamp shall bear the date of its impression and shall be compulsory for documents of the 1st Class.

4 —The stamp may be at discretion either impressed or adhesive on negotiable instruments and other instruments of the 2nd Class.

5.—The adhesive stamp may be used on all instruments for which the duty is less than two shillings and sixpence and on all commercial deeds such as receipts or releases, cheques, drafts, bills of exchange and promissory notes, and must be affixed and obliterated at the time of the transaction.

6.—Every instrument of the First Class must be stamped within two months of its issue.

7.—Before a stamp may be impressed on an instrument liable to stamp duty, such instrument must be presented to the authorized official, who shall deliver a certificate stating the value of the required stamp.

Such official must be satisfied that an original instrument has been duly stamped before a duplicate copy may be stamped with a reduced amount according to the tariff.

H.M.'s Greffier or, in his absence, his deputy duly sworn as Deputy Greffier, shall for the present be the above-mentioned official.

H.M.'s Greffier shall be paid for such services such fees as the States may be pleased to fix from time to time; and until the States shall have fixed such fees the Treasurer of the States may enter into an agreement with H.M.'s Greffier with regard to the fees which the said Greffier shall receive for the above-mentioned services.

8.—The adhesive stamp must be affixed at the foot or in the margin of the instrument. Before the instrument is used the stamp must be affixed and at once obliterated by the writing in ink across the stamp, of the signature or the initials of the creditor, or of the person who gives the receipt or release, or of the person in whose favour the instrument is made, or of the representative of such person; as well as of the date of the obliteration. This signature may be replaced by a fac-simile or stamp applied in ink indicating the name or firm of the person or the Society or Company whose duty it is to provide the stamp.

9.—No one may stamp instruments or blank forms of instruments with the official impressed stamp except by virtue of a special commission in writing signed by the Supervisor of the Harbour and Treasurer of the States under the penalty of a fine at the discretion of the Court, which shall not exceed £50 sterling.

10.—If any document liable to stamp duty is produced before the Court, or a Commissioner of the Court, or any public official or functionary, without being duly stamped, or insufficiently stamped, it may not be received or admitted as being legal proof of its contents except in criminal proceedings. It shall however be permissable for the bearer of such document to have the necessary stamp impressed thereon upon payment (1) of the said stamp or of the value which is missing (as the case may be) (2) of a fine to the Treasurer of the States of £5 and three times the value of the said stamp or three times the value which is missing (as the case may be).

11.—Everyone who shall take from a document a stamp which has already been used with the intention of using it again, or of selling it or offering it for sale for the same purpose, or who knowingly shall make use of a stamp which has already been used, may be produced before the Court sitting as a Police Court and shall be liable to a fine which shall not exceed £50 sterling, and, in default of payment, to a term of inprisonment which shall not exceed two months.

12.—Everyone counterfeiting a stamp established by virtue of this Law, or who knowingly shall use a counterfeit stamp, shall be guilty of felony and liable to the penalties of forgery.

13.—It is forbidden to register and to enrol in the public records, any document liable to stamp duty which does not bear the stamp prescribed by this Law, under the penalty of a fine, at the discretion of the Court, which shall not exceed £10 sterling.

14.—Everyone omitting to affix within the time allowed by law a sufficient stamp to any document (other than a receipt) liable to stamp duty, shall be liable to a fine, at the discretion of the Court, which shall not exceed £10 sterling.

To be continued.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Great Britain. Wall Paper Tax—1712.

BY G. A. FOSTER.

RESPECTING the impressed Duty Stamps found on the backs of very old paper hangings. Mr Archibald G. B. Russell writing on the subject of ancient wall papers in the July Number of "*The Burlington Magazine*" says "It is obvious that of all kinds of domestic decoration wall-papers are likely to be the most perishable and it is on account of the scarcity of old examples that this artistically important branch of design has not yet received attention from the historians of art. Though they had been in use among the Chinese from very early times, wall hangings made of paper do not appear to have been adopted by the west until the middle of the sixteenth century, when they began to be imported by Spanish and Dutch merchants; but it was not before the end of the following century that this less costly substitute for the tapestries, silk and satin damasks, figured velvets, stamped leather painted and gilded, which formerly adorned the walls of the fortunate, found its way into our islands; and it was a hundred years again, owing to the excessive tax which hampered the industry, before it became possible for their manufacture to be carried on at home on any considerable scale." The following information is gleaned from "A chapter on the History and Manufacture of Paperhangings" in a work entitled "The Paperhanger and Decorator's Assistant" published thirty years ago by Kent & Co. of Paternoster Row, London, and other sources of recognised authority.

In England no paperhangings were manufactured two hundred years ago and the first patent was issued in 1692 to one Bayly who commenced their manufacture. At this time the manufacture of plain paper was comparatively in its infancy though it was used thus early for decorative purposes. In the year 1712 a duty was imposed on all paper used for surface decorations of one penny per square yard and soon after an additional halfpenny was added. At this time the rolls were not made in the lengths as at present, but a number of sheets each 28 inches by 23 inches were pasted together to make up the roll or length. In 1715, the first year of the reign of King George I, an act was passed and each separate sheet had to be stamped by the Government Officials with a stamp impressed by hand (similar to the Newspaper Tax and Almanac Duty stamps) for which a charge of one penny per sheet was made.

As will be seen from the illustration there is no face value, but neither was there to the House Tax of 1784, also the hand impressed Postage Stamps on letters of the latter end of the eighteenth century expressed no value, but the fact of the stamps being put on signified in each case that the Duty on Postage respectively had been paid and acted as an acknowledgement or receipt for the payment of the proper amount as effectually as the later adhesives and printed labels &c., of which they were the earlier equivalents ; during the eighteenth century there appears to have been a far greater number of Government stamps impressed by hand than otherwise. The Newspaper Tax Stamps and the postage Paid Stamps were in red, but these Wall Paper Duty Stamps are a grey black, * probably somewhat faded with age and they were in use up to early in the nineteenth century. In 1792 it was enacted that all Paper Stainers should procure a license, costing £4, annually. The extreme rarity of these Wall Paper Duty Stamps lies in the fact that except in the well preserved and ancient houses of the wealthy no wall papers have been allowed to remain on for such a length of time as 100 to 150 years and doubtless many have been unknowingly destroyed by the housebreaker when demolishing old buildings, the workmen little dreaming of what they were doing. The letters J.J. under the word "PAPER" are the initials of the particular Government official using the stamp with which the sheet of paper was impressed and do not appear to have formed part of the stamp itself as they occur in various positions on different stamps and these are not the only initials to be found.

A similar device was adopted between 1790 and 1797 in the Post Office with Frank stamps impressed on the letters of Members of Parliament, the initial letters of the Government Inspectors' names being inserted in the movable centres of the stamps.

* Most probably they will be found to be red, but discoloured by damp and age.—ED.

Between 1790 and 1840 several patents were taken out for the manufacture of wall papers but the Duty was detrimental to the trade as in addition to the tax of one penny per sheet already explained a further duty of threepence per lb, had to be paid on the plain paper before entering the paper staining manufactory. I learn from Mr. T. Morton that in 1770 the duty of one penny per sheet paid by paper stainers amounted to £13,242 8s. 11d. so that in that year alone there must have been a vast number of these Duty Stamps impressed on the backs of wall paper sheets, but I wonder how many of these or their predecessors are in existence now, apparently only an infinitesimal number. In 1806 the sum of £60,000 was spent in perfecting a paper making machine by Messrs Fourdrinier and the endless sheets of paper were for the first time machine made and rendered the article much cheaper than that made by hand. The paper stainers however derived but little benefit from the improvement in paper making as the excise would not allow them to adopt it and they still pasted together the sheets stamped by Government with the stamp shown in the illustration; shortly afterwards they were allowed to use the sheet of paper twelve yards long and in 1836 the duty on paperhangings was repealed altogether. If this article has furnished any interest in these ancient stamps, about which so little appears to be known, the writer will be satisfied it has been useful.

The Fiscal Stamps of the Indian Native States.

BERAR (or THE BERARS.)

THE familiar name of a province in Central India, officially styled the Haidarabad Assigned Districts. It is administered on the lines of a British province by a commissioner, who is subordinate to the Resident at Haidarabad. Its area covers 17,718 square miles. In 1901 the population was 2,752,418.

In 1897-98 the total provincial revenue was 9,923, 458 rupees of which 1,063,058 rupees was from excise and 827,641 rupees from stamps.

Very little is known about the revenue stamps of this state. There are many issues and printings of the overprinted Indian stamps from 1870. Many issues are only known in single copies and still more are not represented at all in collections and we are considerably indebted to Mr. C. S. F. Crofton in the "*Philatelic Journal of India*" for his most useful pioneer work and endeavours to form the issues of this state into something like order.

The Fiscal Society

THE Report of the Fiscal Philatelic Society which has just been issued shows that the Society is doing good work in the cause of fiscal philately. The great event of the last season was the Fiscal Exhibition, an ambitious undertaking for so small a Society. Necessarily the chief efforts of the Society during last season were devoted towards making that Exhibition the success it it proved, but a fair amount of other work was achieved. We may congratulate the Society on having cleared up the Fiscal Exhibition expenses without the necessity of calling upon the guarantors but at the same time it must not be forgotten that the society owes a debt of gratitude to those generous donors who responded to the special appeal made to cover the actual deficit. It is entirely due to the aid of these gentlemen that this desireable end has been attained. The work of the coming session will not be hampered by the loss of time absorbed in consideration of ways and means in organizing a great Exhibition and all the energies of the Society may be devoted to the important work in hand. We allude to the compilation of a Catalogue of British Revenue Stamps which the Society has resolved to take up in order to meet a pressing need. This should be a very popular undertaking especially as all existing lists of the fiscals of Great Britain are incomplete or inaccurate. But not only are British fiscals numerous, they are also "difficult" and the work of cataloguing them will require all the help that the members of the Society can give and we hope that those members who cannot attend the meetings will send any information, however insignificant it may appear to them, to the Secretary for consideration at the meetings. We are pleased to be able to announce that the Society will have the advantage of all the information we have been able to acquire from the Official archives at Somerset House, so that if the expected aid of collectors is forthcoming the Fiscal Society's Catalogue should be the authoritative Catalogue to which future research should find but little to alter though perhaps a good deal to add. We are glad to see that the list will be printed month by mouth so that the sheets can be bound when the Catalogue is finished. Those who are not members of the Society will be able to purchase the Catalogue at a price to be hereafter fixed. It is no credit to British Philatelists that we should know so little about the Revenue stamps of our own country. The Society's Catalogue will, we have no doubt, largely remove this reproach and possibly will lead a large number of philatelists to devote some time to the collection and study of this class of British stamps.

The Society further proposes to relieve the monotony of hard work by a few displays during the session, a procedure to which, we opine, no one will object, as it tends to the increase and diffusion of fiscal knowledge among the members thereof.

Provisional Postage Stamps?

The *Connoisseur* for August last contained an interesting article by Mr. Melville from which we extract the following sensational paragraph. "Three British "stamps which have never come "upon the market so far as the "present writer is aware are the "three Public Records Stamps "hand-stamped "Postage Stamps". *These "were used during a temporary shortage in Scotland "and were procured at Kirkwall in the Orkneys".* The italics are ours. We chronicled these stamps as long ago as July 1901 (see Vol. II. p. 55) but could offer no explanation as to their *raison d'être*. To suppose that they were provisionally used as postage stamps is, in our opinion, to say the least highly improbable. In the first place a fiscal intended to be employed as a postage stamp would hardly be surcharged "Postage Stamps" in the plural. Secondly, if provisionals, they could not have been overprinted locally as no "Public Records" stamps are likely to have been available in the Orkneys, (i.e. in the official stock of stamps) in fact we should not expect "Public Records" stamps to be available anywhere in Scotland, except perhaps at Edinburgh, and even that is doubtful. Several other objections will readily occur to one. We believe, then, that some other explanation must be found for the existence of these stamps. The overprint "POSTAGE—24 MAR. 68—STAMPS in an oval we believe to be a handstamp used on the wrappers of parcels of postage stamps when distributed from a head office to local offices as an indication of the contents of the parcel. How this handstamp was applied to certain of the "Public Records" stamps is a mystery and we fear likely to remain so. Possibly it was a joke on the part of some postal employé. Until very strong evidence is forthcoming as to the employment of these stamps for any specific purpose we cannot see that they can be regarded other than as curiosities.

GUERNSEY.

Law relating to Stamp Duties.

SANCTIONED BY AN ORDER OF HIS MAJESTY IN COUNCIL DATED THE 11TH DAY OF JULY, 1905.

REGISTERED ON THE RECORDS OF THE ISLAND ON THE 25TH DAY OF JULY, 1905.

(*Continued from page 83.*)

15.—Everyone shall be liable to a fine, at the discretion of the Court, which shall not exceed £10 sterling ;—

(1) Who omits or neglects knowingly and fraudulently to state the facts and circumstances relating to the value of the stamp required for a document ;

(2) Who refuses or neglects to obliterate an adhesive stamp in conformity with the law ;

(3) Who utters, transfers, negotiates, presents for payment or pays any document liable to stamp duty and unstamped, who refuses to give a duly stamped receipt or release, or who divides the amount of a debt to evade the revenue.

16.—No document liable to stamp duty, bearing a later date than the 29th October, 1903, shall be received by H.M's Greffier for registration, nor shall it be admitted as a proof of its contents, if it is not stamped.

17.—Powers of Attorney signed out of this Island are liable to stamp duty, but no term is fixed for the stamping thereof. They must, however, be stamped before being produced before the Court.

18.—All documents passed or signed in favour of His Majesty's Government and of the States are exempted from stamp duties.

19.—Societies, Companies and individuals desiring to exempt themselves from the duty of affixing and obliterating adhesive stamps on cheques, acquittances, releases or other similar documents are bound to deposit these forms and to pay the duties at the Office of the States where the stamps will be impressed.

20.—In the event of a stamped document not being used, the person entitled thereto may obtain reimbursement from the Treasurer of the States of the value of the stamps thereon affixed or impressed, less a deduction of five per centum, upon delivering up the document in question, provided that the demand for reimbursement be made within two years from the date of the said document.

Mecklenburg. Centralverwaltung für Sekundärbahnen, Herrmann Bachstein, Berlin. Type with winged wheel in arched label and label at base. Perf. 14. Values and colours as above for the Alsace and Lorraine Railways.

Prussia. Forster Stadteisenbahn. Figure of value in octagon in centre "FORSTER" above and "STADTEISENBAHN" below on curved labels.

5pf., green
10pf., red
20pf., dark blue
25pf., yellow
30pf., black
50pf., brown

Great Britain. *Great Western Railway.* Our publisher sends us some values of the current set for "Prepaid Parcels" which, though foreshadowed, we believe have not yet been definitely chronicled. The stamps are 25 mm., square, with figure of value in circular label, lettered "PREPAID PARCEL," broken below by a straight blank label for control no. "GREAT WESTERN RAILWAY" in small caps at top of stamp. Rouletted on colour.

3d., emerald green
6d., black on blue
9d., black on yellow
1s., black on carmine

Mr. P. Evans in sending us a copy of the 6d., value described above encloses a copy of a new issue which apparently appeared in Sept. or Oct. this year. This stamp is of the same design as those described above, but larger, measuring 35½ x 33 mm. It is perf. 12.

6d., black on blue

Guernsey Electric Railway. Mr. P. Evans sends us a "Parcel Ticket" for this railway. Figure of value in circle in centre, with name of Railway on a scroll surrounding it. "PARCEL" on label above and "TICKET" below central circle. Control no. on blank label at base. Perf. 11.

1d., black on green

TELEGRAPH CHRONICLE.

United States. *Western Union Telegraph Co.* Our publisher has the following varieties. The imperf. stamps may be proofs.

1875 "Frank" green, imperf.
1876 ,, violet (? error of colour), imperf.
1878 "Frank" grey-brown, imperf.
1879 ,, blue, imperf.
1880 ,, lilac-rose, imperf.
1905 ,, red, perf. 14, (signature R. C. Clowry).
1905 "Frank" red, imperf.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. When-ever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Argentine Republic. *Le Bulletin Fiscaliste* chronicles the following new issues.

Documents, 1905.

5c., red-brown	8p., red-brown
10c., rose	9p., bistre
20c., ultramarine	10p., blue
25c., brown	15p., blue-green
30c., brown	20p., orange-brown
40c., green	25p., blue-green

60c., carmine	40p., light-brown
70c., claret	50p., deep rose
75c., blue	60p., dark green
80c., slate	70p., yellow-green
90c., orange	80p., greenish-blue
1p., red-brown	90p., light brown
2p., green	100p., lilac
3p., olive	200p., dark grey
4p., olive-bistre	300p., lilac
5p., sepia	400p., ultramarine
6p., red-brown	500p., deep lilac
7p., vermilion	

Bills, 1905.

25c., bistre	75c., violet

The remaining values will be found in our August No.

Patentes, 1905. The series in black as for 1904 with the addition of two higher values viz. 500 pesos and 1000 pesos.

Brazil. *Thesouro Federal.* Our publisher has received the following values in new colours. They are on paper watermarked with some inscription on the sheet, only letters appearing on each stamp. Perf. 11½.

300r., vermilion
1000r., rosy-red
5000r., mauve

Cordoba. (*Argentine Repub*). Our publisher has received a large number of the issues of recent years, most of which have been chronicled. Among them we find the following values of the series for *Impuestos Generales* for 1904, the colours of some of which do not agree with those given in our October number of last year. Collectors will, therefore, please substitute the list given here for the former one, as far as regards the values now mentioned,

1c., vermilion	1p., brown-violet
3c., dark green	2p., grey-lilac
5c., dark blue	3p., orange-brown
6c., olive-green	4p., red-lilac
30c., slate	5p., grey
50c., violet	10p., yellow-green

Great Britain. *Cocoa.* With reference to the Cocoa stamp chronicled by us in January, 1904, Mr. J. G. Cairns writes "On our Mechan-"ical Institute Reading Room table is a book "by Brandon Heads called "The Food of the "Gods—All about Cocoa." From page 88 of "the book I copy the following:—The oppor-"tunities of increasing the Revenue from "the growing favourite were not lost "sight of, and till 1820 its spread was "checked by a duty of 1/6 a pound collected by "the sale of stamped wrappers for each pound, "half-pound or quarter-pound "neither more "or less" just as in the case of Patent medicines "at present."

General Duty. Mr. A. B. Kay has found the 10/-, greenish-blue, Die P, *perf. 14*, presumably an error of perf. The stamp was used in London, so that it cannot be regarded as one of the Irish series.

Ireland-Petty Sessions. Mr. Kay has also found the 6d., rose, perf. 14 *without watermark*, the missing companion to the 6d., green in similar condition which was chronicled in Oct. 1903.

Winchester. Mr. Schwabacher has made the important discovery of a new type of the 1s. stamp. It differs from the known type chiefly by the absence of the small ornaments in the corners of the label bearing the value "ONE SHILLING". The absence of these ornaments will enable any one to separate the types at a glance. Moreover the 1s., Type 1 (with orna-ments) is perf. 11, and the 1s. Type 2 (without ornaments) is perf. 12; the former stamp is not so pale in colour as the latter. Since Mr. Schwabacher has called attention to this fact, Mr. Morley finds that he has the two types of the 6d, value in his collection, the 6d., Type 1 being perf. 10, the 6d., type 2, perf. 12; all the remaining values which Mr. Morley possesses are of Type 1.

Parahyba. (*Brazil*). *Barreiras.* The colours of the 50,000 reis chronicled last May are "dull purple and carmine."

Peru. *Sello, 1883-84.* Our publisher has found the 10c., lilac, 1876-77, surcharged in blue in three lines "BIENIO—S 0C.—1883 Y 1884." As a figure is missing in the surcharge we do not know whether this is a 10c., 20c., or other value provisional.

Philippines. (*Giro. U.S. Occupation Issues*). Our publisher informs us that he has found used copies of the 5c.p. and 20c. p. of the 1899 issue, Type 315 of our Supplement Catalogue, with no serif to figure "1" of "1899." These are referred to on page 45 of Vol. V of our Journal. Moreover he has the 30c.p. of 1899, Type 314, and the 80c.p. of 1900 of the same type.

Rio Grande do Sul. *Brazil.* Our publisher submits a new issue from this state. Thin rect., 12½ x 37 mm., with Head of Liberty above & value below. Perf. 11½.

Imposto 5% addicional. 20 reis., canary yellow
100 ,, , orange

Stanley Gibbon's Catalogue, 17th Edition. A few figures. II.

By Burton F. J. Cooper.

In continuation of the list given in *M.P.J.* for June pp. 45-7, the following figures have been compiled from Part II of Stanley Gibbon's Catalogue (17th edition.)

It may be remarked that whilst the preponderance of stamps which have increased over those which have been reduced in price amounts to 11·07 % (against 11·02% in colonials) there is a considerable falling off in used where the increment is only 5·87% as against 12·04% in Colonials. There is no doubt that many used stamps other than Colonial are exceedingly plentiful and not greatly sought after by the British philatelist who usually much prizes rarity in a stamp. This would also account for the considerably increased demand for Foreign stamps in unused condition which have been much underestimated in the past, particularly on the continent, and only recently have collectors generally taken to heart the frequent references of Messrs. Castle, Ehrenbach and others to the undoubted scarcity of many old Foreign issues in fine unused state. This is as it should be in a year of "entente cordiale" such as 1905 has been. It is rather curious to note, that the stamps of Russia and her provinces would seem to be in much greater demand than those of Japan. This is probably due to the great complexity of the earlier issues and the numerous forgeries which keep the general collector from tackling the latter interesting country. It will be seen that the other chief exceptions to the general increase include Afghanistan, Argentine Republic, Bolivia, Denmark, and especially Roumania all of which show more or less decline both unused and used. Thurn and Taxis shows a marked decrease unused and a smaller increase used, and some of the later issues genuinely used want a good deal of discovering in fine condition.

The countries showing largest proportion of increases in price are as under:—

Class I.	Class II.	Class III.
Colombia & States	Colonies of Holland	E. Roumelia
Portugal	Chili	S. Bulgaria
Russia & Provinces	China	Sardinia
(including Finland)	Wurtemburg	Neapolitan Provinces

Fiscal Postals.

A suggestion was laid before the Fiscal Philatelic Society at one of its recent meetings that either the Society as a body or some of its members in combination should endeavour to represent the fiscal branch of philately at the coming Exhibition—where fiscals as such are barred by reason of limitations of space—by exhibiting a collection of "Fiscal postals", i e. fiscal stamps which have been duly authorized for postal use. The idea was an excellent one but the discussion on the subject clearly brought out that firstly, it is at present very uncertain what fiscals have really been authorized and secondly, in consequence of this, that the existing postage Catalogues which include such presumably authorised fiscals are both incomplete and erroneous. What fiscals in the countries which have used such for postage have been *authorized* for postal use? Fiscals may be postmarked as a favour or may even have got through the post by inadvertence but such have no claim to be represented in a postage collection. Here then is an opportunity for a hard-working philatelist to perform a piece of useful work. Is there a fiscal philatelist who will devote the necessary time and energy to searching Government gazettes and such like with a view of compiling an accurate catalogue of fiscal postals. Although the result would be mainly to the advantage of the postage collector yet it seems that a fiscal philatelist would be more likely, owing to his practical acquaintance with the fiscals themselves, to produce a satisfactory result, but perhaps one who collects both postals and fiscals might be found to tackle this difficult question. It would mean a lot of hard and somewhat tedious work but an earnest philatelist would not grudge this. A successful result would bring him the satisfaction resulting from a piece of useful work well done.

Postage Paid Handstamps.

The *Stamp Collector* for October last contains an article on a subject which has been very greatly neglected but which we are of opinion certainly merits some attention from collectors. The article in question is "*The British "Paid" Stamps, By W. Kühn*" and contains a first attempt to outline what is known about the handstamps on postage matter which has been paid for in bulk by cash. Handstamps denoting postage paid, usually without value expressed, have been in use for years but it has become the practice in recent years to insert the *value* in these handstamps and therefore we quite agree with the author that they differ in no way from postage stamps except that they are non-adhesive. We think it would be ungracious to criticize a first attempt at a little known subject and we only venture the following remarks as a contribution to a further study of these stamps. Mr. Kühn states that "the present system seems to have been inaugurated in 1880. The oldest stamp in my collection is dated 20th March, 1880." The date must be put back at least a couple of years as we have a 1½d, London, Die R. dated 30th March 1878 and a 1d, Edinburgh, Die X, dated 17th April 1878. Further Mr. Kühn does not mention any value above 3d. We have the following:—3½d, Bedford Street, W. C., Dies H. & J; 4d., Charing Cross, W.C., Die B; 4½d. Bedford Street, W.C., Dies H & K. and 4½d, London, Die JM. Mr. Kühn has made an excellent start in the study of these handstamps and we hope he will continue his researches and receive sufficient encouragement to produce that first requisite to an extended study, a Catalogue of what varieties are known.

The Philbrick Collection.

Judge Philbrick has sold his collection of British Revenue stamps to a firm of dealers in Paris. This collection made many years ago must have contained many gems which are unknown to present day collectors like the Northampton Municipals which we chronicle this month. We regret that the Fiscal Philatelic Society has not had the opportunity of inspecting it for the benefit of the Catalogue which they are now publishing but perhaps some of the good things, like the Northampton Municipals above, will find their way back to this country so that the Catalogue in question will not suffer.

INTERNATIONAL PHILATELIC EXHIBITION, 1906.

FOURTH OFFICIAL NOTICE.

At the invitation of the Executive Committee the following gentlemen have consented to act as Judges at the following Exhibition. Messrs. Bacon, Beckton, Castle, Major Evans, Lieutenant Napier R.N., Dr. Diena, Dr. Kloss, Baron A. de Renterskiold.

The Committee expect shortly to be able to announce the names of two other judges representing France and the United States of America.

Various questions having been raised as to the exact meaning of certain rules and regulations contained in the prospectus, the Committee have directed their attention to the matter and beg to offer the following observations for the guidance of intending exhibitors.

1.—Those who have intimated a desire to enter the same exhibit in more than one Class are referred to the note at the foot of the last page of the Prospectus. It is there clearly stated that no exhibit may be entered for more than one Class or Section; and it may be added that this rule applies to all Classes, the Championship included.

2.—The cards which the Committee are prepared to suply to applicants will be charged for at the rate of 1/-per dozen, postage extra.

3.—The General Collections referred to in Class 7 must be contained in albums that provide printed descriptions for each stamp, the method whereby the pages are bound together being immaterial. Supplements issued in connection with printed albums if shown with the albums, must appear in Class 7, even although printed spaces for each stamp may not be provided in such supplements.

4.—General collections referred to in Class 8 must be contained in blank albums that have not been published with descriptions for stamps: it is immaterial, however, whether the albums have a heading on each page with the name of a county or not.

5.—The Committee have decided that the word "Country" is to include the word "Colony" Exhibits, therefore, in Classes 7 and 8 must consist of not less than 25 countries and (or) colonies.

6.—A question has arisen as to the meaning of the words "without limit as to number" contained in Section 1 of Classes 7 and 8. The Committee rule these words to mean "without limitation provided the number exceed 10,000"; therefore exhibits exceeding 10,000 must be entered in Section 1 and and exhibits of less than 5,000 stamps must be included in Section 3.

7.—To prevent misapprehension, attention is specially called to the note in the Prospectus which provides, that Special Collections in classes 1 to 6 must be shown in separate exhibits. Thus, an Exhibitor showing more than one of the countries named in any particular Section, must enter as many exhibits as as he shows countries, except in the case of countries specifically named as being grouped together. For example; in Class 2, Section 2, where Italy and States and Germany and States, and in Class 4, Section 3, where Nova Scotia and New Brunswick are bracketed together, aud in Class 5, Section 1; where Oil Rivers, Niger Coast, Northern and Southern Nigeria are placed together, &c., &c. Exhibits for the Championship Class must conform to grouping as set out in the various Sections of Classes 1 to 6. Collectors are requested to enter specialized countries in classes 1 to 6, and not to group them together for entry in Class 8.

The Executive Committee have much pleasure in notifying that the Philatelic Society of Sweden (Sveriges Filatelist-Förening) are giving their cordial support to the Exhibition and that Consul Sixten Keyser and Mr. Hilmer Djurling, the President and Secretary of that Society, have joined the General Committee.

The Excutive Committee propose to invite other philatelists to join the General Committee and the names of those who accept their invitation will be published at a later date.

By Order of the Committee

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Arecibo. (*Municip. Porto Rico.*) *Matriculas de Ganado.* M. A. Ballière submits some type set stamps for this district, with name above in italic caps, date below, "Arbitrio" on left,

"Municipal" on right and inscription in five lines in centre, "Matriculas—de—Ganado—Vale 5 cts.—No" in centre. From *Le Bulletin Fiscaliste* we gather several additional issues of same design. The complete list appears to be as follows:—

1889-90. 5c., black on rose
1890-91. 5c., ,, ,,
1891-92. 5c., ,, ,,
1892-93. 5c., ,, ,,
1893-94. 5c., ,, ,,
1894-95. 5c., ,, ,,
1895-96. 5c., ,, ,,
1896-97. 5c., ,, ,,
1897-98. 5c., ,, ,,

Baroda. *Court Fees.* Mr. C. S. Crofton sends us a stamp of the well known design, illustrated in our number for Dec., 1904, but with the inscription at the top different, consisting of only 3 characters. This word is said to be "SHIKKAI," the same word as the Hyderabad "SICCA" meaning a special currency. It seems that the three colours in which this type of stamp is known denote changes in the currency value of the rupee.

Date? 8as., brown.

British East Africa. *Inland Revenue.* Mr. Morley has found a copy of the MS. Provisional postage stamp of 1891, 1a., on 4as., brown, with initials "A.B." surcharged "INLAND REVENUE" in black.

Buda-Pest. *Le Bulletin Fiscaliste* illustrates two values of a handsome set of Municipals for this city. They are similar in style to the current Austrian fiscals.

1kr., ultramarine and black
1.50kr., carmine ,,
2kr., violet ,,
4kr., brown and violet
10kr., brown and black
18kr., red-brown and black
20kr., greenish-grey and black
24kr., chocolate and black
40kr., emerald green and black

Cape of Good Hope. Mr. Morley has shown us some interesting *proofs* of the first issue which deserve to be put on record. The 1d. is without the frame line, the 6d. is the type with value in small caps.

1d., carmine
6d., carmine
£5, yellow

Cuba and Porto Rico. *Derecho Judicial, 1878.* Mr. Morley has the 3p.12c., of this issue in *blue* instead of the usual *grey* shade. The stamp will be No. 176a of the Spanish Catalogue.

Cuba. *Giro.* Mr. Preston Pearce sends us a provisional of the 1883 issue, with surcharge in black (Type 273a. of the Spanish Catalogue, with letters "C.P." close) having a small "5" in the value "50." The stamp will be No. 848a in the Spanish Catalogue.

Gibraltar. *Stamp Duty.* Mr. Schwabacher has shown us a copy of the rare 20 pesetas, lilac and carmine of the first issue, with date of cancellation 18/12/85. The date of the issue is given in the Catalogues as 1891 so that it seems this must be set back some years.

Great Britain. *House of Lords.* Mr. Schwabacher submits two high values on *Queen's head* unappropriated dies. Wmk. "orbs." Perf. 14.

£3, lilac and red
£10, ,, ,,

Northampton. Mr. Schwabacher has shown us two remarkable sets, consisting of the 1d., 6d., 1s., 2/6, 5s., 10s., and £1 values, one in *green and red* and the other in *red-brown and violet*, of vertical pairs of each value, the lower stamp in each case being surcharged **"GAOL"** in large block caps. We understand these stamps come from the Philbrick collection.

Orange Free State. Mr. A. B. Kay has shown us another unchronicled variety of the early embossed issues of this State, viz, a 6d., yellow in the same type as the 3d., magenta discovered a few months back and shown in Mr. Morley's collection at the Fiscal Exhibition.

Parahyba. (*Brazil*). *Barreiras.* Our publisher has received several of the values chronicled in May last *perf 11½*.

100 reis, dark green and carmine
200 ,, yellow-green ,,
1000 ,, purple-black ,,
2000 ,, violet ,,
50000 ,, dull purple ,,

Pernambuco. (*Brazil*). Our publisher submits another value of the 1897 issue, Type 334 of our Supplement Catalogue

500 reis, orange.

Sergipe (*Brazil*). Our publisher submits the 100 reis, orange of 1892 surcharged in black **"5-000 REIS,"** vertically, reading upwards.

5,000 r. on 100 r., orange

Further, two values of a new series for 1905, with bee-hive in circular band in upper left corner and inscriptions on a scroll below. Figures of value surcharged in carmine. Perf. 11½.

100 reis, pink and carmine
1$000, reis, ochre ,,

Villa Morteros. (*Municip. Cordoba, Argent. Repub.*) *Rentas Municipales.* Our publisher submits some values of an issue for this Municipality. The stamps are large rect. containing an oval band, with inscriptions, with mortars and flags on a tower within. Value on plain label at base. Perf. 11½.

0,10, pesos, green
0,25, ,, brown
0,50, ,, ,,
1 peso, ,,

and also a provisional, the 0,10 pesos, surcharged with large figures "50" in violet over the "0,10."

0,50 on 0,10 pesos, green

United States. *Medicine.* The announcement of the discovery of the 1c. "B.A. FAHNESTOCK" on *watermarked paper* by *Meheel's Weekly* which we copied in this chronicle for September turns out to be incorrect. The stamp in question is the 1c. of J. E. Schwartz Co., the successors of Fahnestock, which is already known.

Published by WALTER MORLEY, 15, Brownhill Gardens, Catford, S.E.; and printed by JOHN GEORGE PAYN, 12, Market Hill, Sudbury, Suffolk. December 1905.

INDEX.

NOTE. Page numerals in heavy type denote postal matter, telegraph items are indicated by italic figures and ordinary type is used for reference to fiscal and to other matters that are sufficiently indicated by their titles.

An asterisk signifies that the article or description is illustrated.

The railway companies referred to in this volume are not listed under their respective initial letters but will be found under the heading "Railways."

Railway Letter Stamps.

FOR SALE,

The property of a private collector.

One of the FINEST collections of these stamps in the country.

Out of the 613 known varieties mentioned in Ewen's latest list, it contains 423 unused and 87 used, catalogued over £764; also 445 other stamps, including proofs, essays, errors, minor varieties, and a fine specialized collection of the North of Ireland lines priced in all at £302.

Among the great rarities are originals of the Finn Valley, City of Glasgow Union, Kanturk, and imperforate L. C. & D. Railway, as well as most of the early issues of the Scottish and Irish lines, and complete set of the Midland, L. & S.W., L.B. & S.C., and other difficult English lines, mostly in mint condition.

The collection, which is catalogued at £1067, is offered for

£200 Nett,

and can be seen by appointment with the owner, or sent on approval to collectors known to Mr. Morley.

EDITORIAL.

China Revenue.

IT is a curious fact that the 3c., red, Revenue stamp of China which has been surcharged in various manners for use as a postage stamp is not known to fiscal collectors as a Revenue stamp pure and simple. Our publisher has been endeavouring without success for some years to find out whether the stamp has ever been employed fiscally; nor could a copy of the stamp unsurcharged for postage be found. At last, however, a few copies have turned up unused, but as there is still a doubt whether the stamp has ever really been issued we refrain at present from chronicling it. If this paragraph should meet the eye of a philatelist in a position to throw light on this question we should much like to hear from him the circumstances attending the creation of this Revenue stamp and the purposes for which it is employed if indeed it has been used otherwise than as surcharged for postal use.

A New Fiscal Society.

Fiscal philately appears to be making good progress in America. Our energetic friends across the pond have started a new Fiscal Society. The headquarters of this Society will be in Providence, Rhode Island. We quote from *Mekeel's Weekly* "A number of ardent Collectors" "met recently in Providence and" "formed a new Society called" "the Metropolitan Fiscal Association" "which will treat only of revenue coll-" "ecting. Although formed by R. I. coll-" "ectors it will not be a local society but is open" "to any reliable collector. Its Officials are" "as follows: G. W. Pepper, Pres., Elmwood," "R.I.; John A Soloman, Vice Pres., East" "Greenwich, R.I; Wm. C Polk. Sec'y-Treas.," "Kingston, R.I.; E. B. Pennoe Sales, Supt.," "River Point, R.I.; C. Abbot Davis, Ex-" "change Mgr., 1131, Elmwood Ave., Prov.," "R.I." We wish the new Society every success.

The Postage Stamps of the U.S.

The past few weeks have been somewhat prolific of philatelic literature and we have before us several little works which call for notice. The first of these is an addition to the attractive little handbooks published by the Junior Philatelic Society, London. It deals with "*The Postage Stamps of the United States*" and is from the pen of the energetic President of the Society, Mr. Fred J. Melville. Mr. Melville is already favourably known as a philatelic writer by his previously published handbooks and the present work will in no way detract from his well deserved reputation. The work is an excellent guide to U.S. stamps and deals in a lucid manner with many points in these stamps which puzzle collectors. It is beautifully illustrated with 12 collotype plates containing 122 photographic reproductions of stamp designs and is a marvel of cheapness. It is a work that an advanced philatelist will find useful to have on his shelves. A feature which we specially commend is contained in the appendix A in the shape of short biographical notices not only of the celebrities whose portraits are depicted on the stamps but also of the artists whose pictures have been reprodnced wholly or in part as stamp designs.

The Stamp Collectors' Annual.

From Messrs. C. Nissen & Co. we have received "*The Stamp Collectors' Annual*" which has now reached its third year of publication and bids fair to appear regularly in future. Possibly the feature in this year's issue which will appeal to the widest circle of collectors is "A Catalogue and guide to values of the King's Head Stamps of the British Colonies (*Illustrated*). Compiled by Charles Nissen." There is also a very useful article on "The stamps of Prince Edward Island (*Illustrated*). By A. P. Langworthy" while other articles deal with the stamps of St. Helena and Tonga and the British Telegraph Companies. The "Index to Philatelic Literature" which was such a valuable feature of last year's issue, was, we are told, not ready in time for the present Annual but we are promised a double instalment next year. There is nothing in the present issue which specially appeals to fiscalists.

Private Fiscals of Spain.

Purely fiscal literature has been enriched by a monograph of 120 pages on the "*Emisiones fiscales de los Colegios de Abogados Procuradores y Notarios de Barcelona.*" The author is Senor D. Francisco Carreras y Candi. Those who are conversant with Spanish will find in this work a full account of the various Notarial, &c. stamps of Barcelona. The work is divided into three sections: (1) Los Sellos de bastanteo del Colegio de Abogados de Barcelona (2) Emisiones fiscales del Colegio de Procuradores de Barcelona (3) Emisiones fiscales del Colegio de Notarios de Barcelona.

INTERNATIONAL PHILATELIC EXHIBITION, 1906.

FIFTH OFFICIAL NOTICE.

The Executive Committee have much pleasure in intimating that Mr P. Mahé, and Mr. J N. Luff, have consented to act as Judges at the Exhibition as representing respectively the collectors in France and the United States of America, so that the full list of the Judges will now be :—

Messrs Bacon, Beckton, Castle, Dr. Diena, Major Evans, Dr. Kloss Mr. J. N. Luff, Mr. P. Mahé, Lieut. Napier, R. N., and Baron, A. de Reuterskiold.

The preliminary arrangements for the Dealer's Stalls at the Exhibition have now been completed. They will be fifteen in number; ten of them situate in the Annexe leading out of the Main Hall, and the remaining five on the first floor, where numerous interesting exhibits will be placed, and where the Lecture and Committee rooms are situate.

The Committee have decided to offer these Stalls by private auction at upset prices varying from £15 to £65 each. Bids will only be received from firms of Stamp Dealers and Publishers and others concerned with Philately, to whom a copy of the Catalogue has been supplied by the Committee. Intending bidders who may be unable to be present at the auction by themselves or by their representatives, may communicate their instructions to either of the Hon. Secretaries and the same will be treated as in strict confidence. Such instructions can of course be to bid up to a certain amount for any particular Stall, and if that is not obtained for some one or more alternatively of those remaining.

The Committee will in each case arrange for the name of the occupier of the Stall to be prominently displayed, and will also provide a counter with glass case and lifting flap, shelves at the rear of the Stall, and two chairs.

The Auction will take place towards the end of February and descriptice Catalogues containing plans showing the position and dimensions of each Stall will be ready before Christmas and can be obtained on application to either of the Hon. Secretaries, 13, Walbrook, E.C.

H. R. Oldfield, *Hon. Secretary.*
L. L. R. Hausburg, *Asst. Hon. Secretary.*

THE FISCAL PHILATELIC SOCIETY.

MEETING held on November 1st, 1905. Present—Mr. Schwabacher *(Chair)*. Messrs. Fulcher, Hinton, Marsh, Morley, Thompson and Kay.

M. Spencer Thirkell, of Paris, was duly elected a member.

The Catalogue of the Adhesive Fiscals of Gt. Britain and Ireland was commenced and compiled as far as the issue for Chancery Fee Fund. Members are requested to treat the printed parts issued, as strictly private and for their own use only. On account of the large amount of hitherto unpublished information, all rights of reproduction from them are reserved, and permission to use same must be obtained from the Secretary.

The Annual Report is now issued and copies can be had on application Members are reminded that this season's subscription (5/-) is now due, and it will save a large amount of clerical labour if same is remitted without delay.

The American Exchange Section is now resumed and all circuits, both Home and Foreign, are at present working. Sheets for inclusion in any should reach the Secretary before the 1st of each month.

Meeting held on December 6th, 1905. Present —Mr. Schwabacher *(chair)*. Messrs. Fulcher, South, Morley, Thompson, Thomson and Kay.

W. C. Stone (United States) was duly elected a member.

Several interesting fiscals were submitted for inspection. Mr. Schwabacher showing sets of vertical pairs of the seven values from 1d. to £1, of the green and carmine, and grey-lilac and brown, issues for Northamptonshire the lower stamps of each pair being overprinted **GAOL.**

Mr. Morley gave a display with notes of his very fine collection of the Fiscals of the Dominican Republic aud Guatemala Several sheets and large blocks showing varieties in the settings of the types were shown, together with many unchronicled varieties. A vote of thanks was unanimously passed.

Members whose subscriptions are in arrear are requested to remit same without delay, *vide* Rules 4 and 5.

For Rules and information respecting the Society apply to the

50r., blue

The whole set was issued with single CA. but all those now in use up to the 25r., have CA. multiple and unsurfaced paper.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

BOMBAY POLITICAL AGENCIES.

(Kathiawar, Mahi Kantha, Palanpur, Rewa Kantha).

We are indebted to Mr. C. S. F. Crofton in the Philatelic Journal of India for information concerning the revenue stamps used in these districts.

KATHIAWAR.

The Kathiawar Political Agency has an area of 20,559 square miles, and a population in 1901 of 2,327,456. Estimated gross revenue Rupees 19,819,520. Total tribute 1,135,000 rupees. There are altogether 188 states of varying size and importance, of which 14 exercise independent jurisdiction while the rest are more or less under British administration. Most of them pay tribute to the British Government, the Gaekwar of Baroda or the Nwab of Junagarh, but the tribute is always collected by British Officials. The seven states of the first importance are Junagarh, Nawanager, Bhavnagar, Porbandar, Dhrangadra, Morvee and Gondal The head-quarters of the Political Agent are at Rajkot.

MAHI KANTHA.

The total area of this Agency is 9,300 square miles. It contains 39 states, the only important one of which is Idar. The population in 1901 was 361,508. Estimated gross revenue 1,269,453 rupees. Tribute (mostly to the Gaekwar of Baroda), 143,743 rupees. The famine of 1899-1900 was severely felt in this tract.

PALANPUR.

Palanpur is a native state in India on the Southern border of Rajputana. Area, 3,177 square miles; population in 1901 was 222,627. Gross revenue 659,530 rupees. Tribute to the Gaekwar of Baroda, 50,000 rupees. The chief whose title is Diwan, is an Afghan by descent.

Palanpur gives its name to a Political Agency of a collection of native states of a total area of 4,775 square miles and a population in 1901 of 467,691.

REWA KANTHA.

This political agency comprises 61 states, many of which are under British jurisdiction. The only important one is Rajpipla. Total area 4,980 square miles; population in 1901 was 478,889. Estimated gross revenue 2,707,329 rupees. Tribute (mostly to the Gaekwar of Baroda), 116,700 rupees.

COURT FEES.

The stamps for these four agencies consist of the large lilac issue of India with both Queen's and King's heads (all values) with an overprint for the respective agency. Thus for Mahi Kantha the stamps are overprinted "Current only in Mahi Kantha" and the same in Gujerathi characters below. The whole surcharge reads vertically upwards. For the other three agencies their respective names are substituted for "Mahi Kantha."

BELA (or Las Bela).

This is the capital of a small independent State to the South of Kalat (Beluchistan) ruled by the Jain (or Chain) who occupies the position of a protected chief under the British Raj. Liability to assist on active service is the only acknowledgement of Suzerainty which is paid.

There are revenue stamps in use for Court Fees and Receipts.

UDAIPUR (Oodeypore or Mevor).

A native state of India in the Rajputana agency Area 12,861 square miles; population in 1901 was 1,021,664. Estimated gross revenue 3,750,000 rupees. Tribute 250,000 rupees. The ancient coinage is of great historical interest as being of the Sassanian or Persian type, copper issues of this type being still in circulation. Modern coins bear on the reverse the words "Friend of London." In 1897-98 the value of silver coined at the mint was 83,422 rupees.

A Revenue stamp of the type illustrated is known —black on thin wove paper, imperf.—about which information is desired.

EDITORIAL.

AMONG the leading philatelic journals the *Philatelic Journal of India* is almost the only one which does not habitually neglect the fiscal side of philately. Many interesting articles on fiscals have appeared in its pages from time to time and during the past few months there is to be found an important study of the fiscals of Ceylon by that energetic fiscalist, Mr. C. S. F. Crofton, one of the joint authors of that splendid production on the Indian fiscals published last year by the Philatelic Society of India. We especially invite the attention of fiscalists to these articles and propose to extract from them a few points of particular interest, necessarily brief not only by reason of limitation of space but because all collectors of Ceylon fiscals will find it absolutely necessary to study the articles themselves. Up to the present four instalments have appeared, in the July, Aug., Oct., and Nov., numbers of last year respectively, dealing with the series for Stamp Duty, Judicials, Warehouse Warrant and Receipts. As regards the series for Stamp Duty, Mr. Crofton points out that prior to 1872 when the currency was changed from £ s. d. on a gold basis to dollars and cents on a silver basis, the duty was paid by colourless embossed dies struck on the original documents. These embossed dies were occasionally cut out and pasted on to the documents, being thus used as adhesives. Mr Crofton does not think that these should be collected on the ground that there is nothing to show their genuineness unless on the entire original, for copies can easily be cut out and stuck on pieces of paper. The adhesive stamps lettered "STAMP DUTY are fairly straight forward. A point of interest is, however, the question of the existence of the 500r., bistre and the 1000r., rose, wmk. Crown CC. These stamps are catalogued in Moens' Catalogue and also in the Fiscal Philatelic Society's lists but Mr. Crofton as a result of his observations on the Judicial Series finds strong reasons for doubting their existence. His argument runs as follows:—"Taking the Stamp "Duty and Judicial provisionals together we "find that there are 3 varieties of surcharge on "the 20 rupees in 1889-90, of which two occur "with both watermarks, and one with water-"mark CC only. There are two varieties of "surcharge on the 50 rupees, one with both "watermarks and the other with CC only. "The one surcharge on the 100 rupees has both "watermarks. On the other hand the six sur-"charges on the 500 rupees are all watermarked "CA and so are the 3 surcharges on the 1000 "rupees. Hence it is fairly certain that there "was no stock of the two latter values with CC "watermark in 1889. The 9 surcharges on "these two stamps prove, however that there "was a large surplus with CA, and the use of "the stamps unsurcharged being extremely "limited, there is every probability that if they "had been issued with CC there would have "been at least as large a proportionate surplus "with CC as in the case of the lower values. "Now the first set in lilac has never been "suggested to have included the 500 and "1000 rs., and for these values to have been "added during the short period (of under a "year) in which the coloured set was being "printed with CC, would have been a coin-"cidence which requires some evidence to "accept. The only evidence that I am aware "of, that these stamps existed on CC paper is "that they are recorded by Moens' whose "accuracy it is seldom safe to impugn. But "there are cases in the early stamps of India "and Ceylon where Moens' records stamps "which have never been issued to the public "and which he had only seen in proof sets, and "he queries the existence of the two stamps "(under discussion) with CA watermark in his "Edition 20 years after these stamps must have "appeared."

Ceylon fiscals.

It seems therefore, that these two stamps should be struck out of the Catalogues. In the August number Mr. Crofton gives a valuable list of the somewhat numerous Stamp Duty provisionals, which he has reduced to order by the study of dated copies.

We propose to continue our notes on these articles next month.

Ewen's Colonial Stamp Market has just published Part I of a third edition of Ewen's Priced Catalogue of the Railway Letter Stamps of the United Kingdom, 1891-1903. In the second edition 32 pages were "devoted to the Railway Letter "Stamps of companies having their "head offices in England and Wales "and 23 pages to those having their "capitals in Scotland and Ireland. As the 32 "pages devoted to England and Wales in that "edition have grown to 96 in the present, I have "considered it advisable to divide this work "into two volumes." The Catalogue is well illustrated, every stamp is priced used and unused and the work will be found indispensable to all collectors of Letter Fee Stamps.

Railway Letter Stamps.

BRITISH RAILWAY STAMPS.

Great Western Railway. Mr. P. Evans has kindly favoured us with some further information with regard to the recent issues of this Railway. The following values must be added to our list of the stamps (25 mm square) in the November number of last year.

1d., vermilion
2d., blue
4d., black on white
5d., black on orange
7d., black on red
8d., black on purple
10d., black on green
11d., orange
2s., ?
3s., black on white, with blue vertical broad band
4s., ?
5s., ?

These values with those chronicled in November form the complete set of this issue. They are printed in sheets of 30 stamps. Of the larger type chronicled in the same number, Mr Evans submits another value, issued in September.

1s. 6d., black on white, with green cross diagonally

Of the same type (25 mm square) but lettered "SHIPMENT CHARGE" instead of "PREPAID PARCEL" Mr. Evans sends us

3d., black on rose, perf. 11½-12

Guernsey Electric Railway. The colour of the 1d., stamp listed in the November number should have been "*brown on green*" instead of "black on green."

London, Brighton and South Coast Railway. Mr. P. Evans submits the 1d. blue Newspaper Stamp, *perf 14½*. The normal perf. of these stamps is 10, 10½ or 11, usually 10. The perf. 14½ is rare and has only as yet been found on the 1d., value.

South Eastern and Chatham Railway. The Newspaper Labels for this Railway are, we believe, as yet unchronicled. Our publisher submits copies of the ½d., and 1d., values the design of which consists of value in figures, in white on a coloured shield in centre, surrounded by scrolls lettered "NEWSPAPER" above "OWNERS RISK" below "PREPAID" at left and "LABEL" on right. At the top are the words "SOUTH EASTERN AND CHATHAM" and at the bottom "RAILWAY" on straight labels. At the sides a star pattern in blank columns. The values are as detailed below. The ½d., 1d., 1½d., and 2d., are in sheets of 60 (10 rows of 6); the 3d., and 4d., in sheets of 30 (5 rows of 6).

½d., blue. Red controls. Rouletted
1d., ,, No controls Perf. 11
1d., violet-blue. Black controls. Perf. 11
1½d., blue. Red controls. Rouletted
2d., ,, ,, ,,
3d., ,, ,, ,,
4d., ,, ,, ,,

The following extract from the regulations shows the purpose for which the values serve:

Newspaper prepaid labels for Railway Carriage between any two Stations on the S.E. & C. Railway, at Owner's sole risk can now be obtained on previous application to Station Masters. These labels will only be supplied in sheets at the undermentioned rates:—

60 Rate of ½d. each for Single Newspapers.
60 ,, 1d. ,, two ,,
60 ,, 1½d., ,, three ,,

The above three between any two Stations on on the S.E. & C. Railway.

60 Rate of 2d. each
30 ,, 3d. ,,
30 ,, 4d. ,,

The above three for Parcels of Newspapers according to weight and distance as provided for in tariff for Newspapers.

These rates do not include collection or delivery, and Consignee must call for the Newspapers at the Station to which addressed, and the Committee will not be responsible for any loss, damage or delay in transmission, and if it is found that the value of the labels affixed is insufficient, the packet will be detained till the following Train, and surcharged double the amount of the deficiency.

GERMAN RAILWAY STAMPS.

The undermentioned stamps are chronicled in *Der Philatelist* for Dec. 1905 and January.

BAVARIA. *K. Bayer. Staatseisenbahn.* Add to the list in Vol VI page 58.

BRUNSWICK. *Halberstadt-Blankenburger Eisenbahn-Gesellschaft.* Type with winged wheel and label above for name of railway. Overprinted with value in darker colours. Perf. 12.

30pf., green and dark green
40pf., orange and dark orange
50pf., violet and dark violet
60pf., blue and dark blue
70pf., red-brown and dark brown
80pf., yellow and dark yellow
90pf., brown and dark grey-brown
100pf., grey and dark grey

LÜBECK. *Lübeck-Buchener Eisenbahn-Gesellschaft.* Similar type to last. (Brunswick) Perf. 13. The same values and colours with the addition of

5pf., carmine and dark carmine

MECKLENBURG-STRELITZ. *Mecklenburgische Friedrich-Wilhelm-Eisenbahn-Gesellschaft.* Same type. Perf. 11½.

30pf., green and black
40pf., orange ,,
50pf., lilac ,,

PRUSSIA. *Crefelder Eisenbahn-Gesellschaft.* Same type. Perf. 11½.

5pf., red and dark red
30pf., green and dark green
40pf., orange and dark orange
50pf., lilac and dark lilac

Westfälische Landeseisenbahn-Lippstadt. Same type. Serpentine roulette on black.

5pf., red-violet and black
30pf., green and black
40pf., yellow-brown and black
50pf., lilac and black

The figures of value of the surcharge are small on the first two values, and large on the two higher values.

THE FISCAL PHILATELIC SOCIETY.

MEETING held on January 3rd, 1906, at 12 Adam Street, Strand, W.C. Present Mr. Schwabacher (*Chair*). Messrs. Cooper, Evans, Fulcher, Hadlow, Morley, South and Kay.

C. H. Eagle (United States) was duly elected a member.

M. Forbin L'Hoste submitted for inspection several hitherto unlisted varieties of Western Australia, Supreme Court, 2/-, 2/6 and 5/- values, with various types of surcharges. Messrs. Morley and Schwabacher also showed interesting novelties.

The cataloguing of the fiscals of Great Britain was proceeded with as far as Consular Service stamps.

A vote of thanks was passed to Mr. Hadlow for the use of his office for the meeting.

All Exchange Sections are now working, and members on the Continental Section are requested to observe more strictly the rules regarding the retention of the packets.

TELEGRAPH CHRONICLE.

India. Mr. Crofton informs us that the 2as., provisional of 1882 on Special Adhesive, was also made in Madras, but no copy is yet known; also that the 1 rupee of the Edwardian series is now in use.

Natal. Mr. Kay has found a copy of the Revenue stamp 4s., lilac and red, surcharged "ONE SHILLING" in a similar manner, except that the word "REVENUE" is not barred, to the provisionals recorded and described by us in August 1902. Possibly there are varieties in type of the surcharge, as on the stamps already known, to be discovered. The copy found was used in 1902.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Brazil. *Consular.* *Le Bulletin Fiscaliste* chronicles the following additional values of the series of the type illustrated

Italy. *Marca da Bollo*. Dr. Diena kindly sends us a copy of a new 10c., lilac with King's head to right in circle, wmk. Crown, perf. 14, accompanied with the following particulars with respect to the issue. "A Royal Decree, dated "Oct. 22nd, 1905 announces the issue from Dec. "1st, 1905 of the other values of the 'Marca da "Bollo' set, with head of King Victor "Emmanuel III turned on the right hand. I "have not seen the new issue but the colours "noted by the Decree are the following:—

50c., violet
1 lira, deep brown and violet
2 ,, Berlin blue ,,
3 ,, olive green ,,
4 ,, geranium ,,

"The second colour (violet) is that of the "frame and of the inscriptions. At the top "they bear the inscription "Marca da bollo" "and at the bottom the value followed by "oltre $\frac{2}{10}$", i.e. beyond two tenths. So the "50c. stamp is sold at 60c.; the 1 lira at 1.20 "and so on."

A 5c., lilac, with Eagle in centre, was issued some two or three months ago.

New Republic. Mr. A. B. Kay has unearthed another issue of the provisional fiscal stamps of 1885-86, in which the wording is different and the design is a plain oval in lieu of the oval with buckles at each end. The stamp is oblong oval with the words "LANDROST KANTOOR" above and "NIEUWE REPUBLIEK, Z.A" below. In the centre is "VRYHEID" above and the value in MSS, with initials "R.V.R." The impression is in violet on blue lined laid paper and the copies which have been found are dated in May 1885.

QUETTA.

A district and town of Baluchistan. A residency founded there in 1876 by Sir Robert Sandeman first represented the Government of India as the practical ruler of Baluchistan.

The Quetta district is now administered, together with the assigned districts of Peshin, Tal Chotrall, and Sibi by a regular staff of Civil officials.

Indian Court Fee and Revenue stamps were overprinted for use there, but apparently values other than those listed exist.

THE 5 SOLES, YELLOW OF 1881-1882.

Mr. Morley has acquired two very interesting complete sheets of this stamp, showing a number of errors which have not yet been recorded. The two sheets are alike, except that one is surcharged "1883" in large violet figures in addition to the usual surcharges of "PROVISIONAL 1881-1882". They are both on pelure paper.

The sheet contains 50 stamps in 5 rows of 10. The first two rows have no stop after the value "CINCO SOLES", the last three rows have a stop after the value except in the case of the last stamp on the sheet.

The value "5s" in upper corners is very irregular in position and appears to differ in type on every stamp. In stamp no. 30, the last on the third row (the error *g*) the "s" in top right corner is "raised" and in stamp no. 42, the second on the last row, the "5" is "raised".

In the diagram below the normal type *without stop* is designated by the letter *a* that *with stop* by the letter *b* and we find the undermentioned errors in the positions indicated.

c (No. 8) "Cinco oles", the "s" in "oles" being raised and inverted

g (No. 30) "Cinco Sole.s" with stop *before* last "s" also the "s" of "5s" in upper right corner is considerably raised
h (No. 38) "Cinco Sales"

The surcharge "PROVISIONAL 1881-1882" appear to be applied in pairs right through the sheet the one on the left has the upper portion of "s" in "PROVISIONAL" much larger than that in the corresponding word on the right.

MISCELLANEOUS NOTES.

Nevis. From a letter contributed by Mr. T. Maycock to the Feb. no. of the *Philatelic Record* we learn that the postage stamps with allegorical figures surcharged "REVENUE" (London surcharge) were sent out by Messrs. Nissen and Arnold in March 1879 and consisted of the following:—

834 sheets	(10,008 stamps)	of 1d.
209 ,,	(2,508 ,,)	of 4d.
84 ,,	(1,008 ,,)	of 6d.

Siam. The stamp, of the design illustrated, which we chronicled in April 1902 turns out to be a postal essay and not a revenue stamp. The stamp was prepared in 1883 but for some unknown reason was never issued for postage or employed in any other way.

The value is 1 fuang (= ⅛ of a tical = 8 atts).

Ceylon fiscals.

RESUMING our notes on the valuable articles by Mr. Crofton on Ceylon fiscals in the *Philatelic Journal of India* we quote as regards the 5c. Stamp Duty provisionals. "The period of "stamp-duty surcharges concides with "that of postage surcharges, namely, "1885 to 1893, and the outbreak in "both cases was caused by the same "event, the adoption of a uniform 5 cents stamp "for both postage and receipt purposes. This "took place on the 1st January 1885 and "further printings of the 5 cents receipt stamp "were consequently discontinued By a curious "mistake in giving or understanding the orders, "the 5 cents stamp-duty (which should really "not have been affected) was also discontinued, "and still more curious the error was not "rectified for eight years when the control of "Ceylon stamps appears to have passed into "more efficient hands." Mr. Crofton then gives a list of 12 stamps arranged in order of issue. Between 1889 and 1891 there was a shortage of 25 cent stamps, when 11 more provisionals were issued, some of which appear to have been caused by a desire to work off surplus stock of little used values, a reason more obvious in the case of four further provisionals of the values of 5, 10 and 20 rupees on the 500r., bistre and 1000r., rose (wmk. Crown CA). Five miscellaneous provisionals issued from 1890-92 conclude the list. The section on "Judicials" is very interesting. These stamps date from 1882 and Mr Crofton notes that the surcharge "JUDICIAL" is found in four different types which he denotes as J1, J2, J3 and J4 respectively. The measurements of these four surcharges are as follows: J1, 17 x 4mm; J2, 15½ x 3½mm.; J3, 26 x 3mm.; J4, 14 x 4mm. J, is found in rose, vermilion or carmine, the others are always carmine. As regards the low values in lilac on Crown CC paper, the origin of which is somewhat mysterious, since these stamps without the "JUDICIAL" overprint had been withdrawn from issue ten years before the first judicial stamps appeared Mr Crofton writes: "Almost "the only copies known are in the possession "of Mr. Walter Morley, who has been so kind "as to describe them for me. Mr. Morley has "eight of these stamps, of which four are "cancelled with the word "spoiled" in violet "and appear to be essays, proofs or printer's "waste. These have the ordinary J2, except "the 15 cents which has J1. The remaining "four stamps are 5 cents (3.'83), 25 cents (5.'85), "50 cents (3'91) and 1 rupee (4.'83). The "judicial overprint on these is normal The "only explanation I can offer as regards these "is that the first two and the last were the "result of using up remainder of the CC "watermark stamps before the new consignment "with CA watermark was drawn upon, and that "the 50 cents is a product of the shortage of "that value from 1889 to 1891, which also "produced the J1 overprint in red and blue and "a provisional value of 50 cents (known used "as late as 1.'91)." The Judicial provisionals are fully dealt with and it is interesting to note that not one of the 32 Stamp-Duty provisionals is known with a "JUDICIAL" surcharge.

Mr. Crofton's account of the Warehouse Warrant series mentions a number of stamps which have only lately become known to collectors here and as we have not yet chronicled these new varieties we have ventured to give in this month's Fiscal Chronicle a complete list of all the stamps (in dollar currency) based on Mr. Crofton's list. As regards the 1s stamp, which has been usually regarded as the first issue, but which is only known unused, Mr Crofton writes "Neither Moens or Roussin ventured on "a date for this stamp, but Forbin l' Hoste "assigns it to 1872, although the sterling "currency was superseded from the 1st January "of that year. . . . . It is also to be noted "that the fee for warehouse warrants was only "5 cents or one penny from the early seventies "to 1884-5, when it was raised to 50 cents or "one shilling. The changes in fee and currency "are two equally good reasons for the existence "of remainders, but I do not think the stamp "has vindicated its right to the dignity even of "a remainder, and for the present is only "entitled to the rank of "prepared for issue" "while the imperforate variety, which so far as "I know has not been seen in Ceylon, is only a "proof."

The receipt stamps call for no special remark. They were superseded on the 1st Jan 1885 by unified stamps for postage and receipt purposes and the remainders were surcharged "STAMP DUTY" early in 1889. The postage stamps surcharged "Postage and Revenue" are not usually included in fiscal lists, but the 5 cents value must have been extensively used for receipt purposes and as Mr. Crofton points out the 8c., lilac issued on the 1st April 1885 is surcharged "REVENUE & POSTAGE," the order of these words not being without significance.

THE DEATS COLLECTION OF PROOFS AND ESSAYS OF U.S. REVENUES.

WE learn from *Mekeel's Weekly* that a Bill has been introduced into the House of Congress for the purchase of the Deats Collection of U.S. Revenues for the nation. Its terms are as follows :—

A BILL.

To purchase a collection of original essays, designs, drawings, and die and plate proofs of the revenue stamps and private proprietary stamps of the United States, known as the Deats Collection.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that the Joint Committee on the Library of the House of Representatives and Senate be, and is hereby, authorized to purchase from its owner, Hiram E. Deats, the collection owned by him of original essays, designs, drawings and die and plate proofs of the revenue stamps, and private proprietary stamps of the United States, for the sum of twenty thousand dollars said amount is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to pay said owner for said collection, upon the passage and approval of this Act.

This bill was referred to the committee on the Library and its fate will be watched with interest by the philatelists of the entire country. The government collection would certainly be enriched by the incorporation in it of this superb collection made by Mr Deats

The collection itself is thus described by Mr. W. O. Wylie ;—

Covering the period between the years 1862 and 1883 these proofs and essays possess features of tremendous historical and educational importance from the fact that this was a vital period in the life of the United States covering the Civil War and the financial recovery from its terrible drain upon our resources. The methods employed to meet this financial strain led to taxation in various forms the outer evidence of which was the use of stamps affixed to documents Some of these stamps have become very scarce, but scarcer still are the proofs from the dies and of these the Deats collection is largely composed.

The possession of this collection and the records of the Butler and Carpenter Co. which held the government contract for the engraving and printing of revenue stamps from the beginning September, 1862, to August 31, 1875, enabled a committee of the Boston Philatelic Society to compile a work of 400 pages entitled "An Historical Reference List of the Revenue Stamps of the United States, Including the Private Die Proprietary Stamps." This book is infinitely more comprehensive than any records in the possession of the United States government and could not have been written but for this collection. Should the Deats collection now be broken up and disposed of to private individuals much valuable information and material will be lost to the United States government forever.

There are fifteen books in all and a study of their contents will prove to the casual observer their value as sign posts in American history. Here is the original order book of the Butler and Carpenter Co. with two hundred original approved proofs attached of private proprietary stamps, a great many of which are the original designs, some in pen and some in pencil, and many made up in part of photos with added design in pen or pencil. The entries in the book give names of proprietors dates of approval of die, etc., etc. The approved dies are signed by different Internal Revenue Commissioners beginning with Hon. Geo. S. Boutwell, the first appointed August, 1862, down to Hon. D. D. Pratt, April 16, 1875. There are also many entries of stamps ordered which were afterwards cancelled or transferred to other parties. The original designs are of great value bearing as they do the same relation to the finished stamp as the author's MSS. or the artist's rough sketch does the finished work.

The Butler and Carpenter proof book contains over 500 original proofs, together with dates showing when each stamp was first issued. Among other rarities are to be found the $200,00 first issue, $200,00 and $500,00 second issue and the $5,000,00, $5.00, $1.00 and 50c., proprietaries.

Another very valuable book is that of U.S. revenue proofs, with 536 impressions, card, India and bond paper with imprint and plate numbers of all stamps, together with some of the original designs approved by the internal revenue commissioner. It also contains 66 of the $25, second issue revenue having the allegorical figure of Commerce instead of portrait of Washington. Also rare proofs of the $200,00 second issue (10), $500,00 (5), 5,000.00 (7), and proprietary 50c., $1 00 and $500.00, three each A proof of the $500.00 is here shown as originally approved by the commissioner but in different colors from final printing This is exceedingly valuable.

A summary of the contents of the collection shows the proofs to number over 20,000 as follows ;

It is needless to add that every lover of philately and every student of political economy will watch with interest the progress of the movement looking to the housing of the Deats Collection under government protection at Washington.

BRITISH REVENUE AND FEE STAMPS.

PERF. 12½.

In the *Philatelic Journal of India* for last year will be found a colossal piece of work by Mr. E. W. Wetherell on "The Work of Messrs. Thomas De la Rue & Sons, Ltd." dealing with all stamps, postage, telegraph or fiscal, printed by this firm. In the Oct. number the British unappropriated dies are dealt with. As far as the fiscal stamps of Great Britain of this class are concerned the Catalogue of the Fiscal Philatelic Society now being issued to members will add considerably to any of the existing lists so that we need not now point out sundry omissions from Mr. Wetherell's list. A point, however, which is worth noting is with regard to the stamps found with the abnormal perf. 12½. Mr. Wetherell only gives a list of 7 varieties of these, two being stamps of Cyprus, the 2d and 3d, to which might be added the provisional 1s. on 3d. This list may be considerably extended and the following is as complete a one as we have been able to compile. Sundry classes, such as Embossed stamps used as adhesives, Life Policy, Registration of Deeds Fee, Ireland; Record of Titles Fee, Ireland; where the perf. 12½ is normal are not included.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Ceylon. *Warehouse Warrant.* The following is a list as far as is known of the provisionals on "Stamp Duty". *See* Editorial.

There is a variety of no. 8, with large thick "t" in "Warrant".

Colombia. *Timbre Nacional.* Our publisher has received the 2 pesos, black on rose, of 1899-1900 surcharged vertically downwards in four lines in black "HABILITADA—para 1901 y 1902—Administration Departmental de —. . . .cienda Nacional," the first few letters of the last word but one being illegible on the copy before us. This stamp is further surcharged horizontally in three lines in MS. "Habilitada pa.—1903 y 1904—?—The word in the last line we are not able to decipher. It appears to be the signature of an official or else the name of some town, to which possibly the use of this stamp was restricted.

Cundinamarca. (*Colombia.*) Our publisher submits an oblong stamp, 40 x 15mm, lettered "DEPARTAMENTO DE CUNDINAMARCA" at top and "VEINTE CENTAVOS ORO" below, on straight labels. Within the frame are inscriptions "Renta de San Lazaro" and Salvemonos de la Lepra" with a floral pattern and figures of value in oval on each side rather above the middle. Perf. 12.

20c., pale green

SAWANTWARI (or SAVANT VADI.)

A native state in the Konkan division of Bombay. Area, 926 square miles, population in 1901, 217,800. The estimated gross revenue is 431,867 rupees. There is no tribute. The chief, whose title is Sir Desai, is a Maratha of the Bhonsle family. The late chief died in December 1899, with no direct heir. The town of Sawantwari or Wari is 17 miles from the seaport of Vengurla. The municipal revenue in 1897-98 was 6,348 rupees.

The revenue stamps of this state have for many years been somewhat avoided by collectors. as it was thought they were bogus, but it seems that the quantities of unused varieties and errors of these stamps that have been on the market for last 10 years or more were evidently printers leakage.

EDITORIAL.

THE great event of the philatelic season, viz., the International Exhibition is now rapidly approaching and as far as matters have now progressed everything seems to be working smoothly and harmoniously towards a successful result. Entries of exhibits have been received not only from collectors in Great Britain but also from others residing in the United States of America and the Continent so that there is a prospect of keen competition for the medals in the different classes. In reference to the Championship Classes, it should be noted that only exhibits that have gained *Official* Gold Medals in London or Manchester are compelled to be shown in these Classes. As regards the medals themselves we are informed that His Royal Highness the Prince of Wales has approved of the design. They will contain on one side a portrait of His Royal Highness with the inscription "H.R.H. the Prince of Wales K.G. President of the Philatelic Society, London", while on the obverse it is proposed that the Arms of the City of London shall appear together with an inscription showing the name of the successful Exhibitor and the Class in respect of which the Medal is awarded. His Royal Highness the Prince of Wales as President of the Philatelic Society of London, has graciously offered a Gold and a Silver Medal to be awarded to the best exhibits of Postage Stamps shown by Lady Collectors.

The Exhibition.

The Right Hon. Sydney Buxton, M.P., Postmaster-General has consented to become one of the Vice-Patrons of the Exhibition.

An Official Banquet will be held on Friday evening, May 25th, at the Imperial Restaurant, Regent Street, W. at which the Vice-Patrons and Judges will be invited to attend. The speeches will be strictly limited in order to allow sufficient time after the Banquet for a Special Entertainment, which is being arranged.

In order that all young Collectors may have an opportunity of inspecting the superb collection of postage stamps that are coming from all over the world, the Committee have decided that Saturday, May 26th, and Wednesday, May 30th, shall be free days, admission being by tickets, which may be obtained from the Hon. Secretaries or from the leading stamp dealers.

The financial prospects of the Exhibition seem hopeful, especially in view of the fact that £802 10s has been received for the rent of 15 dealer's stalls, a highly satisfactory result, indicating the confidence of the dealers in the prospects of business to be done at or as a result of the Exhibition or at least to be regarded as a worthy effort in support of the Exhibition. Fiscal collectors will note with pleasure that our publisher has secured Stall No. 12, which will form a convenient rendezvous for all interested in fiscal matters.

Mekeel's Weekly Stamp News for December 23rd ult., contains some useful information with respect to Philippine stamps by Theodore Siddall from which we extract the following as regards the fiscal issues:—"The Internal "Revenue law for the Philippines provides for "the use of two distinct series of revenue "stamps, known officially as "'Internal Revenue' and 'Documentary" stamps. The latter "series is for the same purposes "as ordinary documentary revenues in the "States and elsewhere and are sold to all "comers; but the former series is for use on "business licenses and for invoices that are "required to be furnished by tobacco and "liquor manufacturers with each lot of their "products to the jobber or retailer. When "used on invoices the stamp is affixed so that "when the invoice is detached from the stub "in the book furnished by the government for "the purpose, the stamp is cut in half. Afterwards the book with the stubs and half stamps "is turned in to the government and the invoice is also taken up from the buyer after a "few days: so that none of the stamps in used "condition are available for collectors. Every "business licence is also returned to the government before a new one can be issued and "the government keeps track of every stamp "issued, the law requiring the manufacturer to "note the serial number of each stamp issued "by him . . . . . I was informed that "a new series of revenue stamps is being prepared in the United States, to take the place "of those now in use, the workmanship of "these not being up to the requirements. Of the values of the "Documentary" series given by Mr. Siddall, those up to 1 peso have already been chronicled; some values of the "Internal Revenue" set have just been submitted to us by Mr. A. B. Kay. For details see this month's Chronicle. We have not heard that any values of the promised new issue have yet been seen, though it was expected on the 1st Jan 1906.

RAILWAY STAMPS.

OUR publisher submits the undermentioned particulars with respect to some unchronicled varieties of our rarest Railway stamps.

Bristol and Gloucester Railway. Of the same type as the 2d. chronicled and illustrated in our Journal for February, 1901. With date stamp of "Tiverton—April 5 '75".

½d., black on white. Perf. 10. Control No. 785.

Similar type to the 2d. value chronicled at the same time.

1d., black on white. Perf. 12½. Control No. 17996.

Similar type to the 3d. value, but with signature at bottom "Henry Dykes, Supt.", and at right side reading vertically upwards in small type the inscription "Not exceeding 1 lb. in weight".

1d., black on white. Perf. 10. Control No. 13470.

We reproduce the illustrations of the 2d. and 3d. here.

Somerset and Dorset Railway. Oblong rect., 68 x 33 mms. with value in centre and signature below "Richd. J. Rees—Accountant." Imperf.

1d., black on white,

and with signature "Robt. A. Read, Secy. and Gen. Manr."

2d., black on blue.

South Devon Railway. 1863. Our publisher has now seen a copy of the 1d. value of this line which has already been listed in Moens' and our publisher's Catalogues.

Mr. P. Evans supplies the following notes respecting the new issue of Parcel Stamps for the North-Eastern Railway, of which the 6d. value was chronicled by us last July.

North Eastern Railway. A new issue of Parcel Stamps took place in May, 1905, and consisted of the following values. Perf. 11.

1d., green on green	6d., black on white
4d., blue on blue	1s., brick-red on rose
5d., red on rose	2s., black on yellow

Design: Figures of value in oblong oval, lettered "NORTH-EASTERN—RAILWAY" and broken at each side with label bearing the word "PARCEL" on left and "STAMP" on right. Blank label at top and word "FROM——" for insertion of name of station from which the parcel is despatched and blank label with word "No." below for control no. Beneath the control no. is the notice "The Company do not accept responsibility for loss or damage to any parcel carried by the Parcels Express Night Services at less than ordinary Parcels Rates unless caused by the negligence of the Company or their Servants." Important stations such as York, Leeds, Newcastle, &c. have their names *printed* in black on the label at the top, but the stamps are supplied to the smaller stations with the tablet blank. They are printed on sheets of 50, five rows of ten, the control numbers start at the *top right hand corner* and run downwards, finishing at the bottom left-hand corner. The stamps were presumably issued especially for the new "Parcels Express Night Service" of the Co. started on May 2nd, 1905, but are now in general use for all prepaid parcels, having superseded the previous regular issue, which is now obsolete. The scale of charges for the Express Night Service is as follows:—

Parcels may be forwarded from the chief stations to North Eastern Stations distant 51 miles and upwards by Express Night Parcels Service at the undermentioned scale of charges:

WEIGHT.	CHARGES.
Not exceeding 2 lbs.	4d.
Above 2 lbs. and not exceeding 3 lbs.	5d.
,, 3 lbs. ,, ,, 14 ,,	6d.
,, 14 lbs. ,, ,, 48 ,,	½d. per lb.
For every additional 4 lbs. or part thereof above 48 lbs.	1d.

(Fractions of a penny are charged as a penny.)

It is worth noting that the N.E.R. Co. adopt a different policy from most other Railway Cos. in that they keep these stamps on sale at all their parcel offices, irrespective of their being actually used for the carriage of parcels or not.

Mr. J. G. Cairns submits a varied assortment of Railway stamps with notes:—

Bradford Tramways and Omnibus Co. A type set label, 52 mm. square, with inscription, Name of Co.——, "Paid Parcel" and value. Perf. at top only, 10.

1d. (not exceeding 14 lbs.), black on rose.

Foster's Parcel Express Co. (Newcastle-on-Tyne.) Large outline figure of value on diagonally lined ground label with value in words across stamp, rather below the middle. Inscription "Foster's Parcels Express Ltd., Newcastle Office, 30, Prudhoe St., W. Johnson, Agent". Perf 11.

2d., dark blue
3d., brown-purple

Globe Express Ltd., Birmingham. Large rect., 36 x 42 mm. with globe in centre on which is expressed the name of the Co. Control no. above; label below bearing address, which differs on the two stamps submitted. Perf.

2d., black on rose.

Newcastle District Carrying Co. Issued by Sutton & Co. in Newcastle. Large outline figure of value on dotted or diagonally lined ground, with label across bearing value in words. Inscription "Prepaid Stamp—Newcastle District Carrying Co." and signature at bottom "Harry Wills". Perf. 12.

2d., vermilion
3d., blue

North British Railway. The following values appear to form the complete set of the Newspaper Stamps. Some values have been already listed.

¼d., ½d., 1d., 2d., 3d., 4d., 5d., 6d., 7d., 9d., orange

Sutton & Co., Manchester. Large rect., 39 x 53 mm., with large white figure of value and inscription "Prepaid Parcel Stamp—Sutton & Co., Carriers, Manchester—Sixpence". Signature below "J. Burge". Perf. 11.

6d., brown

Wolverhampton Tramways Co. Type set label, 35 mm. square, inscribed "Paid Parcel." Perf. at top only, 12½.

1d., black on rose

THE FISCAL PHILATELIC SOCIETY.

MEETING held on February 7th, 1906. Present—Mr. Morley (chair), Messrs. Fulcher, Thompson, South and Kay. C. J. Patman (Carshalton) and F. D. Pollard (U.S.A.) were duly elected members.

Announcement was made, with regret, of the death of Kassumally Peerbhoy.

Owing to the unavoidable absence of Mr. Schwabacher, the announced display was unfortunately postponed, and Mr. Morley was so good as to show his fine collections of the fiscals of Cuba, Phillipines, Porto Rico, Colombia and States. Much interest was taken in the same and a vote of thanks concluded the meeting.

Meeting held on March 7th, 1906. Present—Mr. Schwabacher (chair), Messrs. Cooper, Fulcher, Morley, South, Thompson, Thomson and Kay.

A collection of the Stamp Duty and Impressed Duty Stamps of the Colony, sent on loan to the Society, by the Government of Tasmania, was exhibited. Several other interesting stamps were also shown. M. A. Bailliére submitted many novelties, including Madras, Secunderabad and Mauritius. Mr. A. Hamilton sent several minor varieties in Australian fiscals. Mr. W. Schwabacher showed a 1 rupee Wankaner State, and Mr. Morley a 2$000 Timor, and several postage stamps of that island surcharged "Imposto."

Regarding the meeting to be held during the London Philatelic Exhibition, it is particularly requested that members who will then be in town will communicate with the Hon. Secretary so that arrangements can be made. If sufficient members are likely to be present it is proposed that a Dinner be held.

The catalogue of the Revenue stamps of Gt. Britain was proceeded with to the issues for Consular Service.

Members are requested to send sheets for the Exchange Sections more regularly.

For information respecting the Society apply to the—

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Philippines. From Mr. Theodore Siddall's article in *Mekeel's Weekly Stamp News* we cull the following unchronicled items In the case of the Internal Revenue stamps the 1, 2, 5 and 10c., have been submitted to us by Mr. A. B. Kay, and as the colours of the first three do not agree very well with those given by Mr. Siddall, we give our own determinations in the case of these values.

1p., rose	

As regards the design of the Internal Revenue series they are oblong stamps 38 x 19 mm., with a female figure holding a mallet resting on a kind of anvil in circle in centre On either side is a blank label on which the control number is printed in black and the four values before us have the letter "B" also in black in the central circle just above the upper corners of the control no. labels which project into this inner circle These letters are apparently inserted by a different printing to that of the control letters and it is not clear whether they are supposed to form a part of the control no. or not. Inscriptions are "Philippine Islands Internal Revenue Tax" above and value below, in words under the central circle and in figures in oblong ovals under the control no labels on each side. Inside the frame below in minute caps is the inscription "Act no. 1189 of the Philippine Commission" The stamps are roughly lithographed and perf. 11½-12. Wmk. "P.I.R.S" in large double-lined caps.

Salvador. Mr. G. W. Pepper sends us a list of novelties for this country.

French Fiscals and their Engravers.

By R. R. Thiele.

IT seems to me that it behoves every collector to know all that can be learned about the objects of his hobby. For the stamp collector, whether postal or fiscal, one of the chief items of interest regarding his stamps ought to be their engraving. For me at least it is of surpassing interest to study the engraving of our stamps, to admire the beauty of design and the fineness of execution which makes so many stamps veritable masterpieces of the engraver's art. Fiscal stamps in a way offer an even wider field in this direction than postage stamps; to begin with, fiscals in their embossed state date back much farther than postage stamps, to times when engraving as an art was more highly prized than now, in the age of mechanical and photographic reproduction; and moreover the high value of many fiscals made it necessary to devote as much care to their production as to that of paper money. Hence some veritable artists, masters of their art, have not disdained to engrave stamp dies and to sign them with their names. I have become curious about some of the men whose names I find on the fiscal stamps of France and have endeavoured to collect some biographical information concerning them. As embossed fiscals are more extensively used in France than most other countries, excepting the United Kingdom, I have included some of these also, as far back as I have specimens in my collection, which is not a large one.

I begin with a warranty deed dated the 14th Prairial, Year 12 of the Republic. It bears a 75 centime stamp impressed in black and an embossed control stamp. The black stamp is the upright hexagonal type with figure of Minerva bearing the torch and the caduceus, inscribed "REP. FRA." at the top. The embossed stamp is circular and bears the figure of the Republic holding a map of France and a sceptre, the Gallic cock standing beside her; it is inscribed around the margin "ADM. DES DOM. DE L'ENREG. ET DU TIMBRE" and in the exergne "REP. FRA."; in the pedestal supporting the map we find the name of the engraver, Gatteaux. The same name is signed to a number of similar stamps of the first Republic; I also find it signed to some assignats of 1792 and later as the name of the designer.

These assignats are embossed with a dry stamp showing Hercules vanquishing the Hydra of which I shall speak later in connection with another engraver. But who was Gatteaux?

Nicholas Marie Gatteaux was born at Paris in 1751 and early attained eminence as an engraver, so that he was appointed medalist to the King. This does not seem to have prejudiced the Republican leaders against him, for under the Republic he engraved most of the assignats, as far as they were engraved at all, and the dies for fiscal stamps. He is chiefly renowned as a medallist, having engraved no less than 289 medals on various subjects; he is celebrated for his grandly simple style of engraving. He died at Paris in 1832, but before he died he had once more reverted to his first allegiance, for I find his name signed to several stamps of the Restoration. One die shows Justice, holding sword and scales, seated beside a pedestal bearing the Bourbon lilies; the stamp is inscribed "TIMBRE ROYAL". I have this in several values. Another die shows a seated female figure supporting a large shield bearing the fleurs-de-lys; the inscription is the same, but no value is expressed. The value is shown on a stamp impressed in black bearing a seated female figure holding a sceptre and the tables of the law, and there is another circular black stamp, bearing a fleur-de-lys surrounded by two interlaced letters "L" and surmounted by a crown; the inscription is "2/5 EN SUS — LOI DE 1816". These black stamps bear no engraver's name, but the seated figures resemble each other so much that I believe they are both Gatteaux's work.

Most of the dies used by the Restoration were engraved and signed by Galle. I have several examples before me. A number of documents dated in 1830 and following years up to 1842 bear two stamps. One is impressed in black and bears a figure of Peace holding the olive branch and a cornucopia; it is inscribed according to value, e.g.: "I E 300 F. ET AU DESSOUS. 15 CEN." The other stamp is embossed (they are all circular in shape) and bears a seated figure of Mercury; the inscription is "TIMBRE ROYAL" and the value corresponding to the black stamp. On a document dated 1842 there is a black stamp bearing a seated figure of Mercury leaning on an anchor; it is inscribed "TIMBRE ROYAL" and the value, "35c." The other stamp is embossed and shows the seated figure of Justice bearing scales and sword; it is inscribed "TIMBRE ROYAL", but no value. Another document, dated 1845, bears the same embossed stamp, but a different black stamp, showing a standing figure of Minerva, inscribed "TIMBRE ROYAL" and the value, "1 F. 25c.", the latter on the pedestal on which Minerva is supporting her shield. All these bear Galle's signature, with the exception of Mercury with the Anchor.

André Galle was born at St. Etienne-en-Forez in 1761. In 1773 the family removed to Lyons where André was apprenticed to a button-maker. He early gave evidence of the artistic temperament and his employer, who seems to have been a generous person, encouraged him in the study of art. In 1776 Galle went to Paris, but was unfortunate in finding employment, and returned to Lyons, re-entering the service of his old master. Here he distinguished himself so much that he became a partner in the business and on the death of his employer the sole owner. His first medal was engraved in 1792, a head of Liberty; it attracted such attention, that the city of Lyons sent him on a commission to Paris. Here he was employed by the Committee of Public Safety to engrave a medal showing the conflict of Hercules with the Hydra; it is this medal which is reproduced on the assignat before mentioned. Galle associated himself with the engraver Dupré, who secured for him employment at the mint. He studied sculpture under Chaudet, but his chief fame rests on his medals, of which he engraved so many that he has been called "the historian in bronze of the Consulate and Empire"; in 1810 he won the *grand prix* of the *Académie des Beaux-Arts* for engraving. In 1827 he was engaged by the Royal Government to engrave its stamp dies and of these we have examples before us. He died at Paris in 1844.

Several documents of the earlier years—1855 and thereabouts—of the second Empire which I have before me bear various values of black and embossed stamps

signed by Oudiné and Vauthier. The embossed stamps bear the standing Imperial Eagle and the inscription "TIMBRE IMPERIAL", but no value; the black stamps bear a standing figure of Justice and the eagle on a pedestal on whose base the value is inscribed; the inscription is "TIMBRE IMPERIAL". Oudiné has also engraved the long upright *Effets de Commerce* adhesives of 1874-91, the *Affiches* of 1871 with figure of value and those of 1881 with head of Ceres (?), the *Connaissements* of 1872 and 1883 in the same two types, the *Copies* of 1871 and 1881 in the same types, the *Dimension* of 1872 and 1881 also in these types, and the familiar *Quittances, Réçus et Décharges* of 1871 and 1880 in the same figure and head types.

Eugène-André Oudiné was born at Paris in 1810. He was a pupil of Galle, Ingres and Petitot; in 1831 he won the *grand prix de gravure* which enabled him to study at Rome. On his return to France he married a grand-daughter of Galle and was employed as engraver, first at the Stamp Office, later at the Mint, where among others he engraved the coins of the Republic in 1848. The list of his statues, busts and medals is too long to begin its enumeration here. He took first and second prizes on numerous occasions and was decorated with the Cross of the Legion of Honour in 1857. I have not found the date of his death in the works of reference at my command.

André Vauthier-Galle, whose name is associated with that of Oudiné as abovementioned, was born at Paris in 1818. He studied under Galle, Blondel, and Petitot; at the age of 21 he secured the *prix de Rome*. On his return from Italy he married a grand-daughter of Galle and added the name to his own. In 1848 he took part in the competition for the coins of the Republic in which Oudiné carried off the prize with his design for the silver coins. Later Vauthier took prizes at the salons himself. He is well known as an engraver of medals and portrait-medallions. I cannot say when he died.

The *Affiches* of 1891, *Connaissements* of 1892, *Copies* of 1893, *Dimension* of 1892, *Effets de Commerce* of 1892, *Quittances* of 1892 are all signed by Tasset.

Ernest Paulin Tasset was born at Paris in 1839. He studied at the *École des Beaux Arts* and under Oudiné; he made his début at the salon of 1869. The list of medals engraved by him is a long one; among them is one of interest to us, as it was engraved for the *Société Française de Timbrologie* for the 1878 Exposition. At the Exposition of 1889 he took third medal and honorable mention. He is engraver of the Stamp Office, President of the Chamber of Engravers and Secretary of the *Société Française des Artistes graveurs en médailles*. He has also engraved coins for numerous countries: France, Greece, Colombia, Venezuela, Hayti, Morocco, Uruguay, and Monaco. At latest accounts he was still living.

It is curious to note, by the way, that the circular *Timbre Imperial* above described, the work of Oudiné and Vauthier, underwent some changes afterwards for use by the Republic. First the word "IMPERIAL" was removed and the space left blank, so that the inscription is now simply "TIMBRE"; the eagle is replaced by 2/10 EN SUS. Later the word "TIMBRE" was also removed and the stamp inscribed with the tax rate, e.g. "DE 100 F. ET AU DESSOUS", or the like; the eagle is now replaced by two tablets inscribed "LOI."

With the exception of a very few stamps (probably not more than one or two hundred in all) of the denominations between one and ten dollars, inclusive, which were placed on legal documents, all of the stamps that were issued and used were absolutely destroyed by being cut in half, as the manner in which they were used was by having them affixed to invoices, one half of the stamp on the invoice and one half on the stub so that when the invoice was detached from the stub the stamp was cut in half.

EDITORIAL.

THE Exhibition will be opened by Lord Crawford on the 23rd of this month. Tickets for the opening day will be 10/6; on all other days except May 26th and 30th, the admission will be 1/-. Saturday May 26th, and Wednesday, May 30th, will, chiefly in the interests of young collectors, be free days but admission will be by *ticket only*. Tickets for the free days may be obtained from our publisher or any other of the principal dealers or from the Hon. Secretaries of the Exhibition Committee.

The Exhibition.

The Catalogue of the Exhibition will be an interesting philatelic work, as it will give detailed particulars relating to the fine specialized collections which will be shown. It will be sold at 1/-, or copies may be obtained by post for 1/3 remitted to the Hon. Treasurer, F. Reichenheim Esq., 29 Holland Villas Road, Kensington, London. W.

A lengthy programme of Entertainments during the Exhibition has been arranged including several Receptions by prominent Philatelists.

In the present position of fiscal collecting collectors of British Revenue stamps are liable to be somewhat perplexed at unexpected "finds" of quantities of rare stamps. Such a case has recently happened, the stamps affected being Admiralty Courts and Scottish Law Courts. We note the facts of the case as far as we can learn the particulars in order that collectors may not pay high prices for stamps which, until the present "find" is absorbed will be comparatively plentiful.

Admiralty Court, &c.

A considerable quantity of the Admiralty Court Stamps have been found and it is curious that the bulk of the specimens are perf. 16, copies of which have hitherto been very difficult to obtain. We believe there are no copies of the £5 value but all the other values may now be purchased in sets at a very low figure. So also with the stamps, perf. 14, but there are not so many of these. As regards the Scottish Law Court Stamps the find consists of stamps of various issues but not nearly in such large quantities as the Admiralty Courts to which we have just referred.

NOTES ON RAILWAY STAMPS.

BY G. W. J. POTTER.

WHEN the clerk of the Bristol and Exeter Railway cancelled the original 2d., stamp, illustrated in last month's *M.P.J.*, he little thought of the consequences that would arise from such an act. Doubtless he was in a hurry, for he managed to smear it so effectually that the control number is not decipherable, and worst of all, the initials of the owning company are rendered almost illegible. The type employed was Old English, and in some founts, the characters are not always easy to decipher; hence one letter may be mistaken for another. In the illustration, the B., &, and R are fairly clear, and it was probably this fact, together with the apparent similarity to the Bristol and Gloucester series, that caused 'K' to assign it to the latter company. (*M.P.J. II. 14*).

The recent acquisitions of Mr. Morley chronicled last month, were, following this description, erroneously attributed to the Bristol and Gloucester Railway. Upon comparing the two illustrations, it will be noticed that though somewhat similar at first sight, there is a considerable difference between the two stamps. Having had an opportunity of inspecting this last find, I am enabled to say that the 2d., value is undoubtedly a stamp that was issued by the Bristol and Exeter Railway, while the 3d., is one of the Bristol and Gloucester series.

Consequently the revised list of these companies should read as follows.

BRISTOL & EXETER RAILWAY.

Value.		Control No.
½d.,	black on cream	785
1d.,	" white	
2d.,	" yellow	3511,6444

No. 3511 bears date stamp of B & E. R. Ap. 5. 75 Tiverton. The 1d., white has been included because there probably was that value though I have not yet seen it, and I cannot accept 'K's' hypothesis that it was a cloakroom ticket.

BRISTOL & GLOUCESTER RAILWAY.

Judging from such stamps as are available there appear to have been three issues at least. Firstly, imperf., with signature at foot; secondly, p. 10, with signature and 'not exceeding 1lb. in weight' reading upwards; thirdly, p 12½, signature and inscription omitted. As 'B. & G. R.' is sometimes on the same level as 'Date' and sometimes below, there would seem to be yet another issue. Perhaps readers will be enabled to add information on this point.

1d., black on white imperf. Henry Dykes
2d., ,, blue ,, ,,
3d., ,, rose ,, ,,
1d., ,, white, perf. 10 ,,
1d., ,, white, ,, 12½
3d., ,, rose ,,

LONDON & NORTH-WESTERN RAILWAY.

In *M.P.J.* II. 6, speaking of the 'Authorised Advertisement' stamp of the Great Northern Railway, I mentioned that it was the only company, I thought, that used such a stamp. Since then I have obtained copies of a stamp issued by the L. & N. W. R., and intended for a similar purpose. They have long been obsolete, and at present I am only able to give details of measurement and design.

Size of stamp, 60 x 62 mm., imperf, black on yellow. In the centre, Britannia, with train on viaduct, encircled by band with legend: LONDON & NORTH WESTERN RAILWAY COMPANY. Around this AUTHORISED ADVERTISEMENT in large capitals, a double ring enclosing all. At the bottom left hand corner, the letters E.P., and a dotted line for instructions. The whole within an Oxford frame.

Another variety, presumably a later issue, has the words, 'Authorised Advertisement' in block capitals; E.A. at the foot; and the diameter of the largest circle is 38 in place of 42 millimetres.

AMERICAN RAILWAY STAMPS.

Mr. J. G. Cairns submits the following varieties:—

American Express Co. Oblong, 71 x 46 mm. containing a white engine-turned pattern and large white letters "AM. EX. CO" on a green ground. Overprinted "American Express Co." on fancy black label and in black. "Prepaid Newspaper Stamp" and other inscriptions. Signature. "Chas. G. Clark." Imperf.

Prepaid for 2 lb., green and black.

Mr. Cairns states that he has also the 1 lb., 3lb., 4lb., 5lb., 10lb., stamps.

Brinks C. C. Express Co. Oblong, 60 x 36 mm., with horse and cart on left. Inscriptions "Prepaid Parcel Stamp" & name and address of Co. Signature "A. P. Brink." Rouletted.

10 c., lilac-grey

Pennsylvania Railroad Co. Oblong, 46 x 28 mms., containing a white engine-turned pattern on a pink ground. Overprinted Pennsylvania Railway Co. on a fancy black label and in black "PACKAGE STAMP" with figure of value "5" between these two words. In left lower corner the rates in 3 lines viz; Under 10lb., 5cts, 10 to 25 lbs., 10 cts, over 25 to 50lbs., 15 cts. Signature "J. R. Wood." Perf. 12.

5c., pink and black

Wells, Fargo and Co. Express. Oblong, 90 x 55 mm., with engine-turned pattern and large white letters "W F. & CO. EX." in thin white frame in centre on a flesh-coloured ground. Inscriptions in black "Wells Fargo and Co. Express - Atlantic Department - Prepaid Stamp for charges on Newspapers and Magazines" Signature "Dudley Evans." Imperf.

1c., flesh and black.

Denmark Railways. Mr. J. G. Cairns informs us that a new series of Danish State Railway bill stamps appeared about six months ago. He submits one value, a 5c., which has figure "5" in circle in centre with words "ore" in small circles on each side. Above central circle is a crown and winged wheel while below is a label bearing the letters "D. S. B." (Danske States Banner) Perf. 12½

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Cuba. *Cuba, Philippines and Porto Rico. Derecho Judicial, 1856.* Our publisher submits a block of 14 of the 1 real, greenish-blue, in two rows of 7 stamps. The sheets of these stamps usually, we believe, consist of 5 rows of 5 stamps so that the block before us indicates at least one other setting.

Cuba and Porto Rico. Documentos de Policia. Our publisher submits two uncatalogued shades of the 8 escudos of 1867. The ordinary stamp is lilac on *yellow*. The two stamps before us, both used on portions of the original document, are lilac on *buff* and lilac on *cream* respectively. He also sends the 20 pesetas of 1875 in *grey-green on yellow* instead of violet on yellow, the usual colour. All these three stamps have been used in Porto Rico.

Durango (*Mexico*). *Derecho municipal, 1876.* M. Albert Baillière notifies an uncatalogued value of this issue

8c., rose

Great Britain. At the April meeting of the Fiscal Philatelic Society M. A. Bailliére sent for exhibition two interesting stamps:—

Customs. 8d., General duty die E. (dated 12. 4. '76) struck in vermilion on Foreign Bill paper wmk., double-lined V.R. and surcharged "CUSTOMS" and also "Specimen."

Public Records. 1s., General duty die E. (dated 21 3. '68) struck in pink on thin blue glazed unwatermarked paper and surcharged "PUBLIC RECORDS." This stamp was also overprinted with the oval handstamp "Postage Stamps, 24th March, 1868" on which we offered some observations in our Editorial of November last.

Guatemala. Our publisher submits the complete set for 1893-94 *imperf.* They are ungummed and may possibly be proofs.

Natal. Our publisher submits the 1d., yellow of 1869 on thin paper coloured throughout. It is cut close and may be a non-adhesive.

Porto Rico. *Aduanas.* Our publisher submits a pair of the provisional chronicled by us in July 1904 the left hand stamp of which only shows the word "ADUANAS" of the surcharge; there are however faint traces of the first figures of the second and third lines. Also a strip of three of the same provisional, the centre stamp of which lacks the surcharge altogether.

Further we have the 50c., Aduanas stamp of 1898-99 (type of the Spanish Sello stamp of 1896) with the same surcharge as the foregoing provisionals applied horizontally.

35c., on 50c. d. peso, blue

Salvador. Our publisher submits the following varieties of the usual type.

Timbre, 1904. 5c., black on blue-green

Instruccion primaria, 1903. The 20 pesos chronicled last month exists in two varieties, one having a small "2" in the figure of value "20."

Do. 1904. 1c., black on white, small cap. "c" in "Centavo" sur. "Revisado" in violet.

1c., black on white, large cap., "C" in "Centavo," sur. "Revisado" in blue.

30 PESOS, pale olive, sur. "Revisado" in blue.

Tasmania. *Stamp Duty.* The following values in the current set have not yet been chronicled by us. The particulars are taken from the set sent on loan to the Fiscal Philatelic Society by the Tasmanian Government.

The Fiscal Stamps of Guatemala.

By Walter Morley.

GUATEMALA, a country of Central America has an area of 48,300 square miles. The census returns of 1893 gave the number of the population as 1,364,678 of whom 882,733 were Indians. Guatemala was formerly a captain-generalcy of Spanish America, which consisted of fifteen provinces (including Salvador, Honduras, Nicaragua and Costa Rica), or in other words the whole of Central America and part of the present territory of Mexico. The name is now restricted to a small part of the area which constitutes an independent republic. Guatemala began to shake off the Spanish yoke in 1820, and a confederation of the Central American States was affected in 1824, but wars between the various states occurred on frequent intervals down to 1870, and the recent history of the country is mainly a record of political, military, and financial trouble.

Of the revenue of Guatemala, about 36 per cent is derived from liquor and tobacco taxes, 28 per cent from import and export duties, 9 per cent from property, road, military, slaughter and salt taxes, 1.7 per cent from the gunpowder monopoly, and the remainder from various taxes, stamps, Government lands, and postal and telegraph services. The gross revenues collected for the years 1892 to 1899 were—

1892.	8,660,490	pesos
1893.	10,442,750	,,
1894.	11,851,030	,,
1895.	14,491,670	,,
1896.	15,150,740	,,
1897.	12,479,740	,,
1898.	9,738,661	,,
1899.	8,566,910	,,

The first adhesive fiscal stamps known to collectors which are rather roughly engraved and badly printed, date from 1868. The first postal issues of 1871 are a copy of this issue, but better engraved and printed. From 1881 to 1888 the fiscal stamps were type set and dated, and many errors and varieties are found on the sheets which were first described by Mr. G. W. Pepper in *Morley's Philatelic Journal* for May, 1903. Much additional information has been obtained since by some keen specialists of this country.

The 1868 and 1881 issues are known postally used, but they have been dropped from the postage catalogues of late years, though the 1895 and 1898 issues figure very largely with postal surcharges.

1868. The issue consisted of six values, similar to type 1 (4 reales), the designs of Arms in centre oval being in different shaped shields. The stamps are printed on very thin paper varying from white to azure tinted, and issued imperforate.

½ real, deep red
½ ,, pale red
½ ,, brown
2 reales, orange
2 ,, orange-brown
4 ,, blue
1 peso, green
2 pesos, pale red-brown
3 ,, brown
3 ,, black-brown

Type 1

The ½ real in *brown* is *very rare*.

1874. Similar to type 1, but arms with a *scroll* in centre oval bearing the words "Libertad 15 de Septre 1821".

½ real, deep red
½ ,, red-brown
½ ,, brown

Variety: *tête bêche.*

½ real, red-brown

Variety: on blue paper.

½ real, pale red

The ½ real, deep red, and the variety on blue paper are very rare.

I have seen a sheet of 90 (10 rows of 9) of the ½ real red-brown in which all the stamps were normal. The sheet in my collection contains two of the stamps inverted in the sheet, the 6th stamp of the 7th row, and the third stamp of the 9th row.

EDITORIAL.

The Exhibition.

THE International Philatelic Exhibition of 1906 is a memory of the past and all are agreed that it has been a triumphant success. Not only has the quantity of stamps shown exceeded that of any previous Exhibition but the quality and philatelic knowledge displayed in the arrangement of collections has been of the highest order; several individual exhibits displayed real research and demonstrated discoveries of the greatest importance. We are very glad to see that the Jury, whose task was of the utmost difficulty, evidenced by their awards that this philatelic study weighed heaviest in their estimation as it will in future tend to discourage mere accummulations of rare stamps by collectors with unlimited powers of acquisition. The competition was very severe and many exhibits, well worthy of an award, had necessarily to be passed over and though in a few cases the awards were open to criticism as a whole the Jury performed their arduous duties in a highly satisfactory manner. Successful exhibitors in this Exhibition may congratulate themselves on having won recognition which is no barren honour.

The Royal Horticultural Hall was eminently suited for a Philatelic Exhibition but is somewhat difficult to find and was unfortunately not nearly large enough. Nearly every exhibit had to be partly suppressed, sometimes seriously, which is somewhat mortifying to the exhibitor while preventing the observer from forming an opinion as to the merits of the exhibit, though no harm is done to the exhibitor in the matter of awards as the unshown residues of the collections were all inspected by the Jury.

Quite a new arrangement of classes was adopted for this Exhibition, a geographical arrangement giving place to a grouping by relative "difficulty" of collecting. This certainly had the merit of making competition "international" in two senses but will probably give rise to some discussion as a plan for future Exhibitions. One obvious defect is that it is very puzzling for a visitor to the Exhibition to find the stamps of any country that he may particularly wish to see or to comprehend the arrangements generally. In the present case this difficulty was increased by no clear indication in the Catalogue between the numbers of the blocks of stands and the numbers of the exhibits.

The Exhibition may claim to have been truly international in character as no less than about one-third of the exhibitors were foreigners and these took a very fair proportion of the awards. One of the most attractive features of Exhibitions viz.; a general *réunion* of philatelists was eminently realised and the abundant hospitality offered generally to philatelists will enable all to carry away reminiscences of a pleasant holiday. As to the total number of visitors to the Exhibition in general we are inclined to think that it was not what might have been expected but in this we may be mistaken.

It is impossible for us to give a complete notice of all the features of the Exhibition, all we can do is to add a short record of the chief events. On Wednesday morning, May 23rd, H.R.H. the Prince of Wales paid a private visit and was received by the Executive Committee. H.R.H. stayed about 2½ hours examining the Exhibits under the guidance of Lord Crawford. In the afternoon at 3 p.m. Lord Crawford formally opened the Exhibition.

The Official Banquet was held on Friday, May 25th and was attended by about 130 ladies and gentlemen but this event was eclipsed by the Banquet given by the Herts Society on Tuesday May 29th, the menu on this occasion bearing on the outside cover a 1s. Newfoundland, printed from the original die on white card in carmine-red. On May 26th, a party of philatelists took a river trip from Goring to Henley where they were received by Mr. and Mrs. Oldfield. On Sunday the 27th, the Judges were kindly invited by Mr. Castle to Brighton, and in the evening Mr. Reichenheim gave a dinner to a number of foreign visitors at his house at Kensington. On the morning of Monday, May 29th, Mr. Bacon conducted a a party of visitors to the British Museum to inspect the Tapling collection and delivered an address on the history and arrangement of the collection. In the afternoon a number of visitors attended an afternoon reception by Mr. and Mrs. Hausburg at Weybridge where a most delightful afternoon was spent. On Thursday the 31st, a party went from Paddington to Windsor and having inspected the Castle, were entertained by Sir William Avery at Oakley Court. On May 24th and 28th Mr. F. J. Melville gave lantern lectures at the Exhibition and from time to time parties of gentlemen, mostly the foreign visitors, had an opportunity at the invitation of Lord Crawford, of inspecting his famous philatelic library and some of his collections of stamps.

NOTES ON CURRENT BRITISH RAILWAY STAMPS.

By P. Evans.

Cheshire Lines Committee.

THERE has recently been a change in the current 1d. stamp, the design having been redrawn. A comparison with the old type shows considerable minor differences in the design. The colour has been changed to a deep chocolate-brown, and the stamp is now rouletted instead of having the usual needle perforation. The remaining values do not yet appear to have been altered.

Great Central Railway.

This company apparently sees some advantage in the old roulette system of perforation, as all values of the prepaid Newspaper Parcel Stamps now come rouletted instead of perforated.

The 1d. value has been appearing in a variety of shades, ranging from dark blue to slaty-purple. The other values vary but little from their usual bright blue colour.

Great Eastern Railway.

Some particulars of the current Prepaid Parcel Stamps may be worth recording. These stamps were first issued in May, 1905. The complete set consisting of thirteen stamps, viz.: 1d., 2d., 3d., 4d., 5d., 6d., 7d., 8d., 9d., 10d., 11d., 1/-, and 2/- The design and colour is the same for all values, the only difference being in the figure of value.

Their chief peculiarity, apart from their ugliness of design and coarseness of execution, lies in the fact that they are not issued in sheets, as is usual, but in rolls, wound on a spool.

Each roll containing 500 or 1000 stamps. Small stations receiving the smaller sized rolls, and stations having heavy traffic the larger rolls.

Special cabinets conveniently fitted up to take complete sets of the rolls of stamps are supplied to the parcel offices, and these greatly facilitate the handling of the stamps, any value or combination of values being procurable therefrom without delay.

The stamps being wound on the spools in one long strip are imperf. top and bottom, but rouletted between for tearing off. Those issued to the principal stations have the name of station printed in the space at top of stamp, but for ordinary small stations are issued blank. Owing to the system of winding the stamps in rolls it is impossible to issue them ready gummed on account of the danger of their sticking together.

Manchester & Milford Railway.

This Company's stamps are obsolete since May 31st as the line was taken over by the Great Western Railway Co. on June 1st.

The Fiscal Stamps of Guatemala.

By Walter Morley.

(*Continued from page 42.*)

1881-82. This issue consists of 7 values (type 2) with type-set borders, date and values, the arms in centre being added by a second printing, so that the colour varies considerably from dark centre and light frame to vicê versâ as extreme shades. They are all on white laid paper in sheets of 50 (10 rows of 5) and perforated 12. A few entire sheets fortunately turned up in 1902, and thus enabled a description being placed on record. These stamps and the succeeding type-set issues had always been very scarce and little known to collectors, and the majority (including all the unused sheets) speedily found their way into the best collections. It is necessary to describe each value separately as the setting of each differs in the various sheets.

Type 2

1 Centavo, Black.

The value is type-set "*UN Centavo.*"

The space between "*UN*" and "*Centavo*" varies considerably.

No. 28 has a comma after "*Centavo*".
,, 31 has a raised stop after "*Centavo*"
,, 18 has an inverted "*L*" instead of "*T*" in "*TIMBRE*".
,, 46 has "*TIMBBE*" for "*TIMBRE*".
,, 30 has wider space between "*D E*" of "*DE*".

There are two fonts of figures used for the date 1881-1882, large and small, and on some stamps these are mixed.

No. 34 has first "1" of "1881" small.
,, 9 and 26 have second "1" of "1881" small.
,, 31 has second "8" of "1881" and second "8" of "1882" small.
,, 32 has second "8" of "1882" small.

No. 33 has first "8" of "1881" small.
,, 35 has "1" and first "8" of "1882" small.
,, 36 has first "8" of "1882" small.
,, 37 has "88" of "1881" and first "8" of "1882" small.
,, 41 has first "8" of "1881" small.

The outer frame also varies; the corners of numbers 1 to 20, 26 to 29 have pear shaped ornaments; of which numbers 8 and 15 have one of the corner ornaments placed sideways. The corners of numbers 31 to 48 and 50 have a diamond shaped ornament. The corners of numbers 21 to 24, 30 and 49 have an ornament of overlapping squares (*see* illustration), while number 25 has the top corners with diamond shaped and the lower corners with overlapping squares.

5 Centavos, Red.

This value is type-set "*CINCO Centavos.*"
The space between "*CINCO*" and "*Centavos*" varies considerably.

No. 2 on sheet has a dash in lieu of stop after "*Centavos*".
,, 5 has stop raised to top of "*s*" after "*Centavos*".
,, 8 has letter "*n*" in "*Centavos*" inverted.
,, 18 has inverted "*L*" for "*T*" in "*TIMBRE*".
,, 24 has inverted "*e*" in "*Centavos*".
,, 26 has no stop after "*Centavos*".
,, 28 has a comma instead of stop after "*Centavos*".
,, 31 has a raised stop after "*Centavos*".
,, 46 has error "*TIMBBE*" for "*TIMBRE*".

The figures used for date "1881—1882" are from two fonts, large and small, while they are mixed on the following stamps on the sheet.

No. 32 has second "8" of "1882" small.
,, 35 has first "8" of "1882" small.
,, 36 has first "8" of "1882" small.
,, 37 has "88" of "1881" small.
,, 38 has first "8" of "1881" small.
,, 41 has first "8" of "1881" small.

The outer frame is the same setting as on the 1c. value.
Stamp number 30, which in the 1c. has "*D E*" of "*DE*" wider apart, is of the normal setting on the 5c. value.
The 5c. value also exists imperf. between both vertically and horizontally.

10 Centavos, Violet Brown.

The value is type-set "*DIEZ CENTAVOS*".
The space between "*DIEZ*" and "*CENTAVOS*" varies considerably.

No. 18 on sheet has inverted "*L*" for "*T*" in "*TIMBRE*".
,, 20, 23, and 26 have a broken "*E*" reading "*DF*" in "*DE*".
,, 46 has error "*TIMBBE*" for "*TIMBRE*".

I have not personally examined an entire sheet of the 10c. value, and give above varieties on the authority of Mr. G. W. Pepper. Amongst single varieties in my collection I find the following varieties of this value.
Raised stop after "*Centavos*".
Date figures large.
Date figures small.
Of varieties of mixed figures for date, I have

First "8" of "1881" small.
First "8" of "1881" and second "8" of "1882" small.
Second "8" of "1882" small.
"1" and first "8" of "1882" small.

In outer frame I have varieties of corner ornaments as under.

Pear shaped.
Diamond shape.
Overlapping squares.

20 Centavos, Violet.

This value is type-set "*Veinte Centavos*".
The space between "*Veinte*" and "*Centavos*" varies considerably.

No. 18 on sheet has inverted "*L*" for "*T*" in "*TIMBRE*".
,, 26 has no stop after "*Centavos*".
,, 28 has a comma after "*Centavos*".
,, 31 has a dropped stop below "*s*" after "*Centavos*".
,, 46 has error "*TIMBBE*" for "*TIMBRE*".

The figures used for date "1881 and 1882" are from two fonts large and small, and varieties of mixed type are found as under on the sheet.

No. 9 has second "1" of "1881" small.
,, 31 has second "8" of "1881" and second "8" of "1882" small.
,, 32 has second "8" of "1882" small.
,, 33 has first "8" of "1881" small.
,, 34 has first "1" of "1881" small.
,, 36 has first "8" of "1882" small.
,, 37 has "88" of "1881" and first "8" of "1882" small.
,, 38 and 41 have first "8" of "1881" small.

The outer frame has the same varieties of setting as the 1c. and 5c. values.

1 Peso, Green.

The value is type-set "*UN PESO*".
Space between "*UN*" and "*PESO*" varies.

No. 4, 5, 17, 23, and 31 have no stop after "*PESO*".
,, 18 has inverted "*L*" for "*T*" in "*TIMBRE*".
,, 28 has a comma after "*PESO*".
,, 46 has error "*TIMBBE*".
,, 49 has error "*PEEO*" instead of "*PESO*".

These varieties are given on authority of Mr. G. W. Pepper.

I have both varieties of date figures (large and small), and the following mixed figures.

Second "1" of "1881" small.
"88" of "1881" and first "8" of "1882" small.

In the outer frame I have the three varieties as in the 10c. value.

5 Pesos, Blue.

The value is type-set "*CINCO PESOS*".
Space varies between "*CINCO*" and "*PESOS*".

This is the only value of this issue of which an entire sheet is not known. The following varieties exist.

Error "*TIMBBE*".
Error inverted "*L*" for "*T*" in "*TIMBRE*".
No stop after "*Pesos*".
Comma after "*Pesos*".
Date "1881-1882" large.
Date "1881-1882" small.
Mixed dates probably exist.

In outer frame, corner ornaments pear shaped.
,, ,, ,, ,, diamond shaped.

10 Pesos, Yellow.

The value is type-set "*DIEZ PESOS*".
Space varies between "*DIEZ*" and "*PESOS*".

An entire sheet came into my possession some 10 or 12 years ago and was broken up without examination for varieties; being a very badly printed sheet, a good many of the stamps were almost un-decipherable. I have the following varieties.

Inverted "*L*" for "*T*" in "*TIMBRE*".
Date figures large.
Date figures small.

In outer frame, corner ornaments pear shaped.
" " " " overlapping squares.

Similar stamps to type 2, but printed on *wove paper*, and dated "1883-1884". 1883—1884. Perf. 12.

1c., black	1 peso, green
5c., red	5 pesos, blue
10c., violet-brown	10 pesos, green
20c., violet	

I have not seen an entire sheet of this issue, but have a block of 25 of the 20c. value. The border of the stamps seems to be the same setting, or nearly so, as the previous issue. I have noted the following varieties, and have no doubt others will be recorded as the stamps come to light.

5c., Red.

Value is type-set "*CINCO Centavos*".
Error: "*Centavo*".
Date large.
Date small.
Error: Inverted small figure "1" in "1883".
Border: corner ornaments diamond shaped.

20c., Violet.

Value is type-set "*Veinte Centavos*".

Error: "*TIMBBE*".
" "*TIMRRE*".
Variety: small "*e*" in "*Centavos*".
" upright "*te*" in "*Veinte*".
" " "*t*" in "*Veinte*".
" " "*s*" in "*Centavos*".
" " "*t* and *s*" in "*Centavos*".
" " "*e*" in "*Centavos*".
Date large.
Error: "8884" for "1884".
Border: corner ornaments pear shaped.
" " " diamond shaped.

1 Peso, Green.

Value is type-set "*UN PESO*".

Variety: inverted comma after "*PESO*".
Date large.
Border: corner ornaments pear shaped.
" " " diamond shaped.

EDITORIAL.

THE past few weeks have seen the appearance of a number of philatelic publications which we can recommend all philatelists to acquire for their libraries. First of all we have part 2 of Gibbon's Catalogue for the period 1906-7. As this is an indispensable volume for the active collector we need only refer to the improvements which have been made in this edition. Austria and Austrian Italy have been re-written and many new varieties added. In Bosnia the two types of each value and the redrawn type of the 5 kr. are now listed while the perforations have been revised. The big groups of German States, Holland and Colonies, Italy and States, have been revised and among the latter Modena has been rewritten on the lines of the handbook by Dr. Diena, Dominican Republic, Greece, Hawaii, Roumania and Servia, Sweden and Norway, Turkey and United States, have been revised or even partly rewritten.

Gibbons' Catalogue, Part 2.

Messrs. Stanley Gibbons have also issued in book form under the title "*Fifty years of Philately. By C. J. Phillips*" the series of articles on the history of the firm which have been appearing in "*Gibbons Stamp Weekly.*" Many philatelists will be glad to have in this form the interesting history of the rise and progress of our leading dealers, embodying as it does, the somewhat sensational record of purchases and sales of notable collections and rare Stamps.

* * * * *

Mr. Bertram W. H. Poole has written a handy book of reference on "*The Postage Stamps of the Seychelles.*" *Published by O. Marsh, Belvedere Road, Norwood.* Price 1/- nett. The two types of the first issue are fully described together with the chief varieties of the somewhat numerous provisionals of this country. The book is well illustrated and we can recommend it as a reliable guide for those who are collecting the stamps of this country.

Seychelles

From Mr. D. Field of the Royal Arcade, Old Bond Street we have received another work by the last named author. In this case it is the stamps of Sarawak which are dealt with. The title of the book is "*Sarawak. A complete history of its postage Stamps*". The stamps of Sarawak have been somewhat neglected by collectors and not much has been written about them, so that in this volume Mr. Poole has had an opportunity of breaking some fresh ground. He has a lot of interesting matter to tell us with regard to the early issues. The first issue in 1869 consisting as it is well known of one value, the 3 cts., with the portrait of James Brooke was a "Postage and Revenue" stamp. Mr. Poole quotes from the *Stamp Collectors Magazine* the official document to its use. As this is of some interest to fiscal collectors we reproduce it here.

Sarawak.

GOVERNMENT NOTIFICATION.

On and after the 1st of March, 1869 the following rules will come into force:—

POSTAGE.

On all letters not exceeding half an oz.	1 stamp
On every ½ ounce in excess up to 4 oz.	1 ,,
On all receipts or Paid bills over 5 dols.	1 ,,
On all Bills of Sale, etc., to become legal	1 ,,
On all agreements to become legal	1 ,,
On all bills of Lading or Mate's Receipts	1 ,,

By Order
W. M. Crocker,
Secretary.

Sarawak
Jan. 12th. 1869.

According to the Fiscal Philatelic Societies' Catalogue the first fiscal of Sarawak, the 3 c., black was issued in 1875, so that we infer that the 3c., (postage) of 1871 was also employed fiscally, while the 5 values (postage) which appeared in 1875 were not so used. Returning to the 3c. of 1869 the stamp was lithographed, and as is often the case with lithographed stamps, a number of flaws are to be found. Mr. Poole gives a list of the chief of these and we venture to suppose that further study will show that this stamp can be plated. This last remark applies to the two succeeding issues, though in this case the matter is complicated owing to the existence of more than one printing of some of the values. Of the 3c. of 1871 with the portrait of Charles Brooke, Mr. Poole finds 3 printings, one of which can certainly be plated. The chief varieties of these printings are fully described. In the case of 1875 issue of the same type as the last, the five types of each value are illustrated and described. There seem to be 2 printings of the 2 and 6 cents and one each of the 4, 8 and 12 cents. The later issues are fully described. Altogether these stamps are very interesting and should well repay specializing. Those collectors who are on the look out for new fields to conquer, and decide on this country will find it necessary to start with a careful study of this interesting little book.

THE FISCAL PHILATELIC SOCIETY.

MEETING held on June 28th, 1906. Present:—Mr. Schwabacher (Chair), Messrs. Cooper, Crofton, South, Thomson, Kay.

The Rev. R Benjamin, A.M (U.S.A.) was duly elected a member.

Mr. C. S. F. Crofton read an exceedingly interesting paper on the Telegraph and Revenue Stamps of Ceylon, illustrated by his fine collection of the Stamps. Among other valuable and interesting information given, were the numbers printed of the various provisional stamps, and also particulars of some stamps as yet to be found. As time did not permit of the paper being completely read, it is hoped that Mr. Crofton will be able to give a further instalment during the coming season.

The Continental and American Exchange Sections are discontinued during the summer months, and no sheets need be sent for circulation until next September. The Home Exchange Section will be carried on as usual

The Annual General Meeting will probably be held on October 4th next, but due notice will be given of same.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

1885-1886. Same type. This set is scarce, only a few odd copies being available for examination.

1c., black (*UN CENTAVO*)
5c., red (*CINCO Centavos.*)
10c., violet brown (*DIEZ CENTAVOS.*)
20c., violet (*Veinte Centavos.*)
1 peso, green
5 pesos, blue
10 pesos, yellow green ?

All the copies I have so far seen have pear shaped corner ornaments.

Varieties of 10c. value.

Error : "*CETTAVOS*".
Value in small letters "*Diez Centavos.*"

1886-1887. This set was not recorded in Moens' or Roussin and only 2 values are now known. They are similar type to preceding issues. The copies I have seen have the dates in smaller figures and the corner ornaments are pear shaped.

5c., red
20c., violet

1887-1888. Type 3. The border of this issue is made more fanciful and it is difficult to know which is the normal way up of the inscription and date. Printed on white wove paper. Perf. 12.

1c., yellow	20c., blue
5c., brown violet	1 peso, black
5c., brown	5 ,, ?
10c., green	10 ,, ?

I have not seen any errors or varieties of type setting, but there appears to be three printings of which I have seen the following varieties.

Swedish Stamps.

WE have received from the Sveriges Filatelist Förening the third edition of a very useful Catalogue of the postage stamps of Sweden. The work is entitled "*Verzeichniss uber die Postwertzeichen von Schweden*," and the text is in German. Each stamp is illustrated and catalogued in all its varieties and shades; reprints are also included. An attempt has also been made to indicate the relative values of each stamp and its varieties, the stamps being priced throughout in German currency. A useful work. The price is 1 mk. 25.

Hat Stamps.

Our publisher has found a leaf from an old account book containing entries relating to the sale of hats at the time when "hat stamps" were in current use. Unfortunately the entries are very short and do not throw any light on the manner of employment of the stamps but we venture to reproduce them here, as the record may possibly turn out to be of some interest hereafter.

BRITISH RAILWAY STAMPS.

Mr. J. Cairns sends a number of novelties;—

B.C.T It is not known what these letters stand for. The stamp submitted is a double-lined rect., 25 x 45 mm., with large black figure of value in centre "2d."; above and below are straight labels bearing the words "PARCELS" "TICKET" on a black ground; above the upper label are the letters "B.C.T" and below the lower label the control number in black figures. Rouletted.

2d., black on orange

Dublin United Tramways Co. Name above, and large figure of value printed over scale of charges; the words "Parcel Ticket" above figure of value and notice below. Control no. in red figures across stamp. Perf. 10

1d., black on green

Dundee City Tramways. Type set "Parcel Label" on white paper.

1d, black on white

Great Western Railway. Another value of the 7th issue chronicled in Feb, 1901 (Vol. 11. p. 14.)

4d, black on white

London and North Western Railway. A stamp of which the use is not indicated. Rect., 21 x 36 mm., with figure of Britannia and a train in oval in centre and name of railway in white letters on a black ground on arched label above. On straight label at base the words "Euston and Birmingham" in black and "in 2 hrs" in white on red ground. Perf. 11.

(Value not indicated), red and black

Manchester Corporation Tramways. Oblong rect., 55 x 38 mm, with large white figure of value in a diamond, above which is an arched label bearing the words "Manchester Corporation"; "Tramways Parcel" on left and "Prepaid Stamp" on right; broad blank label below for control number which is printed in black. Rouletted.

2d., vermilion
3d., dark-blue
4d., dark-green
6d., violet

This company also issue another "departmental stamp," used for heavy parcels for delivery in their outer area. This stamp is not on sale to the public. Rect., 37 x 55 mm., with large white figure of value in circular band lettered "Prepaid Parcel Stamp" in centre, "MANCHESTER CORPORATION" in white letters on a coloured ground on straight label above, blank label for control no. (black) and words "Issued subject to regulations" below; "TRAMWAYS" on left "PREPAID" below and "PARCEL" to right of central circle. Rouletted.

6d., violet

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Arecibo. (*Mun. Porto Rico*) Mr. A. E. Lawrence submits a set of small bands, 60 x 10 mm., with value in centre and inscription on either side "*Impuesto Municipal Arecibo, Porto Rico U.S.*" Perf. horizontally only, 12

½c., rose
½c., dark blue
¾c., brown
1c., dark violet
1½c., pale green

We learn from a recent number of the *Bulletin Ficaliste* that two other series exist; same values and colours but sizes 118 x 14½ mm. and 125 x 14½mm.

British East Africa. In the *Stamp Collector's Fortnightly* (No. 295) Mr. A. B. Kay chronicles another value of the Nov. 1895 issue of postage stamps (surcharged on Indian) with overprint of "Inland Revenue" in violet

1r., grey

Colombia. Mr. A. E. Lawrence communicates a number of novelties and discoveries.

Habilitacion, 1905-1906. The usual triangular type with arms in circle in centre

10 pesos, black on green

The stamp is perf. 13½ along the bottom margin, which seems as if the sheets were perforated horizontally.

Timbre Departmental. The stamp chronicled in June 1904 surcharged **"habilitado"** in violet

Timbre Nacional, 1884. A new type of the surcharge of 1 peso on 20c., vermilion (Type 368 of the catalogue of the revenue stamps of South America). This type is faintly impressed in blue, *in two lines*, reading upwards "VALE $1.00—UN PESO. Mr. A. E. Lawrence also submits the 50c., on 20c., with the surcharge reading upwards instead of downwards as already catalogued.

1901-1902. The 30c., black on yellow surcharged in two lines at the base in red "HABILITADO—EXPENDEDOR."

1903-1904. The 4 pesos, black on rose chronicled in March 1904 surcharged in M.S. in black "*Habil Bien. de 1903 y 1904*" with a signature *Gimizelles*? at the base of the stamp.

1905-1906. Similar types to those of recent years. Perf. 13½.

1 cent., black on lilac (1a Clase)
1 peso, black on yellow (Clase 1a)
3 pesos, black on greenish blue (Clase 2a)
15 pesos, black on green (Clase 4a)

A 1 peso stamp of 1903-04 of the type of the 15 pesos, green chronicled in June 1904, surcharged in three lines reading vertically downwards "HABILITADA—para 1905 y 1906.—VALE 1 CENTAVO ORO" in violet

1c. on 1 peso, pale bistre

This 1 peso stamp has not yet been chronicled without surcharge.

Costa Rica. Mr A. E. Lawrence submits some values of the 1895 issue surcharged "1903" and "1904". These have been chronicled from time to time in "*Le Bulletin Fiscaliste.*" At the present date the full set appears to exist surcharged "1903", "1904" and "1905."

Cundinamarca. Mr. A. E. Lawrence submits the 8 mils. de peso, lilac with inscription in centre "SALVEMONOS DE LA LEPRA" chronicled and illustrated in *Le Bulletin Fiscaliste* no. 8, *on pelure paper* and also the same stamp with the inscription in centre removed and replaced by the Arms of Colombia on a white ground. This latter stamp is very roughly lithographed and printed in a redder shade of lilac.

Dominican Republic. Mr. A. E. Lawrence sends us a pair of the 5 pesos, red of 1884 the left hand stamp of which lacks the letter "I" in the word "CINCO" of the value.

Ecuador. The series of 1905-06 is of the usual type and the following values and colours are at present known. Some of these have been sent to us by Mr. A. E. Lawrence

1c., dark brown	20c., blue
2c., carmine	25c., lilac
5c., green	1s., orange-red
10c., black	

Jamaica. *Justice, 1858.* Mr. A. E. Lawrence submits a "piece" showing the 1s., rose "split" diagonally and presumably used for half its value. The document bears one stamp and a half.

Mexico. *Tabaco Cernido y Rape.* Mr. A. E. Lawence has discovered another issue of stamps for this duty. He sends us pairs, the right hand stamp of which bears the word "TALON" under the weight. The stamps are oblong rects, bearing inscriptions on an engine turned ground. Perf. 12

100 grams., green
100 grams., brown

Nicaragua. Mr. A. E. Lawrence submits a provisional fiscal stamp prepared by surcharging a railway stamp. The railway stamp in question which looks like one of Messrs. Waterlow's productions is a small rect. 20 x 25mm., containing the Arms of Nicaragua in a circular band lettered "FERRO CARRIL DE" in the upper part and the word "NICARAGUA" on a scroll at the base. Between the circle and the scroll is the figure "1" on a lined tablet. The remainder of the rect. is filled up with ornamental scrollwork. The stamp is surcharged in two lines 10mm. apart, reading downwards "Timbre Fiscal—Vale 10 ctvs."

10c., red and black

The stamp is obliterated in 1906 and is therefore probably a recent production.

Panama. Mr. A. E. Lawrence sends the 1 peso, black on rose of 1895-96 and the same value for 1897-98 of Colombia surcharged with the oval handstamp lettered "TIMBRE ESPECIAL—DEPTO DE PANAMA" in violet, as on other stamps already chronicled.

British Patent Medicine Stamps.

THESE stamps form a long and intricate series of British Revenue stamps of which at the present time no catalogue at all worthy of name exists. The following notes are mainly due to the patient and laborious researches of Mr. E. H. Selway, based on the collections of Mr. A. E. Lawrence and Mr. Walter Morley, and to him belongs the entire credit of the reference list of these stamps which follows. Those collectors who have attempted to study the stamps will be aware of the infinite complexity of the subject; for it is probable that most who have attempted to arrange their collections have abandoned the task in despair. Especial thanks are therefore due to Mr. Selway for providing a guide on which future researches may be based. Many additions and corrections will no doubt be made as time goes on but it will not be forgotten that it is Mr. Selway's work which has rendered any advance possible. Mr. O. Marsh has also contributed to these notes, while the data obtained by Mr. Fulcher at Somerset House are also included.

The first tax on medicines was imposed in 1783 (23 Geo. III. c. 62). It was then provided that upon every box, packet, bottle, phial or other enclosure of any medicine under the price or value of 2s. 6d., vended or sold, a duty of 3d.; on the price or value of 2s. 6d. and not exceeding 5s., a duty of 6d.; on 5s. and upwards, a duty of 1/-. Paper cover wrappers or labels were to be sent to the Commissioners of Stamps to be stamped. Penalty for fraudulently cutting, tearing, or taking off such cover, or making use of covers more than once, £10. For forging seal, stamp or mark with intent to defraud "death, without benefit of clergy".

It is to be observed that the method of levying the stamp duty differed from that now in force. *There were no adhesive medicine stamps in those days. They were not introduced until 1802* and the duty appears to have been impressed upon covers and wrappers provided by the vendors themselves. All patent medicines were taxed, but these cannot have been very numerous for between 1711 when Timothy Byfield obtained the first patent for "a new and most useful chimicall preparocon and medicine publickly known by the name of his 'sal oleosum volatile'" (sal volatile) to 1783 not more than 70 patents were taken out and of these although many can still be identified with medicines named in the schedules of the medicine

Stamp Acts, the greater number had expired, or the medicine dropped out of existence. Vol. xviii of the *Gentleman's Magazine* (1748) contains a list of no less than 202 nostrums, with the prices at which they were sold, the names and addresses of the proprietors, and the ailments which the medicines were said to cure. The compounding of medicines and making up of physician's prescriptions was almost exclusively in the hands of apothecaries, as chemists as yet scarcely existed about the time the first medicine Stamp Act was passed. As these were qualified practicioners under the act they were exempt from license and none of these medicines would be chargeable to stamp duty. The Act, therefore, could operate only on patent medicines and the recently established quacks and herbalists; so that Lord John Cavendish's anticipations of a productive duty of £15,000 were not verified, and after two years it was repealed and replaced by a more carefully considered measure.

The Act of 1785 (25 Geo. III, c. 79) gave the duty much the same scope that it embraces to-day. A reduced duty of 1½d. was charged upon medicines not exceeding price or value of 1/-, but other rates were unaltered and the duty imposed in wider terms. The duties were to be under the management of the Commissioners of Stamps; every vendor &c. was to send covers, labels, &c. to Commissioners for stamping as heretofore, and every packet &c. shall have pasted thereto such stamped cover, wrapper or label "as the Commissioners should direct".

The Schedule contains the names of 84 medical preparations upon which duty was specifically charged.

The next alteration of the law was made in 1802 by 42 Geo. III, c. 56, the oldest of the statutes relating to medicine stamp duty of which any part now remains in force. The Act declares that "the duties are much evaded"; repealed the old Act but substantially embodied all the previous provisions; gave more comprehensive interpretations and again altered the rates of duty, which scale has not been subsequently changed. *An important change in administration was that by which the Commissioners of Stamps were now required to supply the paper covers, wrappers, and labels stamped for denoting the duty and was in effect the introduction of the Adhesive Medicine Stamp, the earliest specimens of which were printed in 1802.* An amending act passed in the following year repealed the schedule of the 1802 Act, and replaced it by a new one containing the names of 450 articles liable to duty, or 80 less articles in a single year. A new schedule of dutiable preparations containing 468 medicines was passed in the year 1804 (44 Geo. III, c. 98) and remained in force till 1812 when it was repealed by 52 Geo. III, c. 150, and the new schedule contained 550 articles and medicines. Stamp duty was for the first time charged upon artificial mineral waters and soda waters.

EDITORIAL.

A Philatelic Index.

WE have recived a work which will be of great service to every active philatelist, entitled "*A Philatelic Index. By W. A. R. Jex Long.*" This contains a list of the principal articles in 14 of the chief British philatelic periodicals covering the period 1862-1904, entered under subject headings and not under authors. The question of a philatelic subject index of papers is one which is discussed from time to time in different journals but the compilation thereof being an arduous and we fear unremunerative task the work although of the utmost importance does not make much progress. We ought therefore to be especially grateful to Mr. Long for having completed a definite portion of this necessary work. Yet, speaking generally, it is strange that, under the circumstances, there is in bibliographical work a good deal of waste of labour. Each successive compiler of indexes seems urged by some unknown cause to re-survey some of the ground already covered by his predecessors. In philately not much bibliographical work has been done as yet, but in the present case we already have a very useful index by Mr. T. Martin Wears in the first two volumes of the *Philatelic Journal of Great Britain*, covering the period 1862-1889. Mr. Wears indexed 11 periodicals four of which are included in Mr. Long's list. The overlap is not extensive but Mr. Long might have saved himself the trouble as for as these four journals are concerned; and devoted the labour thus saved to some that have not yet been done.

The most serviceable form of index according to our ideas is a list under *authors* of the separate articles printed *one side of the paper only* so that the slips can be cut up and pasted on to cards. The importance of listing under authors in this manner lies in the fact that those who wish for a complete working catalogue can cut up two copies and thus create an author catalogue and a subject catalogue. If the slips are only by subjects they are useless for the purpose of an author catalogue, whereas by authors they can be made to serve the double purpose. Indexes in book form are open to the objection that with the lapse of time a series of volumes have to be consulted when looking up any given subject, which may get to be very troublesome and even hopeless. With a card catalogue additions as received can be intercalated in their proper places and there is no need to look in more than one place for the references required.

We do not make these remarks in order to disparage in any way Mr. Long's labours in the present instance. In all probability he has tackled the question in the most practicable way and at any rate we are thankful to him for providing us with a very useful work. We even venture to hope that he may receive sufficient encouragement to attack American, French and German literature in the same manner.

Before leaving this subject we should like to throw out a suggestion which some energetic person might be able to realise in a practical shape. We should much like to see a philatelic Bureau, modelled on the Concilium Bibliographicum at Zurich where one could purchase titles of papers on cards say at ½d each. How convenient it would be, if one were collecting, say Abyssinia, to write to such a Bureau "Please send me all the titles you have on Abyssinia" and receive a dozen or so for the sum of 6d or thereabouts. Such a scheme might perhaps be made to pay, especially if the indexing was well done and one could rely on nothing important being omitted.

* * * * *

Robert Ehrenbach.

It is with great regret we hear of the terribly sudden death of Mr. Robert Ehrenbach. At the International Philatelic Exhibition he appeared in perfect health so that his demise while travelling in Switzerland comes as a sad shock to his friends. He was an energetic philatelist and had at various times in his philatelic career made several notable collections. Though, as far as we know, he never collected fiscals yet he was not one of those superior philatelists who effect to despise "fiscals" and we well remember meeting him at the fiscal Exhibition last year, where he expressed his congratulations on the interesting show provided. He will be sadly missed in philatelic circles.

* * * * *

German Fiscals.

In our Fiscal Chronicle this month will be found the announcement of the issue of a series of fiscals to denote the new German tax on Steamer tickets. These stamps are designated by our German friends by the resounding title of "*Dampfschifffahrkartenstempelmarken*" !! But we learn from the daily press that taxes have also been imposed on beer and cigarettes. We presume there will be some more fiscals to chronicle very shortly.

MYSORE FISCALS.

We have received the following letter :—

Bangalore.
29.VII.06.

To the Editor Morley's Journal.
Dear Sir

In December 1903 you published a note of mine on the Mysore Court Fees. I obtained the figures from the Supervisor of stamps; he was unable to give me particulars of which were which but I have recently had the opportunity of examining the records, registers and files of the stamp office and regret to inform you that I made a serious error in my note to you The 1st issue 1872 was not British India overprinted "Mysore" but a native design printed in sheets of 30 types In the July number of the *Philatelic Journal of India*, a correct list of all the values of all the issues is given and you might like to copy such parts as correct the wrong impression which my note in your journal must have given

I am extremely sorry for the mistake but the officers of the Stamp Dept. here are not philatelists and were unable to get me correct information.

I am
Yours truly
E. W. Wetherell.

Our readers will please make the correction. We presume these native labels are of the type figured in Yvert and Tellier's Catalogue under the date 1875 We do not propose to reproduce here the nine pages of statistics in the July number of the *Philatelic Journal of India* but as our knowledge of these stamps is evidently very fragmentary, we hope that Mr. Wetherell, after he has published the results of his recent researches, will contribute to our columns a summary together with a reference list of the stamps.

TELEGRAPH CRONICLE.

Philippine Islands. Mr. A. E Lawrence submits the 2½ c. de peso, blue, postage stamp of 1880 surcharged "HABILITADO-TELEGRAMAS SUBMARINOS-1 PESO" in red. In the copy before us, the "N" of the word "SUBMARINOS" is reversed, that is the oblique stroke runs from right to left.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors, and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Germany. *Steamer Tickets. Ewen's Weekly Stamp News* states that a set of 18 values has been issued. They are exclusively for use in payment of the tax on steamer tickets issued abroad for use in Germany and must be affixed to the backs of the tickets and cancelled.

Guayama. *Porto Rico.* Band 112 x 9½ mm., with stars and stripes in circle in centre and value in words on each side; value "1 c," in rect. at each end and inscription on either side of central circle "Impuesto Municipal Guayama, Porto Rico." Perf. 11½.

1c., red.

New Zealand. *Stamp Duty.* Mr. J. E. Hounsell has shown us a copy of the small rect. 1d., blue on bluish paper.

Philippines. Mr. A. E. Lawence has made an interesting discovery in connection with the U. S. Internal Revenue stamps of 1899. He has found two values similar to type 318 of the Spanish Revenue Catalogue but with the figures in the circles below much smaller and also the words "PHILIPPINE ISLANDS" under the eagle in centre instead of being on a white scroll, are on the lined background of the centre. The lower value also exists imperf.

2c. de peso, rose.	Imperf. and perf. 12
10c. de peso, red-brown	Perf. 12

Porto Rico. *Aduanas.* Our publisher has found the provisional, 35c., on 50c., d. peso, blue chronicled in May last, with double surcharge. *Monte pio Medico Farmaceutico.* Rect., 46 x 29½ mm., lettered "Montepio Medica Famaceutico" above and "A/C ta Honorarios de esta Certificacion." Snake on rod at left and value on oblong label on a black ground across centre. Perf. 11½

1 peso., black on lilac

Salvador. *Conocimientos de Embalage.* Mr. A. E. Lawrence sends the 25c., olive of 1896, with black controls surcharged with a small double-lined circle containing the words "Cinocimientos de Embalage" round the margin in violet. The latter part of the last word is illegible.

Operaciones y Documentos diversos. Another value of the same type as that chronicled in April last.

5c., bright violet

The Municipal Stamps of Northamptonshire.

IN our Journal, Vol. I, p. 20, Mr. Ralph Douglas published some notes on the Municipal Stamps of Gloucestershire. We print here an official document detailing the manner of use of the corresponding stamps for Northamptonshire which is particularly interesting as explaining the use of the stamps surcharged "*GAOL*" which have been recently discovered.

THE LOCAL STAMP ACT, 1869.

RULES FOR THE COUNTY OF NORTHAMPTON.

1. The "Minute Book" hereinafter mentioned means the Minute Book to be kept by the Clerk to the Justices of each Petty Sessional Division under the order of the Court.

2. The stamps to be used within the jurisdiction of this Court for receiving fees, fines and penalties under the said Act shall be affixed, at the expense of the parties liable to pay such fees, fines and penalties, to the document on, or in which the process, matter, or proceeding in respect whereof such fees, fines and penalties are payable, shall be recorded, written or printed, or which may be otherwise used in reference thereto, subject to the following exceptions and qualification namely:—That in respect of any of the several matters specified in the first column, the stamps shall be affixed to the Documents specified in the second Column opposite to such matter,

1st Column.	2nd Column.
Certiorari, Return and Filing, Hearing (where no order or conviction), Oath.	On the return Minute Book Conviction, or Minute Book (if case dismissed) or on the information as the case may be.

and that in all cases which are heard but in which no conviction or order is made, or in which payment is made after commitment, there shall be affixed, at the expense of the parties liable to provide the same in the Minute Book, opposite to the entry of each case the Stamp or Stamps

proper to be received in such case which have not already been properly affixed to any other document.

3. Such stamps shall be adhesive and those denoting the payment of fines or penalties, shall be coloured Brown, with the lettering in Violet, and those denoting the payment of fees shall be coloured Blue with the lettering in Red and they shall be in the pattern and form of the specimens in the schedule hereunto annexed.

4. Every document requiring the signature of a Justice of the Peace to which any such stamp ought to be affixed, shall be duly stamped before it receives such signature, unless a Certificate shall have been signed thereon by a Justice of the Peace acting in the matter, that he has excused or postponed the affixing of the proper stamp or stamps. In the case of the dismissal of any complaint or information, such certificate shall be written in the said Minute Book.

Such certificate may be as follows:—

Stamp excused or postponed till certified. A.B.	Stamps to the amount of £..... excused or postponed till certified. A.B.

And every Stamp when affixed shall forthwith be cancelled by the signature or initials of a Justice of the Peace acting in the matter being written by him across such stamp.

5. The Stamp for receiving fines or penalties or parts of fines or penalties, payable to the County Treasurer, or to anyone on his behalf, shall be affixed to the Record of Conviction in each case, unless there shall have been a commitment in default of payment.

6. In the case of any person who after committal to prison for non-payment of a sum of money shall be liberated on payment thereof, the sum so paid shall be forthwith remitted by the Gaoler, or other person receiving the same, to the Clerk to the committing Justice or Justices in Stamps and not in money and so many of such stamps as shall represent money payable to the County Treasurer or to any person on his behalf shall be Stamps issued by the Treasurer with the word "GAOL" stamped across the face thereof, and such Clerk shall affix such last-mentioned Stamps to the proper place in the Minute Book and shall pay to the proper parties the monies represented by the other stamps so remitted, without making any charge for so doing.

7. In no case shall the affixing of a Stamp be finally excused until either it has been dismissed or the Defendant having been convicted and committed in default of payment has served out the term of his imprisonment to which he shall have been sentenced and then only on the ground of the inability of the party to pay the same.

Affixed to this Document are:—

Fines or Penalties Stamps 1d., 6d., 1s., 2s. 6d., 5s., 10s., £1, brown and violet, perf. 15½ x 15.

Fees Stamps 1d., 6d., 1s., 2s. 6d., 5s., 10s., £1, blue and red, perf. 15½ x 15.

The stamps are registered at Somerset House on the 25th Jan., 1870.

EDITORIAL.

WE have received from the Philatelic Society of India a reprint of the notes on "The Work of Messrs Thomas De-la-Rue & Co. as Manufacturers of Stamps" by Mr. E. W. Wetherell which appeared in the *Philatelic Journal of India* last year. The labour of compiling these notes must have been enormous and although the author admits there are some errors and omissions, yet the collector will find a large amount of information in a novel form which may on occasion prove exceedingly useful. The work is to be obtained from the Society's new printer, Messrs. Higgenbotham & Co., Madras, only. Price 6/-

Collectors of the stamps of Chili will find a small work entitled "*Estudios de la Filatelia de Chile. Por R. A. Mercado*" a useful guide. It deals with the postage stamps including "postage due," &c. postal stationery telegraphs and fiscals of this country and appears to be quite up to date. In the case of the postage stamps the numbers of each stamp issued are given. As regards the telegraph stamps we have some new and interesting information. The first issue took place in 1883 and consisted of the 6 values of large sized stamps already catalogued. The second issue, of the same type, but of small sized stamps took place in 1894 and consisted of five values, of which the highest (1 peso, brown) does not seem to have been listed hitherto. In 1898 the three lowest values were issued from a retouched plate, the animal on the shield having no main or tail; the colours of these are also deeper. The third issue appeared in 1900, of the type illustrated by us in May 1902, three values as catalogued but in 1902 the 20c., was issued from a new plate. The bust of Valdivia is larger on this stamp and the colour an intense blue. Telegraph stamps apparently became obsolete in 1904. As fiscal collectors are aware the fiscals of Chili do not present any difficulty. Our author however gives the date of the first issue as 1880, that is two years later than is usually given in European Catalogues, and the second issue as 1889, a year earlier than the one usually assigned to it. Of this second issue there is a 1 peso, orange, which has not yet been chronicled by us.

We warn collectors of some exceedingly dangerous forged surcharges on the early Orange Free State postage stamps, especially the 4d., on 6d., carmine, with normal and inverted surcharge and the 3d., on 4d., blue (Gibbons types c. d. & e.) with double surcharge.

Orange River Colony.

NOTES ON CURRENT MIDLAND RAILWAY STAMPS.

BY P. EVANS.

THE Midland Railway Company have recently adopted the system of denoting charges paid in advance for the carriage of parcels by means of a series of "Prepaid Parcel Stamps" thereby abolishing the system of "waybilling" which usually obtains.

The Stamps, which first came into use in July last, consist of a series of sixteen values; viz:—1d., 2d., 3d., 4d., 5d., 6d., 7d., 8d., 9d., 10d., 11d., 1/-, 2/-, 3/-, 4/-, and 5/-.

The severely plain and practical design, which is the same for all values, consists of a upright rectangular frame, size 40 x 27 mm., with bold figure of value in white on an ornamental shield of solid colour within a circle surrounded by a single lined square frame with an ornamental triangle in each of the four angles, lettered "*Midland*" over top of shield, and "*Railway*" at bottom "*Prepaid Parcel Stamp*" in two lines in a tablet at top of stamp, and figures of Control No. in black at bottom.

Colour light green on white paper. Perf. 11. Sixty stamps to the sheet, in five rows of six.

Of the ordinary series of orange coloured "Prepaid Newspaper Parcel" stamps there appear to be two plates in current use for each of the 1d., 2d., and 3d., values; viz:—The plates without control letter on left side of bottom scroll, and also plates with the control letter on scroll. The 1d., value now comes both "plain", and with Control letter "E", and the 2d., and 3d., values both "plain" and with Control letter "C."

The printings vary from pale orange to deep orange-vermilion, and there are also variations in the sizes of the figures of the Control Nos. at side.

The writer hopes shortly to have an opportunity of ascertaining exactly what plates are in present use for the printing of these stamps and the information, when obtained, may be included in some future "notes" for the benefit of those readers who may be interested in this philatelic side-study.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

China. Mr. A. B. Kay has sent us some of the current Japanese fiscals surcharged with two small characters which are said to read "Chinkoku"="China." These characters are not the same as those on the Japanese postage stamps for use in China-

Three years later (55 Geo. III, c. 184) a section was passed exempting from stamp duty, ginger and peppermint lozenges and any other articles of confectionery unless sold as medicine. In 1829 the duty had realised £37,000, of which £12,000 was derived from soda water, and the Chancellor of the Exchequer soothed a strong effort of the chemists to repeal the medicine stamp act made in 1830 by Mr. Hobhouse in the House of Commons by undertaking to repeal that part of the duty, but the pledge was not redeemed until 1833. *In 1864* by 27 and 28, Vic. c. 56, s. 6, the duties on licenses for the sale of medicines were transferred from *Stamps* (Stamp Office) to *Excise* (Inland Revenue). *In 1885* Mr. Childers made some slight but not unimportant changes in the administration of this duty when, to remove the misapprehension that the Government stamp guaranteed the medicine which it covered as genuine, the words "*This stamp implies no Government guarantee*" were legibly printed on the stamp, whether appropriated or not.

Appropriated stamps dated from *1802* are a somewhat ancient institution. It will be remembered that before that year medicine vendors were required to bring *their own labels with their names printed upon them to the Stamp Office to be stamped with the amount of duty.* In *1802* the Commissioner of stamps *first began to provide the labels denoting the duty*, and they appear to have allowed the principal members of the trade to have their names and the names of their medicines printed upon their labels so that *in get up* and *general appearance* their wares should be affected as little as possible by the change of system. The oldest impression in the proof book preserved in the Stamping Department at Somerset House is of an appropriated stamp for "Dr. James's Fever Powder. F. Newbery & Sons": the next "Dr. Scott's Pills" and so on. Now any person can obtain the privilege of having stamps printed for his exclusive use from an appropriated plate by payment of a sum of £8 if he requires stamps for one rate of duty only, £12 if he requires them for two rates, and so on.

CATALOGUE OF MEDICINE STAMPS.

The earliest series of medicine label stamps may be conveniently termed

A. THE SCROLL SERIES.

and divided into three main types, of each of which further sub-divisions may be formed. These types are

A. **Type 1.** The "Cross" type.

A. **Type 2.** The Black on white oblong type.

A. **Type 3.** The Red on white oblong type.

A. **Type 1.** THE "CROSS" TYPE.

This may be divided into

A. **Type 1a.** UNAPPROPRIATED.

A. **Type 1b.** APPROPRIATED.

A. **Type 1a. Unappropriated.** Design: Two imperforate oblongs cut in the form of a cross. The duty stamp is at the bisection of the four arms and is composed of a double lined circle, containing the value in words, and sometimes the Plate letter, and within a large Crown of state. The perpendicular arms bear the determining value, as for example on the 3d. stamp: "*Above 1s. not exceeding 2s. 6d.*" and the die number within acanthus shaped scrolls. The horizontal arms show the office of issue, viz.: "Stamp Office" in small oblongs at each end and "DUTY" of varying type in the left arm, a blank space existing in the right, headed "NAME" in type, all within scrolls. Size: horizontal arms 134 mm.: perpendicular arms 137 mm. The stamps are printed in red on thin white perpendicularly or horizontally laid paper and were evidently engraved on copper plates as in the case of the Newspaper Duty Stamps and moreover the plates were apparently several times recut, distinctive marks being added to the die numbers as in the case of the Newspaper Duty stamps (*see* M.P.J., III, p. 92, and IV., p. 4).

The values seen of this of this type are as follows:—

3d., red. Plate A. Die 16 (first recut).
6d., ,, Plate A. Die 10

A. **Type 1b. Appropriated.** Design, &c. as in type 1A but the name and address of the proprietor is printed in the colour of the stamp in two or more lines, the heading "NAME" being omitted. Size: horizontal arms, 134 mm.: perpendicular arms, 137 mm.

3d. J. Hemer, Bayley & Blew, Cockspur Street. No plate letter. Die 1.
3d. R. Stringes, No. 19, Strand. No plate letter. Die?
3d. T. Paytherus & Co., No. 136, New Bond Street. No plate letter. Die?
6d. Jo. Stringer, No. 4, Strand. No plate letter. Die?

In the copies seen of the three last mentioned stamps, the perpendicular arm containing the Die number was cut off.

NOTE. Differences in the drawing of the scroll work exist in both types and there are dotted pane lines at the end of the arms.

A. **Type 2.** THE BLACK ON WHITE OBLONG SERIES.

This group may be divided into four sub-divisions.

A. **Type 2a.** SMALL OBLONG UNAPPROPRIATED. Size 94-99 mm.

A. **Type 2b.** SMALL OBLONG APPROPRIATED ,,

A. **Type 2c.** LARGE OBLONG UNAPPROPRIATED ? Size 125 to 141 mm.

A. **Type 2d.** LARGE OBLONG APPROPRIATED.

A. **Type 2a. Small oblong unappropriated.** Design : Oblong 94-99 mm. x 15 mm. containing Duty stamp in centre comprised of a double lined circle containing the value in words and the die number with a large Crown of State within. Spaces on each side of the Duty stamp, bear on the left arm the determining value in two lines of type : in the right, a blank headed "NAME." Both spaces are enclosed in acanthus pattern scroll work with "Stamp Office" in small oblongs at the ends respectively. A dotted line divides each stamp. The stamps are printed in black on thin perpendicularly or horizontally laid paper.

Value seen :

1½d., black. Die 369 (first recut)

A. **Type 2b. Small oblong appropriated.** Design, &c., as last, but name and address of proprietor on right side, the heading "NAME" being omitted.

Value seen :—

1½d., black. Benjamin Dawson, Bath. Dies 2, 3, 13 (all 3rd recut.)

A. **Type 2c. Large oblong unappropriated.** No specimens yet seen.

A. **Type 2d. Large oblong appropriated.** Same general design, &c. as for the small oblong series, and also another type in which the determining value and the proprietor's name and address read across the stamp. The size is very variable from 125 mm. to 141 mm. x 20 mm. (about). Die letter under crown in centre when present.

Value seen :—

(1) With determining value on left and name of proprietor on right side.

1½d., black. F. Newbery, 45, St Pauls. No plate letter. Die 12 (2nd recut)
3d., ,, ,, ,, Plate A. Die 14 (3rd recut)

EDITORIAL.

THERE is a point in connection with the dies for the impressed duty stamps of Great Britain which, we believe, has never yet been explained in the philatelic press though it may cause some mystification to collectors of these stamps. We propose, therefore to offer a few words of explanation. On referring to the list of 1d. Cheque dies given last month it will be noted that the die which follows "10 C" is "47". There is no Cheque die "48" but the series continues from "49" to "71" and from "91" to "114" when a new style of designation begins. Similarly in the case of the "Bill or Note" series given in September it will be noticed that there is a 6/-, stamp, Die "120", a 7/- stamp Die "121" and several other examples of numerical dies will be found in the lists we are publishing. The explanation of this is that in March 1888 the authorities started a new system of designating all dies by number in the order in which they were requisitioned without regard to the purpose for which the dies were intended. This series started with fourteen "overembossing dies" for several different places, as Liverpool, Glasgow, London, Bristol, &c. used for overembossing the blue General Duty adhesive stamps. Die "48" which comes between the 1d Cheque dies "47" and "49" was an "overembossing die" for Liverpool and dies "72" to "90" were various "overembossing dies" and General Duty dies. This explanation will, we hope, temporarily make clear the reason for the apparent anomaly in the designation of the dies. When we have concluded the list of appropriated embossed dies now being published we will endeavour to continue with a list of these numbered dies in their regular numerical order, as it will be found very convenient for reference.

Impressed Duty Dies.

This numerical system as indicated on the die was given up in July, '94 when the three series with Rose, Thistle, and Shamrock, to indicate English, Scottish, or Irish dies was started, although these dies are known to the authorities also by their numbers, which however is no longer indicated on the die itself.

At the last meeting of the Fiscal Philatelic Society the members had the privilege of inspecting the extraordinarily fine collection of British Medicine stamps belonging to M. A. Bailliére. The collection in question far surpasses any that we have seen and it would be a very difficult matter to duplicate it. The stamps are not popular and being mostly destroyed in use are difficult to find, yet they form an interesting class and one which offers considerable scope for study. We are glad to have had the opportunity of making many additions to the list of these stamps now in course of publication and we hope that the preliminary classification which has been adopted will lead to a better understanding of them and will result in a few more collectors interesting themselves in this group.

Owing to the peculation of the postal officials the Ameer of Afghanistan has decided to abolish the issue of postage stamps within his dominions. In future all letters posted in Afghanistan are to be impressed with a metal seal instead of bearing ordinary gummed on variety. Existing stocks of stamps are to be used up at certain of the principal post Offices, after which no more will be forthcoming so that there is likely to be a considerable rise in the value of the present Afghan issues.

There appears to be considerable doubt as to whether the 3$ Tax on Seals for Alabama exists. Mr. Deats writes "The only Alabama Stamps I believe in, are the one dollar perforated and rouletted and the two dollar blue . . . I cannot conceive of any use for a three dollar stamp under the law requiring their use so that if an essay exists it must have been made by a philatelist.

Alabama and New York.

We are informed that the Stock Transfer Tax series of New York state are now obsolete.

Mr. J. G. Cairns writes with reference to some Railway stamps chronicled in our August number "The "B.C.T." is a *Birmingham Corporation Tramways Stamp*, and the "L.N.W.R." stamp is an advertising stamp to advertise their service of trains between Birmingham and London in two hours. It is used to stick on backs of envelopes, &c., as an advertisement.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

The issues after what we have termed "The Scroll series" are conveniently catalogued in three groups.

B. The small oblong 1½d. value, of which there are no "appropriated" dies,
C. The large oblong series of values 1½d. 3d., 6d., 1s. 3s. and 20s.
D. The new small oblong series of values 1½d and upwards, issued in 1902.

B. Small Oblong 1½d., Value.

There are five issues of this stamp.

B. **Type 1.** Lettered "Stamp Office"
B. **Type 2.** ,, "Inland Revenue"
B. **Type 3.** ,, ,, ,, "This stamp implies no Government Guarantee.
B. **Type 4.** ,, "Inland Revenue" and "No Government Guarantee"
B. **Type 5.** ,, "Inland Revenue" with "Crown" and "Duty 1½d" in red on a white ground in central circle.

B. **Type 1.** Design: An imperf. oblong consisting of a double-lined frame ornamented and bearing at each end, an oval with "STAMP" and "OFFICE" respectively inscribed in vertical bi-coloured type. Within this frame, black circles interlacing with red discs on a black and white engine-turned and white-lined ground forming a red diamond shaped centre in each large disc. In the left arm, the determining value in two lines of white letters "VALUE 1S." AND UNDER. The Duty stamp in the centre contains the value in words at length "Duty Three Half Pence" and the Die number, in bi-coloured letters and figures—part in red and part in black—on a broad white ring, the outer circle of which is double lined. Within this ring on a ground of black and red segments, a small crown is outlined in white, circumscribed by another broad ring of fine white engine-turned lines. Size: 100 x 20 mm.

The plate consists of 12 dies numbered 1 to 12.

1823? 1½d. black and red. Wove paper
1½d. ,, Horizontally laid paper.

The red part of the lettering of "STAMP" and "OFFICE" is sometimes wanting, probably owing to defective printing.

B. **Type 2.** Design: A small imperf. oblong consisting of a broad single-lined frame having at each end a rect. framed oblong with "INLAND" and "REVENUE" respectively inscribed in vertical black type. Within this frame, black and red intersecting circles as described in the previous type **(1)**. In the left arm the determining value in two lines of large white letters "VALUE IS / AND UNDER"; in the right arm "MEDICINE / LABEL" in similar type. The Duty stamp in the centre contains within a single lined circle, the value in words at length "Duty Three Half Pence" and the die number in bi-coloured letters and figures—part in red and part in black—on a broad white ring. Within this ring, parts of red and black segments (inscribed with a white engine-turned ring, containing a small white plate letter "A") touch a series of lessening black and white circles. These circles circumscribe a plain red disc upon which is a medium sized crown outlined in white. Size 105 x 20 mm.

The plate consists of 12 dies numbered 1 to 12 and was registered at Somerset House on the 12th February, 1878.

1878. 1½d., black and red. Plate A. Wove paper. No wmk.

B. **Type 3.** Design: Same as last, but at the top of the label on the engine-turned black and white ground, the legend "THIS STAMP IMPLIES NO GOVERNMENT GUARANTEE" is inscribed in thin white block type, extending in one line across both arms.

The plate, as last, consists of 12 dies, numbered 1 to 12, and was registered at Somerset House May? 1885.

1885. 1½d., black and red. Plate A.

B. **Type 4.** Design: Same as last two, excepting that the scale "VALUE IS / AND UNDER" is also shown on the right arm, taking the place of "MEDICINE / LABEL" and at the top and bottom of the label on the engine-turned black and white ground work, the legend "NO GOVERNMENT GUARANTEE" is inscribed in thin white block type, extending across both arms, four times repeated.

There are two plates of this stamp, H and I (?) containing 12 dies each, numbered 1 to 12.

H. Registered, 2nd March, 1887.
I (?) „ 31st January, 1896.

1887. 1½d. black and red. Plate H. Wmk. "Crowns"
1½d. „ Plate I. (?) „

A copy of Die 6 of Plate H has been seen on unwatermarked paper marked "Specimen."

B. **Type 5.** Design: Same general design as last, except that the Duty Stamp in centre consists of a broad white ring of single lined circles containing the legend "This Stamp implies no Government Guarantee" with the die number in black enclosed in brackets. Within this ring on a large white ground is a crown above the word "Duty" and this above "1½d." in figures, all in red. The plate letter "J" is on both sides of central circle on the bottom margin of the stamp. The plate contains 12 dies, numbered 1 to 12 and was registered at Somerset House on the 24th December, 1897, Plate K was registered 24th October, 1898.

EDITORIAL.

OUR fiscal philatelists appear to be remarkable quiet just now. The last meeting of the Fiscal Philatelic Society was the poorest in attendance of any that have yet been held, while we can hear of no new discoveries from the few earnest fiscalists who usually communicate the results of their investigations to us. It seems as if the great Exhibition of May last has inspired stamp collectors in general with so many new ideas with regard to postage stamps that the less popular side of philately is temporarily eclipsed. However the effect is local for it seems that in France and the United States fiscal matters are well to the fore. Indeed from the latter country we hear rumours of the formation of a new Fiscal Society, though we have not seen any definite proposals. Perhaps matters will brighten up here after the Christmas holidays are over, and in anticipation thereof we wish our readers all the Compliments of the Season.

A Merry Xmas.

* * * * *

The most notable event in the fiscal world lately is the publication of a "*Catalogue illustré des Timbres Fiscaux de Grande Bretagne*" by Messrs. Gilbert & Köhler. It will be remembered that some little while ago this firm were the fortunate purchasers of Judge Philbrick's fine collection of British fiscals. Besides the stamps, some valuable information with regard to the several series of fiscal stamps came into their possession and this has been embodied in the present work, thus rendering it an important document for those philatelists who are studying the fiscal issues of this country. As far as we have been able to test it the catalogue appears to be quite up to date, all discoveries made during the past few years being included therein. From the new matter we think it worth while to refer to two or three cases of particular interest. The first of these is the explanation given for the provisional issue of high value Foreign Bill stamps in 1890, viz.: the £10, £20, £25, £40, £50 and £300 General, Duty dies struck in blue and overprinted "FOREIGN BILL" in thin sans serif black capitals. It appears that a certain business firm in the habit of using large quantities of high value stamps applied for stamps of a higher value than £5, the highest denomination actually in use, in order to avoid the trouble of sticking a quantity of £5 stamps on the bills. The request was acceded to and the General Duty dies on "orb" paper as detailed above were prepared and issued to the firm, but the Government declined to allow the usual discount to purchaser of over £50 worth of stamps on these specially provided stamps, and so no more were ordered by the firm after the first supply, which probably consisted of a very few copies.

British Fiscals.

The somewhat mysterious series of Foreign Bill stamps surcharged "*Paymaster General's Service*" was supplied gratis to the Paymaster General, who previously to the issue, which seems to have been made about 1890, had to purchase such Foreign Bill stamps as he required. This, however, was a matter of rare occurrence, it being stated that from 1890 to July, 1892 only 40 stamps were issued to him.

Among the Municipal stamps we find a series of 21 values catalogued for Winchester, 12 appearing on the same sheet, the composition of which, in seven lines of eight stamps, was the following:—

1st line.	4 of 6d. and 4 of 1s.	= 6s.
2nd line.	" "	= 6s.
3rd line.	" "	= 6s.
4th line.	4 of 6d., 3 of 1s. 6d., 1 of 2s. 6d	= 8s.
5th line.	4 of 6d., 2 of 2s., 2 of 2s. 6d.	= 11s.
6th line.	4 of 6d., and 4 of 2s. 6d.	= 12s.
7th line.	1 each, 3s., 3s. 6d., 3s. 6d., 4s. 6d., 6s., 8s., 8s. 6d., 14s.	= 51s.
	Total value of sheet	100s.

There is, however, no mention in the catalogue of the different types of some of the values of this series, which we chronicled in November last year, so that we do not know whether the above is the only setting of the sheet or not.

Collectors will find a mass of other valuable information in this catalogue, even the dates of the various stamps struck from General Duty dies, based on the Fiscal Philatelic Society's work, being given, so that we can confidently recommend it to the attention of our readers

* * * * *

We regret to read that our contemporary "*Le Bulletin Fiscaliste*" is to cease with No. 20, at least temporarily. The very valuable fiscal chronicle, however, will be continued in the "*Echo de la Timbrologie*".

* * * * *

Some of our postal friends seem to be much exercised as to the status of the 1d. stamp surcharged in large black caps "C.A." This stamp which appeared some years ago, seems to be a sort of pre-cancelled receipt stamp used by the Crown Agents and to be of no postal or fiscal significance.

THE FISCAL PHILATELIC SOCIETY.

MEETING held on November 7th, 1906. Present :— Mr. Schwabacher (Chair) Messrs. Cooper, Fulcher, Morley, Paterson, South, Thomson, and Kay.

M. A. Baillière sent for inspection his magnificent collection of upwards 1000 varieties of the Medicine Labels of Gt. Britain, and the same were described by Mr. L. W. Fulcher, to the great interest of those present. A vote of thanks was passed to both gentlemen for their kindness.

The catalogue of the fiscals of Gt. Britain was continued to General Duty Stamps.

With deep regret is announced the decease of Mr. E. C Mayne of Bristol. The resignations of Messrs. Agnes and Sabadell have been accepted

The Annual Report is now issued and can be had on application to the Secretary.

The Annual Subscription of 5/- is now overdue, and members who have not yet paid same should remit without delay to :—

Hon. Secretary and Treasurer :

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

British East Africa. *Judicial Fee.* Our publisher reports the 10 rupees, bistre, wmk, Crown CC, surcharged "JUDICIAL FEE" in red.

British Patent Medicine Stamps.

(*Continued from Vol. VII., page 92.*)

C. Large Oblong Series.

This series may be divided into five main groups :—

C. **Type 1.** The interlacing circles type. Duty 1½d. (only). Lettered "Stamp Office."

C. **Type 2.** The "trefoils" type. Black centre to duty section. Lettered "Stamp Office."

C. **Type 3.** The "trefoils" type. Black centre to duty section. Lettered "Inland Revenue."

C. **Type 4.** The "trefoils" type. Red central duty section. Lettered "Stamp Office."

C. **Type 5.** The "trefoils" type. Red central duty section. Lettered "Inland Revenue."

The dies from which the stamps Types 2 to 5 are printed consist of four separate parts, viz.:

1. The die bearing the plate letter.
2. The determining value section.
3. The Duty section.
4. The Proprietary name section (or another determining value section in the case of unappropriated dies.)

The latter 3 parts were made as required and were made to fit the plates in use at any given time, so that it appears impossible to divide this series into issues.

The plates used are as follows:

1. With black centres. Lettered "Stamp Office" (C. **Type 2**).
   No plate letter.
   B
   C
   D

2. With black centres. Lettered "Inland Revenue" (C. **Type 3**).

3. With red centres. Lettered "Stamp Office" (C. **Type 4**).
C Registered 22. 8. 85?

4. With red centres. Lettered "Inland Revenue" (C. **Type 5**).

In the case of the stamps with black centres, the plate letter is below the crown in centre; in the red centred stamps, the plate letter is on the left, close to the central part of the label bearing the word "Inland". The plates contain 10 dies, numbered 1 to 10 in two panes of five labels each. On the stamps with black centres the die number is at the lowest portion of the circle of the Duty section; on the stamps with red centre, it is on the right hand side near the centre of the label with word "Revenue" in a corresponding position to the Plate letter on the opposite side.

On Plate C of red centred series the die numbers are all *reversed*. Plate H is the small oblong stamp of the small series (B. **Type 4**). Plate I has a very large letter and large die figures.

On Plate N, die No. 6 was damaged and replaced by a new label No. 6, the plate being re-registered 10th Nov., 1897. On the new label the base of the figure "6" is more open than on the first one.

On Plate P, die No. 3 was damaged and repaired, the plate being re-registered on the 28th March, 1900.

The types are more particularly described with the list of the Stamps seen, and only the Plate letters are given, as if one die of a plate has been seen the other nine must necessarily exist also.

The following is a list of the dates of registration of the proprietary name sections for Medicine Labels from July, 1842. It does not follow that they will necessarily be found used with the particular plate or duty value indicated. A possible exception is the case of the earlier 1½d. values, but here the plate need not be the same as that on which the proprietary name section is registered.

EDITORIAL.

THE important announcement that His Majesty has graciously acceded to a request that in future the Philatelic Society, London, shall be known as "The Royal Philatelic Society" will be received with welcome by all those who have the welfare of philately at heart. The new title confers a dignity upon the science and practice of philately which the real study of stamps well merits and will generally raise the status of the subject as an intellectual pursuit. Steps are now being taken to "incorporate" the Society and the first 350 members of the new Society will be entitled to style themselves "Fellows" while a new class of associates (between the ages of 16 and 21) who will have nearly all the privileges of members except the right of voting, will be created, so as to train a body of recruits to continue the study of philately in all its branches as the veterans drop out. So far the development of the Society appears to be very satisfactory but much remains to be done which will call for the exertions of all members to make the Society what it should be. Active progress is being made towards creating a first-class philatelic library and a reference collection of stamps for the use of the Expert Committee but it is eminently desirable that a permanent home should be found for the Society. With the hearty co-operation of members it is to be hoped that these aims may be realised in the near future.

The Royal Philatelic Society, London.

Two more Catalogues of Railway Stamps come to us from Mr. Ewen. The first of these is Part 2 of the "*Priced Catalogue of the Railway Letter Stamps of the United Kingdom, 1891-1906*" dealing with the Scotch and Irish issues. Part 1 containing the Railway Letter Stamps of England and Wales was noticed by us last February. The newly issued Part 2 is prefaced by an elaborate history of the origin and progress of the issue of Railway Letter Stamps and very full details as to the best methods of acquiring the stamps and collecting them generally. All this information will prove very serviceable to those who are interested in these stamps. Especially valuable is the very clear statement of our present knowledge of the subject and the directions in which that knowledge may be improved. In fact many definite points which await elucidation are tabulated on page xix, so that any collector of these stamps may set to work at once without any loss of time or energy in discovering for himself where useful work may be done.

Railway Letter Stamps.

For those who have not yet been tempted to collect these stamps it may be pointed out that their special interest lies in the fact that they offer a wide scope for study, particularly in the direction of reconstruction of sheets, which most philatelists agree, is a fascinating pursuit. Let us quote Mr. Ewen—"The real charm of "collecting Railway Letter Stamps is only "experienced by those who take entire sheets, "either broken or reconstructed. The trans-"fers must be identified before the printings "of some Companies can ever begin to be "classified, but the transfers cannot be pro-"perly distinguished unless one has entire "sheets, and often several entire sheets of a "single printing are necessary for although "stamps may be issued in small sheets, the "latter may be only a half or even a quar-"ter the original sheet as printed; thus "before one can properly identify the trans-"fer and say definitely that a particular "specimen did or did not come from it, one "must get together all the halves or quarters "of such printings. Fortunately there is no "known instance of Railway Letter Stamps "having been printed in a larger sheet than 60 "stamps, so that 60 is the maximum number "of types to be found in any printing". Any collector of Railway Letter Stamps will find this catalogue necessary as a guide to his collecting.

* * * * *

The second Catalogue published by Mr. Ewen is an undertaking of no mean difficulty. It is entitled "*A Priced Catalogue of the Newspaper and Parcel Stamps issued by the Railway Companies of the United Kingdom, 1855-1906*," and is a first attempt at such a Catalogue. When it is considered that these stamps have a history extending over 50 years (a fact which may possibly be a surprise to many stamp collectors) and that they have very generally been neglected for the greater part of this time, it will be readily seen that Mr. Ewen has had to cope with a multitude of difficulties. Some help as regards early issues has been obtained from the old "*Stamp Collectors' Magazine*" and "*Le Timbre Poste*" but the author has discovered much new information by the help of his private collection. The present Catalogue—being unique—must be indispensable to collectors of these stamps. We need hardly add that like the one on Railway Letter Stamps, it is well illustrated and printed, and of a convenient form.

Railway Newspaper and Parcel Stamps.

LIMRI & WANKANER.

IN response to Messrs. Morley and Marsh's appeal for information with respect to these two Indian Native States, Mr. W. Corfield kindly sends the following from *Hunter's Gazeteer*, 1887 :—

Limri (*Limbadi.*)—Native State in the Jhalawar prant or division of Kathiawar, Gujarat, Bombay Presidency, lying between 22° 30′ 15″ and 22° 37′ 15″ N. lat., and between 71° 44′ 30″ and 71° 52′ 15″ E long. Area, 344 square miles, with 1 town and 43 villages. Population (1872) 40,186; (188) 43,063, namely 22,274 males and 20,789 females, dwelling in 9677 houses. Hindus number 33,556; Muhammadans, 4632; and 'others', 4875. The country is flat, and the soil, is in some parts black and others red, is generally sandy. The Bhogawo river flows through the State, but like some of the smaller streams, it becomes brackish in the hot weather. The territory of Limri or Limbadi is peculiarly liable to inundations, and suffered severely from their devastations in the year 1878-79, the road between Limri aud Wadhwan having been breached in many places. As regards the relations of landlord and tenant, the state is said to be reverting, like other states in Kathiawar, to the levying of rent in kind rather than in money. The climate of Limri, though hot, is healthy. The prevailing diseases are fever and bowel complaints. Cotton and grain are cultivated, and cloth is manufactured. Before the opening of the Bhaunagar-Gondol Railway, the produce was exported chiefly from the port of Dholera.

Limri is one of the Kathiawar "second-class" States, the chief of which executed the usual engagements in 1807. The succession follows the rule of primogeniture, there is no sanad authorizing adoption. The present (1884) chief is Thakur Sahib Jaswant Singhji Fatesinghji, a Hindoo of the Jhala Rajput caste.

He has power to try his own subjects only for capital offences, without the express permission of the Political Agent; and he is entitled to a salute of 9 guns. He received his education at the Rajkumar College at Rajkot; and on 1st February, 1876, on attaining his majority, he he was permitted to assume full jurisdiction as a "second-class" chief. Estimated gross revenue £22,137; tribute of £4,553, 6s. is paid jointly to the British Government and to the Nawab of Junagarh. The chief maintains a military force of 160 men. Works for irrigation are in course of construction. There were in 1882-83, 17 schools, with a total roll of 1317 pupils. No transit dues are levied in the State.

Limri,—Chief town of Limri State, Kathiawar Bombay Presidency Lat. 22° 34′ N., long 71° 53′ E. Population (1881) 12,873, namely, 6569 males and 6304 females. Hindus number 8221; Muhammadans, 1372; Jains, 3271; Parsis 6; and Christians, 3. On the north bank of the Bhogavo river, Limri is 14 miles south-east of the Wadhwan and 90 north-west of Bhaunagar. Telegraph and Post offices; dispensary. Formerly fortified, and once a populous place.

Wankaner.—Native State in the Jhalawar prant or division of Kathiawar, Bombay Presidency. Area, 376 square miles. Population (1881) 30,491, namely males 15,942, and females 14,549: occupying 6354 houses, in 1 town and 86 villages. Hindus number 21,395; Muhammadans, 7508; and others, 1588. The soil is chiefly light, and the territory is hilly; irrigation is practised to some extent. The climate is hot, but healthy; the prevailing disease is fever. A kind of black marble is found within the limits of the State. The principal products are grain, sugar, cane, and cotton; the chief manufacture is salt. The nearest pose is Joriya. Wankaner ranks as a second-class state in Kathiawar; its ruler entered into tht usual engagements in 1807. He has power to try for capital offences, without the express permission of the Political Agent, his own subjects only. He maintained in 1882-83 a force of 242 men. The family follow the rule of primogeniture in matters of succession, but do not hold a sanad authorizing adoption. The present chief, Rajasahib Gagubha, a Hindoo of the Jhala clan of Rajputs, is a minor, and the State is administered by a Government Karbhari. The revenue in 1882-83 was £16,242; a tribute of £1887, 18s, is paid jointly to the British Government and the Nawab of Junagarh. The Wankaner chief also owns the village of Khasta in Ahmadabad District, the annual income of which is about £4000. There are 9 schools, with a total of 542 pupils.

Wankaner.—Town in Kathiawar, Bombay Presidency, capital of the Wankaner State; situated in lat. 22° 36′ 10″ N, and long. 71° 2′ 50″ E, about 24 miles north-north-east of Rajkot. Population (1881) 5533, namely, Hindus, 2804; Muhammadans, 1807; Jains, 921; and Christian, 1. The town is locally famous for the manufacture of cotton cloth, such as scarves, waist cloths, etc., and also for locks, and shoes. Post-office, dispensary, dharmsala school. The principal exports are cotton cloth, ghi, which is usually sent to Rajkot, and a small quantity of grain and raw cotton. The imports are metals, timber and cloth of English manufacture.

THE FISCAL PHILATELIC SOCIETY.

A meeting of the Society was held on Wednesday, December 5th, 1906, when the compilation of the Catalogue of the fiscals of Gt. Britain was proceeded with.

M. A. Baillière was so good as to send a portion of his collection of Gt. Britain fiscals, to aid in the work of cataloguing, and several unlisted varieties were noted. A vote of thanks was passed for his courtesy.

The Meeting that should have been held on January 2nd, was not called on account of the illness of the Secretary.

Received for the Library, with thanks, from Messrs. Gilbert and Köhler, copies of their catalogues of the fiscals of Gt. Britain and Ireland, France, and Austria.

The next meeting of the Society will be held February 6th 1907, at 6.30 p.m., at 65, Bishopsgate Street Without, E.C., when Mr. W. D. Roebuck, F. L. S., will give a display of British Embossed stamps. It is hoped that all Members able, will make an endeavour to attend.

There are yet several subscriptions (5/-) for the current season outstanding. Members who have not yet remitted will kindly oblige by doing so.

It is particularly requested that sheets be sent more regularly to the Home, Continental and American Exchange Sections

For Annual Report and information respecting the Society apply to :—

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

EDITORIAL.

What is a fiscal?

IT is a trite observation how the vast majority of us are governed by "prejudices". A "prejudice" according to the dictionary is a "judgment or opinion formed *beforehand* or without due examination". To be guided by prejudice argues a most unscientific habit of mind and after a few generations have had the advantages of a scientific education which at last seems to be struggling successfully for representation in our schools, people will be ashamed to regulate any of their actions on prejudice. But the present generation of men of middle age has mostly been educated by old fashioned methods and few can boast of an education on scientific lines. Hence we occasionally find that actions or opinions are avowedly founded on prejudice.

Our object in making these remarks arises from the perusal of an opinion, recently published, evidently formed in this pernicious way, and as that opinion related to a matter which concerns philately in general, we propose to endeavour to dispel the prejudices and to ask for a due consideration of the subject.

The December number of *The Philatelic Record* contains a notice of the two Catalogues, recently published by Mr Ewen, one on Railway Letter Stamps and the other on Railway Newspaper and Parcel Stamps, the gist of which is, that they are all very well in their way but it is not philately. After a disclaimer as to raising the question whether fiscals are included in the derivation of the word philately, we read "It is purely a question of application and" "not derivation. One of the greatest argu-" "ments against fiscalists is the nature of" "what they collect. A philatelist does know" "where to draw the line and that is why he" "cannot admit the fiscalist, who has no line" "apparently to draw". It is always difficult "to draw a line" in any matter that admits of classification and it is even so in the question as to what a "postalist" should collect. Leaving aside the question of Railway stamps for the moment we venture to point out that, in our opinion, the fiscalist as opposed for the sake of argument to the postalist, has a line to draw as definite in every way as the latter. A fiscal stamp is one which is issued by a Government in order to facilitate the payment of a stamp duty or fee. Is not this as definite as the definition of a postage stamp? It does not include Railway stamps. These we hold to be of the nature of "Private Stamps". But what is the status of "Locals" in the postal category?. We have no space now to discuss these delicate matters but perhaps our contemporary may be disposed to admit that "railway tickets, tram-tickets, bobbin-labels and thimbles" are not fiscals as it seems to imply. As a matter of fact postage stamps are but one of a class of labels provided by Governments for the purpose of collecting fees for the performance of certain duties and there is no logical distinction between the different sorts of labels forming the class. Philately it seems to us, *must*, whatever be the opinion of individuals, include them all. We do not mean that everyone must collect all these kind of labels—every one will collect what pleases himself—but that they must be studied as part and parcel of the science or art of philately.

It is our special aim to prevent such "prejudices" as avowed by our contemporary from deterring philatelists from the study of fiscal stamps. The prejudice is wide-spread and probably arises from the practice in the early days of philately of the current journals in decrying fiscals and sneering at "Commercial stamps", the fashion itself arising from the fact that while postage stamps came in everybody's way, fiscal stamps were not generally procurable. The difficulty of getting fiscal stamps still stands in the way of the collector but, without repeating the various arguments which have been advanced from time to time in favour of the collection of fiscals, we venture to plead for a study of them on the ground that they may sometimes throw light on the history and aid in the study of the postage stamps of a country. Strangely enough the pages of our contemporary for last year afford us an illustration on this very point. See the notes on the Stamps of Nevis (*Phil. Rec. 1906 pp. 68 & 140*) and other cases could be quoted. Again in the stamps of Nevis, how many postal fiscal collectors know that the 6d., green of 1883 was first printed on Crown CC. paper; an interesting fact, though the stamp has not turned up as a postage stamp. We cannot compel postage stamp collectors in general to go in for fiscals but why should they go out of their way to discourage the study of fiscals? The difficulties of collecting fiscals are much more serious than in the case of postage stamps and the constant discouragement which the fiscalist continually receives from his philatelic brethren renders the pursuit well-nigh impossible.

BRITISH RAILWAY STAMPS.

NOTES AND NEWS.

By P. Evans.

Great Eastern Railway. Change of colour. The series of stamps "One Newspaper—½d," "Two Newspapers—1d," and "Four Newspapers—2d.", are now all printed in one uniform colour, viz: green, with black overprint of the number of newspapers and value.

Perf. 11 as before. Date of issue October '06, or earlier.

Great Western Railway. The design of the 6d., "Prepaid Parcel" stamp has been entirely re-drawn—the chief features being that the figure of value is much bolder than before and occupies, alone, the entire centre of the stamp. The double-lined circle with "Prepaid Parcel" has been entirely removed, and these two words now occupy tablets in the right and left sides of the framework, respectively. Serial number "S. 4."

Colour black on blue paper, size, and perf. 12 as before.

Issued December '06, but not in general use yet excepting at a few Stations. The 1/- value black on pink, is now issued in the larger size, 35 x 33 mm. uniform with the 6d. and 1/6 values

Perf. 12. Series "S 2." Issued about Oct. '06. Probably all values will appear in this larger size when present stocks are exhausted

Lancashire, Derbyshire & East Coast Railway. The stamps of this Company are obsolete since Dec. 31st, '06, the line having been amalgamated with the Great Central Ry. on Jan. 1st, '07.

Ewen's new Catalogue quotes the ½d. value "Prepaid Newspaper Parcel" stamp as being found perf. 10 only, but I have in my collection an unused block of four of this value perf. 11, uniform with the later perfs. of the other values.

Midland Railway. Letter Fee Stamps. The series numbered 175,000 and onwards is printed in a much brighter shade of green than the previous printing (which was of an olive-green colour). The Control No's. too are in a different position, being on the right-hand side and read downwards. Perf. 11, as before. Issued Oct. '06 or earlier.

Midland and South Western Junction Railway. Ewen's new Catalogue makes no mention of any Parcel Stamps for this Company. There are however a series of two values, viz: ½d. black on white paper "for one Newspaper," and 1d. black on yellow paper "Prepaid Newspaper Parcel" Design type-set, within a single lined frame, size 45 x 50 mm. Perf. 10. Control number at top right corner of each sheet only. 24 stamps to a sheet in four rows of 6.

A 2d. value (black on pink paper ?) exists but is now obsolete, there being so little demand for this value that the Company have had none printed of late years. There has only been one printing of the 2d. Letter Fee Stamp, and the present stock on hand will probably be sufficient for some years to come.

Rhondda and Swansea Bay Railway. The 1d. blue "Prepaid Newspaper Parcel" stamp is usually only found perf. 11, and this variety is the only one listed in Ewen's Catalogue. I have, however, an unused pair perf. 10, which is I believe one of the early printings—used copies of which may possibly not have survived, at all events in any quantity.

These stamps are printed in sheets of 6, 3 rows of 2.

Somerset and Dorset Railway. A new series "S 5" of the 2d. blue "Prepaid Newspaper Parcel" was issued during the latter part of 1906. Design, colour, and perf. 11 as before

The 1d. value, series "S 18" is ready for issue when present stock on hand of "S 17" is exhausted.

The ½d. value, black on rose paper, is much the scarcest stamp of this series as may be judged by the fact there has, so far, only been one series (S 1) printed, and of these the highest control number of a sheet recently issued was only just over no. 3000—which gives the total number of this value issued to date. I am officially advised that there is but little demand for stamps of this value—(for single Newspapers).

Railway Letter Fee Stamp. A new printing numbered A 4000 to A 5000 has just been issued. The colour is a much brighter and more "emerald" shade of green than previous issue Perf. 11 as before.

It may be noted that this Company resolutely refuses to supply their stamps to collectors (even in entire sheets), or for other than their legitimate purpose, so that unused copies are probably somewhat scarce, and difficult to obtain in this condition.

TELEGRAPH CHRONICLE.

Kashmir. Dr. Kalckhoff writes: Of the long current series, I have received an uncatalogued value, viz: 1 rupee, orange with violet tablets on both sides. The three lowest values (1a., ultramarine, rose tablets; 2as., violet, brown tablets; 4as., rose, brown tablets) have appeared on paper watermarked with multiple lotos flowers (Johore and Sudan design) My copies are obliterated in Feb. and April, 1902

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Afghanistan. A perfect avalanche of unknown fiscals from this country has descended on us Mr E. W. Wetherell has an article in the December number of the *Philatelic Journal of India* recording nearly 5000 varieties (!) arranged under 37 different heads, with illustrations of 40 different types We are unable to make any useful abstract of his article so that we can only refer any fiscalist interested in these weird labels to the original.

Germany. We have to thank Dr Kalckhoff for the following interesting information as regards the recent fiscals issues of this country:—

1. *Fahrkartenstempel.* These were listed as used for a duty on "Steamer tickets" in our Sept. number of last year. Dr. Kalckhoff states that at present their use is restricted to tickets on steamers from abroad to German ports, but it might be extended at any moment to any kind of railway or steamer tickets The stamps are printed on watermarked paper like the other new kinds of fiscals. This watermark consists of a four-lobed ornament, not of lozenges like that used for the postage stamps, but arranged in a similar manner.

2 *Frachtstempel.* To the series listed in our Oct. number of last year add the value of 30pf., brown. The watermark consists of the four-lobed ornaments not the lozenges of the postage stamps. The two stamps of this series previously known viz the 10 pf., and 1 mark were on unwatermarked paper and were issued on the 1st, July, 1900.

3. *Reichs-Stempel-Abgabe.* No new values have been issued, but the stamps will shortly appear on the new watermarked paper (four-lobed ornaments).

4. *Statistische Gebuhr.* The 20pf. has been withdrawn, while the 5 mark, which has been obsolete since Jan., 1891, has been re-issued, probably on watermarked paper. All the other curent values (5, 10, 50, pf. and 1 mark) will appear on this new paper.

5. *Wechsel-stempel.* The whole series will appear on the watermarked paper and some values have already been thus issued, but it is not known which.

6. *Schaumweinsteuer.* These stamps will also be printed on watermarked paper.

7. *Zigarrettensteuer.* Small bands for boxes of cigarettes have been issued. They are of various sizes, on watermarked paper, and printed in rose, light blue, violet, grey and bistre, but bear no indication of value.

The fiscal stamps of the German states will also in future be printed on a paper containing a "multiple" watermark of crosses and circles. This same paper is to be used for all stamps printed in the Imperial printing office (Reichsdruckerei). Besides the stamps for the Imperial Government, the postal service stamps of Württemberg and some of the railway stamps of Prussia and Saxony, have already been printed on this paper and many others will follow suit.

Great Britain. *General Duty.* Mr. A. B. Kay informs us that he has the following unlisted varieties:—

1891. £1 17s 6d. pale blue. Die C. Perf. 12.

1893. £1 17s. 6d. ultramarine. Dies C, D.

1900. £10, ultramarine. Die C. (New small size die).

Malta. *Ewen's Weekly Stamp News* chronicles the 1d. King's head, postage, all in carmine, wmk. Crown CA. multiple, ordinary paper, with overprint "Revenue".

United States. Mr. A. B. Kay chronicles in the *Stamp Collectors' Fortnightly* an issue of stamps bearing the legend "American Consular Service" above, and "Fee Stamp" below

25c., green	2.50 dols., indigo
50c., carmine	5 ,, lake
1 dol., violet	10 ,, yellow
2 dols., brown	

"They came into use on the 30th June last, and "may not be sold to the public uncancelled. "The $2.50 value will be the commonest and "the $10 and 25c. can have but little use, "although the latter may be used to make up "larger amounts".

New York. Stock Transfer Tax. From the same source as above we cull the following:—

"Of the already obsolete issue, a 4c. value in brown has not yet been here chronicled. *Mekeel's Weekly Stamp News* refers to it as very scarce and states that copies have been seen in two distinct shades, one being in the colour of the 50c.

As previously reported, a new issue has made its appearance, the values and colours are the same as previously, but the stamps are perforated 12, and have an overprint of a double-lined numeral of value in violet, on a lozenge shape impression of gum. Thus, if the stamps are placed in water, as with the last Documentary issue, a portion of the design washes away.

EDITORIAL.

IT is no use blinking the fact that at the present moment fiscal philately in the metropolis is under a cloud. The last few meetings of the Fiscal Philatelic Society have been very poorly attended and the work in hand is not progressing as it ought. The splendid impetus given by the successful Exhibition and the cataloguing of British Colonial fiscals by the Fiscal Philatelic Society has apparently died away, in fact a re-action has set in which we hope is only temporary. No doubt the members of the Fiscal Society find the task of cataloguing the fiscals of Great Britain tedious both on account of its difficulty and its magnitude but it is very necessary that it should be done. We hear much better reports of the state of fiscal collecting both in France and the United States. As regards the former country Yvert & Tellier's Catalogue appears to have been a great sucess, a second edition being now in active preparation. This is in itself sufficient evidence that fiscal collectors number not a few among the French philatelic public. With all the present "quietude" in fiscal collecting here, we have not heard that any of the more prominent fiscal collectors have given up collecting so that we hope that others will not be discouraged.

Fiscal Philately.

* * * * *

We have for the past two or three years been endeavouring to plate some of the engraved Japanese fiscals. We cannot say that at present we have met with any marked success, as the stamps are so well drawn that the differences between them are excessively minute. In some cases the colours in which the stamps are printed, such as yellow or green, make it almost impossible to see small differences, but we have had some small success with stamps in blue and red and we propose to state briefly how far we have got and appeal to our readers for assistance. Our researches at present have been mainly confined to four stamps (1) the large 1 yen, blue of the first issue of "Bills" (2) the 10 sen, carmine ditto (3) the 10 sen, blue *on European paper* and (4) the 1 yen, blue, small size. Taking these stamps in the order named we find that as regards the large 1 yen, blue, there appears to be *two* different plates. We suppose this stamp like the smaller sized stamps was made up in sheets of 50, 5 rows of 10, although this makes rather a large sheet and we should not be surprised to find that there are a smaller number of stamps to the sheet. Anyhow we have more than 50 distinct types most of which are fairly easy to distinguish; but blocks and even pairs of this stamp are quite scarce and we should be much obliged for the loan of such. The 10 sen, carmine is in a much more hopeless case. We have evidence of the existence of at least 9 or 10 plates of this stamp and we see no prospect of completing any of these at present. It is quite otherwise with the 10 sen, blue on European paper. We think there are two plates of this stamp and in fact we have 20 *columns* re-constructed but for the lack of horizontal pairs we are not yet able to place the columns in their proper order. If some kind reader would kindly lend us for a moment a few horizontal pairs we have no doubt of reconstructing these two plates. In fact we have managed to assign the places of 8 columns on one sheet and know the relative positions of several of the other columns. Finally as regards the small size 1 yen, blue, we think there are at least two plates but horizontal pairs and blocks and required to make much further progress.

Mr. Morley has come into the possession of a circular letter dated May 27—relating to the steps taken to procure the repeal of the Newspaper Tax. We reproduce it here;—

Newspaper Tax.

Office at the
Museum of National Manufactures,
Leicester Square,
May, 27th.

Sir.

A number of persons have agreed to act without formal association, but in a systematic and energetic manner until their aim is accomplished for the purpose of procuring the repeal of the Stamp Duty on Newspapers.

In this object of National importance your co-operation is invited, and the following steps are respectfully suggested to you.

1. Procuring Petitions to the Commons and to the Lords from all kinds of Associations, and from individuals in every neighbourhood, their residence being subscribed with each name. It has been thought advisable to forward petitions as soon as two or three hundred names are signed to each except where particular circumstances may indicate a greater or less number.

2. Furnishing names of active persons who will correspond or co-operate in procuring petitions until the work is achieved.

3. Procuring public meetings when they may be thought desirable.

4. Forwarding any suggestions, or information relating to any part of the Kingdom, which may be in any way serviceable —

Papers are enclosed which may be useful.—

Petitions can be sent up by post, free of charge, if they are directed to a Member of Parliament are open at both ends and are indorsed Petitions to Parliament. Should there be any reason why you do not wish to trouble your own Members, they may be directed to either Lord Brougham, Mr. Hume, Dr. Bowring, Mr. H. Bulwer and Mr. Roebuck.

Any communications which you have to make may be sent under cover to Dr. Bowring, M.P. so as not reach him on Mondays addressed to

Yours respectfully,
Achibald Michie, Junr.

THE FISCAL PHILATELIC SOCIETY.

MEETING held Wednesday, February 6th, 1907. Present—Mr. Fulcher (Chair), Messrs Cooper, Roebuck, South, Thomson, and Kay.

The death of A. C. Roussell, of Canada was reported with regret.

Messrs. C. A. Nast (U.S.A.), and C. R. Warrell (U.S.A), were duly elected members.

M. A. Forbin presented to the Library a bound volume of "Le Bulletin Fiscaliste" for 1905-6

Mr. W. D. Roebuck, F.L.S., gave a display of his magnificent collection of British embossed stamps, including specimens on entire deeds from the earliest dates, many exceedingly scarce varieties, and one document bearing stamps for £3,150. At the conclusion of the meeting a unanimous vote of thanks was passed to Mr. Roebuck for his kindness.

For information respecting the Society apply to:—

Hon. Secretary and Treasurer:

TELEGRAPH CHRONICLE.

Great Britain. *Universal Telegraph Co.* Mr. C. Nissen has shewn us a pair of the 1s. value of this Co. one of which has an error "n" for "h" in the word "Telegraph". It exists on the first stamp of each of the ten rows of 10 stamps composing the sheet.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Great Britain. *Medicine Duty.* Mr. Burton F. J. Cooper sends us a part sheet of the 1½d. Plate L (the type B **5** of our current article on these stamps). *perf. 11* The 2s. has also been seen perforated.

Malta. The *Echo de la Timbrologie* has seen the King's head 3d. postage stamp, wmk. Cr. C. A. single, with the surcharge "Revenue".

Porto Rico. *Aduanas.* Our publisher submits the 5c. peso, orange-brown, Giro, of 1896, surcharged "ADUANAS" in large fancy capitals, 35½ x 10½ mm.

Salvador. Mr. G. W. Pepper submits the following varieties;—

Timbre, 1892. The 1c., black on yellow, with a space between the "D" and "O" in the name "SALVAD OR".

1903. Two types of the 10c., black on lilac differing in the type of date "1903"

Timbra para Contratos, 1905. Of the type listed in our April No. of last year. Black on background of grey dots.

2 pesos, black

Timbre Municipal 1898. In addition to the errors already catalogued, the 50c., brown with the "O" of "Centavos" in the value raised.

Timbre Municipal, 1899. The following with errors of surcharge.

1c., grey, surcharged	"	"1096" in black (for "1906")
5p., yellow	"	"1993" in black (for "1903")
10p., orange	"	"1993" in black (for "1903")
25p., black on pink	"	"1093" in black (for "1903")
25p., "	"	"1993" in black (for "1903")

Seychelles. *Revenue.* Postage stamps surcharged "Revenue 4 cents" will, we hope, be a thing of the past. The *Echo de la Timbrologie* reports a definite King's head stamp lettered "Revenue". Wmk. Crown C. A. single.

4c., violet and olive.

South Australia. *Stamp Duty.* Mr. A. B. Kay has shown us the 1d. in one colour, *bistre*.

POSTAL NEWSPAPER TAX.

(Circulars of Trade Firms, Newspapers, &c.) TYPE 71.

In 1836 an Act of Parliament provided that there should be a separate stamp for each newspaper the die for which should be prepared under the direction of the Commissioners of Stamps and Taxes at the cost of the proprietor of the Newspaper. These stamps were purely fiscal, but carried with them a certain privilege of being admitted to free conveyance by post. In 1855 the Government abolished the duty charged on newspapers and it became necessary to make provision for their transmission by post. In order to meet the difficulty the Act provided that News-printed on paper stamped for denoting the duties imposed on newspapers should be entitled to enjoy the privilege of transmission and retransmission by the post between places in the United Kingdom postage free for the space of fifteen days from the date of publication; the Act also extended the privilege to periodical publications printed and published at intervals not exceeding 31 days.

Type 71.

As previous to 1855 printed matter was not generally transmissable through the post except at letter rates, the stamps issued and used after June 30th, 1855 must be regarded as *purely postal* issues and would include all the various Trade lists and Circulars which business firms then used for that purpose.

EDITORIAL.

THE last meeting of the Fiscal Philatelic Society was the most interesting one this season. The feature of the meeting was a very able and interesting paper on the Foreign Bill stamps of Ceylon by Mr. C. S. F. Crofton, which in the unavoidable absence of the author was read by Mr Wetherell. Mr. Crofton has managed to obtain access to the official records in Ceylon and as the result of a close study of these records and of the various Acts relating to the use of Foreign Bill stamps in that colony has reached some definite conclusions, possibly not entirely unexpected, which will greatly simplify the Catalogue as far as the first issues of these stamps are concerned. The early foreign Bill stamps of Ceylon are doubly interesting both as being the work of Messrs. Perkins Bacon & Co. and also as exhibiting a type of the Queen's head, which as far as we can recall, is shown on no other stamp, postage or fiscal. As our information in regard to the issues of these stamps stands at present according to the Fiscal Philatelic Society's Catalogue, the first issue took place in 1856 and consisted of 18 values from 1d to £4 10s. each stamp bearing the inscription "Drawn out of but negotiated in the colony, wheresoever payable". The words "FOREIGN BILL" on these stamps are in Roman caps. This set was supposed to have been succeeded by another set of 15 values, from 2d to £1. 10s, lettered "Drawn in or out and payable out of, but negociated in the Colony" and the words "FOREIGN BILL" in block caps., but a doubt is expressed as to whether these were really issued as used copies could not be traced. A third set supposed to have been issued in the early sixties consisted of 12 values, embossed on white paper. It has always been a mystery why, with the exception of certain values of the first issue these stamps were so rare, especially as Foreign Bill stamps as a class are generally the commonest of fiscals but all this has now been completely cleared up by Mr. Crofton's researches He has shown, we think conclusively, that although the stamps were printed in 1856 yet none were issued till 1862 and then only the values of the the first set up to £1 10s. excluding the 8s. None of the second set were ever used and only two values, those occasionally met with, the 1s. 8d. and 3s. 4d., of the third. We may, therefore, congratulate Mr. Crofton on a very excellent piece of philatelic research. We should much have liked to reproduce his paper in our columns but we understand that it will be further elaborated and appear finally in book form, as soon as the great work of the Philatelic Society of India on the Indian postage stamps has been published. The large amount of fiscal research done during the past few years by Indian philatelists is very gratifying. Three years ago the fiscals of India were a hopeless puzzle to the collector. The magnificent work of the Philatelic Society of India published in 1905 first introduced order into the chaos and we shall now look forward with eagerness to Mr. Crofton's proposed work on the Fiscals and Telegraphs of Ceylon.

It now only remains for the Fiscal Philatelic Society's British Colonial Catalogue to appear in print and the foundations for the study of all kinds of British fiscals will be securely laid. This matter was brought up at the same meeting of the Society by a member who wanted to know why the appearance of the Catalogue was so long delayed. The answer is quite the usual one, the Society has no funds. It appeared, however, to be unanimously agreed on at the meeting that a printed Catalogue of British Colonial Fiscals was urgently needed in the interests of fiscal philately, and that it was neccessary that as many stamps as possible should be priced and priced at moderate figures. Further that the Catalogue should be sold at a low price. A difficulty arises here, apart from the question of funds, in the impossibility of the Society affixing prices. After a somewhat lengthy discussion of the subject the meeting resolved to endeavour to find some means of getting the Catalogue printed. It may be pointed out that the whole of the Society's work in British Colonial Fiscals is practically incorporated in Messrs Yvert & Tellier's Catalogue and is there available for collectors but there are two objections to that Catalogue as far as this country is concerned (1) that it is in the French language (2) that the price is too high for collectors here who are mainly only interested in British Colonial Fiscals and who do not wish to pay for a complete Catalogue of the world's fiscals as the work in question.

We have received "*The Stamp Collector's Annual for 1907*" from Messrs. C. Nissen & Co

Stamp Collector's Annual. This being the fourth issue, we hope the Annual has come to stay. In the form it now takes of being actually a record of the years doings in matters philatelic, it will prove a very serviceable volume of reference for the working philatelist. The most valuable item in the present issue is the index of the year's Philatelic literature by P. C. Bishop. There are also articles on "The College Stamps of Oxford & Cambridge: by L. Savournin and on "Board of Trade Officials" by I. J. Bernstein.

INDIAN FISCALS.

EXTRACT FROM THE REPORT ON THE ADMINISTRATION OF THE STAMP DEPARTMENT IN THE PROVINCE OF

SIND

FOR THE YEAR 1905-1906.

No. 977.

REVENUE DEPARTMENT.

From

H. C. MULES, ESQUIRE, M.V.O.,
Superintendent of Stamps, Karáchi;

To

R. P. BARROW, ESQUIRE, I.C.S.,
Secretary to Government, Revenue Department, Bombay.

Central Stamp Office,
Karáchi, 10th July, 1906.

SIR,

I have the honour to submit my report on the Stamp Revenue in the Province of Sind for the 12 months ending 31st March, 1906. The returns and statements which accompany this report have been framed in strict conformity with the orders of the Government of India and have been compiled from the information received from the District Treasuries.

2. The Karáchi Central Stamp Depôt, although opened on the 16th June, 1905, commenced the work of issuing stamps only in the middle of July last and will complete 12 months of its work during the current month.

Statement I.

Receipts and charges. 3. The gross revenue from all sources under the Indian Stamp Act and the Court-fees Act amounted during the year under review to Rs. 7,05,910 against Rs. 7,08,640, the sum realized during the preceding year; the decrease of Rs. 2,730 is chiefly due to the withdrawal of one anna receipt stamps from circulation.

4. Under "General Stamps" the income under the Court-fees Act VII of 1870 amounted to Rs. 4,04,090 and under the Stamp Act, Rs. 3,01,820.

Expenditure. 5. Charges which are principally made up of discount to stamp vendors and refunds of stamp duties amounted to Rs. 27,133 against Rs. 24,690 during the last year. The increase of Rs. 2,443 is due to a large amount of refund having been paid under both the Acts in the Hyderabad and Sukkur Districts.

Statement II.

Court-fee and miscellaneous receipts. 6. The total receipts under Court-fee (judicial) stamps amounted to Rs. 4,04,090. The increase of Rs. 11,749 over the receipts during the last year is due to a heavy probate duty on one large estate.

Statement III.

Impressed stamps and labels or Special Adhesive Stamps. 7. The income under the marginally noted head amounted to Rs. 2,24,547 against Rs. 2,33,861 collected during the previous year, showing a net decrease of Rs. 9,314 due to slackness of trade.

Hundis or Inland Bills of Exchange. 8. The rise under this head has been Rs. 5,787, the total collections having amounted to Rs. 33,769 against Rs. 27,982 during the year 1904-1905. The increase in the sales is solely due to increase in the number of banks and the development of the grain trade in the City of Karáchi.

Foreign Bill Stamps. 9. These stamps are sold in the City of Karáchi alone and the realizations of the year under report show an increase of Rs. 1,849 over that of the collections of the previous year.

India Revenue Stamps. 10. The issue of these stamps was discontinued by Government from 1st October, 1905, and to this cause is due the decrease in the total sale of stamps in the Province.

Skeleton forms of cheques and receipts. 11. No collections were made under this head in Karáchi during the year. The machine which has been set up for doing such work in Karáchi has only been working since 1st April, 1906, and the realizations will be reported next year.

Share Transfer Stamps. 12. There is hardly any sale at present of this kind of stamps in the Province and the realizations during the whole year amount to Rs. 24 only as against Rs. 11 in the previous year.

Stamps for legal practitioners' licenses. 13. No such stamps were sold in this Province during the year under review. At present the fees paid by lawyers in this province are credited direct at the Treasury and the Sanads are issued to them without stamps being affixed on them.

14. The miscellaneous receipts during the year under notice amounted to Rs. 11,536 against Rs. 5,207 last year. The increase is due to the Karáchi Port Trust having paid a large amount, *viz.*, Rs. 10,500, on account of composition fee. The rest of the receipts are on account of penalties and adjudication fees on documents.

Miscellaneous Receipts.

THE FISCAL PHILATELIC SOCIETY.

MEETING held April 3rd, 1907.

Present:—Mr. Schwabacher (Chair); Messrs. Fulcher, Hinton, South, Thomson, Wetherell, and Kay.

A discussion was raised regarding the publication, in catalogue form, of the list of British Colonial Revenues, and it was decided to take steps to ensure the same being issued at an early date.

Mr. Schwabacher showed a Great Britain Justice Room 10/6 black with value in red figures, perf. 12½, on laid paper, and a 5/- blue Southampton overprinted "Andover Division". Mr. Kay submitted a 4/- New South Wales with a double impression of the value printing.

Mr. C. S. F. Crofton being unable to attend, his paper on "The Pence Values of Ceylon Foreign Bill Stamps" was read by Mr. Wetherell. It was followed with much interest, and the arguments, entailing much research, were very conclusive as to the non-issue of several stamps previously listed. Mr. Morley kindly sent his fine collection of the revenue stamps of this country for reference.

Kindly note the new address of—

Hon. Secretary and Treasurer:
A. B. KAY,

Hammersmith,
London, W.

TELEGRAPH CHRONICLE.

Panama. Mr. A. E. Lawrence submits three stamps which do not appear to have yet been chronicled. The design consists of the Arms of Colombia in oval, in centre and inscriptions "Republica de Colombia. Departmento de Panama—Telegrafos". Value in small oval in lower left corner. Perf.

5c., green on green
10c., red on buff
20c., dark blue on lilac

It is evident that these stamps were issued prior to 1903.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Colombia. Mr. A. E. Lawrence has made the following discoveries:—

Timbre Nacional, 1899-1900. Type set stamp, "REPUBLICA DE COLOMBIA" above, "SEGUNDA CLASE" below, "TIMBRE" on left and "NACIONAL" on right. In centre the words "UN PESO" in tall Roman caps and date 1899-1900. The specimen submitted appears to bear a surcharge in blue, consisting of an inscription, which we are unable to decipher, between single lined circles. Imperf.

1 peso, black on blue (2a clase)

Timbre Nacional 1903-04. Inscriptions below Arms in a central rectangle surrounded by an elaborate floral border and date above. Imperf.

3 pesos, black on green (2a clase)

Timbre Nacional, 1903-1904. A 3 pesos, blue (2a clase) of the type of the 15 pesos, green described by us in June 1904. This value has not yet been chronicled but the copy submitted by Mr. Lawrence bears a surcharge, in red, in three lines of block caps., reading downwards "HABILITADO—PARA 1905 Y 1906—VALE 3 CENTAVOS ORO".

Great Britain. Messrs. C. Nissen & Co. kindly communicate the following unrecorded dates on embossed adhesives.

Bankruptcy. 3d., Die D. 6. 4. 70 (white paper)

Chancery Fee Fund. 4d., 1. 8. 56.
2s. 6d., 30. 6. 53

Inland Revenue. 1s., Die E 6. 7. 63
1s., Die F 3. 5. 66
1s., Die F 3. 12. 67
2s., Die K 5. 4. 62

French Indo-China. The following provisionals are submitted by Mr. A. E. Lawrence. All surcharges in black.

(1) On stamp of the 1901 issue
0$15 cents on 2c., brown (Range 200$ to 300$).

(2) On stamps of the 1903 issue
0$05 cents on 2c., brown (Range 100$ and below)
0$10 cents on 4c., brown (Range 100$ to 200$)
0$15 cents on 6c., brown (Range 200$ to 300$)
0$20 cents on 8c., brown (Range 300$ to 400$)
0$25 cents on 10c., brown (Range 400$ to 500$)

These provisionals seem to have preceded a definite set issued in 1905 which were chronicled in *Le Bulletin Fiscaliste* for 1905, which journal also gives the text of the Decree creating the series. This set consists of the values :—

5c., brown and black
10c., " "
15c., " "
20c., " "
25c., " "
50c., " "
1 piastre " "
2.50p., " "
5p., " "
10p., " "

Mr. A. E. Lawrence further submits a stamp which does not seem to be of the type of this series. It is an oblong rect., 60½ x 30½ mm., with head in circle on left as on previous issues, the space to the right, instead of containing the words "Timbre Proportionnel" and value, contains the letters "IF" in monogram repeated 7 times and also the date "190 . . . . ". At the top, bottom, sides and in the corners the value appears in *black*, reading at the top "PIASTRE 0 10 CENTS." and at the bottom, "FRANC: 0. 25 CENTIMES". Imperf.

25c., brown and black

Hayti. *Droit Proportionnel.* Mr. A. E. Lawrence submits a stamp, with Arms and inscriptions above and space below for "DATE" and "SIGNATURE" these words being in English. The stamp is oblong rect. 49½ x 31½ mm. and beautifully engraved by the American Bank Note Co. Perf. 12 at top and bottom only.

1p., dark blue

Paraguay. Mr. A. E. Lawrence has discovered another value of the second type of the 1898 series.

2 pesos, carmine-red.

Philippine Islands. Mr. A. E. Lawrence submits a curious label about which some further information is very desirable. It is a small oblong 27 x 21 mm., with a picture in the centre, rather indistinct, the main features of which appear to be a horse and two cows and water. It is lettered above "GOVERNMENT OF THE PHILIPPINE ISLANDS" and the value below 1 peso. It is cancelled with crossed pen-strokes in red ink. The colour is carmine-pink. Perf. 12.

Travancore. We have seen some of the postage stamps of this state surcharged "CF" for "Court Fee" and also an oblong label for the same duty. The *Echo de la Timbrologie* gives the following list of these stamps.

(1) Postage stamps surcharged "CF"
½c., violet (sur. in *red* and *carmine*)
¾c., black (sur. *carmine*)
1c., deep blue (sur. in *red* and *carmine*)
2c., red (sur. *violet*)
4c., green (sur. *red*)

(2) Oblong, 59 x 34 mm. Perf. 14. Wmk shell.

¼ rup., red
½ " green

United States. *New York. Stock Transfer Tax.* Mr. Lawrence submits a set of the stamps chronicled last month but in addition he sends the 2 dollars, carmine with overprint in *blue* as well as in violet, and also the 1 dollar, blue from a new die. The new type may be readily distinguished from the old by the shape of the figure "1" which is quite different in the two stamps the older being more ornate.

Uruguay. *Servicio Consular.* Mr. Lawrence has discovered two values of an issue not yet chronicled. They are small upright rects. 14½ x 41 mm. bearing Arms and inscriptions, the value above on the 50c. and below on the 1 peso. The stamps are surcharged "1905" in black, the 1 peso in two different types. Perf. 11½.

0,50c., pale blue
1p., carmine

Western Australia. *Supreme Court.* We have seen some values of an exceedingly crude series of labels for Judicial Fees. The *Echo de la Timbrologie* states that there are two series one lettered "FEES" and the other "PROBATE". Wmk. W. A. & Crown. Perf. 11.

Fees. 1d., 6d., 1s., 2s., 2s. 6d., 5s., 10s., £1, £5, £10, red.

Probate. 1d., 3d., 6d., 1s., 3s., 5s., 10s., £1, £5, £10., light green.

EDITORIAL.

THE "close-season" of philately is now fast appoaching and notwithstanding the inclement weather we have been experiencing each one of us hopes for better things shortly and out-door recreations will soon take the place of the album and perforation gauge. To most collectors we suppose that stamp collecting is merely a recreation and in its simplest form it certainly does not tax the brain unduly. It is the adaptability of the pursuit to all grades of intelligence as well as, with fear we must add, to purposes of pecuniary speculation that renders it so popular and long may it remain so. Yet philately yields its highest pleasures to those who pursue it to its utmost capacity, to those who study their stamps and what has been written about them, although this often approaches some very like hard work, which so many people pretend to be a thing to be avoided on all possible occasions. It is surprising, too, how again and again apparently well worked ground yields marvellous results to the careful gleaner. The fiscal collector has a wide range of fruitful fields to cultivate but there is a great tendency for all to delve in the same place. Most of us here collect British Colonial and perhaps North and South Americans. Is there not one amongst us bold enough to attack some European Country? France and Colonies, Germany and States, Italy, Russia, Spain or the Balkan States all have issued interesting stamps and yet we know comparatively little about them. Will some of our readers take up one of these countries and let us have the first-fruits of his study. We commend the idea to British fiscalists to ponder over during the "close-season".

THE STAMPS OF THE MIDLAND RAILWAY.

By P Evans

SINCE writing the "notes" which appeared in the October number of the "Journal," and as then foreshadowed, I have been privileged to obtain some authentic information respecting the various series of stamps issued by this Company, of the types now current, which may be worthy of placing on record.

I propose to begin with the familiar orange-coloured "Prepaid Newspaper Parcel" Stamps of which there are two distinct series in current use, viz:—One series comprising all values from ½d. to 1/-, with the "serial letter" on bottom scroll at left, and also a full series without the "serial letter".

This necessitates of course two sets of plates, or rather "stones," as these stamps are printed by the lithographic process.

It seems a somewhat curious arrangement having two series of stamps running concurrently in this way, and one that appears to nullify to a great extent the use, as a check, of a progressive "serial letter."

Each letter represents a million stamps; the black "Control" numbers running from 000,001 to 999,999, and on the latter figure being reached the "serial letter" is altered. The sheets are numbered from left to right, starting at the top left corner and running across.

The following is a complete list of the values of the current type "Prepaid Newspaper Parcel" stamps, together with perforations and "serial letters" reached to date:—

½d.	orange	perf.	10,11,	letters	A.B.C.
1d.	,,	,,	,,	,,	A.B.C.D.E.
2d.	,,	,,	,,	,,	A.B.C.
3d.	,,	,,	,,	,,	A.B.C.
4d.	,,	,,	,,	,,	A.
5d.	,,	,,	,,	,,	A.
6d.	,,	,,	,,	,,	A.
9d.	,,	,,	,,	,,	A.
1/-	,,	,,	,,	,,	A.

In addition to above a full series of all values from ½d. to 1/-, without "serial letter" are in current use These also may be found perf. both 10 and 11. The perf. 10 represents the earlier printings, as of late all these stamps appear to be perf. 11 only.

The lines of background of the 2d. without serial letter, and the 1/- with serial letter, slant upwards from the S.W. to N.E corners; in all the other values of the current series they run the opposite way, viz; slanting downwards from the N.W. to S.E. corners.

The sizes of the figures of the black Control No's vary considerably. About four different "founts" of type varying from 4 mm. to 5 mm. in height are to be found on the series in current use. Describing the colour of these stamps as "orange" is hardly correct; the prevailing colour being really an orange-vermilion, but all shades from pale orange to vermilion are frequently met with.

Number of stamps in sheet. The ½d. and 1d. values are printed in sheets of 60, in six rows of 10.

The 2d., 3d., 4d., and 5d. values are in sheets of 30, in six rows of 5.

The 6d. value is in a sheet of 15 only, in three rows of 5.

The 9d. and 1/- values are in sheets of 20, in four rows of 5.

There is some probability that this irregularity of the number of stamps to the sheet will be stopped, and all values printed in sheets of uniform number and size.

As regards the relative numbers used of these stamps, the 1d., 2d., and 3d., values are the ones most in demand for general use, followed next in order by the ½d., and then the 4d. and 6d. stamps, of which two values about equal quantities are used. The 1/- stamp comes next, the number used of these being naturally much smaller than some of the lower values.

The stamps of which the smallest number are printed are the 5d. and 9d values. These are the "rarities" of the set. Indeed, I may

ask how often are these values seen, either in used or unused condition! I think I may venture to say that there are probably many collectors of Railway stamps minus at least one of these stamps!

In the foregoing it is to be understood that the descriptions refer only to the issues of the past ten years (Ewen's Die II), and not to the types of the early '80's, distinguishable by their rougher and more blurred appearance.

Prepaid Corn Sample 1lb. (3d.) green. There have been three different series of these stamps, viz: the first series with lines of background slanting upwards (S.W. to N.E.) and without any "serial letter".

The second series with serial letter "A" *in black* prefixed to the Control number (a scarce stamp, and one very seldom seen). Both these series are found perf. 10 only.

The third, and current series has the serial letter on left of bottom scroll in the colour of the stamp, and shows the lines of background slanting downwards from N.W. to S.E. corners.

Control Nos. in black on left side, reading upwards as usual. Perf. 10 and 11. Printed in sheets of 20. In five rows of 4.

There is but very little variation of shade of colour to be found in these stamps.

News Correspondence Label. 2d. and 3d. dark blue. There are two series current of these stamps; one without, and one with "serial letter A" on left of bottom scroll. In both series the lines of background run in the same direction, viz: slanting downwards from the N.W. to S.E. corner. The 2d. value is to be found perf. 10 and 11, but the 3d. value I have only seen perf. 10, although I think it quite likely that recent printings have been perf. 11, uniform with the "Newspaper Parcel" and "Corn Sample" stamps, as doubtless the same perforating machines are used for all the various series of these stamps. Control numbers in black at left as usual.

Printed in sheets of 30 stamps, in 6 rows of 5.

Ewen catalogues the 3d., value with "serial letter" "B" only, but this is evidently an error, as I am informed that the only serial letter used for these stamps so far is "A".

Large quantities of the 2d., value are used, the control Nos. for the two series, both with and without serial letter having now, in each case, reached beyond 500,000.

Of the 3d. value much smaller quantities are used, and in proportion to the total number of News Correspondence Labels issued to date it is about 50 times scarcer than the 2d. value.

Of the 4d. value catalogued by Ewen I am unable to trace any information, nor have I ever seen a copy of this stamp. It's use has apparently been discontinued for some time.

The new series of green "Prepaid Parcel Stamps" issued in July 1906 are used in very large numbers. The first printing of them amounting to several millions. All are common, with the exception of some of the highest values.

In bringing these "notes" to a conclusion I can only express the hope that the information now recorded may be of some interest to at least a few of the readers of the "Journal".

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Great Britain. *Consular Service.* Mr. C. Nissen has a "specimen" copy of the King's head £5 surcharged "50 dollars". According to the Fiscal Philatelic Society's list the 50 dollars is surcharged on a £10 stamp, so that the stamp found by Mr. Nissen is either a proof or the Fiscal Philatelic Society's Catalogue is in error.

Perak. *Judicial.* Mr. A. B. Kay submits the $3. brown and green, Straits Settlements Judicial stamp wmk. Crown and CA. p. 14 surcharged "PERAK" in two types: (1) in thin black Roman caps. 13 x 2½ mm., (2) in black italic caps 17 x 2½ mm.

Santa Fe (*Province Argentine Repub.*) *Documents*, 1884. Our publisher has found a used pair of the 1 peso m n, yellow, *imperf.*

Also the following surcharged "1884" in blue.

38c., vermilion
50c., blue
4p., brown
9p., green

United States. *New York. Stock Transfer Tax.* With reference to the two types of the 1 dollar, blue, chronicled last month, Mr. A. B. Kay calls our attention to the fact that there are also two types of the 50c. and the 2 dollars and submits copies of the stamps. In the case of the 50 cents, the most significant difference is that the C of "CENTS" is shaded in one type and plain in the other, in the case of the 2 dollars, type 1 has a double-line figure "2", and type 2 a single-lined 2 with no circles round the dots in the body of the figure. The new issue of the perforated stamps is on paper watermarked "STATE OF NEW YORK. STOCK TRANSFER TAX" in block letters.

British Patent Medicine Stamps.

(*Continued from page 35.*)

C. **Type 1. The "interlacing circles" type. Duty 1½d.** Design: Large imperf. oblong, 128 mm., consisting of a double-lined rectangular frame, having at each end a framed rect. oblong with "STAMP" and "OFFICE" respectively inscribed in large vertical black type. Within this frame, black circles interlacing with red discs, on a black and white engine turned ground, forming red sectors. In the left arm the determining value in two lines of white letters "VALUE IS." AND UNDER on a fine network of red and white curved lines. In the right arm the words "MEDICINE LABEL" or a blank space in the unappropriated stamps or the name of proprietor on the appropriated stamps, in white letters on a similar network, within a white framed oblong with slightly curved ends. The Duty Stamp in the centre contains with single-line circles forming a broad white ring, the value in words at length "Duty Three Half Pence" in bi-coloured letters and the die number in black. Within the ring, a ground of black and red segments forming in the centre a red sector on a plain back ground upon which a crown is outlined in white with a small white plate letter beneath, all within a broad ring of engine turned lines. The plates each contain 10 dies, numbered 1 to 10. Plates B,C,D were registered at Somerset House as follows.

EDITORIAL.

THE May number of the *London Philatelist* deals at length with the progress which has been made by the *Royal Philatelic Society* towards establisbing a reference collection. It is to consist of stamps, reprints, forgeries, proofs, essays, photographs and other objects of value for reference purposes. In view of the serious difficulties which arise in the matter of "expertising" forgeries there is no doubt that it is a wise move to establish a collection which would always be available for study independently of external resources. The fiscal collector is not at present much troubled with forgeries. Those which are known have been made chiefly for the purpose of defrauding the revenue. Such are the document stamps of the Argentine Republic, the "Giro" Philippines and British Medicine Labels. The Cretan forgeries, however, appear to have been made to deceive collectors. Quite recently we have discovered a forgery of one of the Silkworm Egg stamps of Japan, which has apparently been genuinely used. But fiscal matters may not always remain in this happy state and the time may come when it will be worth while for forgers to turn their attention to this class of stamps. Would it not then be well for the Fiscal Philatelic Society to follow the lead of the Royal Philatelic Society and start a reference collection of fiscal stamps on the same lines. The society already possesses a valuable nucleus in the series presented by the Canadian & some of the Australian Governments as well as the Cretan forgeries presented by Mr. Preston Pearce and sundry photographs of rare fiscals. Moreover, donations of fiscal stamps would probably be easier to obtain than of postage stamps. Perhaps something might be done in this direction during the next session of the Society.

BRITISH RAILWAY STAMPS.

NOTES AND NEWS.

By P. Evans.

Cambrian Railways. The following changes in the current Newspaper Parcel Stamps have to be recorded. The ½d. black on brick-red paper is now issued perf. 14, instead of 11 as before. Sheets of 3 rows of 4 as usual. The 3d. value is now printed on paper of a very much paler shade of green than formerly. Perf. 10 as before. Issued April, '07 or earlier.

Great Northern Railway. A new series of "prepaid parcel" stamps has recently been issued. The design is a modified one of the "News Letter" stamps; the principal difference being in the lettering, which in the new stamps reads "Great Northern" in the top half of the ornamental band surrounding the coat of arms, and "Railway Company" in the lower half of the band. The figures of value in each case consist of a bold black overprint measuring 10 mm. in height in the centre of the stamp.

The series consists of a set of six values, viz. ½d., 1d., 2d., 3d., 4d. and 6d., all of uniform size, colour, and design. Colour, lake-red on white wove paper, with value overprinted in black. Perf. 10. Issued February, '07, or earlier.

After being in use only a few weeks a second printing of the 1d. value was made bearing an additional overprint in black of the words "Prepaid Parcel" across the top of the stamp, and "At Owner's Risk" across the bottom; it evidently having been noticed that previously the stamps bore no indication as to their purpose.

Doubtless this change will be extended to all the other values, but up to date I have only seen the 1d. value so treated.

Whether these stamps are used for general parcels traffic I do not know, but all copies I have met with so far have been used for franking Newspaper Parcels only.

Great Western Railway. The type-set design of the stamp for single newspapers has been re-set. There are several minor differences noticeable, principally in the spacing of the lines, and the figure "**1**" in "**1** newspaper only" now has a *slanting top* instead of a straight one as formerly. Issued February, '07, or earlier.

Manchester, South Junction, and Altrincham Railway. The 1d., violet, with apex of triangles in the background pointing to left, now comes with new "serial letter" "C".

1d., violet, with apex of triangles pointing upwards, also with "serial letter" "C".

Both perf. 12 as before.

These two stamps differ greatly in colour; the latter being printed in a much redder shade of violet than the former.

Maryport and Carlisle Railway. Most of the values of the last printing of the "Newspaper Parcel" stamps of this Company differ greatly in colour from former printings.

The 1d. value approximates pretty nearly to its standard shade of red, but the 2d. stamp shows a marked variation; being now in a very pale shade of yellow-green. The 3d. is in a much darker shade of blue than before, and, in fact, is almost of an "indigo" colour.

The 4d value is now of a lemon-yellow colour instead of orange.

The 2d. and 4d. values are also showing signs of great wear; the lines in portions of detail of both stamps having entirely disappeared, giving a generally "blotchy" and worn-out appearance The printers would do well to have the "stones" touched up, or re-drawn, while their is any of the design left!

Midland Railway. The possibility of a change in the number of stamps in the sheet foreshadowed in my article in the May number of the "Journal" is already an accomplished fact.

A new printing of the 1d., 2d., 3d., 4d., and 5d. values of the "Prepaid Newspaper Stamps" was delivered to the Company at the end of May last. The sheets being all of uniform size, viz: 30 stamps, in 5 rows of 6. Another important innovation to be noted is the change in position of the Control Nos. which are now printed horizontally *across the bottom* of the stamp, instead of vertically at left side as formerly.

The "serial letter" in colour of the stamp is also abolished and now appears *printed in black* and prefixed to the control number, thus: 'E990365." Perf. 11 as before.

All the values from 1d. to 5d. have been altered as thus described, and doubtless the ½d., 6d., 9d., and 1/- values will be brought into line at the next printing

The 1d. value has now reached serial letter "F". The other values remaining at the same serial letters as listed in my article in the May number.

A special printing of the 1d. value *without serial letter* has also been made for use at St. Pancras, and Leeds Stations.

North Eastern Railway. A somewhat uncommon minor variety is to be met with in the 3lb. black (new type) Newspaper Parcel Stamp bearing two different Control Numbers, one printed over the other. So far I have seen stamps from at least three different sheets bearing these double controls. Apparently a few sheets got printed with the wrong numbers and were put through the machine a second time to be re-numbered correctly.

Some of the stamps I have seen show traces of an attempt to erase the (wrong) first figures previous to the sheet being re-numbered.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

British East Africa. *Consular Service.* Mr. A. B. Kay reports in the *Stamp Collectors' Fortnightly*, the following postage stamps of the 1896 issue surcharged "CONSULAR SERVICE" in Roman caps.

½a., green, surcharged in black
1a., red " "
2½a., blue " vermilion

Canada. *Quebec.* According to the *Stamp Collectors' Fortnightly*, the following stamps have appeared with colours changed.

Law Stamps.

$1, carmine
$2, light brown

30c., blue
$1, carmine

Peru. Mr. A. B. Kay submits the 5 soles, carmine of 1903-1904 surcharged "HABILITADO—1905-1906" in black, in two lines; in two different types, the first having the word HABILITADO in fancy caps., 16 x 2mm., and the second with same word in italic caps. 17 x 2mm.

We also learn from the *Stamp Collectors' Fortnightly*, that the value has appeared in the same design for the regular set bearing date 1905-1906 Perf. 12.

5$, deep blue.

Philippine Islands. *Internal Revenue.* The *Stamp Collector's Fortnightly* chronicles a finely engraved set of stamps of the same size as the preceding emission. The values below 1 peso have a palm tree as the chief device, the higher value bears a female figure. Wmk. "PIRS" in the sheet in double lined caps. Perf. 12.

C. **Type 2. The "trefoils" type. Black centre to Duty Section. Lettered "Stamp Office."** This group may be divided into two series according as the word "DUTY" in the Duty section is written "Dy." or "DUTY" and each series further sub-divided into unappropriated and appropriated dies. We may call the four types thus arranged types 2A, 2B, 2C, 2D.

C. **Type 2a.** Unappropriated.

Design: Large imperf. oblong consisting of a double lined rectangular frame, having at each end a black framed oblong with "STAMP" and "OFFICE" respectively inscribed in large vertical black type. Within the frame are 24 trefoils on a ground of fine white lined network, arranged in two parallel rows across the label. The general groundwork consists of black and white engine-turned and parallel lines. The determining value in one line across the stamp is in white letters on a red and white parallel lined ground, within two white framed scalloped oblongs, reading "Value above 1s. (or other value of the series) to the left and "Not exceeding 2/6" (or other value) to the right. The Duty Stamp in the centre contains on a broad white ring, formed by a double-lined outer and a single-lined inner circle, the value printed in red, expressed in words "Dy. THREE PENCE" (or other value) and the die number in large black figures. Of these two outer circles, the largest is in black and the smallest, part in black and part in red: the inner circle is also part in black and part in red. Two red and one black periods or dots separate the words of the Duty value. Within the white ring and at the centre, a medium sized crown outlined in white on a solid black ground, is circumscribed by a double circle, which again is inscribed in a broad engine-turned white and black ring.

In the stamps without plate letter there is more than one type both as regards the crown in the centre, the word "STAMPOFFICE" and the type of the value in the Duty section. Possibly there are only two corresponding to plates which should have been designated "A" and "B."

3d., red and black.	No plate letter.		Wove paper
3d.,	,,	,,	Thin laid paper
3s.,	,,	,,	Wove paper

C. **Type 2b.** APPROPRIATED.

(With name on right of label.)

Design for the appropriated dies in the same as above, except that the determining value is in the left arm, in two lines "VALUE ABOVE IS." NOT EXCEEDING 2/6. (or other value) and in the right arm the name and address of the proprietor.

EDITORIAL.

THIS is an age of printed paper, and the popularity if not the value of all things may be submitted to the test provided by the number or noise of literary argosies. Judged by the vast bulk of its literature philately stands alone, for no form of connoisseurism has witnessed such an output of books and periodicals devoted to its dissemination.

The Literature of Philately. Scarcely twenty years had elapsed after the invention of postage stamps before a literature began to appear, and the authors of the modest little pamphlets had wondered indeed could they have seen the forest which has grown from their few seeds. The mere catalogue of the world's philatelic literature would make a large volume, and it is perhaps this knowledge of its extent which has deterred anyone from attempting systematic bibliography. The perfect bibliography of philately would not only comprise a list of all the separate books and pamphlets on stamp collecting, but would also give references to all periodical literature. Such a task would be enormous, and, until some system of co-operation is arrived at, cannot be expected. We are glad to note, however, that good work of minor extent is being done by that doyen of the philatelic world Dr. Legrand, whose interest in the literature of a subject with which he has been so long connected is well known. Dr. Legrand has commenced the publication in *La Circulaire Philatélique* of a "Catalogue of Philatelical Literature", and devotes the first page of his work to the various Catalogues of stamps which have been issued up to 1899. The number of these alone is astonishing, judged by this first instalment, which includes some of the earliest works issued on stamp collecting, most of which are very rare. What has become of all the Mount Brown's, the Booty's, the Gray's and others upon which the early collectors leaned for support?. Compared with certain editions of these and other similar works the first issue of Mauritius sink to the rank of second class rarities, and there are other desirable items of early philatelic literature which are known only in one or two copies, the incunabula of their kind.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Banganapally. According to the *Philatelic Journal of India* this state has recently issued a set of revenue stamps ranging in value from 1 anna to 50 rupees. All the stamps are lithographed from the same die, in black, on various colours of paper, the values being printed in separately The stamps are of a large rectangular size and show the portrait of a gentleman in a fez cap with a aigrette, *à la* the late Shah of Persia.

1a., on pale red	3r., on pale blue
2as., on pale mauve	4r., on flesh
4as., on pale lavender	5r., on pale green
8as., on pink	10r., on brown
1r., on pale yel'w-green	20r., on deep green
2r., on straw	50r., on deep carmine

In the three highest values the paper is only surface coloured, the back being white.

Germany. *Zigarettensteuer.* Dr. Kalckhoff kindly sends us a specimen of the bands referred to in our February number. It consists of five compartments: the centre one contains the word "Zigaretten" over the German Eagle, and the one immediately to the left of this the words "Steuerklasse (Duty Class), 1A, &c.", and the number of cigarettes e.g. 10 Stück (10 pieces). The bands for 20, 25, 50 and 100 increase in size with the number. At present the bands for 6 classes are known

1A., green	1D., grey
1B., light blue	1E., bistre
1C., rose	1F., violet

Dr. Kalckhoff also encloses one value, 20pf., light blue, of the old age and ill health insurance stamps, on the new watermarked paper, remarking at the same time that these are not duty stamps but a kind of savings bank stamp.

India. *Court Fees.* In the *Philatelic Journal of India* Mr. Corfield notes the following unchronicled varieties of the Court Fee, large and small "Service" of the 1872-74 permanent issues.

Small "Service".	8as.	No dot to "i".
	20r.	,,
Large, "Service".	1a.	First "e" large fount.
	3a.	First "e" large fount; "r" raised; "r" nearly missing.
	4a.	First "e" large fount; "i" raised.
	6a.	"r" raised; "r" nearly missing; "e" nearly missing; "v" large fount.
	12a (orange).	First "e" large fount; "i" raised.

Philippine Islands. *Sello.* Our publisher has found a copy of the 1 peso., deep purple, of the 1899 U. S issue (Type 321 in the Catalogue of Spanish Revenues), *pin perf.*

Prussia. Of the fiscal stamps the first value to appear on paper with watermark "crosses and rings" is the 1½ mark, green. Dr. Kalckhoff has seen a copy used on June 24th.

Saxony. Dr. Kalckhoff has seen the current duty stamp, 50 pf., brown and black, on watermarked paper, used on March 1st.

EDITORIAL.

HAVING ventured last month to make a few remarks on the subject of philatelic literature, we are very glad to find substantial evidence of an increase of interest among philatelists in this matter. It appears from the August number of the *Philatelic Journal of Great Britain*, that certain philatelists met together recently with the express object of endeavouring to found a society for the encouragement of the study and collection of philatelic literature. The following resolution was unanimously adopted :—

A Philatelic Literature Society.

"That it is the opinion of this meeting that "it is desirable to form a Society to promote "the collection and study of literature relating "to philately: to compile, print and publish "works of value to the librarian and book collec-"tor; to assist in the interchange of duplicates: "and generally to place upon record everything "that may appertain to the history and "bibliography of stamps and stamp collecting".

A further motion was also adopted :—"That "steps be taken to form a society, in accordance "with the previous resolution, by circularising "those likely to be interested in the subject". The programme outlined in the foregoing resolution is ambitious, and the effectual performance of a part of it would be a great boon to philatelists. It seems to us that the great requirements of the present time in philately is the compilation of good indexes of philatelic periodicals especially those of foreign countries, for in working up any country the first necessity is to know what has been written on it. When this has been ascertained, however, it is not always easy at the present time, to get access to the book or a file of the particular periodical wanted and it should be one of the objects of the proposed society to help collectors in this direction. As to the formation of a philatelic library all we can say is that while every working philatelist needs a good library of reference yet the endeavour to collect every work published on philately is impossible for all but very few. Nor is it necessary; for a very large proportion of philatelic literature is of no practical value, many of the early publications are interesting as curiosities or valuable on account of their rarity but much of more recent date is mere rubbish. But every philatelist can decide for himself the lines on which to form his library and there is plenty of scope in the selection.

Another Exhibition.

We are informed that the Committee of the Junior Philatelic Society, meeting at the Society's new Hall at 3, Bedford St., Strand, have decided to proceed with plans for an Exhibition to be held in London in or about March next.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Colombia. *Timbre Nacional.* 1903-04. Mr. A. E. Lawrence submits a copy of the 3 pesos, blue, chronicled in our journal for April with a surcharge in red, without the surcharge. It is perf. 12.

IRELAND.

A separate series of dies was prepared for Ireland. In the early series which throughout somewhat resemble the English dies, the most noteworthy difference is the design of the "Harp" in centre. Owing to the difficulty of obtaining specimens I can only compile a somewhat meagre list of this series.

EDITORIAL.

Sarawak.

WE have before us an interesting little handbook which has just been published by Messrs. Chas. Nissen & Co. entitled "*The Postage Stamps of Sarawak*." By *F. J. Melville*. The stamps of Sarawak appear to be attracting a good deal of attention just now, as only last year, in our July number, we had occasion to review a similar work on these stamps by Mr. Bertram W. H. Poole, with which the present work naturally invites comparison.

The first issue of Sarawak as is well known to collectors consists of a 3 cent stamp which was printed by lithography, transfers to a lithographic stone having been made from an engraved die. There has been some doubt as to who were the printers of this stamp. Gibbon's Catalogue says "Engraved and printed by Mr. Chas. Whiting", and Mr. Poole states that though all early descriptions of this stamp assert positively that it was printed by Messrs. Maclure, Macdonald & Co., of Glasgow, yet "modern investigations have proved that Mr. Charles Whiting of London was their manufacturer". However, he gives no outline of these modern investigations, while Mr. Melville, after quoting the early descriptions, brings forward what appears to be conclusive evidence that they really were printed by Messrs. Maclure and Macdonald, viz.: the facts that Messrs. Maclure, Macdonald & Co. used to display sheets of the early Sarawak stamps in their shop window in Queen Victoria Street as specimens of their work, that the Rajah of Sarawak himself communicated to *The Philatelist* in May, 1874 the information that the stamps were printed by this firm, and lastly that Messrs. Maclure & Co. stated last year in answer to a direct inquiry that they had printed the stamps.

Passing from the question as to the printers of the early stamps, Mr. Melville proceeds to announce the interesting fact that both of the first two 3c. Sarawak stamps exist "clearly impressed from an engraved die or plate". It appears that there are 3 copies known, all used, of the first issue. They are printed on surface coloured paper and the impression is in an "orange-brown" (orange-red, Mr. Melville states in one place, which appears to be a misprint for "orange-brown" which is the colour name given in the summary at the end of the chapter), on a paper which is of a deeper yellow tint than the ordinary stamp. We doubt, however, whether the theory that a supply of engraved stamps as well as lithographed ones were originally submitted with an estimate of the cost and that the engraved specimens were retained and used is a valid explanation of the existence of the stamps. They are more likely to be perforated proofs from the engraved die which have accidently passed the post.

With regard to the second and third issues, beyond mentioning the fact that there are different printings, Mr. Melville does not say anything as to the number of such printings or detail any characteristic to help a collector to re-construct the various settings, a matter whch we regard of considerable interest and importance. In this respect Mr. Poole's monograph is much fuller, if, indeed the lengthy catalogue of flaws and marks in that work can de relied on as constant quantities in the stamps of the various settings, a point on which we have not sufficient experience of Sarawak stamps to guarantee.

Mr. Melville has an interesting chapter on a stamp of doubtful origin, the so-called provisional TWO CENTS on 3 cents of 1876. Mr. Melville appears to come to the conclusion that the stamp is bogus, yet, in view of the remarks of Mr. B. K. T. Smith in *Alfred Smith's Monthly Circular* for July we must admit that the last word on this stamp has not yet been spoken.

Except that of 1895 the remaining issues of Sarawak are not of much interest. A fact that is new to us, however, is that there was at one time a proposal to change the currency to pence, and that an interesting series of proofs consisting of the stamps of 1895 surcharged in pence values exists.

Mr. Melville has succeeded in bringing together a large number of official documents relating to the postal arrangements of Sarawak which are most important for the historian of these stamps and we must also add that the work is very beautifully illustrated with collotype plates.

In conclusion we must congratulate Mr. Melville on a most excellent piece of work and one invaluable to any one who takes an interest in the stamps of Sarawak.

EDITORIAL.

FISCAL collectors will be glad to hear that fresh arrangements have been made by the Fiscal Philatelic Society for the publication of their catalogue of British Colonials and that the work may be expected at an early date. Pending the preparation of an illustrated catalogue by our publisher Mr. Kay will issue the catalogue in a convenient form without illustrations and copies will be sent free of cost to all members of the Fiscal Society who have paid their subscriptions for the current year. The catalogue will be brought fully up to date, and Mr. Kay also proposes to add to it a catalogue of Telegraph Stamps. The work is in active progress and will most probably be issued before the end of November. We understand from Mr. Kay that the catalogue will be priced on a scale representing the relative values of different stamps and not necessarily at his selling prices, which would in many cases be lower than the quotations in the catalogue, so as to preserve the "half catalogue" feature of transactions on a cash basis, so dear to the majority of stamp collectors.

Fiscal Catalogues.

According to latest advices Messrs. Yvert & Tellier's complete catalogue of Fiscal Stamps will be ready by February next. Meanwhile those who cannot wait for the complete work may obtain advance copies of the sheets as they are printed off at a higher subscription rate.

* * * * *

The Philatelic Literature Society appears to be making good progress. We are informed that Mr. E. D. Bacon has signified his willingness to occupy the Presidential chair and several well-known philatelists are giving their adhesion to the Society. The lines on which the Society is to run have not yet been permanently fixed but we believe the chief item in the programme is to publish a quarterly bulletin of bibliographical notes, bibliographies of the stamps of different countries and reviews of newly published works and in fact any features in regard to philatelic literature likely to be of value to the philatelic student. The bulletin will also form a medium for facilitating the exchange of literature between collectors. It is expected that the bulletin will only be published in a very limited edition so that it is in itself likely to become a bibliographical rarity. To adequately support a high class bulletin of this nature the subscription to the Society will have to be rather high. It is proposed for the present to fix it at one guinea.

At the first ordinary meeting of the Junior Philatelic Society, London branch, held at 3 Bedford St. Strand on Saturday October 5th the President gave some interesting information concerning the Exhibition of the stamps of the British Colonies the Society intend holding in March next. The great success that attended their Exhibition held in Exeter Hall in February 1905, when no less than 11,000 people passed through the hall in 2 days, has emboldened the committee to engage a larger hall and for a longer period, they have therefore taken Caxton Hall, Westminister for March 12th, 13th, and 14th, 1908, confidently anticipating that this Exhibition will far surpass in every respect those previously held by the Society. Admission will be free, by ticket, and the President stated that, in the expectation of a large demand 25,000 tickets had been ordered as a preliminary supply. A special committee has been formed with Mr. H. F. Johnson as secretary to deal with the work connected with the Exhibition and an office engaged for their use at 44, Fleet St., E.C. All applications for tickets or other matter relating to the Exhibition should be addressed to Mr. H. F. Johnson, Stamp Exhibition Office, 44, Fleet St., E.C.

There is a rumour afloat that all the numerous sets of postage stamps, generally known as "Seebecks" which have appeared since 1890 for various Central American countries are really *reprints* and may be readily distinguished from the originals. If this is true, it would appear that a colossal fraud has been perpetrated on the stamp collecting world, as these stamps have been guaranteed as genuine remainders. The Seebeck issues, viewed as genuine remainders, have marred the philatelic interest which the stamps of Central American countries used to possess in a high degree, and if they turn out to be mainly reprints it is not obvious whether it makes matters worse or better. Anyway we presume the genuine issues will be of some rarity. We await further information with interest.

RAILWAY STAMP NOTES.

By P. Evans.

Cheshire Lines Committee. The 1d and 2d. values of the series of "Prepaid Newspaper Parcel" Stamps have been appearing since about June last with the control numbers printed in red-brown, instead of black.

The stamps themselves are noticeable, also, on account of their being a re-issue of the old Die 1 type. Perf 11 as before.

Great Northern Railway. Of the new series of stamps recently issued, the 2d. value now comes with the additional overprint (in black) "Prepaid Parcel—At Owner's Risk". This, and the 1d. value, previously chronicled in June last, are the only ones of the set, so far to bear any indication as to what purpose they are intended for. The remaining four values, ½d., 3d., 4d., and 6d., still bear only the figure of

value overprinted in black in the centre of each stamp. Doubtless in the next printings of these values this omission to state their use will be remedied.

Great Western Railway. A new series of "Prepaid Parcel" stamps came into general use on October 1st. The new stamps are of ticket-shape and are issued in reels, the idea being evidently copied from the system adopted by the Great Eastern Railway Company some two years ago. The design is severely plain consisting of a large figure of value in the centre-with lettering "G. W. R. Bristol" (or name of other issuing station) at top, "Prepaid Parcel" at left side, "Stamp Label" at right side, and at the bottom there is a small single lined frame bearing in small type, the words "No of Packages" with a space adjoining for this information to befilled in when necessary.

The full set comprises all values by 1d. to 1/-, then 1/6, 2/-, 3/-, 4/-, and 5/-. All are printed in black on white paper for country stations; but Paddington Station is at present using a special series printed on pink paper.

The control nos. are at topright corner, and the stamps are rouletted between each for tearing off.

Manchester, South Junc'n. and Altrincham Railway. The 1d. value newspaper stamp has now reached serial letter "D", and has been issued perf. 12, as usual; and in addition, supplies have been issued rouletted. Does this portend a general change, for all values, to this system of separation?

Midland Railway. "Prepaid Newspaper Parcel" stamp. The ½d and 6d. values now appear with the new horizontal control numbering across foot of stamp. The 1d. value has now reached serial letter "D", and the 2d. value serial letter "F", new system, prefixed in black to control nos.

Of the series of green "Prepaid Parcel" stamps, the 6d. value is now to be found with serial letters "A" and "B" shewing that this value is the one of which by far the greater number are used. None of the other values, so far, have been required in sufficient numbers to necessitate a serial letter.

North Eastern Railway. The 6lb. and 12lb black "Prepaid Newspaper Parcel" stamps have recently appeared, in the new, re-drawn design, with background of very fine lines. The 1½lb. and 3lb. values having been issued some considerable time previously.

AFFICHES.

THE stamps for this duty were issued in 1882, printed in yellow-ochre on white unwatermarked paper, perf. 14. Lettering at top "TIMBRE D'AFFICHE". The Telegraph series existing with three varieties of perforation, 14, 11½, and 14 x 11½. I have been on the look out for varieties of same in this series, but have only found the 5c. perf. 14 x 11½, but it is probable other values exist. Type 1.

TELEGRAPH CHRONICLE.

Great Britain. Messrs. Chas. Nissen & Co., report the discovery of the 6d. *Electric Telegraph Co.*, with the initials R.G.-H.W. *perf.* 11½ all round.

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. When ever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

Ceylon. *Stamp Duty.* Mr. Kay has discovered an interesting error of the 1873 issue. Wmk. Crown C A It is the 10 cents printed in the colour of 15 cents.

Error of colour. 10c., mauve

Great Britain. *Consular Service*, 1887. Mr. Kay has found the 75c., with the second type of overprint in *violet* instead of the usual red.

75c., lilac, violet overprint

Indian Native States. Mr. Wilmot Corfield kindly writes that he has been informed on most reliable authority that the following Orissa Tributary States used the large lilac Victorian Court Fee stamps surcharged with the name of the state in a similar manner to those known for Vinchur:—Keonjhur, Pal Lahara, Mourbhanj, Talcher, Hindol, Boad, Allimallik, Altagarh, Baramba, Nursingpur, Bheakanal, Nayngarh and two others. He possesses the 1 anna of Keonjhur only.

Straits Settlements. *Revenue.* Mr A. B. Kay has discovered three values of the long magenta stamps with overprint in very *dark blue* instead of in black, a similar colour to that of the surcharge on certain values of the O.H.M.S Indian postage stamps issued about the same date, viz: 1874.

10c., 20c., 30c., magenta and dark blue

Switzerland. Our publisher submits various stamps for some villages in the Canton of Berne.

EDITORIAL.

IT appears that a careful examination of the Annual Reports of H. M. Commissioners of Inland Revenue would probably lead to the acquisition of some useful information with regard to the fiscals of our own country. We have the 50th Report (for the year ended March, 1907) before us and we venture to extract a couple of tables which may perhaps be of some interest to our readers.

British Fiscals. Stamps are employed for collecting revenue in several cases which come under the heading of Excise or Estate duties but we shall only deal with here those items which are classified by the Inland Revenue Commissioners under the heading "Stamp Duties" The first table shows the NET RECEIPT of STAMP DUTIES for the year 1906-07 and the second the NET RECEIPT from FEES collected by means of stamps for the same period.

I. STAMP DUTIES.

		£
1.	Deeds and other instruments	3,373,309
2.	Receipts, Drafts, Cheques, Contract Notes (Broker's) and other documents liable to the 1d. Inland Revenue Duty	1,643,423
3.	Companies' Share Capital Duty	537,049

The first table does not call for any special remark. On the second however there appear several items, for which we should be glad to know the class of stamp employed, viz.: the Colonial Stock Act, Crofters' Commission and Money Lender's Registration In the case of the last named, the fees of which began to be collected in the year 1900, it is just possible that a set of overprinted unappropriated dies, as yet unknown to collectors, may exist. Do the London and Edinburgh Gazettes bear stamps? If so, of what kind and what is the reason of the fee paid by these periodicals? The Railway Commission stamps are, we suppose, the General Duty dies struck on buff paper, of which the 2/6 value is occasionally seen It is interesting to learn that they are still in use. The above seems to show that it would be useful to search previous reports for material towards a history of British fiscals. If any reader has convenient access to a set of these early reports we might learn a good deal as to the dates of issue and length of life of many stamps.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible, all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

EDITORIAL.

WE have before us the new edition (the nineteenth) of part II of Stanley Gibbons' Catalogue. As this is a work which is practically indispensable to every collector and its many excellent qualities well known and appreciated we are mainly concerned in notifying the various improvements in this edition. The practice of re-writing particular sections or countries in each successive edition is a very excellent one, for apart from the general improvement of the catalogue as edition follows edition it keeps collectors in touch with what is being actually studied by advanced collectors of the day. It would appear at first sight that by this process perfection should be ultimately attained but the progress of research, no matter what countries are studied, is always bringing to light new discoveries of importance and finality cannot be attained. As long as this state of things continues, so long will philately continue to flourish; as it is the source whence arises the perennial interest which devotees of the subject find in the contemplation of their stamps. At present there are no signs of exhaustion and we may rejoice thereat remembering that "what's come to perfection perishes."

Gibbons' Catalogue, Part II.

The present volume is considerably "fatter" than the last and contains 60 more pages. The chief changes, we are informed, are in respect of the undermentioned countries. The last issue of Bosnia is fully elaborated in all the permutations and combinations of the unnecessary perforation varieties, while Montenegro has been entirely re-written. In this country the unnecessary commemoratives are largely responsible for the swelling of the list. The very numerous provisionals of Nicaragua, Salvador, and Venezuela have all been written up. What countries these are for the specialist supposing that anyone has the courage to attack them? In the case of Salvador reference is made to certain reprints among the Seebeck issues which we suppose is the basis of the rumour to which we referred in October last, that all Seebeck remainders were reprints. We are glad to find that it is not so. In Finland the issues of 1866 to 1871 have been re-arranged in a form easier to follow, while the stamps of Sweden have been re-catalogued on the lines of Mr. Svenson's articles now appearing in the *Monthly Journal*. The silk-thread issues of Switzerland have been correctly classified while Siam has been revised. So much for the improvements. Perhaps we may be permitted to touch lightly upon some cases where some changes might be effected for the better in future editions. Probably the worst catalogued country in this part is Japan. It is true that there is still a very great deal of work to be done on this country but the list is now a long way behind our knowledge of these stamps. We do not propose to deal with possible omissions but there are certain points which call for criticism in the list as it stands, some of which we offer in a spirit of inquiry rather than as an accusation of inaccuracy. In the first place it is about time that in the note after the stamps of the first issue the word "official" should disappear. There are only *two official* imitations, viz: those of the 1 sen and 2 sen stamps of the second issue, and these were made for the purpose of illustrating the Official History of the Stamps of Japan published some years ago by the Japanese Government, a work which was illustrated throughout, except in the two cases mentioned, with genuine stamps. All other imitations are *non-official* and it seems were made in the first place for the purpose of illustrating a private reprint of the Official History above mentioned, though unscrupulous persons could not resist the temptation of illicit gain by afterwards sending them out broadcast in sets as collections of genuine old Japanese postage stamps. Moreover, we are credibly informed that notwithstanding that these imitations bore the signs of "Mozo"-"Facsimile" in order to comply with the law against the imitation of Government stamps, the Japanese Government actually raided the establishment of the manufacturer and burnt all his stock and paraphernalia. It is strange, indeed, that Gibbons should still so persistently reproduce this note as the *Monthly Journal* (see Vol. X, p. 224) was the first to publish an explicit statement from the Japanese Government as to the facts.

Some alterations have also been made in the lists of the stamps of the 1872 and 1873 issues. The stamps on native paper have been divided into four varieties of paper, thin and thick laid and thin and thick wove. It is true the varieties are marked but as all the native paper is presumably hand-made, these divisions do not appear to us to be of any great importance. No more, for example, than the thin and thick paper on which English red penny stamps are found. A change which we do not regard as

an improvement is the alteration in the manner of listing the ½ sen, brown, with upper character on left defective. In the last Catalogue it was properly described as an error in the sheet, it being the 23rd stamp, or the last but one on the third row, but in the present catalogue it is stated that there are two types of the upper character on left of the ½ sen, which is, to say the least, mis eading. The error is, however, now catalogued both on wove and laid papers, the former being an omission in previous catalogues. Stamp No. 40a, 10 sen, *blue-green* on thin native laid paper is a stamp we should much like to see. We are quite prepared to admit its existence, but up to the present the only *blue-green* on laid we have seen is a somewhat dangerous forgery.

Is the 2 sen, yellow, syllabic 23 correctly listed on *native* laid paper? We know it, as well as sundry others, which are not listed on a peculiar *European* laid paper, and we have heard, though we have never seen them, that the 2 sen, syllabics 2 and 3 exist on *native laid paper*.

We think some attempt might have been made to list the chief perforations of the issues from 1872-1876 but it was certainly better to leave the different issues as with "various perfs." than to attempt it on the same lines as the issues from 1876 to 1883. The perfs of these as they stand in the catalogue are in a hopeless muddle and can serve no useful purpose in their present form.

When all is said Gibbons' Catalogue remains an invaluable handbook for the collector. As regards the vexed question of prices and principles on which prices are fixed we do not pretend to judge, but in the few cases where we have experience we believe that the quotations in this Catalogue more nearly represent the relative values of the stamps than those of any other Catalogue known to us.

(To be continued.)

THE FISCAL PHILATELIC SOCIETY.

MEETING held November 6th, 1907. Present, Mr. Schwabacher (chair), Messrs. Evans, Fulcher, Hinton, South, Thomson and Kay.

Messrs. A. E. Milner (Birmingham) and H. Heinemann (Germany), were duly elected members.

The compilation of the catalogue of Great Britain revenues was continued. Mr. Marsh sent for inspection a magnificent collection of impressions from the dies for embossed English duty stamps up to one for £11,250. A vote of thanks was passed for the courtesy.

The Annual Report is now ready and attention of Members is called to the new arrangement for the Continental Exchange Section. Will Members, who wish to inspect these packets, kindly communicate with the Secretary. Sheets for circulation in all packets should be sent to the Secretary by the end of the month.

The priced catalogue of British Colonial Revenue, Telegraph and Railway Stamps (about 100 pages) is now in press and will be sent to all members whose subscription is paid for the current season. Will those in arrear kindly remit with as little delay as possible.

At the meeting of the Society held on 4th December, 1907, F. E. Heydon (U.S.A.) was duly elected a member. The resignation of W. W. Norton has been received with regret.

Subscriptions in arrear should be remitted without delay. The Secretary will be glad to hear from Continental members who desire to see the Continental Exchange packet, and also to receive sheets for circulation in this, and the Home, and American packets.

The Catalogue of Colonial Reveuues is now in the hands of the binders and should reach members, whose subscriptions are paid up, very shortly.

For Rules and information respecting the Society apply to:—

FISCAL CHRONICLE.

NEW ISSUES and DISCOVERIES.

We desire to make this feature of special value to collectors and would point out that it is one to which nearly all should be able to contribute at times. Subscribers resident abroad are requested to send early intimation of new issues. Whenever possible all notes should be accompanied by the specimens referred to, of which every care will be taken, and which will be promptly returned, or an exchange tendered as may be requested. Communications should be addressed to the Editor.

British South Africa. Mr. A. B. Kay has shown us various combinations of split "Postage & Revenue" stamps, used to make up the 3/- Hut Tax Duty. For example.

1890 issue. 2/- vermilion and diagonal half of same stamp.

1890 & 1891 issue. Halves of 2/- vermilion and half of 4/- black and red.

1896 issue. 2/- blue and green and half of same stamp.

Ecuador. 1907-1908. We have seen two values of this issue, same type and colours as the previous set.

1c., dark brown
10c., black

Peru. 1907-08. Same type &c., as previous issue.

25 c., red
1 sol, green

Seychelles. From the *Colonial Office Journal*:—"Two new Revenue stamps have been supplied to Seychelles. They are of the existing revenue type and the values are 50 cents in lilac and sage-green and Rs. 2 50 in green and black. Both are on chalk-surfaced paper with all-over watermark."

Uruguay. 1907. We have seen the following with the usual black overprint.

3° Trimestre, 1907.	4° Trimestre, 1907.

In concluding this series of articles, it will be evident that very much more information is needed to complete the lists of the different series, especially in the early varieties. A good many queries and hitherto puzzling problems have been answered during the publication of the articles, and I hope further investigation and study by collectors, on the various clues given, will eventually result in bring the lists nearer to perfection.

The Cigarette Duty Bands of Germany.

By Dr. F. Kalckhoff.

SINCE July 1st, 1906, a special duty has been imposed in Germany on ready-made cigarettes as well as on cigarette tobacco and paper. These taxes are levied by means of banderoles pasted around the boxes or packages and obliterated by being stamped with the name of the selling firm. There are three classes of banderoles: the first for manufactured cigarettes, the second for tobacco, and the third for paper leaves or tubes. All of them are printed in colour upon medium white paper watermarked with multiple four-lobed ornaments. The design is divided into five compartments. The middle one bears the imperial eagle, and the indication of the goods which the band is intended for. The next compartment to left gives the number or weight of the goods. The compartment at right is filled up with a network (guilloché)

pattern in an oblong frame, in the upper left corner of which are sometimes found the words "*Angebracht den*" (applied the), which were to be followed by the date of obliteration. The two outer compartments are covered with a multiple eagle pattern. The dimensions of the three middle compartments are the same for each kind of goods, but the eagle strips at both sides vary in length. The dimensions of the designs are as follows :—

Class of goods.	Length of compartment			Height of design
	left	middle	right	
Zigaretten (class 1)	23½ mm.	36 mm.	44 mm.	14 mm.
Zigarettentabak (class 2)	23½ mm.	37 mm.	46½ mm.	20 mm.
Zigarettenhüllen	12 mm.	19 mm.	21½ mm.	10 mm.

The following is a complete list of all bands, that have so far been issued :

NOTES FROM A FATHER TO HIS SON.

AS it is 49 years since Government (G.P.O. Department) took over the Telegraph Companies, I have to rely upon my memory, and therefore may be a trifle wrong, but I worked on the Provincial Co's. audit for a few years and was well acquainted with the people I speak of, if I am not quite absolutely correct in every detail.

THE BONELLI TELEGRAPH CO.,

My father was one of the Auditors and the Liquidator with James Gutteriez, who had been Secretary. Their office was in the Adelphi, Strand. I think their only line from Manchester to Liverpool. The invention was that the messages came out printed in block type, about this size "**BONELLI.**" I believe their stamps were really used and not printed for show, as stamp collecting was not in vogue at that time. I don't think they did much business.

THE LONDON AND PROVINCIAL TELEGRAPH CO.

This was originally the London District Telegraph Co. The Head Office was in Cannon Street, where the post office now stands, opposite Cannon Street Station. The top floors were used as "the Exchange." A message from Highbury to Clapham would be sent from Highbury to Cannon Street, and from there to Clapham. The Secretary was Charles Curloys—Bookkeeper, —Collett. Matron of the Exchange, Miss Oppenheim. Auditors, — Taylor and E. Sundell, and afterwards, — Taylor was elected as a Director, and Alfred Eames (Secretary of the Royal Naval School) joined your grandfather as Auditor. The Royal Naval School then occupied the building now known as the Goldsmith's Institute at New Cross.

The lowest charge for a wire was 1/-, and the stamps were used. Charles Curloys gave my father some for use on the Company's business, and after they left the room Collett gave me two books for the same purpose, but added I might use them for private purposes. I think they were in books of 10 sheets aud 6 stamps on each sheet—price to the public 50/., but I don't remember the colour.

When the Government purchased the Companies, Curloys and Collett were compensated for loss of office—Collett spent all his money in about two or three years. Curloys became a farmer and brewer in the West of England and lost much of his money, and was afterwards Secretary of the Telegraph Construction and Maintenance Company. Your Grandfather also got a small pension, but he was the only Auditor who got any compensation. In 1870 the Post Office wanted him to commute his pension and offered two or three years' purchase; this he declined: and although he was a good age he drew his pension up to about 1892. "S"

The Fiscal Philatelic Society.

MEETING held January 8th, 1908. Present:—Mr. Schwabacher (Chair), Messrs. Fulcher, Hinton, Morley, South, Thomson, and Kay.

Mr. Morley gave an interesting display of his collection of Indian Native States fiscals, which contained many unique specimens. M. A. Baillière was also so good as to send his collection of Japanese revenues for inspection.

A vote of thanks was passed to both gentlemen for their kindness.

Meeting held March 4th, 1908. Present:—Mr. W. Schwabacher (Chair, Messrs. Fulcher, Hinton, Morley, South, Thomson, and Kay.

Mr. Schwabacher gave an interesting display of rare Mexican fiscals. A portion of M. A. Baillière's collection, consisting of the revenues of the Australian Colonies, and including an unique series of Beer Duty stamps was also exhibited.

Mr. Fulcher showed 55 different types of the 1 yen, blue, 1873, Japan revenue stamp, including some with marked errors of engraving. He will be much obliged for the loan of any pairs or blocks of Japanese engraved fiscals to aid him in the reconstruction of the sheets of these stamps.

Mr. Morley brought specimens of the 1862 blue bill stamps of Belgium, showing inverted and missing letters, and other errors in these stamps.

Mr. Kay submitted specimens of the newly-issued Great Britain revenues for Designs, Patents, and Trade Marks.

The Revenue Stamps of Japan.

By L. W. Fulcher.

NINE years ago I published a series of articles on the Revenue Stamps of Japan in *Stamps* (Vol. III. (1899) p. 14 *et seq*,) and as far as I am aware nothing on the same subject has appeared in any journal since. I have, however, been steadily collecting these interesting stamps, and have endeavoured to solve some of the many problems which they present to the philatelic student. I cannot say that I have met with any great success in this quest, but I have accumulated a certain amount of new information, and I think the time has come when a general revision of the whole subject may be useful. In the following pages the different series are described in the alphabetical order of what are supposed to be the English eqivalents of the various duties for which the fiscals have been created. I fear that in this respect there may be a great deal open to correction, but I hope that any philatelist better informed will not hesitate in rectifying any error. I hope that the reference list of the stamps may be found fairly free from error, but I have no doubt they are susceptible of considerable additions in the matter of varieties at present unknown to me.

As a preliminary it is necessary to say a few words with regard to the perforations of Japanese stamps. This is a very obscure subject, and at present has not been at all worked out with regard to the earlier stamps. In the case of the perforations of the postage stamps issued from 1876 onwards, I attempted to classify them some years ago in the *London Philatelist* (Vol. VIII., Sept., 1899), and I have not found any reason to modify the scheme of perforations there given except in one particular, and that is as regards the perf. which I have called the 8½ to 9 of 1885 (?). I now think that the range of this perforation must be extended to at least "10." The reason for this is that some at least of the postage stamps in deep bright colours, issued probably about 1885, which are usually found perf. 8½ to 9 are equally common perf. 9½ to 10, and it seems to me more likely that these are perforated by the machine which gives 8½ or 9, rather than by the earlier one in use during 1876 which gives 9½ to 10. So that the perforation which I formerly gave as 8½ to 9 must be extended from 8½ to 10, and cannot *in itself* be distinguished from the earlier machine giving 9½ to 10. It seems that the earlier machine was at least different from the later one inasmuch as a stamp like the 1 sen, black, has, as far as I know, never been found with a perforation gauging as low as 8½.

The perforation scheme for the postage stamps applies equally well to the fiscals, and I shall use the same scheme as defined in my paper in the *London Philatelist* for perforations after 1876. For stamps before this date I shall mention those I have found or have been informed of, with such notes as may appear necessary. In every case I shall give after each stamp the perforation found on that stamp, as sets cannot generally be made up with each perforation mentioned. I give the scheme of perforations here for purposes of reference; for more details I refer the reader to my paper above mentioned.

1876 (or earlier) to 1883	I	Perf.	9½-10	
	II	„	11*	(The asterisk is added to denote a small hole perforation)
		„	9*	
	III	„	10½	
	IV	„	11½-12	
	V	„	12½	
1883 to 1886	VI	„	11	(large holes)
	VII	„	8½-10	

1888	VIII	Perf. 13½
		„ 13
1893	IX	„ 11½-12.

During the last few years the following new perforations have appeared :

X	12½
XI	13 x 13½

but I have not seen the latter on any fiscal.

ALMANACKS.

As is generally known there are two types (figured below) of stamps for the duty, and two different sizes of stamp of each date. It seems reasonable to suppose that these represent only two distinct issues, the large and small stamps serving for different sizes of almanacks, but definite knowledge on this point is wanting. The value of the duty they express is unknown to me and the dates of issue also appear to be uncertain, those given below being taken from Moens' Catalogue. These stamps are all typographed on European white wove paper so that no question of plating arises in the case, but the number of stamps and their arrangement on the sheet is unknown.

1878? Type 1. Small rectangle, 17 x 18½ mm, containing on a solid ground a globe, encircled diagonally by a white band, bearing the signs of the (Chino-Japanese) zodiac from the rat to the snake. Japanese inscription on globe meaning "Central Observatory." Small white five-rayed star in each angle. White wove paper. Brownish and white gum. Perf. 9½-10.

Type 1

No value expressed. Blue.

1878? Same design, but of larger dimensions, the rectangle measuring 22 by 25 mm. Three stars in top right hand and bottom left hand corners, one being concealed by the encircling band.

2. No value expressed. Blue. Perf. 9½-10, 11-12.

1885? Similar to type 2, but small rectangle 16½ x 18½ mm.

No value expressed. Blue. Perf. 9½-10.

The only known copy of this stamp is in Mr. Lawrence's collection.

Type 2

1885. Type 2. Rectangle, 22 x 25 mm. Japanese characters for "Central Observatory" in centre, surrounded by a circular band bearing the Signs of the [Chino-Japanese] Zodiac. Four small ovals at the middle points of the sides, containing inscriptions. That at the top, being translated, is said to be "Palace of the Gods" and that at the bottom "Prefecture," i.e. together = *Prefecture of Ecclesiastical Affairs.* In the angles are the Sun, Moon, Draco and Casseiopeia. White wove paper. Perf. 8½-10.

5. No value expressed. Blue.

The Chino-Japanese signs of the Zodiac are not the same as the European. For reference I append a table of corresponding signs—

European.	*Chino-Japanese.*
Ram	Rat
Bull	Ox
Twins	Tiger
Crab	Hare
Lion	Dragon
Virgin	Snake

Scales	Horse
Scorpion	Goat
Archer	Ape
He-goat	Cock
Water Bearer	Dog
Fish	Boar

Bills of Exchange and Receipts.

The well-known stamps of Types 3 and 4 are usually catalogued under this heading although I must confess to some doubt as to its being the direct designation. Moens states that "Ces timbres nous ont été expediés du Japon comme timbres effets de commerce," but I have never seen one on a complete document. Confirmation of the statement would be desirable.

Type 3

The earlier issues of these stamps are printed on native paper. In my former article I separated this paper into "laid" and "wove," but as in the case of first issues of the postage stamps of Japan, I have arrived at the conclusion that the division is not one of any importance. The paper is hand-made, varies in thickness and generally shows laid lines, but sometimes these are not very apparent and may occasionally be invisible. In many cases, I believe, the gum or paste at the back is the reason of the invisibility; there does not appear to me, either, that there is any difference in texture between the "laid" paper and what might be regarded as wove. Collectors may, however, understand that all the stamps mentioned below as on "native-laid" paper may be found on paper showing no traces of the laid lines.

Type 4

February, 1873. 1, 5 and 10 sen, Type 3, 25, 50 sen and 1 yen, Type 4. Engraved in *taille-douce*. Type 3 measures 24 mm. square and Type 4, 30 mm. Design: a chrysanthemum, below which is a Japanese inscription of four characters meaning "stamp" or "stamped paper." These, together with conventional ornaments, are enclosed in a frame composed of a fan-shaped "tiled" design which is broken above and below by a label bearing the value in English, and at the sides by a similar label on which the value is repeated in Japanese. In each angle is a flower, the *Pawlonia imperialis*. Outside the design are two narrow upright rectangles containing a Japanese inscription, which reads "Anyone who counterfeits this stamp is liable to a severe penalty."

For the higher values the design is similar, except that crossed banners take the place of the chrysanthemum. These banners are Imperial insignia, known as the Brocaded Banners of the Sun and Moon. Native laid paper. Rouletted $14\frac{1}{2}$-17.

1. 1 sen, grey to pale grey
2. 5 „ yellow-brown, orange-bistre.
3. 10 „ carmine, rose-carmine, brick-red.
4. 25 „ orange-yellow, yellow.
5. 50 „ pale green.
6. 1 yen, blue, dark blue.

The sheets of the 1, 5 and 10 sen contain 50 stamps, each separately engraved, in 5 rows of 10, and it has been usually stated that the sheets of the higher values are similarly constructed, but for reasons which will presently appear I am somewhat doubtful as to the correctness of this assertion. I have not yet

been fortunate enough to come across complete sheets of any of the values, but I have spent many hours in trying to reconstruct sheets by the help of overlapping pairs and blocks. I have worked chiefly on the 10 sen, carmine and the 1 yen, blue, as being most suitable on account of their colour but owing to the scarcity of *horizontal* pairs or strips of the former and pairs or strips either horizontal or vertical of the latter I have not yet succeeded in reconstructing a sheet. I have, however, I think sufficient evidence to show that there are at least half a dozen plates of the 10 sen and a strong suspicion that the plates of the lower values are equally numerous. The existence of so many plates renders the problem of reconstruction somewhat intricate and possibly we may never now succeed in reconstructing all the plates. A further difficulty lies in the fact that the stamps are so well drawn and so much alike one another. Even the large quantity of stamps which I have examined have yielded but few errors of engraving or notable varieties except in the case of 1 yen. This last mentioned stamp could easily be plated if we only knew the places of the distinguishable varieties on the sheet or possibly sheets. I mentioned above that I am inclined to doubt whether these higher values, the 25, 50 sen and 1 yen were in sheets of 50. My reasons are these, first that it appears to me that a sheet of 50 would make a very large plate and secondly that after an examination of upwards of 600 copies of this stamp I have sorted out 55 varieties. This latter fact appears to me to point to the existence of two plates of 30 each rather than two plates of 50, as I think if the latter were the case I should have found a larger proportion of the 100 varieties than 55. On the other hand it is quite possible that five of the types which I have may be duplicates; as it is very difficult when the actual types on a sheet are unknown to pick out the different types from a limited number of specimens without including some which are only apparently different by reason of mere adventitious marks and scratches which do not really exist on the plate. I give a list below of the distinguishing features of some of these 55 types; on the remaining types they are too minute to be worth mention here.

I append a list of the chief errors and varieties known to me in the order of the values of the stamps.

1 *sen.* Worn plate. Specimens may be found showing little or no shading in the fan-shaped ornaments in the frame. This stamp is also catalogued as existing imperforate by Moens.

5 *sen.* No varieties known yet.

10 *sen.* Three varieties of this stamp may be made by collectors. It appears to me that the three varieties are characteristic of three groups of plates.

(1) "1" of figure "10" in upper and lower labels with small serif.

(2) "1" of figure "10" in upper and lower labels with large serif, the value "**10 SEN**" being thickly engraved.

(3) The "**S**" of "**SEN**" in upper and lower labels very much curved inwards sometimes resembling an almost perfect figure "8."

25 *sen.* Error of Engraving. The Sun omitted from the Brocaded Banner of the Sun, which leans over to the right.

50 *sen.* Error of Engraving. No back to the letter "**E**" of "**SEN**" in lower label, the value appearing thus "50 **S∃N**."

1 *yen* (1) Error of Engraving. Lower portion of the outside margin of the Sun banner missing, from the level of a line drawn across the base of the lower pair of the four characters in the centre of the stamp to the end of the banner.

(2) Error of Engraving. A similar error to the last but not quite so much of the margin missing, the portion wanting extending from the point where it crosses the pole of the Moon banner to the end.

(3) Error of Engraving. The ends of the cross piece at the top of the Sun banner *single* instead of double lined.

(4) Error of Engraving. One line of the pole of the Moon banner crosses over the pole of the Sun banner, making it appear as if the pole of the Sun banner passed through the pole of the Moon banner. On all the other varieties I have seen the pole of the Moon banner passes under the pole of the Sun banner.

Other noteworthy varieties of the 1 yen which may be distinguished by the particulars given are :—

(a) Scratch on plate between "Y" and "E" of "YEN" in lower label.

(b) Long scratch across Japanese character for "YEN" in left panel: two dots below "Y" of "YEN" in lower label: minute dot below end of banner in a position above the centre of the lower label.

(c) Scratch outside upper margin of stamp above the space between "Y" and "E" in the word in "YEN" in upper label.

(d) Two small dashes by side of upper arm of "Y" of "YEN" in lower label: dot outside Moon banner by the side of the Moon: spot outside top margin of stamp above "Y" of "YEN" in upper label.

(e) Scratch like an accent over "1" of "1 YEN" in lower label: small vertical scratch under Sun banner above the curl towards the end of the inner corner ornament.

(f) Long scratch under the word "YEN" in lower label, extending slightly inclined upwards from the foot of the "Y" to the first down stroke of the "N"

(g) Large spot over "N" of "YEN" in lower label.

(h) A scratch to right near the top of the last vertical stroke of the "N" of "YEN" in top label: two small vertical dashes in background above the top of the Sun banner: the third cross line of the Sun banner from top projects over the margin of the banner to the right.

(i) The bottom margin of the stamp shows a slip of the engraver's tool, being much thickened for a distance extending from a point under the figure "1" to the letter "E" of "YEN": the top right corner of the "E" of "YEN" in the lower label projects upwards: a small group of dots under the Sun banner above the end curl of the ornament in the inner corner.

(j) Left margin of stamp projects upwards above top margin: a scratch across the end of the lower flap of the Moon banner: the back of "E" of "YEN" in lower lower label projects downwards.

(k) Small curved scratch upwards at end point of the lower flap of the Moon banner.

(l) The right margin of stamp projects very considerably downwards below the bottom margin: dot like a stop between "1" and "YEN" in lower label.

(m) Long thin horizontal scratch across corner ornament in right inner corner ornament about the level of the lowest point of the Sun banner: large dot at the foot of the right lower Japanese character in the centre of the stamp.

(n) Curved scratch over right arm of "Y" of "YEN" in upper label and small dot at the base of the figure "1."

(o) The back of the "E" of "YEN" in upper label projects slightly downwards and under it is a dot: a small dash inside the fork of the "Y" of "YEN" in lower label.

(p) The down stroke of the figure "1" in the bottom label projects below the base: two small upward projections on top of the "E" of "YEN" in upper label.

(q) Bottom right corner of stamp not joined up: dot outside right margin of stamp opposite space between first and second characters.

(r) Projection upwards on top of the "E" of "YEN" in upper label.

(s) The top of the first vertical stroke of the "N" of "YEN" in upper label not completely joined up with the serif; two spots outside left margin of the stamp opposite the lower portion of the fifth character.

(t) Dot under "1" of "1 YEN" in upper label: group of three or four small dots in background above Moon banner.

(u) Vertical scratch by foot of the right character of the lower pair of four characters in centre: dots above and below "Y" of "YEN" in lower label: spot in extreme right lower corner of stamp.

Aug., 1873. Type 5. The three higher values reduced to 24 mm., but otherwise the design is unaltered. Engraved in *taille douce*, 50 varieties to the sheet, 5 rows of 10, as before. Native laid paper. Rouletted about 14-15.

Type 5

7. 25 sen, yellow.
8. 50 sen, bluish-green.
9. 1 yen, blue, dark blue.

Var: On very thick native laid paper.

10. 25 sen, deep yellow.

1873. As before, but colour changed.

11. 50 sen, deep orange.

As regards the stamps of these two issues I may remark that the 50 sen, bluish-green is a very rare stamp. It is only recently that I have succeeded in obtaining a copy. I cannot say how many plates exist for each of these values but there are certainly two different ones (at least) for the 1 yen, blue. Here again the lack of horizontal pairs has prevented one from re-constructing a sheet, though I have several columns complete. There is one variety of the 1 yen stamp which has a very distinctive appearance and is more coarsely engraved than the general run of this stamp. The stamps of this variety probably all come from one plate and it is interesting to note that this plate was used for the stamps in rose-carmine on European wove paper which came later, a fact I have ascertained by finding several of the same types both in blue and rose-carmine.

1873. Two new values (Type 6 and one similar), 5 and 20 yen. In the 5 yen the framework is more open and in place of the *Pawlonia* in the angles there are circles containing the Japanese character 5. The impression is on a background of the flowers of the chrysanthemum and the *Pawlonia* alternately. In the 20 yen, above and below are five ovals, each containing a figure or letter of the value "20 yen". On each side the value is repeated in Japanese antique numerals in

an elongated hexagon. The background consists of a diamond-shaped pattern enclosing crosses, the diamonds being linked by small circles at the angular points. Engraved in *taille douce*, on thin European wove paper. 50 varieties to the sheet as before. Rouletted 14-15, Brown gum.

Type 6

12. 5 sen, violet.
13. 20 sen, red-violet.

Moens also catalogues a 1 yen, carmine, *rouletted* but I have not been able to trace any copy of this stamp. It is a very common error of collectors to mistake a blindly perforated (12½) stamp for the above mentioned stamps and I have several times seen such a stamp in collections where the rouletted stamps ought to be. I am inclined to think that this is, an explanation of the appearance of the 1 yen, carmine, rouletted, in Moens catalogue, a badly perforated stamp being mistaken for a roulette. The 5 and 20 yen, *rouletted*, are of great rarity used or unused, the copies usually found being "specimen" copies overprinted with the Japanese character for "cancelled" in a small circle in red.

October, 1874. Design, &c., as before (Type 3). Change of colour.

14. 1 sen, grey-black, dark-grey.
15. 5 „ brown.
16. 10 „ blue, bright-blue.

These stamps are probably printed from some of the plates used for the earlier issues, but new ones may also have been engraved. In the case of the 10 sen, I have found the same types both in carmine and blue, showing that certainly the same plates were used in this case, but I have also found a variety of 10 sen, which I have not seen in carmine, which tends to prove that a new plate or plates were engraved for the blue stamp. The variety in question consists of a modification in the form of the fifth character in the thin column on the left of the stamp. This is nearly always written in two parts, the top portion appearing as a kind of grave accent or a "ʌ" placed sideways with the apex pointing to the right; but I have found copies of the blue stamp where the top part is joined on to the bottom, being well defined and the whole character freely written. Such copies do not appear to be very common so that they may only occur on certain stamps on a sheet, but I have seen a vertical strip of four of this variety rouletted, and a horizontal pair among the perforated stamps next mentioned.

Variety: With fifth character in left column written in a continuous stroke.

10 sen, blue.

1875. As last, but perforated. Native laid paper.

17. 1 sen, deep grey. Perf. 11, 12½, 12½ x 11, 11 x 9½, 11 x 11*.
18. 5 „ brown. Perf. 11, 12½, 12½ x 11.
19. 10 „ blue. Perf. 11, 12½, 12½ x 11.
20. 25 „ yellow. Perf. 12½, 12½ x 11.
21. 50 „ deep orange. 11, 12½, 12½ x 11.

Of the perforations given above the "11" varies from 10½ to 11½, the "12½" from 12 to 13, and the "9½" from 9 to 10. Perf. 11* is a small hole perforation and varies from 10½ to 11½.

1876. As last, but on medium to thin European wove paper. Perforated.

22. 1 sen, grey. Perf. 9½-10, 11, 12 x 11, 12½, 12½ x 9½, 11 x 9*, 8½-10.
23. 5 „ pale brown (shades) Perf. 11*, 11, 8½-10.
24. 10 „ pale ultramarine. Perf. 11*.

25. 10 sen blue, dull blue. Perf. 9½-10, 12½, 12½ x 9½, 9½ x 12½, 8½-10.
26. 10 „ greenish-blue. Perf. 9½-10.
27. 10 „ grey-blue. Perf. 9½-10.
28. 10 „ dark blue. Perf. 9½- 10, 8½-10, 11.
29. 25 „ yellow. Perf. 9½-10.
30. 50 „ orange, dull orange. Perf. 9½-10, 11, 12½.
31. 1 yen, rose-carmine. Perf. 9½-10, 12½, 12½ x 9½, 9½ x 12½, 8½-10.
32. 1 „ rose. Perf. 9½ x 10, 10 (small) x 10 (large), 11, 12½ x 9½, 12½ x 11.
33. 5 „ violet. Perf. 12½.
34. 20 „ red-violet. Perf. 9½-10, 12½.

Variety: From worn plate, with little or no shading in fan-shaped ornaments in green.

10 sen, blue. Perf. 9½-10.
10 „ greenish-blue. Perf. 9½-10.

The paper on which the above stamps is variable in quality and texture, but the following varieties are sufficiently distinctive to be worthy of special mention:—

(1). Thin smooth white paper.

35. 1 sen, grey. Perf. 9½-10, 11*, 11 x 9½.
36. 5 „ pale brown. Perf. 9½-10, 11*, 12½ x 9½.
37. 10 „ ultramarine. Perf. 9½-10, 11*.

(2). *Thick* smooth paper.

38. 1 sen, grey. Perf. 9½-10.
39. 1 yen, rose. Perf. 12½.
40. 5 „ violet. Perf. 12½, 12½ x 11*.
41. 20 „ red-violet. Perf. 12½.

(3). Rough porous paper.

42. 1 sen, grey. Perf. 9½-10, 12½.
43. 10 „ pale ultramarine. Perf 9½-10, 12½, 12½ x 9½, 9½ x 12½.

(4). White laid paper (so-called "ivory laid").

44. 5 sen, pale brown. Perf. 11*.

The "laid lines" in this paper are usually hardly visible, but stand out clearly when the stamp is wetted.

If a quantity of these perforated stamps be examined, it will be observed that some appear distinctly smaller than others. As a matter of fact, speaking generally, they may be divided into two groups. The stamps in the first group measure 24 mm. square, and in pairs and strips are about 2 mm. apart vertically and horizontally. In the first group may be found all the values except the 10 sen blue (all shades), and in the second the 1, 5, 10 sen (all shades), and 50 sen, exceptions being that the 1 yen *rose* measuring 24 mm. square, is found 2½ to 3 mm. apart in pairs and blocks, while the 5 sen, measuring rather more than 24 mm. square is found 2 mm. apart in pairs and strips. The stamps of the first group are probably printed from old plates and those of the second group from new ones. The 1 yen, *rose-carmine* I have definitely ascertained was printed from one of the same plates as the 1 yen, blue (No. 9), as I have found several stamps of the same type in each colour. I have also discovered that the 10 sen in all the shades mentioned, except *ultramarine*, are all printed from the new plates, of which there are two. Of this stamp I have re-constructed 20 columns (which make up two plates of 10 columns each), but from lack of a sufficient quantity of horizontal pairs I am

at present unable to connect the columns in their proper order. I have plated several hundred of these stamps on the re-constructed columns, so that I do not think that more than two plates of this stamp can exist, but the printing in the *ultramarine* shade is from a different plate. I have not had sufficient of these to attempt any re-construction. I may add that on the two plates of the 10 sen referred to above there are no remarkable varieties, and the stamps only differ by minute variations which it would be almost impossible to describe so that a reader could follow them. I have attempted plating with some of the other values of this series, but have not succeeded in attaining results worth recording.

1885-86. Eight values typographed on European wove paper, Types 7, 8, 9, and similar ones. Design for the five lower values consists of the Imperial chrysanthemum in centre, surrounded by a broad circular band containing inscriptions. On the 5 rin and 10 sen, the circular band is white with inscriptions in colour, while this disposition is reversed for the 1, 2, and 5 sen. The upper Japanese inscription on the 5 rin, 2, 5, and 10 sen means "Bank Stamp" while the lower is the value. The broad circular band is surrounded by a narrower one of an ornamental pattern, different for the respective values, and broken at the top by a label bearing in Japanese characters the inscription "Empire of Japan." The three higher values are similar in design, but the chrysanthemum is raised above the centre, which is occupied by the inscription "Bank Stamp" on a diapered background on the 25 and 50 sen, and by the value on the 1 yen. The upper label bearing the Japanese characters for "Empire of Japan" is more prominent than on the most values, and the ornamentation of the stamps on the upper spandrels and elsewhere more elaborate. The number of stamps in the sheet is unknown to me.

The stamps on thin paper are quite transparent when wet, and the colours of the stamps on this paper are, as a rule, much brighter and darker than those on the medium paper.

Cocoon Guarantee.

Type 10

1875. Type 10. A large square stamp of simple design. The side measures 44 mm. On a trellised ground-work in the centre are two horizontal rows of inscription in Japanese characters, the translation of which, according to the "*Timbre Fiscal*" is "Mark of guarantee of silkworms' eggs." This is surrounded by a border of mulberry leaves. Lithographed on European wove paper. Perf 12½.

1. Value not indicated, green.
2. „ „ „ red.

The red stamp is given on the authority of Moens. I have not seen a copy.

Justice.

June, 1884. Type 11. Figure of Justice seated to right of centre in a circular band. In her right hand an open book resting on her knee and in her left balances; the Sword of Justice lies across an open book on the ground by her side. Palace of Justice in the background. The whole enclosed in a circular band of colour bearing inscriptions. The upper inscription means "Japanese Government Law Stamp," and is separated at the top of the circle by the Imperial chrysanthemum. The lower inscription is the value and this is separated from the upper inscription by small ornaments different in the different values. The inner edge of the circular band is ornamented by a circle of pearls. Typographed on thin wove paper. Type 11.

Type 11

Medicine.

1883? Tpye 12. Chrysanthemum in centre, with inscription in Japanese above and below, enclosed by a thin circular ornamental band broken at the top by a label bearing the inscription in Japanese "Empire of Japan." The upper inscription means "Medicine Stamp" and the lower is the value. The upper corners are filled in by an arabesque pattern, the lower with the value in European characters placed obliquely. The word "RIN" or "SEN" occupies the centre of the base. Typographed on European wove paper. Number of stamps on sheet unknown. Type 12.

(d) Rouletted. *Unofficial.*

2 sen, blue.
3 „ yellow.
5 „ orange-brown.
1 „ red-brown.

Varieties of these stamps imperforate horizontally, are cut from the bands catalogued below, and I think the set previously listed by me pin perf. 8½ to 10 x ordinary perf. are also stamps cut from these bands and fraudulently perforated horizontally. I have therefore omitted this set from the list given above. The 4 sen, orange, imperf. has been recorded as existing in a collection formed by Mr. Thompson, but I have not seen this variety.

BANDS.

1883. The same designs printed in the centre of a rectangular band, 20 to 21 mm. x 105 mm. European wove paper. Number of stamps on sheet 30, in three rows of 10. Gummed and ungummed.

30. 1 rin, dark grey. Perf. 9½-10.
31. 2 „ pale blue. Perf. 9½-10, 9½ x 12½.
32. 3 „ yellow. Perf. 9½-10.
33. 5 „ pale brown. Perf. 9½-10, 12½, 11 x 10.

34. 1 sen, red-brown. Perf. 9½-10, 12½ x 9½, 11 x 10.

37. 4 „ orange. Perf. 9½-10.
38. 5 „ violet. Perf. 9½-10.
39. 10 „ carmine. Perf. 9½-10.

The only copies I have seen of the three lowest values are surcharged with the Japanese character for "Cancelled" in a small circle in black.

Playing Cards.

190 ? Type 13. Small rect., 19 x 22½ mm. with value in Japanese and chrysanthemum above on a circular disk with ornamental background. Labels bearing Japanese inscriptions above and below, the top being "Empire of Japan" and the lower the duty. Below at the base of the stamp is a label bearing the value "10 (20) SEN" with the figures "10" on a small circle on either side. Engine-turned pattern forming the general background of the stamp. Typographed on European wove paper. Perf. 11½-12.

Type 13

1. 10 sen, violet.
2. 20 „ green.

Registration Tax.

30th October, 1888. Type 14. Rectangle contatning engine-turned circle on which are Japanese inscriptions in colour, and an ornamental band across the centre with the value in Japanese. Above the band containing the value is the Imperial chrysanthemum. The value in figures is placed obliquely in the lower angles and the word "sen" or "yen" between in the middle of the base. Typographed on wove paper. Number of stamps on the sheet unknown.

Type 14

I have an original circular on which are affixed a set of the above stamps, surcharged "Specimen." The circular is dated in Japanese, 30th Oct., 1888, which I consider to be the date of issue. The following printings of the above values in bistre or yellow-brown, with the addition of the 1 and 3 sen are therefore a later issue.

Date ? Two new values, and modified shades for the remaining values.

I have an original circular bearing the above two stamps imperf. and surcharged "Specimen" in Japanese characters in red. The circular is dated 7th March, 1902. I have not seen a used or unused copy of the 1 or 5 rin, imperf., only copies surcharged "Specimen."

Type 15.

11th November, 1906. Two high values. Types 15 and 16. Rectangle containing oval band broken at the top by the chrysanthemum, bearing inscriptions of which the lower is the value in Japanese. Floral designs in upper corners and in the lower the value in figures, and the word "Y^n" placed obliquely. Typographed on European wove paper. Perf. 11½-12.

Type 16.

24. 10 yen, orange-red. (Portrait of Wake Kiyomori, 15th Century.)
25. 50 „ blue-green. (Portrait of Tachenouchi-no-Sukene—a General of the Empress Jingô, 3rd Cent.)

I have also these two stamps surcharged "Specimen" in Japanese characters on original circular dated in Japanese, 11th Nov., 1896. These stamps appear to be rare used, but are plentiful surcharged "Specimen."

REVENUE.

I do not know what title to give the stamps described below. When they first appeared it was stated that they superseded all other current fiscals of Japan. (*see* Morley's Phil. Journal, Vol. II. p. 8), but whether this is so I cannot say.

Type 17

1900. Type 17, 18, and 19. Value in Japanese characters in large oval band broken at the top by the Imperial chrysanthemum, and bearing a Japanese inscription with value in European characters at the bottom for the values in "rin": similar design for the values in "sen" up to 10 sen, the oval being more ornamental and the value in European characters in lower corners: from 50 sen to 5 yen the chrysanthemum is inside the central oval and the value in European characters on either side: the three highest bear the portrait of Tachenouchi-no-Sukene as on the 50 yen, Registration Tax. Wove paper. Perf. 11½-12 and 12½ for values 1 rin to 5 yen; the three highest values are perf. 12½ x 12.

10. 1 yen. yellow, greenish-black, blue and white.
11. 5 „ carmine, blue-black, blue and white.
12. 10 „ orange.
13. 50 „ dark blue.
14. 100 „ purple.

1905. Same type, &c., as last. Perf. 11½-12, 12½.

15. 2 sen, olive.
16. 3 „ red-brown.

SAVINGS BANK STAMPS.

It is very doubtful whether the stamps catalogued under this heading are fiscals. When first received in this country they were said to be "Savings Bank Stamps," but in Messrs. Yvert and Tellier's Fiscal Catalogue they are listed as "Receipts." They are very crudely printed, and the absence of the Imperial chrysanthemum is strongly against their official status. As they bear two different overprints there is plenty of scope for the production of varieties, but I only mention some of the more prominent which I have seen. Until we know precisely their status it does not appear that they warrant more careful study.

Type 20

1900? Type 20. Japanese character in centre surrounded by circular band bearing inscriptions, on a background of an ornamental pattern. Value in circles in the four corners, above in Japanese, below in European characters. Surcharged with a small Japanese character, which usually falls below the central circle and towards the left margin, in red, and also with a large circle with Japanese inscriptions also in red.

Lithographed in panes of 56 stamps, 8 rows of 7. Perf. 11.

1. 1 sen, brown.
2. 2 „ blue.
3. 5 „ green.
4. 8 „ yellow.
5. 10 „ rose.

Variety: With large circle surcharged in *violet*.
1 sen, brown.
5 „ green.

Variety: Without surcharge of large circle.
5 sen, green.

Type 21

The small red Japanese character also appears to be sometimes omitted. The perforation is very badly done. I have the 1 sen, with double perf., and also a vertical pair imperf. horizontally.

SCHOOL BOOKS.

The stamp I describe under this heading has been sent to me as being a fiscal for the payment of duty on imported books for primary schools.

Date ? Type 21. Rectangle containing a broad oval band with Japanese inscription in upper part, and the words "DUTIES PAID" in lower. Within the oval is the Imperial chrysanthemum surrounded by a Japanese inscription on a ground of engine-turned pattern. Leaves and flowers in the four corners. Typographed on European wove paper. Perf. 12½.

Value not indicated. Dark blue.

SILK TAX.

1871 ? Type 22. Small stamp, 15 mm. square, containing in centre Japanese inscription meaning "Finance Department." "Tax Office Receipt," enclosed in a broad square frame of conventional ornament broken by a circular design in each angle. The stamp is in the centre of a band, of which there are two sizes, 62 mm. and 277 mm. Engraved on native laid paper. Imperf.

Type 22

(A) FOR SKEINS OF SILK.

1. Value not indicated, red.

(B) FOR BOBBINS.

2. Value not indicated, blue.

187 ? Similar design, with the addition of inscriptions on the two sides. Size of band, 303 mm.

(A) FOR SKEINS OF SILK.

3. Value not indicated, red.

(B) FOR BOBBINS.

4. Value not indicated, blue.

187 ? For packets of silk. Similar design to last, but 64 mm. square. Size of band, 479 mm.

5. Value not indicated (3 sen), blue.

187 ? For floss silk in packets. Similar design, but 30 mm. square. Rouletted.

6. Value not indicated, blue.

I have not seen Nos 3 to 6. For the descriptions and use of the stamps I am indebted to Moens' Catalogue.

A number of labels, mostly lithographed productions, have been described from time to time as Silk Tax Stamps and even now are offered as such. They are usually obliterated in various manners and are sometimes perforated or rouletted. They are merely the Trade marks of certain firms.

SILKWORMS' EGGS.

1872. Square stamp, length of side 30 mm., with inscription in centre. On native paper. Rouletted.

1. Value not indicated, brown.

This stamp is given in Moens' Catalogue. I have never seen a copy.

Type 22

1872. Japanese inscription in centre between branches of the mulberry tree (?) surmounted by the Imperial chrysanthemum, the whole enclosed in a rectangular frame of fan-shaped tiled ornament, with a flower of the *Pawlonia imperialis* in each corner. The angles of the inner rectangle are filled with floral ornament. The inscription in the centre is read in vertical columns beginning on the right hand side. The first sign is "Midzu-no-ye" (running water) a sign in the calendar. The character on the left signifies the 9th sign of

the Zodiac, the ape. These two signs together designate the year 1872*. The middle column means "Silkworms' Eggs." Engraved in *taille douce*. There are as many varieties as stamps to the sheet, but this number is unknown to me.

(A) FOR EXPORTATION.

Surcharged with a red seal. (Seal of some official?)

2. Value not indicated (10 sen). Black. Perf. 8½-10, 11, 11½ x 10½.

There are some prominent varieties of this stamp viz. :—

(1) ERROR OF ENGRAVING. The top leaves of the right branch of leaves in centre unshaded.

(2) ERROR OF ENGRAVING. The wavy line running upwards from the flower in lower right corner wanting.

(3) ERROR OF ENGRAVING. The wavy line running downwards from the flower in upper left corner wanting.

(4) ERROR OF ENGRAVING. Line separating the top petal from the petal on the left of the flower of the *Pawlonia* in top right corner wanting.

(B) FOR THE INTERIOR.

No red seal, but additional inscription "For the interior" in same colour as the rest of the stamp.

3. Value not indicated (10 sen). Black.

I have never seen this stamp.

1873. Similar design to last, but different inscription in centre. On right "Meiji," in centre "Silkworms Eggs" and on left "6th year" the additional characters under the chrysanthemum are "For exportation" or "For the interior" as the case may be. Rouletted.

(A) FOR EXPORTATION.

4. Value not indicated (10 sen). Green.

Variety: ERROR OF ENGRAVING. The interior of the flower in the lower inner right corner unshaded.

(B) FOR THE INTERIOR.

5. Value not indicated (10 sen). Grey.

Variety: ERROR OF ENGRAVING. The two rows of dots completing the flower in the upper inner right corner wanting.

An interesting forgery exists of the "green" stamp which appears to have been made to defraud the Revenue.

9th April, 1874. Type 23. Crossed branches of the *Pawlonia*, surmounted by the Imperial chrysanthemum within a broad framework composed of cocoons and silkworm moths. Central inscription in three vertical lines. To the right "Meiji," in centre "Silkworms' Eggs" and on left "7th year," the additional characters under the chrysanthemum are "For exportation" or "For the interior" as the case may be. Engraved in *taille douce*. No. of varieties on the sheet unknown. European wove paper. Rouletted.

Type 23

(A) FOR EXPORTATION.

6. Value not indicated (10 sen). Green.

* For further information see "*Stamps*," Vol. III, p. 149, or Rein's "Japan," Vol. I, p. 434.

(B) FOR THE INTERIOR.

7. Value not indicated (10 sen). Grey.

13th June, 1874. Type 24. One of the last two stamps with the characters "For the interior" or "For exportation" erased from the plate, leaving a blank space underneath the chrysanthemum.

Type 24

8. Value not indicated (10 sen). Grey. Rouletted.
" " " " Perf. 11.

I have two original "pieces," to one of which is affixed the first two stamps of 1874, and to the other of which is affixed the last mentioned stamp, all surcharged with the Japanese sign for "Cancelled" in a small circle, in red, the former dated 9th April, 1874, and the latter 13th June, 1874. It seems from this evidence, taken in connection with the erasure of the inscription, that the last mentioned stamp was employed both for "internal" and "exported" cards of silkworms' eggs. If so, the first two stamps had a very short life of barely two months. These facts are very interesting and, I believe are made known here for the first time. I may add that I have only seen "Specimen" copies of the two stamps with complete inscriptions.

There are several varieties of this stamp,* viz.:—

(1) ERROR OF ENGRAVING. In left margin, the first of the three cocoons, viz., the one on the right immediately under the head of the moth in the top left corner, unshaded.

(2) ERROR OF ENGRAVING. In right margin, the first of the three cocoons, that on the right hand side, immediately under the moth with expanded wings in the centre of the right margin, unshaded.

(3) ERROR OF ENGRAVING. In top margin, the space under the pair of cocoons, between the central cocoon and the three cocoons in front of the moth in upper right corner, unshaded.

(4) ERROR OF ENGRAVING. In bottom margin, the space above the pair of cocoons, between the central cocoon and the three cocoons in front of the moth in lower left corner, unshaded.

It is to be remarked that these varieties should be found on either the green or the grey stamp (No. 6 or 7), which one cannot be stated until we know from which plate the characters under the chrysanthemum were erased.

1875. Type 25. Square stamp, side 20½ mm. In the centre are the three vertical columns of inscriptions with the characters meaning "For exportation" above, surmounted by the Imperial chrysanthemum and surrounded by two branches of mulberry leaves tied at the base to two spindles used for winding silk, all enclosed in a framework of cocoons and silkworm moths. The vertical inscriptions are:—to the right "Meiji" in centre "Silkworms' Eggs," to left "8th year." Engraved in *taille douce*. Number of varieties in the sheet unknown. Thick white European wove paper. Perf. 12½.

Type 25

FOR EXPORTATION.

9. Value not indicated (6 sen). Yellow.

I have only seen "Specimen" copies of this stamp.

* These errors as well as some of those previously mentioned of these Silkworms' Egg Stamps have been kindly communicated to me by Mr. F. J. Peplow.

Type 26. Square stamp, side 24mm. In the centre are three vertical rows of inscription in Japanese characters surrounded by a circle of six silkworm moths, of which the four higher ones have their wings displayed, whilst the two lower are in profile. The whole surmounted by the Imperial chrysanthemum. The square is filled up with a design formed of skeins of silk and mulberry leaves. The inscriptions read as follows:—to the right "Meiji," in the centre "Silkworms' eggs," to the left "8th year." Engraved in *taille douce*. Number of varieties in the sheet unknown. Thick European wove paper.

Type 26

FOR THE INTERIOR.

10. Value not indicated (6 sen). Grey. Perf. 11, 11 x 11*, 12½, 12½ x 11.

Dr. Legrand states that the green "Cocoon Guarantee" stamp usually accompanies this last mentioned stamp on the cards of silkworms' eggs.

1876. Type 27. Square stamp, side 24 mm. Large chrysanthemum in centre surrounded by a broad circular band containing Japanese inscriptions in colour, separated by circles containing Japanese characters in white on colour in the stamp "for exportation" and by ten-pointed stars in the stamp "for the interior." The corners of the square are filled in by silkworm moths with outspread wings on a dotted background. The upper inscription reads "Stamp for silkworms' eggs" but there is a typographical error in the Japanese character. The first character (reading from the right) instead of meaning "silkworm" is really the character for "caterpillar." The lower inscription is Meiji, 9th year. Typographed on wove paper. Number of stamps on this sheet unknown. Perforated.

Type 27

(A) FOR EXPORTATION.

11. Value not indicated (6 sen). Yellow. Perf. 11.

(B) FOR THE INTERIOR.

12. Value not indicated (6 sen). Pearl-grey. Perf. 11, 11½-12.

1877. Type 27. The same design as the stamp for the previous year, but the lower inscription now reads "Meiji, 10th year," the third character (reading from the right) being altered from "9" to "10" and now taking the form of a simple cross. Typographed on wove paper. Number of stamps on the sheet unknown. Perforated.

(A) FOR EXPORTATION.

13. Value not indicated (6 sen). Yellow. Perf. 9½-10.

(B) FOR THE INTERIOR.

14. Value not indicated (6 sen). Grey. Perf. 9½-10, 11.

I have only seen "specimen" copies of the yellow stamps of 1876 and 1877. This tax was abolished in 1877.

TOBACCO DUTY.

1876. Type 28. Upright rectangle, containing the Imperial chrysanthemum, with inscription "Tobacco Stamp" in Japanese below, and the value in Japanese characters reading vertically. Below is a landscape with the snow-

covered Fuji San, seen between two tobacco plants. The spandrels are filled in with conventional ornaments varying for the different values. Typographed on wove paper. Number of stamps on the sheet is 40, in four rows of 10.

Type 28

13. 1 sen, red-brown. Perf. 9½-10, 11, 10 x 11.
14. 5 ,, green?

I have the above four values and the first mentioned "Band" all surcharged with the Japanese character for "cancelled" in red, on original circular dated 14th December, 1876. The 5 rin is rouletted, the other three values pin-perf.

1877. Types 26, 30. Similar design to the preceding but value in large thick characters, reading from right to left. Typographed on European wove paper.

Type 29

(b) On *laid paper*. Imperf.

33. 2 sen, reddish-orange.
34. 2 ,, 4 rin, blue green.

This laid paper shows the laid lines clearly. I have seen most of the other values on paper which appears to be laid, but the laid lines are very faint.

This latter variety seems to me merely a variety of the usual thin wove paper, which shows a "grained" appearance on being held up to the light, in which the little clear spots have run together.

(c) On wove paper. Pin perf. 8 to 11.

35. 2 rin, black.
36. 3 „ light red.
37. 4 „ yellow.
38. 6 „ red-brown.
39. 8 „ green.
40. 1 sen 2 rin, yellow-brown.
41. 1 „ 8 „ purple.
42. 2 „ orange.

(d) On wove paper. Perforated.

43. 2 rin, black. Perf. 9½-10, 8½-10, 10½, 13½, 13, 11½-12.
44. 3 „ light red. Perf. 9½-10, 8½-10, 10½, 13½, 13, 11½-12.
45. 4 „ yellow. Perf. 9½-10, 8½-10, 10½, 13½, 13, 11½-12.

50. 1 „ 6 „ pink. Perf. 9½-10, 8½-10, 13½, 11½-12.
51. 1 „ 8 „ purple ?
52. 2 „ deep orange, orange. Perf. 9½-10, 8½-10, 13, 11½-12.
53. 2 „ 4 „ blue-green ?
54. 3 „ dark blue. Perf. 8½-10, 13½, 13, 11½-12.
55. 3 „ 2 „ grey ?
56. 4 „ bronze-green. Perf. 9½-10.

I have in my collection what appears to be an official book containing a set of the above stamps together with a set of the Bands of corresponding date all surcharged with the Japanese character for "Cancelled" in a small circle in black, there are also several columns of writing in Japanese which I am unable to decipher. The stamps, however, are arranged in the following order :—

(1) ADHESIVE. 2, 3, 4, 6, 8, 9 rin, 1sen 2 rin, 1 sen 6 rin, 1 sen 8 rin, 2 sen, 2 sen 4 rin, 3, 4, 6 and 8 sen.

(2) BANDS. 2, 3, 4, 4, 6, 6, 8, 8, 9 rin, 1 sen 2 rin, 1 sen 2 rin, 1 sen 2 rin, 1 sen 6 rin, 1 sen 8 rin, 2 sen, 2 sen 4 rin, 3, 4, 4, 6 and 8 sen.

(3) BANDS. 1 sen 6 rin (40 monme), 2 sen 4 rin (40 monme), 3 sen 2 rin (40 monme), 4 sen 2 rin (80 monme), 4 sen 8 rin (80 monme), 6 sen 4 rin (80 monme).

(4) ADHESIVE. 3 sen 2 rin, 4 sen 8 rin, 6 sen 4 rin.

The Adhesives and Bands numbered (1) and (2) evidently go together and so do those numbered (3) and (4) and I am unable to decide whether or not these are two different issues, the latter values being created sn account of a change in the tariff. The volume at any indicates that the 1 sen value is a later issue.

Date ? Design, &c. as last.

BANDS.

1876. A sprig of tobacco plant, bearing a cartouche containing the chrysanthemum above and a tablet with inscription in Japanese "Tobacco Stamp" in centre. Printed in sheets (? number of bands to a sheet) each band being separated from its neighbour by a row of dots in colour. Size 17 x 272 mm.

61. Value not indicated. Blue.

1883 ? Inscription in elongated cartouche with chrysanthemum above: branch of tobacco plant above.

62. Value not indicated. Black.
63. " Red

I have not seen these two bands. They are given here on the authority of Moens.

1877. General design: Branch of tobacco plant, tied with ribbons below, bearing one or more cartouches, sometimes separated by engine-turned designs. The inscriptions are "Tobacco Stamp," the value and the weight of tobacco in "monme" on which the duty is paid. These inscriptions are repeated when there is more than one cartouche. The monme = weight of a "mon", pronounced monmé = 3.756512 grammes = 2½ dwt. (about).

The following are arranged in three series according to the weights expressed on the bands. I cannot say whether they refer to changes of tariff or qualities of tobacco. *See* note above, after the adhesives of the same date.

TREASURY RECEIPTS.

Date? Design composed chiefly of interlaced scrolls, on which are the words "Imperial Japanese Treasury" many times repeated in English and Japanese, leaving spaces with a diapered background, above and below, on the upper of which is printed the Imperial chrysanthemum in black, and on the lower the Mikado's crest, three leaves of the *Pawlonia* and also a Japanese inscription "Imperial Japanese Treasury" also in black.

Type 31

(a) Imperf.

1. Value not indicated Grey-blue.

(b) Rouletted.

2. Value not indicated. Grey-blue.
3. „ Lilac.
4. „ Bright violet.

The purpose for which these stamps were used appears to be unknown and doubt has been expressed as to whether they are fiscals. I have in my collection proofs in violet, without the black overprint, which bear at the bottom the imprint "Engel—Wien." This seems to indicate that they were manufactured in Vienna.

While these pages are passing through the press Mr. Preston Pearce kindly communicates a table showing the existing stamp duties on Cheques, Bills of Exchange and Promissory Notes in Japan, which it will be useful to place on record—

MORLEY'S PHILATELIC JOURNAL.

All editorial communications should be addressed to

L. W. FULCHER, B.Sc.,

STREATHAM COMMON, LONDON, S.W.,
ENGLAND.

EDITORIAL.

WE very much regret to announce that the volume in which these words appear is to be the last of *Morley's Philatelic Journal*. Our Journal, of course, does not appeal to a very numerous class of the philatelic fraternity, and we have always found it a matter of difficulty in getting fiscalists either to write about their collections, or indeed to subscribe to a paper, which we have always endeavoured to identify with their interests. Hence our publisher does not consider himself justified in continuing the heavy annual loss which the publication of this paper involves, and he further finds that his numerous Municipal engagements have so seriously curtailed his moments of leisure that he has no longer the time at his disposal necessary to prepare original articles for it. He has, therefore, very reluctantly finally decided to cease publication.

With the close of the December number of last year various articles are left unfinished, as well as the Supplement Catalogue of the Revenue Stamps of the United States, Mexico, and Central America. As our publisher felt that it would be unsatisfactory to relinquish the journal in this incomplete state, he has decided to issue the numbers for this year altogether in one volume and this we now offer to our readers, with the hope that they may not find its contents without interest.

Almost as we write these words we have received the September number of the *Philatelic Journal of India* in which we find a reference to the impending decease of our Journal with an appreciative note by the Editor, in terms which, if we dare but hope to deserve them, form a great and abiding consolation as the result of our labours. We are deeply indebted to him for his very kind remarks. We have always regarded Philately as a serious intellectual pursuit. Fortunately for its existence it has its lighter side which is the only point of view of the vast majority of its votaries, and it is their support which enables "the science concealed within our hobby" to be brought to light by the labours of the few who, like our distinguished colleague, are willing to devote laborious days to the attainment of that end.

It only remains for us to take leave of our *clientèle* with many heartfelt thanks to those writers who have assisted us from time to time, and to those subscribers—especially the numerous foreign ones—who have given us their support.

Great North-Western Telegraph Company. The "Frank" stamps for 1904, 1905 and 1907 are as under-mentioned. Those for 1904 and 1905 are said to be very scarce. Perf. 12.

1904. No value. Blue. Red control.
1905. No value. Rose-red. Blue control.
1907. No value. Purple. Red control.

There are two varieties of the date in the 1904 stamps, differing in the shapes of the figures "4."

India. Mr. W. Corfield kindly transmits the following:—

Acting on the recommendations of the Telegraph Committee the Government of India have decided that, with effect from April 1, postage stamps shall be substituted for the double telegraph stamps now used for the payment of the charges for telegrams tendered by the public. The main advantage of the reform is that the present method of accepting telegrams at the counter will be greatly simplified and their despatch proportionately accelerated. As soon as postage stamps are brought into use the receipt granted for a telegram will have no stamp or portion of a stamp attached to it. It is therefore of great importance that the public when despatching their telegrams, should themselves affix the stamps to the message forms as is done in the United Kingdom and see that they are defaced by the dating stamp in their presence. It is hoped that the public will rapidly accustom themselves to this procedure, for by adopting it they will protect both themselves and the Department from the risk of fraud.

The Revenue Stamps of Belgium.

By Waltee Morley.

THE Revenue Stamps of Belgium are a very unattractive series and have received scanty attention by collectors in this country and this article must not be regarded as more than a first attempt at the compilation of a reference list for guidance of collectors who may feel inclined to study these stamps.

TRANSVAAL.

This may be said to be a difficult country for the fiscalist. The first stamps are remarkable as being in MS. Only two values are known.

These were succeeded by a lithographed series, on coloured paper, of nine values, from 6d. to £5.

The 2/- is known pin perf.
The 5/- is known perf. 12½.

About the same time a 1d. stamp, embossed on white paper, appeared. At the time of the first British Occupation, these stamps werc surcharged like the postage stamps,

"V.R. TRANSVAAL" in caps.

Inverted surcharges exist, also a red surcharge on the 10/-, while the £1 is known with a double surcharge in red and black. The 1/- stamp is the only value surcharged

"V.R.—Transvaal"

with the word "Transvaal" in lower case. Some minor varieties are known.

The 1d. stamp above-mentioned, which was not surcharged, re-appears embossed on coloured papers, but with the value in words instead of figures. In 1878 a series of handsome stamps, with the Queen's Head, of the same type as the Griqualand stamps of corresponding date, superseded these provisionals, the values running from

6d. to £20.

The stamps of the second Republic reverted to an enlarged stamp of somewhat similar design to the early issues. They occur perf. 14, 11½ x 14, 11½, 11 rough and 11 x 11½. On the second British Occupation these stamps were surcharged V.R.I., and there are sundry provisionals for the districts of Zeerust and Rustenburg. In 1902 some of the Cape Revenue stamps were surcharged "TRANSVAAL" and the series with the King's Head made its appearance. The 2s. 6d. and 5s. stamps with inverted centre are noteworthy from the scarcity of errors of this nature in stamps printed by Messrs. De la Rue & Co.

Besides these revenue stamps there are some issues for native "passes." After two ugly set of labels issued by the

Boer Government in 1902

postage stamps of the value of 1d. and 2s. 6d. were surcharged "E.R.I."—"Pass," and a new value in black, the former being converted into a 1s. stamp and the latter into a 2s. stamp. These were soon superseded by King's Head postage stamps of values 1s. and 2s., surcharged "PASS" in black. The former is now obsolete as the 1s. revenue stamp, surcharged in a similar manner, has taken its place.

COLLECTION FOR SALE.

WALTER MORLEY,

INDIAN NATIVE STATES.

The fiscals of these stales are very imperfectly known at present. The States which issue fiscals are more numerous than those issuing postage stamps. As in the case of postage stamps the designs are often crude and bizarre, but some States have very handsome labels, provided by Messrs. Waterlow & Sons, such as Bahawulpore, Baroda, Bhavnagar, Indore, Morvee and Palanpur. Some States have a series for Imperial use (usually the name being surcharged on Indian fiscals) as well as one for native use. The following is a list of the States or Districts which are at present known to issue fiscals :—

Akalkot	Dhrangdhra	Orcha
Aurangabad	Faridkot	Oudeypore
Bamra	Gondal	Palanpur
Banganapally	Gwalior	Patiala
Baroda	Hyderabad	Peint
Berars	Indore (Holkar)	Porbandar
Bhavnagar	Janjira	Quetta
Bhawulpore	Jahwar	Raj Jaiselman
Bhopal	Jeypore	Rajkote
Bhor	Jhind	Rajnandgaon
Bikanir	Kappurthala	Rajpeepla
Bilaspur	Kishengarh	Savant Vadi
Bundi	Las Bela	Secunderabad
Bussahir	Limree	Sirmoor
Cashmere	Morvee	Talooka Valla
Cambay	Mysore	Travancore
Cochin	Nabha	Vinchoor
Cooch Behar	Nepaul	Wadhwan
Cutch	Nowannugger	Wankaner

FOR SALE

THE SUPERB COLLECTION OF INDIAN NATIVE STATES.

Awarded 1st Class Fiscal Diploma, Fiscal Philatelic Society's Exhibition 1905.

A marvellous exhibit of stamps from all the Native States which are known to have issued fiscals. It contains many varieties hitherto unchronicled and the only known copy of the 2a. provisional Court Fee on Service postage stamp with curved surcharge "BERAR." Akalkot, Berars, Bikanir and Cochin are nice collections; Cutch contains five tête-bêche pairs; Indore, 1a. Provisional Bill Stamp, 1885; Hyderabad, inverted surcharge on 1a. blue; the rare Kishengarh series, including a 2as. yellow with error "Tow" for "Two"; Mysore, 2as. with double surcharge, of which only 30 copies exist; Travancore on first issue 4as. Foreign Bill; a good series of Vinchoor Court.

Price £300.

Fiscal Philately

IS now attracting serious attention and study by well-known Postage Collectors in all parts of the world, and will be found especially attractive to those Specialists who delight in pioneer work. The early issues of many countries are equally as attractive and deserving of study as Postage Stamps and at present they are *considerably cheaper.*

I have now in stock the **Finest Selection** and **Largest Stock** of the **Early and Later Issues of Revenues it will probably be possible for any one to show,** embracing as it does, in addition to my own accumulation for the past twenty years, remainder stocks of various countries, large Collections, portion of MORNS', and the whole of the ROUSSIN stock.

I have made up **Special Collections of Greece, Japan, Transvaal, Orange River Colony,** and some others to order for some of my clients who are taking up this branch of Philately, and shall be glad to reply to any enquiries from Collectors desiring to take up any special Country or Countries.

I have for sale the finest Specialised Collection in the World of the Revenue Stamps of Great Britain and Colonies.

SIAM REVENUES.

A *very difficult* country to complete, and will well repay a Specialist to study.

Land Tax, Law Courts, and Revenue.

I offer a representative lot of the types of the above duties.

Fourteen varieties, post-free, 4s.

Approval Selections of the ***Revenue*** and ***Telegraph Stamps*** of any country.

POSTAGE. Approval Selections of Great Britain & Colonies.

I often have in stock many "out of the way" Stamps—

Orange River Colony

(1) Orange Free State.

As in the case of the Cape and Natal the first issues consists of stamps cut from stamped papers and used as adhesives. They are found embossed on azure or white laid paper. Then follows a series of stamps embossed on variously coloured papers. The significence of these different papers is not known as yet and only partial sets of the different values have at present been found on each kind of paper. There are three types of the design, but only a few values are found in types 2 and 3, in fact the latter has only been recently discovered. In 1878, a series of typographed stamps with Arms in centre appeared. A few provisionals were made in 1886.

Some of the Revenue stamps are found surcharged "BANK WISSEL—DRIE PENCE" (Bank Wissel = Bank Draft). Afterwards the 3d. postage stamp was surcharged "B.W." for this duty. There are several types of this surcharge.

The 1s. violet-brown Revenue Stamp is found surcharged "Hospitall Tax—3d.—Betaald" and some of the postage stamps as well as the revenue stamps are found surcharged "Ord 22-85" in in variously coloured inks. These are employed for "Legacy Duty."

(2) Orange River Colony

As in the case of the postage stamps the revenue stamps were surcharged "V.R.I." and value in 1900. There are three printings of these with minor varieties, though the latter are not nearly as numerous as in the case of the postage stamps.

At the same time the 3d. postage stamp (surcharged with "V.R.I." and value) was also overprinted "B D" for "Bank Draft" purposes. There are a few minor varieties.

The revenue stamps with the King's Head are now beginning to appear.

MORLEY, W., Catford—*awarded 1st Class Diploma, Fiscal Philatelic Society's Exhibition, 1905.*

A very fine collection including about 60 copies of the first issue embossed on various coloured papers amongst which is a 3d., rose of an unchronicled type. There is also a block of four of the 3d. postage stamp surcharged "BW" showing three types of surcharge and a good display of the "V.R.I." issues. The King's Head series up to the £5 is also shown.

FOR SALE—The above very fine Collection.

Price £200.
